OHSU Casey Eye Institute is proud to be a world-renowned academic eye center working to eliminate preventable blindness through research, education, innovation and community service.

REFER A PATIENT

At OHSU Casey Eye Institute, we value our partnerships with community eye care professionals and other health care providers. We work closely with you to make decisions and create care plans for your patients. Our staff is available to answer any questions you may have.

1. Complete an [OHSU patient referral form](#). This information will help us coordinate the best possible care with the appropriate clinic.
2. To refer a patient, fax referral form, progress notes and imaging to the subspecialty clinic fax number listed below.
3. To learn more about referring a patient to OHSU, visit www.ohsu.edu/referral-service.

Dear Colleagues and Friends,

At OHSU Casey Eye Institute, we are transforming the future of vision care. Through high-quality clinical care and pioneering vision research, our world-class specialists are committed to giving your patients access to the latest therapies and diagnostic technologies available.

As an academic eye center, our mission drives our work to eliminate preventable blindness and improve quality of life through leadership in the art, science and technology of 21st century eye care. OHSU Casey Eye Institute is one of only seven regional eye research centers in the United States sponsored by Research to Prevent Blindness, the world's leading voluntary organization in support of eye research.

For more than 75 years, we have provided Oregonians and patients from the greater region routine, specialty and subspecialty service in eye disease. With compassionate care and personalized treatment, we assure you that your patients will receive the best care.

Sincerely,

A handwritten signature in black ink, reading "Andreas K. Lauer, M.D." in a cursive script.

Andreas K. Lauer, M.D.
Director, Casey Eye Institute
Chair & Professor, Department
of Ophthalmology
Margaret Thiele-Petti and
August Petti Endowed Chair

A handwritten signature in black ink, reading "David Huang" in a cursive script.

David Huang, M.D., Ph.D.
Associate Director,
Casey Eye Institute
Professor of Ophthalmology
and Biomedical Engineering
Wold Family Endowed Chair in
Ophthalmic Imaging

Our clinic locations and services

Casey Eye Institute offers services in multiple locations in Oregon and Southwest Washington.

Unique services in Oregon

Our highly specialized faculty and state-of-the-art technology are a resource to people in Oregon and the surrounding region as well as patients who seek us out from other states.

Macular Degeneration Center: A comprehensive center dedicated to research, clinical care and patient education for the leading cause of adult blindness in Oregon.

Oregon State Elks Children's Eye Clinic:

A program that provides statewide preschool vision screening as well as treatment for pediatric glaucoma, cataract and orbital and retinal diseases. In December 2020, OHSU Casey Eye Institute opened the first freestanding building for pediatric eye care in North America.

Ocular oncology expertise: The only center in Oregon and one of a few centers in the United States that provides complete care for children and adults who have tumors inside and around their eye. Our fellowship-trained experts have access to both plaque radiation and proton beam radiation.

Neuro-ophthalmology expertise: We have dedicated neuro-ophthalmologists who work in close collaboration with the departments of neurosurgery, neurology and oncology.

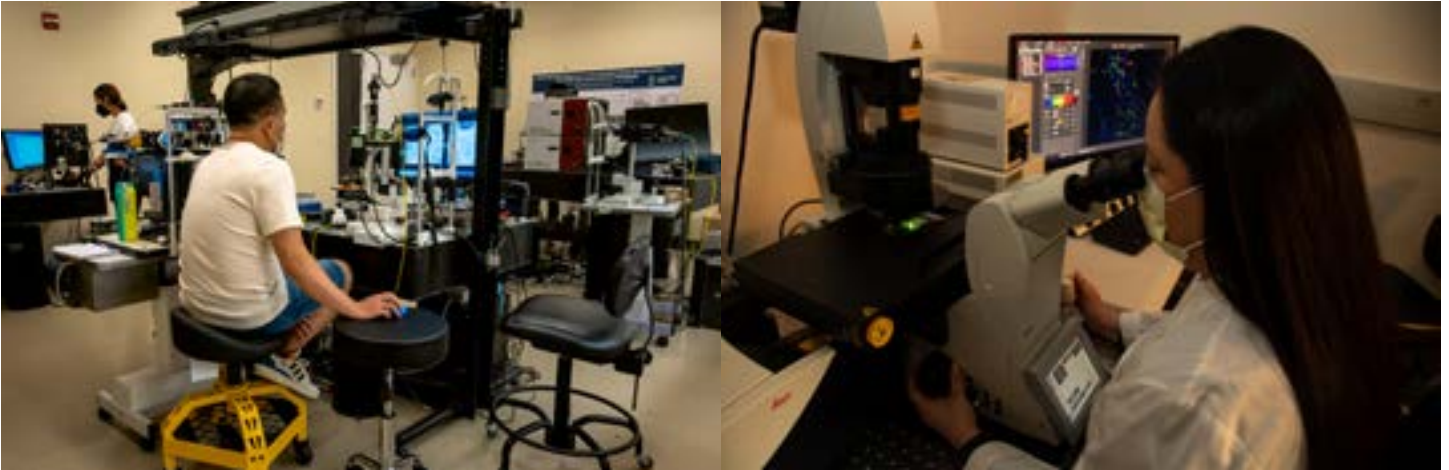

Ophthalmic Informatics Center: Faculty are pioneering telemedicine approaches to screening and diagnosis of retinopathy of prematurity and other eye diseases. The center also coordinates the use of informatics and electronic health records in ophthalmology.

