

Knight Cancer Institute Community Partnership Program 2023 Grantee Conference

Kerri Winters-Stone and Jackilen Shannon, Co-Directors

November 7, 2023

Knight Cancer Institute Community Partnership Program

2014 to the present

Program Mission

The mission of the Community Partnership Program is to work hand in hand with Oregon communities as allies in the Knight Cancer Institute's efforts to end cancer as we know it.

We:

Support

- Oregon communities in understanding and addressing their most pressing cancer-related needs.

Enhance

- Collaboration between Oregon communities and OHSU to address cancer in Oregon.

Foster

- Skills and abilities of communities to enhance long-term sustainability.

Addressing Cancer- related Health Disparities

We have highly encouraged proposals that focus on addressing and/or are working directly with populations facing cancer-related health disparities and/or understudied cancers

Evidence based approaches to address cancer-related health disparities, including disparities related to: Race, ethnicity, socioeconomic status, gender identity, sexual orientation, geographic location, and/or disability

Technical Assistance

Evaluation consults and data analysis

Evaluation Core team provides customized evaluation support to applicants

Data analysis resources are available to grantees and applicants

Grantee support

All funded grantees participate in a orientation webinar and individual kickoff call with program staff

Funded grantees receive evaluation technical assistance throughout the duration of their project's implementation

Putting Public Health Evidence in Action training

Online modules to support applicants and grantees in finding/selecting/adapting evidence-based approaches

Grantee conference

Annual event for grantees to share best practices and identify opportunities for networking and collaboration

