OHSU Neuroanesthesia

We are excited to be offering a new fellowship opportunity consisting of 12 months of post-residency training.

This is a non-accredited fellowship position at a hospital certified as a Comprehensive Stroke Center and with a busy neurosurgical service offering comprehensive surgical care for a wide variety of patients.

Benefits

- Exposure to the most complex neurosurgical cases
- Generous CME funding
- Coverage of SNACC and NCS membership
- Robust support network for professional development
- Competitive compensation package
- Flexible structure and timing
- Beautiful location in a city with lots to do!