Ocular immunology lab: Services include several anti-retinal autoantibody tests that can provide vital information on a range of eye conditions, including cancer-associated retinopathy, melanoma-associated retinopathy, autoimmune retinopathy and age-related macular degeneration.

Ocular pathology lab: The Leonard Christensen Eye Pathology Laboratory at Casey is the only full-service eye pathology laboratory in the Pacific Northwest certified through federal regulations outlined by the Clinical Laboratory Improvement Amendments of 1988. Our laboratory staff provides a range of histopathological analyses of surgical and experimental eye tissues.

Innovation and research impacting the field

OHSU Casey Eye Institute currently participates in many clinical trials investigating new genetic treatments for ophthalmic conditions and about 50 vision-related clinical trials overall. Some highlights include:

OCT angiography: Our team includes the co-inventor of optical coherence tomography, considered the most important advancement in diagnosing eye conditions in the past 100 years. Our Center for Ophthalmic Optics and Lasers (COOL Lab) continues to pursue advancements in OCTA, which may transform the diagnosis and treatment for a range of common eye diseases.

Gene therapy for retinal dystrophies: As a world leader in gene therapy we have conducted more gene therapy clinical trials than almost any other institution. In 2018, OHSU Casey Eye Institute was one of the first three institutions in the country to administer Luxturna, the first FDA-approved gene therapy treatment for Leber's congenital amaurosis.

Gene editing: OHSU Casey Eye Institute performed the first-ever in vivo gene editing procedure with CRISPR technology on a patient with a rare form of retinitis pigmentosa.

Leveraging AI in eye disease: OHSU Casey Eye Institute is a leading center nationwide for investigating telemedicine, AI and data analytics for ophthalmic care.

Serving the community

OHSU Casey Eye Institute's community outreach programs serve the diverse people and communities in our region and around the world.

We have an opportunity to leverage the advances made in community care, imaging technologies and artificial intelligence to better serve people in Oregon and beyond.

Elks Preschool Vision Screening Program celebrates 20th anniversary

2023 marks the 20th anniversary of the Elks Preschool Vision Screening Program, which provides free vision screening for about 8,000 preschool children each year. This state-wide screening program catches common eye diseases early and prevents lasting vision problems.

Oregon Vision Health Network

The Casey Community Outreach Program's mobile clinic provides free vision screenings and glasses for hundreds of adults each year. The program

expanded to create the new Oregon Vision Health Network, a group of over 50 partners organization working together to overcome barriers to accessing eye care for communities who are at the highest risk for blindness. Together, the network will increase access to vision screenings, promote early detection, and enhance care coordination in our communities.

Continuing medical education

Casey Eye Institute offers healthcare professionals up to four hours of CME per month including grand rounds, lectures and imaging conferences. Courses include various topics in ophthalmology, including all subspecialty areas and the latest advances in eye disease and treatments, and feature top experts from Casey, the regional and the nation. Grand rounds lectures are live-streamed online, which allows physicians

to participate remotely. An annual all-day meeting, the Annual Casey Eye Symposium, takes place in May.

For more information about our CME lectures and events, please visit our website at www.ohsu.edu/caseycme.

To learn more, email CaseyCME@ohsu.edu or call **503-494-9255**.

Meet our team

COMPREHENSIVE OPHTHALMOLOGY

OHSU CENTER FOR HEALTH & HEALING

Mitchell V. Brinks, M.D., M.P.H.

Special interests: Cataract and intraocular lenses, comprehensive eye care, lens-based refractive surgery, international ophthalmology

Research interests: Epidemiology of vision loss in the U.S.

M.D.: Oregon Health & Science University, Portland, Ore.

M.P.H.: Oregon State University, Corvallis, Ore.

Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

Ellen J. Davis, M.D.

Special interests: Cataract and intraocular lenses, lens-based refractive surgery

M.D.: Oregon Health & Science University, Portland, Ore.

Residency: Ophthalmology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

Rachael L. Garrett, O.D.

Special interests: Dry eye, ocular surface disease and wellness

O.D.: Marshall B. Ketchum Southern California College of Optometry, Fullerton, Calif.

Residency: Sepulveda VA Medical Center, North Hills, Calif.

Fellowship: Optometry, Orlando, Fla.

Academic appointment: Assistant professor

Seema Gupta, M.D.

Special interests: Cataract surgery, comprehensive ophthalmology

M.D.: Seth G.S. Medical College and K.E.M. Hospital, Mumbai, India

Residencies: Ophthalmology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.; internal medicine, Loma Linda University, Loma Linda, Calif.; ophthalmology, Seth G.S. Medical College and K.E.M. Hospital, Mumbai, India

Fellowships: Cornea and anterior segment, L.V. Prasad Eye Institute, Hyderabad, India; uveitis, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Academy of Ophthalmology

Academic appointment: Assistant professor

Jeffrey M. Healey, M.D.

Special interests: Lens-based refractive surgery, uveitis and ocular immunology, macular degeneration

M.D.: University of Pittsburgh, Pittsburgh, Penn.

Residency: UPMC Eye Center, University of Pittsburgh, Pittsburgh, Penn.

Fellowship: Uveitis, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

Tammie L. Krisciunas, O.D., M.Ed.

Special interests: Contact lenses

O.D./M.Ed.: Pacific University College of Optometry, Forest Grove, Ore.

Academic appointment: Associate professor

Alan Labrum, O.D.

Special interests: Low vision rehabilitation in children and adults

O.D.: Illinois College of Optometry, Chicago, Ill.

