

IS AMERICAN HEALTH CARE JUST? IF SO, FOR WHOM?

WHAT CAN ART TELL US ABOUT THE LIVED EXPERIENCE OF  
MENTAL ILLNESS?

IS THERE ANYTHING *MORAL* ABOUT HEALTH COMMUNICATION?

JOIN US AT THE  
*OREGON BIOETHICS AND HUMANITIES COLLOQUIUM*  
AS WE EXPLORE THESE QUESTIONS AND MANY MORE.

The Oregon Bioethics and Humanities Colloquium (OBHC) is an academic lecture series for the state of Oregon and the Pacific Northwest. The goal of the OBHC is to foster substantive inquiry, conversation and education in biomedical ethics and medical humanism by bringing together scholars and students from diverse disciplines including medicine, philosophy, literature, sociology, religion, communication science, health policy and more. The OBHC aims to create an environment where critical examination of the human experience is the norm, and seeks to provide innovative perspectives on medicine and health -- perspectives that will both challenge and edify all who attend.
