10/18/2023
**REQUIRED COMMUNICABLE DISEASE SCREENING, TESTING, IMMUNIZATIONS AND TRAINING MATRIX**

### DEFINITIONS

**SHW**: Student Health and Wellness; can be reached at 503-494-8665

**OHSU STUDENT**: Only the cost of annual screening is covered by SHW. All pre-matriculation immunizations, titers, and tetanus vaccinations are billed to insurance and if not covered, become patient responsibility

**OHSU STUDENTS**: Does not include School of Nursing students

**NHP**: Non Human Primate

**OSU**: Oregon State University; can be reached at occhealth@ohsu.edu (email) or 503-494-5271 (Marquam Hill Campus phone number) or 503-629-4331 (West Campus phone number)

**ONPRC**: Oregon National Primate Research Center

### REQUIREMENTS

#### TUBERCULOSIS (TB)
- Completion of Tuberculosis (TB) Symptom Review (or questionnaire) AND documentation of titer showing immunity for each disease, OR medical clearance by qualified clinician, OR medical clearance by qualified clinician
- Completion of MMR Survey (or questionnaire) OR medical clearance by qualified clinician
- Completion of Hepatitis B Survey (or questionnaire) OR medical clearance by qualified clinician

#### EMPLOYMENT (IN-NHP who handle human blood/body fluid)
- Employees and visitors with access to ABSL2 or BSL 2 spaces or docents
- Visitors through the public outreach program, and visitors on campus less than 2 weeks with NO access to animal areas
- Employees and visitors with access to ABSL2+ or BSL2+ or higher spaces

#### DIRECT PATIENT CONTACT, TIER 1 AND WEST CAMPUS LEVEL 1
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training
- WFM who does not work directly with patients but works in a building where patients are seen

#### DIRECT PATIENT CONTACT, TIER 2 AND WEST CAMPUS LEVEL 2
- Employees and visitors with access to ABSL1 or BSL 1 spaces or docents

#### INDIRECT PATIENT CONTACT, TIER 2
- WFM who does not work directly with patients and does not work in a building where patients are seen

**WFM**: Workforce Member

### SPECIFIC DISEASES

#### MEASLES, MUMPS, RUBELLA (MMR)
- Employees hired before 7/1/16

#### MEASLES
- Completion of Measles Survey (or questionnaire) AND documentation of 2 doses of vaccine, OR completion of vaccine series with OH (employees or volunteers) OR documentation of historical titer showing immunity, OR medical clearance by qualified clinician, OR documentation of 3 doses of vaccine, OR completion of vaccine series with SHW (OHSU students), OR waiver of the vaccine after discussion

#### TUBERCULOSIS (TB)
- Completion of Tuberculosis (TB) Symptom Review (or questionnaire) AND documentation of titer showing immunity for the disease, OR documentation of 3 doses of vaccine, OR completion of vaccine series with OH (employees or volunteers) OR documentation of historical titer showing immunity, OR medical clearance by qualified clinician, OR completion of vaccine series with SHW (OHSU students), OR waiver of the vaccine after discussion

#### TYPHOID (YOLLIS)
- Completion of Typhoid Survey (or questionnaire) AND documentation of historical titer showing immunity for the disease, OR documentation of 2 doses of vaccine, OR completion of vaccine series with OH (employees or volunteers) OR documentation of historical titer showing immunity, OR medical clearance by qualified clinician, OR completion of vaccine series with SHW (OHSU students), OR waiver of the vaccine after discussion

#### CHICKEN POX (VARICELLA)
- Completion of Varicella Survey (or questionnaire) AND medical clearance by qualified clinician, OR medical clearance by qualified clinician, OR medical clearance by qualified clinician

#### INFLUENZA (FLU)
- Employees may receive Tdap at no cost if they have not received their adult dose; volunteers who work with infants or children may receive it at no cost if they have not received their adult dose. Insurance will be billed for students
- Declination of flu vaccine (via survey)
- Completion of Varicella Survey (or questionnaire) AND medical clearance by qualified clinician

#### MRI ENVIRONMENT SURVEY (IN-COMPASS)
- Completion of the MRI Environment Survey (in ReadySet)
- MRI SCREENING - annually

#### SEASONAL FLU IMMUNIZATION SURVEY (OR QUESTIONNAIRE), THEN INFLUENZA (FLU) - annually
- Completion of Seasonal Flu Immunization Survey (or questionnaire), THEN INFLUENZA (FLU) - annually
- Employees may receive Tdap at no cost if they have not received their adult dose; volunteers who work with infants or children may receive it at no cost if they have not received their adult dose. Insurance will be billed for students
- Declination of flu vaccine (via survey)
- Completion of Varicella Survey (or questionnaire) AND medical clearance by qualified clinician

#### WEST CAMPUS LEVEL 4
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training in the level areas
- WFM who does not work directly with patients but works in a building where patients are seen

#### WEST CAMPUS LEVEL 3
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training in the level areas

#### WEST CAMPUS LEVEL 2
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training in the level areas

#### DIRECT PATIENT CONTACT, TIER 1 AND WEST CAMPUS LEVEL 1
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training in the level areas
- WFM who does not work directly with patients but works in a building where patients are seen

#### DIRECT PATIENT CONTACT, TIER 2 AND WEST CAMPUS LEVEL 2
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training in the level areas
- WFM who does not work directly with patients but works in a building where patients are seen

#### DIRECT PATIENT CONTACT, TIER 3 AND WEST CAMPUS LEVEL 3
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training in the level areas
- WFM who does not work directly with patients but works in a building where patients are seen

#### DIRECT PATIENT CONTACT, TIER 4 AND WEST CAMPUS LEVEL 4
- WFM who works directly (face to face) with patients and is at a risk of being exposed to an airborne isolatable disease (i.e., TB, measles, etc.) - requires initial and annual respirator fit testing and/or PAPR training in the level areas
- WFM who does not work directly with patients but works in a building where patients are seen