Academic appointment: Associate professor

Joycelyn Niimi, O.D.

Special interest: Comprehensive optometry

O.D.: University of California Berkeley School of Optometry, Berkeley, Calif.

Academic appointment: Instructor

Dong-wouk Park, M.D.

Special interests: Cataract and intraocular lenses, comprehensive ophthalmology, adult eye exams, medical retina, imaging

M.D.: Rosalind Franklin University, North Chicago, Ill.

Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Fellowship: Medical retina, Cleveland Clinic Cole Eye Institute, Cleveland, Ohio

Board certification: American Board of Ophthalmology

Academic appointments: Assistant professor

James Wentzien, M.D.

Special interests: Cataract and intraocular lenses, comprehensive ophthalmology, adult eye exams

M.D.: University of Iowa Carver College of Medicine, Iowa City, Iowa

Internship: Internal medicine, Good Samaritan Regional Medical Center, Phoenix, Ariz.

Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor; division head, comprehensive ophthalmology

ASTORIA, ORE.

Sangeeta Kalsi, M.D., M.P.H.

Special interests: Comprehensive ophthalmology, cataract and intraocular lenses

M.P.H.: University of California, Berkeley School of Public Health, Berkeley, Calif.

M.D.: University of California, Los Angeles School of Medicine, Los Angeles, Calif.

Internship: Internal medicine, University of California Irvine Medical Center, Orange, Calif.

Residency: Ophthalmology, University of California Davis Eye Center, Sacramento, Calif.

Academic appointment: Assistant professor

Megan McChesney, M.D.

Special interests: Cataract and intraocular lenses, comprehensive ophthalmology, adult eye exams

M.D.: Creighton University School of Medicine

Internship: Internal Medicine, San Antonio Uniformed Services Health Education Consortium

Residency: Ophthalmology, San Antonio Uniformed Services Health Education Consortium

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

Paul Nefedov, O.D., M.S.

Special interests: Comprehensive optometry, adult eye exams, contact lenses

O.D.: Pacific University College of Optometry

Internship: VA Hospital in Lexington, Kentucky; Travis Air Force Base, California; Robertson and Koenig Optometry, Nevada; Dr. Barry Leonard & Associates, California

Board certifications: Oregon Board of Optometry, Washington State Department of Health Optometry License, California Board of Optometry

Academic appointment: Assistant professor

LONGVIEW, WASH.

Internship: VA Hospital in Lexington, Kentucky; Travis Air Force Base, California; Robertson and Koenig Optometry, Nevada; Dr. Barry Leonard & Associates, California

Board certifications: Oregon Board of Optometry, Washington State Department of Health Optometry License, California Board of Optometry

Academic appointment: Assistant professor

THE DALLES/HOOD RIVER, ORE.

David Poulsen, M.D., M.P.H.

Special interests: Cataract and intraocular lenses, comprehensive ophthalmology

M.D.: Albert Einstein College of Medicine, The Bronx, N.Y.

M.P.H.: Harvard School of Public Health, Boston, Mass.

Internship: Internal medicine – preliminary, UCSF Fresno, Fresno, Calif.

Residency: Ophthalmology, Albert Einstein College of Medicine, Montefiore Medical Center, New York, N.Y.

Academic appointment: Assistant professor

Nathaniel Gebhard, M.D.

Special interests: Cataract and intraocular lenses, lens-based refractive surgery

M.D.: University of Colorado School of Medicine, Aurora, Colo.

Residency: Ophthalmology, UC Davis Eye Center, UC Davis Medical Center, Sacramento, Calif.

Academic appointments: Assistant professor

VANCOUVER, WASH.

Daniel L. Gradin, M.D.

Special interests: Cataract and intraocular lenses

Research interest: Improving outcomes of cataract surgery

M.D.: Oregon Health & Science University, Portland, Ore.

Residency: Walter Reed Army Medical Center, Washington, D.C.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

Hillary Stiefel, M.D.

Special interests: Comprehensive ophthalmology, ocular pathology, cataract and intraocular lenses, adult eye exams

M.D.: University of Washington, Seattle, Wash.

Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Fellowship: Ocular pathology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointments: Clinical assistant director, Christensen Eye Pathology Laboratory; director, Ocular Immunology Laboratory

CORNEAL, EXTERNAL DISEASE AND REFRACTIVE SURGERY

OHSU CASEY EYE INSTITUTE – MARQUAM HILL AND VANCOUVER, WASH.

Winston Chamberlain, M.D., Ph.D.

Special interests: Corneal transplants, laser vision correction surgery, anterior segment surgery, ocular surface reconstruction and anterior segment disorders, cataract surgery

Research interests: Endothelial keratoplasty, corneal endothelial cell imaging, corneal crosslinking for ectatic disorders, ocular surface imaging using optical coherence tomography

M.D.: University of Colorado School of Medicine, Denver, Colo.

Ph.D.: Department of Immunology, University of Colorado/National Jewish Hospital, Denver, Colo.

Residency: Ophthalmology, University of California, Irvine, Calif.

Fellowship: Cornea and refractive surgery, University of California, Irvine, Calif.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Petti Endowed Professor of Ophthalmology; division head, cornea and refractive surgery

David Huang, M.D., Ph.D.

Special interests: Refractive surgery (LASIK, PRK), phototherapeutic keratectomy (PTK), corneal collagen cross-linking (CXL) for keratoconus, post-refractive surgery, corneal allogenic intrastromal ring segment (CAIRS) implantation

Research interests: Optical coherence tomography (OCT) and OCT angiography imaging of the eye

M.D.: Harvard Medical School, Boston, Mass.

