Guselkumab (TREMFYA) Injection

**Guidelines for Ordering**

1. Send FACE SHEET and H&P or most recent chart note.
2. A Tuberculin test must have been placed and read as negative prior to initiation of treatment (PPD or QuantiFERON Gold blood test). Please send results with order. If result is indeterminate, a follow up chest X-ray must be performed to rule out TB. Please send results with order.
3. Guselkumab may increase the risk of infections, particularly upper respiratory tract infections, gastroenteritis, tinea infections, and herpes simplex infections. Consider the risks versus benefits prior to treatment initiation in patients with a history of chronic or recurrent infection. Treatment must not be initiated in patients with clinically important active infections until it is resolved or treated. Monitor for signs and symptoms of infection. Patients must be brought up to date with all immunizations before initiating therapy. Live vaccines must not be given concurrently.

**Pre-screening:** (Results must be available prior to initiation of therapy):

- Tuberculin skin test or QuantiFERON Gold blood test results scanned with orders.
- Chest X-Ray result scanned with orders if TB test result is indeterminate.

**Nursing Orders:**

1. **Treatment Parameter** – Hold treatment and contact provider if TB test result is positive or if screening has not been performed.
2. Prior to guselkumab administration, remove prefilled syringe from the refrigerator and allow to warm at room temperature for 30 minutes in original carton. Do not warm in any other way.
3. Administer subcutaneously into front of thighs, lower abdomen (except for 2 inches around navel) or back of upper arms. Do not inject into areas where the skin is tender, bruised, red, hard, thick, scaly, or affected by psoriasis.
5. Follow facility policies and/or protocols for vascular access maintenance with appropriate flush solution, declotting (alteplase), and/or dressing changes.

**Medications:**

- guselkumab (TREMFYA) injection 100 mg, subcutaneous, ONCE

**Interval:** *(must check at least one)*

- **Initiation:** week 0 _______ and week 4 ________
- **Maintenance:** every 8 weeks thereafter
Guselkumab (TREMFYA) injection

By signing below, I represent the following:
I am responsible for the care of the patient (who is identified at the top of this form);
I hold an active, unrestricted license to practice medicine in: ☐ Oregon ☐ ______________________ (check box that corresponds with state where you provide care to patient and where you are currently licensed. Specify state if not Oregon);

My physician license Number is # ______________________ (MUST BE COMPLETED TO BE A VALID PRESCRIPTION); and I am acting within my scope of practice and authorized by law to order Infusion of the medication described above for the patient identified on this form.