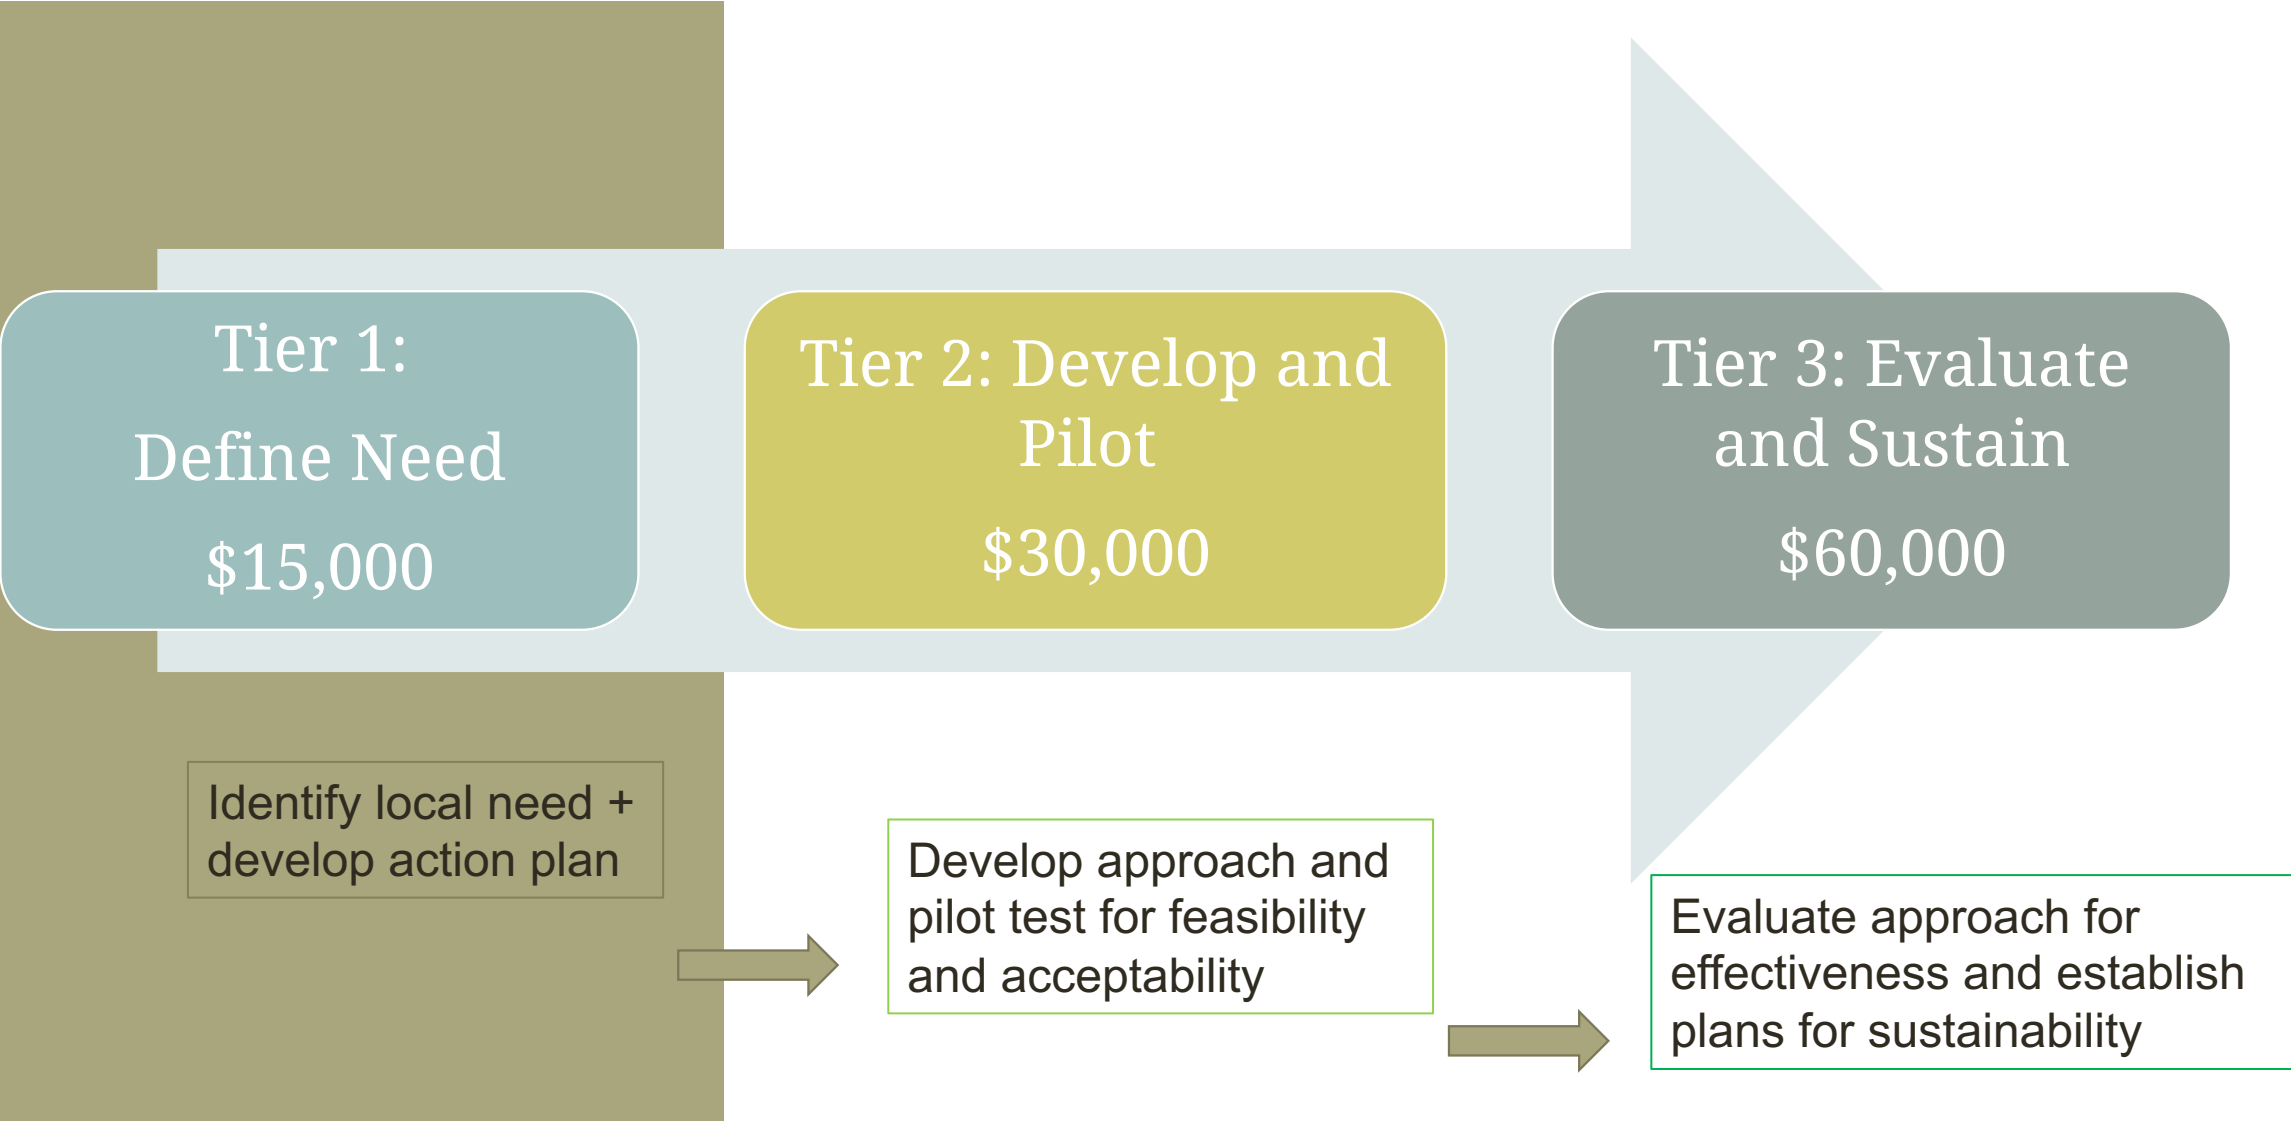

Grantee networking

Regular opportunities for grantees to connect through webinars and/or networking sessions