Residency: Ophthalmology, University of Southern California, Los Angeles, Calif.

Fellowship: Cornea, external diseases and refractive surgery, Emory University, Atlanta, Ga.

Board certification: American Board of Ophthalmology

Academic appointments: Professor of ophthalmology and biomedical engineering; Wold Family Endowed Chair in Ophthalmic Imaging; associate director and director of research, Casey Eye Institute

Afshan Nanji, M.D., M.P.H.

Special interests: Corneal transplantation, cataract and intraocular lens surgery, anterior segment surgery, ocular surface oncology and laser vision correction

Research interest: Ocular surface oncology

M.D.: Johns Hopkins University School of Medicine, Baltimore, Md.

Residency: Wilmer Eye Institute, Johns Hopkins Hospital, Baltimore, Md.

Fellowships: Cornea and external diseases, Bascom Palmer Eye Institute, Miami, Fla.; ocular surface oncology, Bascom Palmer Eye Institute, Miami, Fla.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

Travis Redd, M.D., M.P.H.

Special interests: Cataract and intraocular lenses, corneal and external diseases, corneal diseases, external eye inflammatory disorders, artificial intelligence, infectious keratitis, international ophthalmology, blindness prevention in underserved areas

M.D.: Oregon Health & Science University, Portland, Ore.

M.P.H.: Oregon Health & Science University, Portland, Ore.

Internship: Internal medicine, Legacy Good Samaritan and Legacy Emanuel hospitals, Portland, Ore.

Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Fellowship: Cornea and external disease, Francis I Proctor Foundation & University of California San Francisco, San Francisco, Calif.

Academic appointment: Assistant professor

Richard Stutzman, M.D.

Special interests: Corneal and external diseases, laser vision correction/LASIK

M.D.: Albany Medical College, Albany, N.Y.

Internship: Dwight D. Eisenhower Army Medical Center, internal medicine, Augusta, Ga.

Residency: Walter Reed Army Medical Center, Bethesda, Md.

Fellowship: Cornea and external diseases, Wilmer Eye Institute, Johns Hopkins University, Baltimore, Md.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

ELKS CHILDREN'S VISION SCREENING

OHSU CASEY EYE INSTITUTE - MARQUAM HILL

Joannah Vaughan, M.B.A.

Special interests: Promoting statewide preschool vision screening; research on emerging vision screening technology; research on barriers to preschool eye care

M.B.A.: George Fox University, Newberg, Ore.

Academic and clinical appointments: Assistant professor; director, Elks Preschool Vision Screening Program

GLAUCOMA

OHSU CENTER FOR HEALTH & HEALING, LONGVIEW AND VANCOUVER, WASH.

Aiyin Chen, M.D.

Special interest: Medical and surgical treatment of glaucoma

Research interests: Improving glaucoma screening using machine learning, data science and advanced imaging technology including: Using electronic health record to identify high-risk patients for glaucoma; diagnostic accuracy for glaucoma detection using OCT and OCTA imaging

M.D.: University of California School of Medicine, San Francisco, Calif.

Residency: Ophthalmology, University of California, San Francisco, Calif.

Fellowship: Glaucoma, University of California, San Francisco, Calif.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

Beth Edmunds, M.D., Ph.D.

Special interests: Medical and surgical management of glaucoma (including MIGs), cataract in glaucoma patients and childhood glaucoma

Research interests: Surgery outcomes, imaging studies in optic nerve structure and perfusion, glaucoma genetics, childhood glaucoma

Medical degrees: M.B.Ch.B. (University of Cape Town, South Africa) and M.D. (Oregon, USA)

Research degree: University College, London, England

Residencies: Junior residency: Kent County Aural and Ophthalmic Hospital, Southampton General Hospital – Eye Unit; senior residency: South Thames Rotation (King's College Hospital, Queen Mary's Hospital, Sussex Eye Hospital, St. Thomas' Hospital and the National Hospital for Neurology and Neurosurgery), United Kingdom

Fellowships: Moorfields Eye Hospital, King's College Hospital, St. Thomas' Hospital, London, England; Discoveries in Sight, Portland, Ore.

Board certification: Fellow of the Royal College of Ophthalmologists, UK

Academic appointment: Professor; division head, glaucoma

Eliesa Ing, M.D.

Special interests: Complex glaucoma management and surgery

Research interest: OCT imaging of the optic nerve head

M.D.: University of Vermont College of Medicine, Burlington, Vt.

Residency: Ophthalmology, University of Texas Health Science Center, San Antonio, Texas

Fellowship: Glaucoma, Devers Eye Institute, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

Allison Loh, M.D.

Special interests: Pediatric ophthalmology, pediatric glaucoma, amblyopia and strabismus

Research interests: Ophthalmic imaging in children, pediatric glaucoma

M.D.: University of Pennsylvania Medical School, Philadelphia, Pa.

Residency: Ophthalmology, University of California, San Francisco, Calif.

Fellowship: Pediatric ophthalmology and strabismus, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

Lynn W. Sun, M.D., Ph.D.