Special Call Grants

FOCUS	DESCRIPTION	YR
Screening awareness	Create and implement a Health Communication Plan that focuses on increasing awareness and utilization of early cancer screenings in the applicant's community.	2022
COVID-19	14 grants awarded to support community-driven projects related to the novel coronavirus (COVID-19)	2020
Community Action Model	Four grants awarded to support community organizations in increasing the awareness and acceptability of the HPV vaccine using a two-year, five step process resulting in policy, systems, and/or environmental changes.	2019
Step It Up Survivors!	Four grants awarded to implement evidence-based walking programs among cancer survivors, their friends and family. Results from this initiative were published in a 2020 issue of Preventing Chronic Disease.	2017
Community physical activity promotion and healthy corner stores	Four grants awarded to reduce obesity at the community level through implementation of one of two evidence-based approaches: 1) Improving healthy food offerings at corner stores, or 2) Promotion of physical activity at the community level	2016

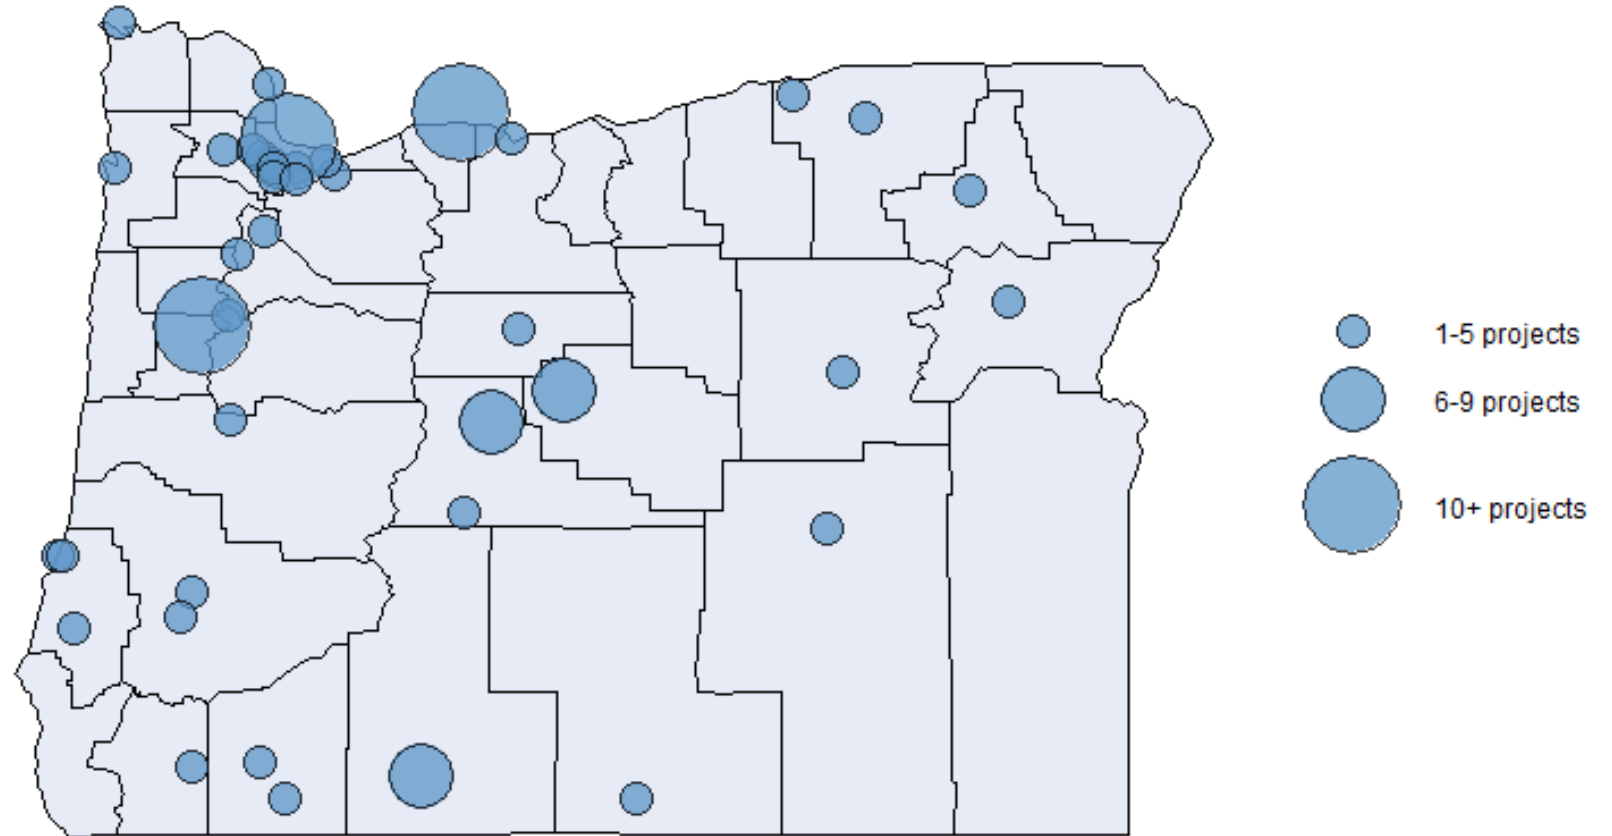

Tiered Grants

Cities with CPP
funded organizations:

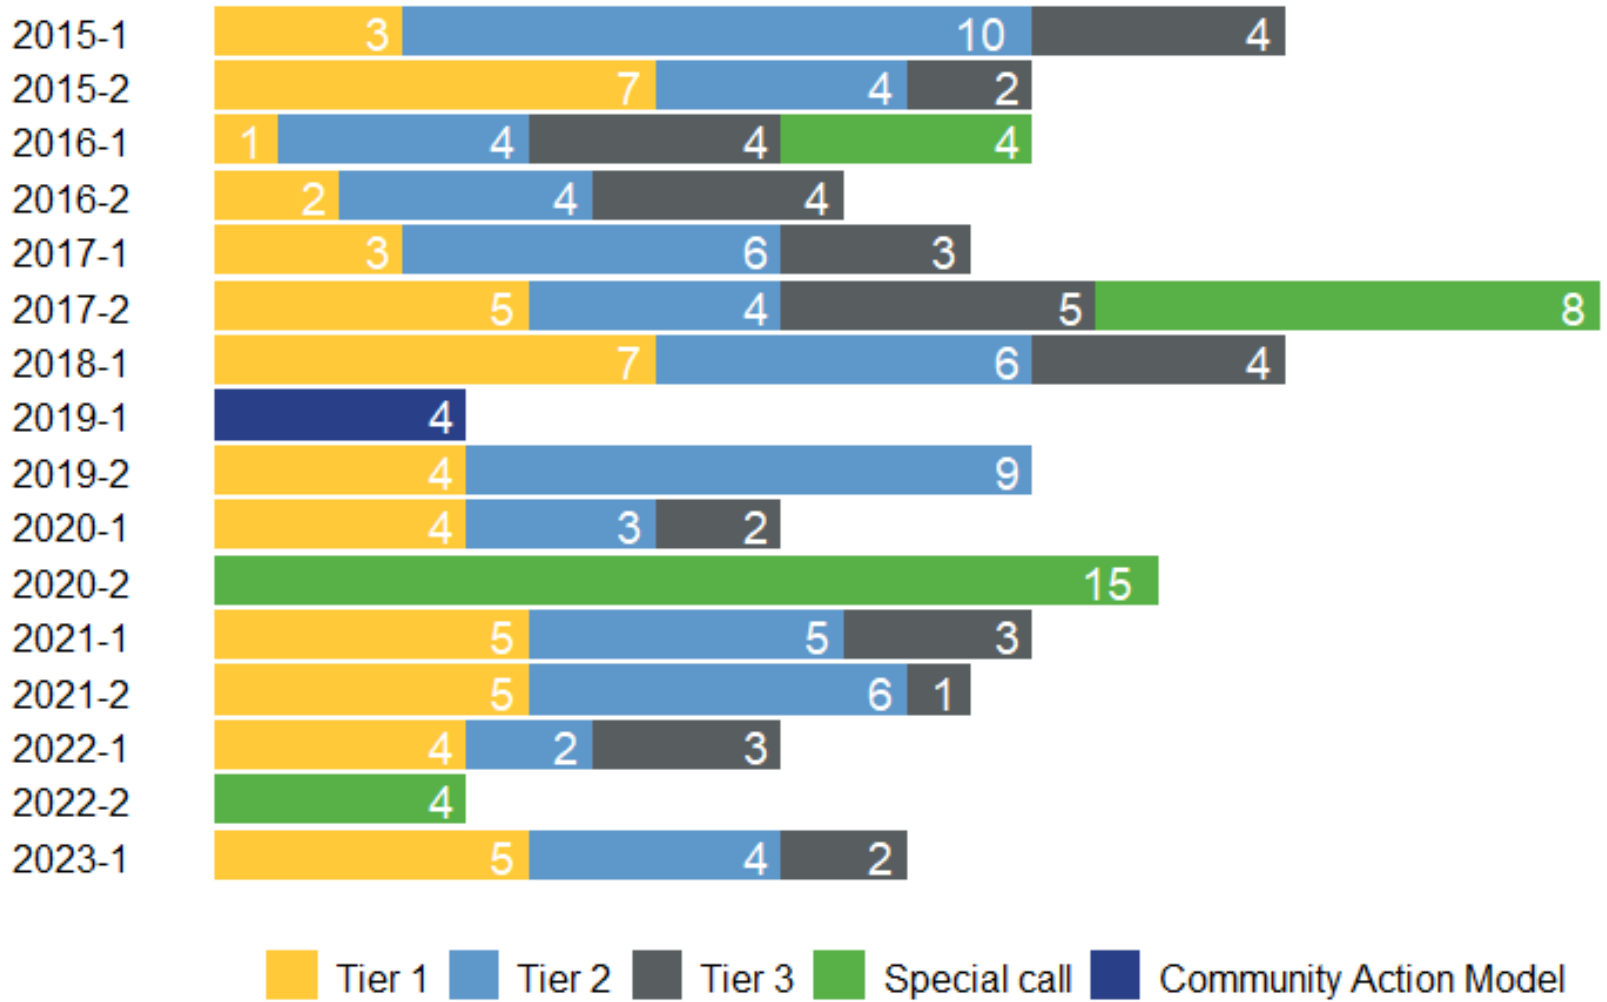

Albany, Aloha, Ashland,
Astoria, Baker City, Beaverton,
Bend, Boring, Burns, Coos Bay,
Corvallis, Eugene, Forest
Grove, Gresham, Hermiston,
Hillsboro, Hood River, John
Day, Klamath Falls, La Grande,
La Pine, Lakeview, Madras,
McMinnville, Medford,
Milwaukie, Murphy, Myrtle
Point, North Bend, Pendleton,
Portland, Prineville, Roseburg,
Salem, St. Helens, The Dalles,
Tigard, Tillamook, Tualatin,
West Linn, Winston and
Woodburn.