Special interests: Medical and surgical treatment of glaucoma, combined cataract and glaucoma procedures

Ph.D.: Stanford University

M.D.: Loyola University Chicago

Internship: Transitional Internship, Aurora St. Luke's Medical Center, Milwaukee, WI

Residency: Medical College of Wisconsin

Fellowship: Glaucoma, University of Michigan;

Postdoctoral Research Fellowship: Advanced ocular imaging, Medical College of Wisconsin

Board certifications: American Board of Ophthalmology

Academic appointment: Assistant professor

MEDICAL CONTACT LENS

Amanda K. Dieu, O.D., FAAO

Special interests: Medical contact lenses, myopia control, adult contact lenses

O.D.: University of California, Berkeley

Fellowship: Medical contact lens, OHSU Casey Eye Institute

Academic appointment: Assistant professor

Brooke M. Harkness, O.D., M.S.

Special interests: Medical contact lenses, adult contact lenses, dry eye, comprehensive optometry

O.D.: Pacific University College of Optometry, Forest Grove, Ore.

M.S.: Pacific University College of Optometry, Forest Grove, Ore.

Fellowship: Medical contact lenses, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Academic appointment: Instructor

Derek J. Louie, M.Sc., O.D.

Special interest: Medical contact lenses

Research interests: Dry eye, keratoconus, contact lens interactions with the ocular surface

O.D.: Marshall B. Ketchum, Southern California School of Optometry, Fullerton, Calif.

Residency: Oklahoma College of Optometry, Northeastern State University, Tahlequah, Okla.

Fellowship: Optometry, Orlando, Fla.

Academic and clinical appointments: Professor; director, optometric services

Julie Falardeau, M.D.

Special interests: Neuro-ophthalmology, optic neuritis, compressive optic neuropathy, idiopathic intracranial hypertension, ocular myasthenia gravis, visual impairment secondary to brain tumor

Research interests: Idiopathic intracranial hypertension, optic neuritis

M.D.: University of Montreal, Quebec, Canada

Residency: Ophthalmology, University of Montreal, Quebec, Canada

Fellowship: Neuro-ophthalmology, University of Iowa Hospitals and Clinics, Iowa City, Iowa

Board certification: American Board of Ophthalmology

Academic appointment: Thelma and Gilbert Schnitzer Endowed Professor of Ophthalmology; division head, neuro-ophthalmology

Gillian Paton, M.D.

Special interests: Neuro-ophthalmology

M.D.: 2013, University of Saskatchewan

Residency: Pediatric neurology, British Columbia Children's Hospital, University of British Columbia

Fellowship: Pediatric multiple sclerosis and related demyelinating diseases, Children's Hospital of Pennsylvania/University of Pennsylvania

Fellowship: Neuro-ophthalmology, University of Pennsylvania, Scheie Eye Institute, Children's Hospital of Philadelphia

Certifications: Fellow of the Royal College of Physicians and Surgeons of Canada (FRCPC)

Academic appointment: Assistant professor

Amanda Redfern, M.D.

Special interests: Cataract and intraocular lenses, comprehensive ophthalmology, neuro-ophthalmology

M.D.: Oregon Health & Science University, Portland, Ore.

Internship: Internal medicine, Legacy Good Samaritan and Legacy Emanuel hospitals, Portland, Oregon

Residency: Ophthalmology, Yale New Haven Health – Yale Eye Center, New Haven, CT

Fellowship: Neuro-ophthalmology, University of Utah Moran Eye Center, Salt Lake City, UT

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

OCULAR ONCOLOGY

OHSU CASEY EYE INSTITUTE - MARQUAM HILL

Alison H. Skalet, M.D., Ph.D.

Special interests: Ocular oncology, adult and pediatric intraocular tumors, conjunctival tumors, clinical trials

Research interests: Ocular melanoma, novel imaging modalities for intraocular tumors, radiation retinopathy

M.D. and Ph.D.: University of Pennsylvania School of Medicine, Philadelphia, Pa.

Residency: Ophthalmology, University of California, San Francisco, Calif.

Fellowship: Ocular oncology and ophthalmic pathology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor, Paul H. Casey Endowed Chair; division head, ocular oncology

OCULOFACIAL PLASTIC AND RECONSTRUCTIVE SURGERY

OHSU CASEY EYE INSTITUTE - MARQUAM HILL, HOOD RIVER AND THE DALLES, ORE.; VANCOUVER, WASH.

Davin C. Ashraf, M.D.

Special interests: Ophthalmic plastic and reconstructive surgery, thyroid eye disease;

Research interests: Clinical informatics, thyroid eye disease, health outcomes

M.D.: University of California Los Angeles

Internship: Internal medicine, Kaiser Permanente San Francisco

Residency: University of California San Francisco

Fellowship: Ophthalmic plastic and reconstructive surgery, University of California San Francisco

Board Certifications: American Board of Ophthalmology

Academic appointment: Assistant professor

Roger A. Dailey, M.D., F.A.C.S.

Special interests: Cosmetic facial surgery, lacrimal surgery, endoscopic and laser surgery, orbital surgery for thyroid disease

Research interests: Cosmetic facial surgery, lacrimal surgery, endoscopic and laser surgery, thyroid eye disease

M.D.: Mayo Clinic Medical School, Rochester, Minn.

Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.

Fellowship: Oculofacial plastic surgery, Oregon Health & Science University, Portland, Ore.

Board certifications: American Board of Ophthalmology; Oculofacial Plastic Surgery ASOPRS Sponsor Certificate

Academic and clinical appointments: Professor, ophthalmology and dermatology; Lester T. Jones endowed chair, oculofacial and plastic surgery; head, Casey Aesthetic Facial Surgery Center and Thyroid Eye Disease Center

John D. Ng, M.D., M.S., F.A.C.S.