Funded organizations are located in 42 Oregon cities

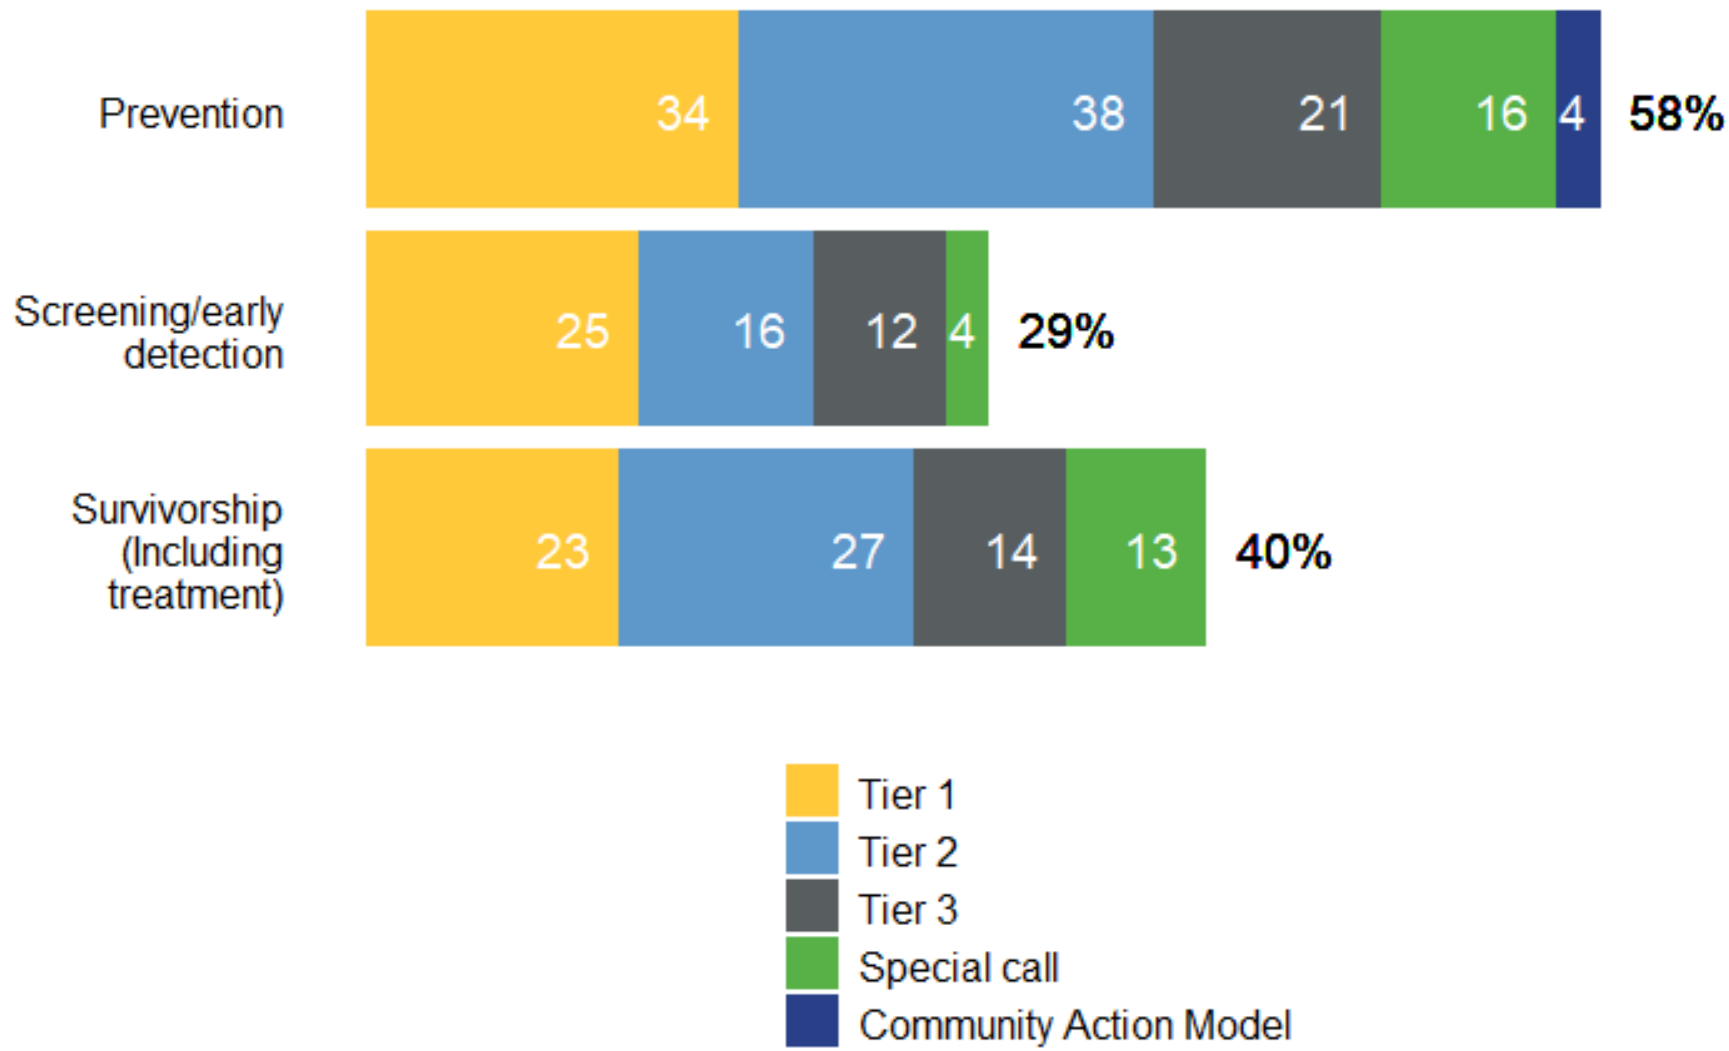

Cycle and Tier

CPP has funded 194 proposals over 16 grant cycles

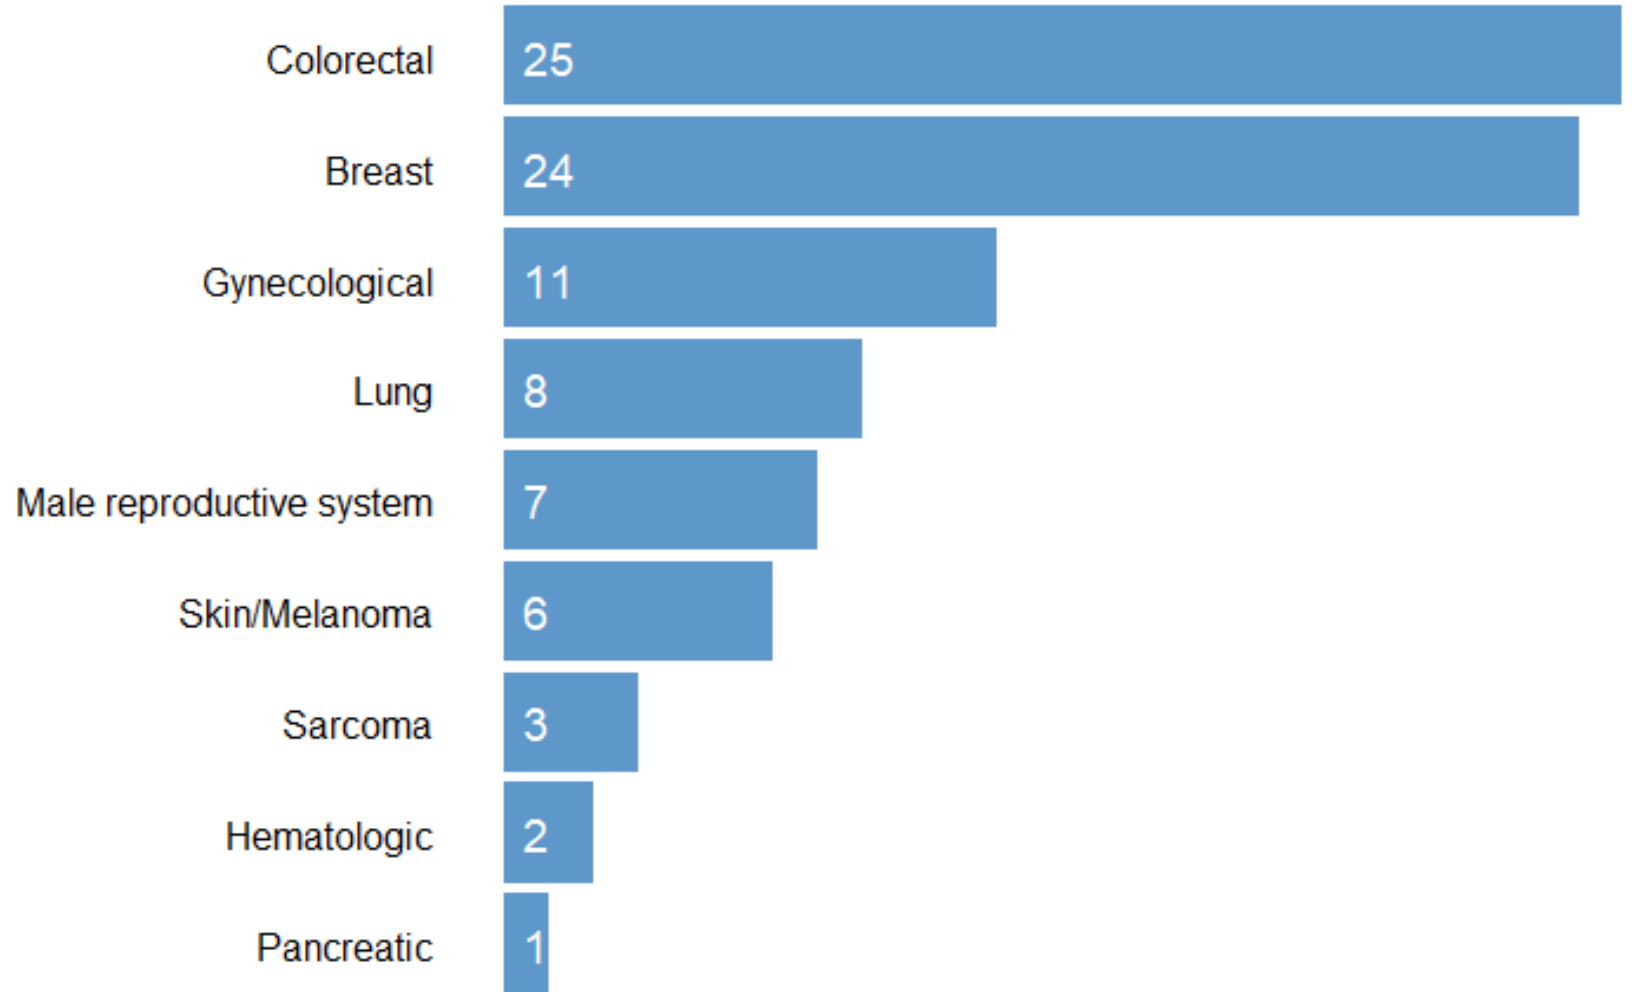

Continuum and Tier