Special interests: Reconstructive eyelid surgery; lacrimal surgery; orbital and facial trauma; facial nerve palsy rehabilitation; techniques for orbit reconstruction; pediatric oculoplastic, lacrimal, orbital, and reconstructive surgery; coordinated, multidisciplinary subspecialty surgical care of complex conditions; orbital oncology; and inflammatory disease

Research interests: Orbital and eyelid reconstruction after tumor resection, facial palsy rehabilitation

M.D.: George Washington University School of Medicine, Washington, D.C.

Residency: Ophthalmology, Letterman Army Medical Center and Madigan Army Medical Center, Tacoma, Wash.

Fellowships: Oculofacial plastics; orbital, lacrimal and reconstructive surgery, Indiana University/Midwest Eye Institute, Indianapolis, Ind.

Board certification: American Board of Ophthalmology

Fellowship accreditation: American Society of Ophthalmic Plastic, Orbital and Reconstructive Surgery

Academic and clinical appointments: Professor of ophthalmology and otolaryngology/head & neck surgery; division head, oculofacial plastics, orbital and reconstructive surgery

Eric A. Steele, M.D.

Special interests: Ophthalmic plastic and reconstructive surgery, including surgery of the eyelids, orbit and lacrimal system

M.D.: Baylor College of Medicine, Houston, Texas

Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Fellowship: Plastic and reconstructive surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Professor

OHSU CASEY EYE INSTITUTE - MARQUAM HILL

Lesley Everett, M.D., Ph.D.

Special interests: Ophthalmic genetics and inherited retinal diseases, surgical and medical diseases of the vitreous and retina

Research interests: Retinal gene therapy and stem cell therapy, retinal vascular diseases, medical retina

Ph.D.: University of Michigan, Ann Arbor, Mich.

M.D.: University of Michigan, Ann Arbor, Mich.

Internship: General Surgery and Ophthalmology at University of California, San Francisco, San Francisco, Calif.

Residency: University of California, San Francisco, San Francisco, Calif.

Fellowship: Medical retina, University of Michigan Kellogg Eye Center, Ann Arbor, Mich.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Assistant professor

Molly Marra, Ph.D., M.S., C.G.C.

B.S.: University of Notre Dame

M.S.: Boise State University

Ph.D.: Oregon Health and Science University

Board certification: American Board of Genetic Counseling Certified Genetic Counselor

Academic appointment: Instructor

Mark E. Pennesi, M.D., Ph.D.

Special interests: Ophthalmic genetics, inherited retinal degenerations, retinitis pigmentosa, Stargardt disease, Best dystrophy, pattern dystrophy, visual electrophysiology

Research interests: Neuroprotection, gene therapy, stem cells

M.D. and Ph.D.: Baylor College of Medicine, Houston, Texas

Residencies: Transitional year, Scripps Mercy Hospital, San Diego, Calif.; ophthalmology, University of California, San Francisco, Calif.

Fellowship: Ophthalmic genetics, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Kenneth C. Swan Endowed Professor of Ophthalmology; division head, Paul H. Casey Ophthalmic Genetics Division

Paul Yang, M.D., Ph.D.

Special interests: Retinal dystrophies and ophthalmic genetics, autoimmune retinopathy, white dot syndromes and posterior uveitis, cataract surgery in patients with retinal comorbidities and/or low vision

Research interests: Retinal gene therapy and stem cell therapy clinical trials, neuroprotection translational research, autoimmune retinopathy

M.D. and Ph.D.: Dartmouth Medical School, Hanover, N.H.

Residency: Ophthalmology, Moran Eye Center, Salt Lake City, Utah

Fellowships: Ophthalmic genetics and visual electrophysiology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.; ocular immunology and uveitis, Massachusetts Eye Research and Surgery Institution, Cambridge, Mass.; cataract, uveitis, electrophysiology and ultrasound, Moran Eye Center, Salt Lake City, Utah

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

PEDIATRIC OPHTHALMOLOGY AND ADULT STRABISMUS, ELKS CHILDREN'S EYE CLINIC

OHSU CASEY EYE INSTITUTE - MARQUAM HILL AND BEND, ORE.; VANCOUVER, WASH.

Kellyn Bellsmith, M.D.

Special interests: Pediatric ophthalmology and strabismus, double vision and eye misalignment, pediatric cataract

M.D.: University of Missouri, Columbia, Missouri

Internship: Virginia Mason, Seattle, WA

Residency: Ophthalmology, Casey Eye Institute, Portland, Ore.

Fellowship: Pediatric ophthalmology and strabismus, Casey Eye Institute, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

John Davis, M.D.

Special interests: Pediatric ophthalmology and strabismus, double vision and eye misalignment

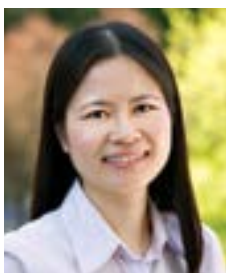

M.D.: David Geffen School of Medicine at UCLA

Residency: Ophthalmology, University of Washington

Fellowship: Pediatric ophthalmology and strabismus, Casey Eye Institute, Oregon Health and Science University

Board Certification: American Board of Ophthalmology, eligible

Academic appointment: Assistant professor

Annie Kuo, M.D.

Special interests: Pediatric ophthalmology and strabismus, amblyopia, pediatric cataract

M.D.: Pritzker School of Medicine, University of Chicago, Chicago, Ill.

Residency: Ophthalmology, Moran Eye Center, University of Utah, Salt Lake City, Utah

Fellowship: Pediatric ophthalmology and strabismus, Kellogg Eye Center, University of Michigan, Ann Arbor, Mich.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

Allison Loh, M.D.

Special interests: Pediatric ophthalmology, pediatric glaucoma, amblyopia and strabismus

Research interests: Ophthalmic imaging in children, pediatric glaucoma

M.D.: University of Pennsylvania Medical School, Philadelphia, Pa.

Residency: Ophthalmology, University of California, San Francisco, Calif.

Fellowship: Pediatric ophthalmology and strabismus, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

Margaret Overstreet, O.D.

Special interests: Amblyopia, strabismus, myopia management, general pediatric eye care

O.D.: University of Alabama at Birmingham School of Optometry, Birmingham, Ala.

Residency: Pediatric optometry, SUNY College of Optometry and NYC Health + Hospitals/Woodhull, Brooklyn, NY

Board certification: American Board of Optometry

Academic appointment: Assistant professor

Leah G. Reznick, M.D.

Special interests: Pediatric ophthalmology and strabismus, amblyopia, pediatric cataract

Research interests: Amblyopia care, clinical efficiency, faculty development

M.D.: University of Rochester, Rochester, N.Y.

Residency: University of Pittsburgh, Pittsburgh, Pa.

Fellowship: Pediatric ophthalmology and strabismus, University of Pittsburgh, Pittsburgh, Pa.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Associate director, Elks Children's Eye Clinic; director, faculty development; Oregon State Elks Endowed Professor of Ophthalmology

Allison Summers, O.D., M.C.R.

Special interests: Amblyopia; strabismus and ocular motility disorders of adults and children; general pediatric vision evaluation and care

Research interests: Amblyopia, myopia, exotropia, international and rural pediatric eye care

O.D.: Pacific University School of Optometry, Forest Grove, Ore.

M.C.R.: Oregon Health & Science University, Portland, Ore.

Fellowship: American Academy of Optometry

Academic appointment: Associate professor

Lorri Wilson, M.D.

Special interests: Pediatric ophthalmology and strabismus, amblyopia, pediatric cataract, medical education

M.D.: University of Pennsylvania, Philadelphia, Pa.

Residency: Ophthalmology, Scheie Eye Institute, University of Pennsylvania, Philadelphia, Pa.

Fellowship: Pediatric ophthalmology and strabismus, Children's Hospital of Philadelphia, University of Pennsylvania, Philadelphia, Pa.

Academic appointment: Associate professor

RETINA AND VITREOUS DISEASE AND SURGERY

OHSU CASEY EYE INSTITUTE - MARQUAM HILL, ASTORIA AND THE DALLES, ORE.; LONGVIEW AND VANCOUVER, WASH.

Steven T. Bailey, M.D.

Special interests: Age-related macular degeneration, retina and vitreous disease, retina surgery

Research interests: Advancements in retinal imaging, carotenoids in age-related macular degeneration, clinical trials for retinal vascular diseases and age-related macular degeneration

M.D.: University of Iowa Carver College of Medicine, Iowa City, Iowa

Residency: Ophthalmology, Emory Eye Center at the Emory University School of Medicine, Atlanta, Ga.

Fellowship: Vitreoretinal surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

Kavita V. Bhavsar, M.D.

Special interests: Evaluation and treatment of vitreoretinal disorders including macular degeneration, diabetic retinopathy, macular edema, vascular occlusions, and rare or challenging medical retinal cases

Research interests: Retinal imaging including optical coherence tomography, OCTA

M.D.: Boston University, Boston, Mass.

Residency: Tufts University School of Medicine, Boston, Mass.

Fellowships: Medical retina and uveitis, Manhattan Eye Ear and Throat Hospital, Vitreous Retina Macula Consultants of New York, New York University, Columbia University, New York, N.Y.; electrophysiology, inherited retinal disease, uveitis, Moorfields Eye Hospital, London, England

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Assistant professor

J. Peter Campbell, M.D., M.P.H.

Special interests: Retina surgery, retina (pediatric), retina and vitreous disease

Research interests: Retinopathy of prematurity, optical coherence tomography angiography

M.D. and M.P.H.: The Johns Hopkins School of Medicine, Baltimore, Md.

Residency: Wilmer Eye Institute, Johns Hopkins Hospital, Baltimore, Md.

Fellowship: Vitreoretinal surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor, Edwin and Josephine Knowles Endowed Professor

Lesley Everett, M.D., Ph.D.

Special interests: Ophthalmic genetics and inherited retinal diseases, surgical and medical diseases of the vitreous and retina

Research interests: Retinal gene therapy and stem cell therapy, retinal vascular diseases, medical retina

Ph.D.: University of Michigan, Ann Arbor, Mich.

M.D.: University of Michigan, Ann Arbor, Mich.

Internship: General Surgery and Ophthalmology at University of California, San Francisco, San Francisco, Calif.

Residency: University of California, San Francisco, San Francisco, Calif.

Fellowship: Medical retina, University of Michigan Kellogg Eye Center, Ann Arbor, Mich.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Assistant professor

Christina J. Flaxel, M.D.

Special interests: Macular degeneration, medical and surgical management of diabetic retinopathy, retinal vascular disease, hereditary retinal disease, proliferative vitreoretinopathy and other surgical retinal disorders

M.D.: Oregon Health & Science University, Portland, Ore.

Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.

Fellowships: Retina, West Virginia University, Morgantown, W.V.; medical and surgical retina, Moorfields Eye Hospital, London, England

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Thelma and Gilbert Schnitzer Endowed Professor of Ophthalmology; director, Wold Family Macular Degeneration Center

Thomas S. Hwang, M.D.

Special interests: Macular degeneration, diabetic retinopathy, retinal vein occlusion, retinal detachment, ocular trauma and other surgical and medical diseases of the vitreous and retina

Research interests: Ophthalmic imaging, diabetic retinopathy, medical education, clinical informatics

M.D.: University of California, San Diego, Calif.

Residency: Wilmer Eye Institute, Johns Hopkins University, Baltimore, Md.

Fellowship: Vitreoretinal surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certifications: American Board of Ophthalmology, American Board of Preventive Medicine – clinical informatics

Academic and clinical appointments: Professor; division head, vitreoretinal division; vice-chair for education

Andreas K. Lauer, M.D.

Special interests: Macular pucker, macular hole, retinal detachment, surgical disorders of the retina and vitreous, macular degeneration, diabetic retinopathy

Research interests: Ocular gene therapy, macular degeneration, diabetic retinopathy

M.D.: University of Oklahoma, Norman, Okla.

Residency: Ophthalmology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Fellowship: Retina and vitreous fellowship, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Director, Casey Eye Institute; chair and professor of Ophthalmology; Margaret Thiele-Petti and August Petti Endowed Chair

Brandon J. Lujan, M.D.

Special interests: Retinal imaging, age-related macular degeneration, diabetic retinopathy

Research interests: Photoreceptor imaging, structural OCT and OCT angiography, data science

M.D.: Harvard Medical School, Boston, Mass.

Residency: Ophthalmology, University of California, San Francisco, Calif.

Fellowships: Medical retina, Bascom Palmer Eye Institute, Miami, Fla.; Retinal imaging, Bascom Palmer Eye Institute, Miami, Fla.

Board certification: American Board of Ophthalmology

Academic appointment: Associate professor

Dong-wouk Park, M.D.

Special interests: Cataract and intraocular lenses, comprehensive ophthalmology, adult eye exams, medical retina, imaging

M.D.: Rosalind Franklin University, North Chicago, Ill.

Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Fellowship: Medical retina, Cleveland Clinic Cole Eye Institute, Cleveland, Ohio

Board certification: American Board of Ophthalmology

Academic appointments: Assistant professor

Merina Thomas, M.D.

Special interests: Retina and vitreous disease, retina surgery

M.D.: Vanderbilt School of Medicine, Nashville, Tenn.

Internship: General surgery, Atlanta Medical Center, Atlanta, Ga.

Residency: Ophthalmology, Illinois Eye and Ear Infirmary, University of Illinois at Chicago, Chicago, Ill.

Fellowship: Vitreoretinal surgery, Kellogg Eye Center, University of Michigan, Ann Arbor, Mich.

Research fellowship: Research fellow, retina, Wilmer Eye Institute, Johns Hopkins University, Baltimore, Md.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

Benjamin Young, M.D.

Special interests: Retina and vitreous disease, retinopathy of prematurity (ROP), diabetic retinopathy, macular degeneration

M.D.: Brown University

M.S.: University of Pennsylvania

Internship: Roger Williams Medical Center

Residency: Ophthalmology, Yale University

Fellowship: Adult and pediatric vitreoretinal surgery, Kellogg Eye Center, University of Michigan

Certifications: American Board of Ophthalmology C A D

Academic appointment: Assistant professor

UVEITIS

OHSU CASEY EYE INSTITUTE - MARQUAM HILL

**George R. Mount, M.D., MHPE, FACR, FACP**

Research interests: Clinical trials in uveitis and ocular inflammation, rheumatology

MD: Temple University School of Medicine, Philadelphia, PA

MHPE: Master of Health Professions Education, Uniformed Services University, Bethesda, MD

Residency: Internal medicine, Madigan Army Medical Center, Tacoma, WA

Fellowship: Rheumatology, Walter Reed Army Medical Center, Washington, D.C.

Fellowship: Uveitis and ocular inflammation, Oregon Health and Science University, Portland, OR

Board certification: American Board of Internal Medicine, rheumatology

Academic appointment: Adjunct associate professor

**Eric B. Suhler, M.D., M.P.H.**

Special interests: Uveitis, scleritis and other inflammatory diseases in children and adults

Research interests: Clinical trials in uveitis and ocular inflammation, biologic response modifiers, epidemiology of uveitis

M.D.: University of Texas, Southwestern Medical Center, Dallas, Texas

M.P.H.: Oregon Health & Science University, Portland, Ore.

Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.

Fellowship: Uveitis and clinical ocular immunology, National Institute of Health, Bethesda, Md.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Professor of ophthalmology and public health; division head, uveitis; head of ophthalmology, Veteran's Affairs Portland Health Care System

John M. Boyer, O.D.

Special interests: Evaluation and management of vision disability in adults and children

O.D.: Pacific University, Forest Grove, Ore.

Academic and clinical appointments: Assistant professor; head, vision rehabilitation

Alan Labrum, O.D.

Special interests: Low vision rehabilitation in children and adults

O.D.: Illinois College of Optometry, Chicago, Ill.

Academic appointment: Assistant professor

Kathryn Marxen-Simonson, MSOT, OTR/L, CLVT

Special interests: Low vision rehabilitation in children and adults

Clinical appointment: Occupational Therapist

Certification: National Board for Certification in Occupational Therapy, Certified Low Vision Therapist (CLVT)