Funded projects span the cancer continuum

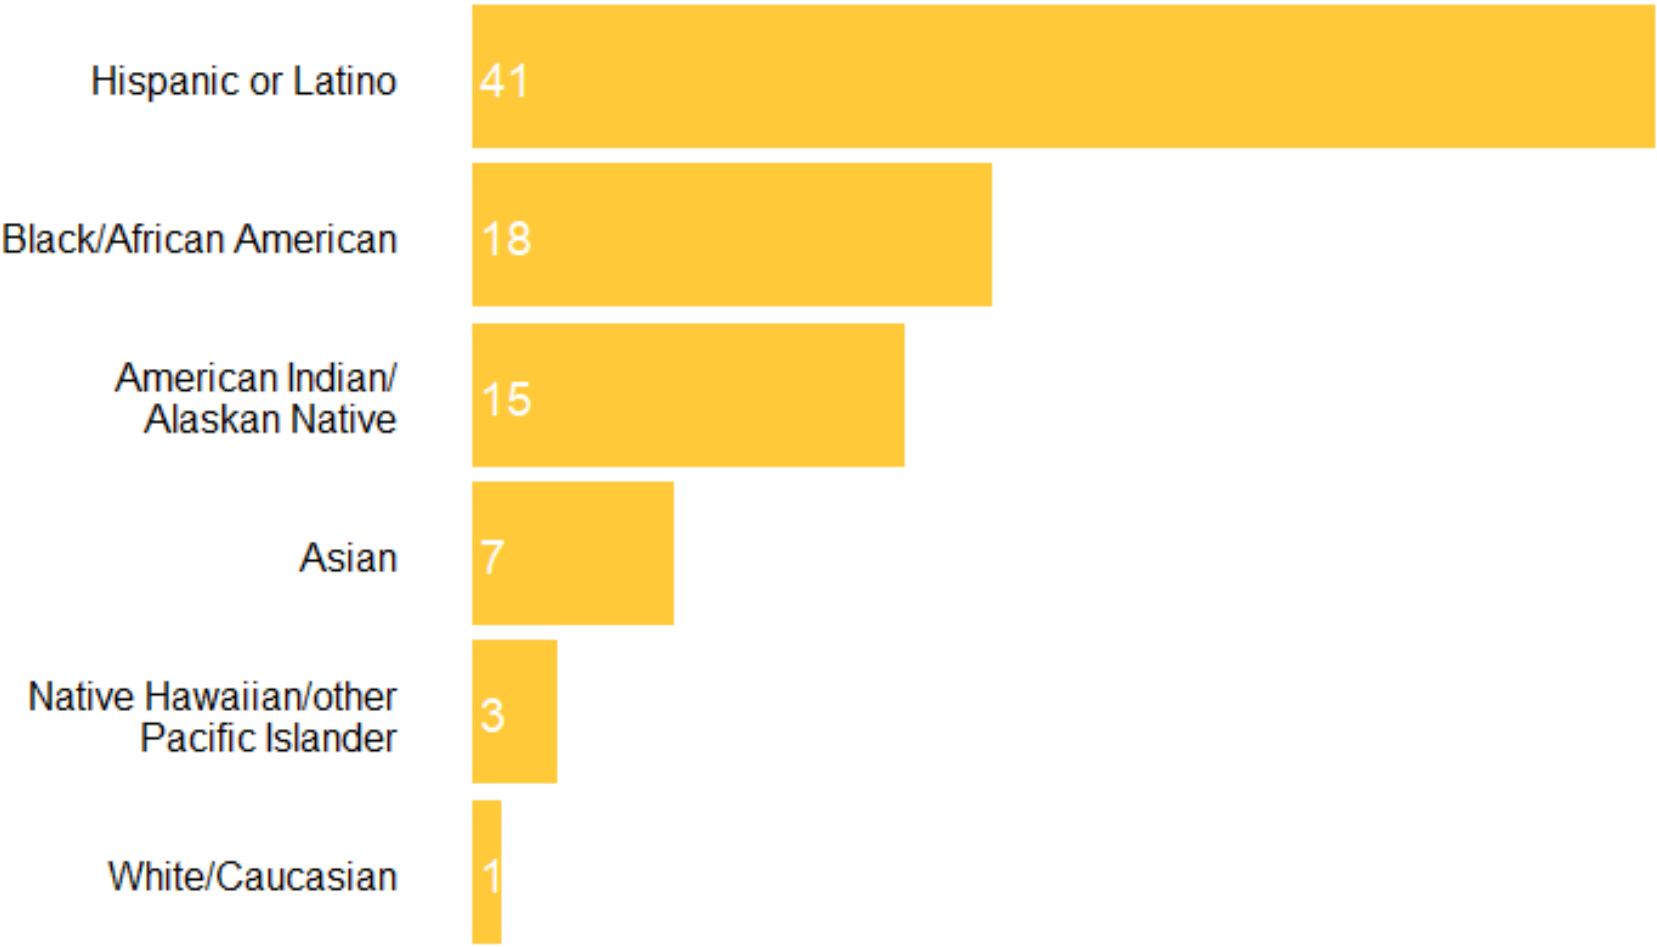

62 proposals focus on specific cancers

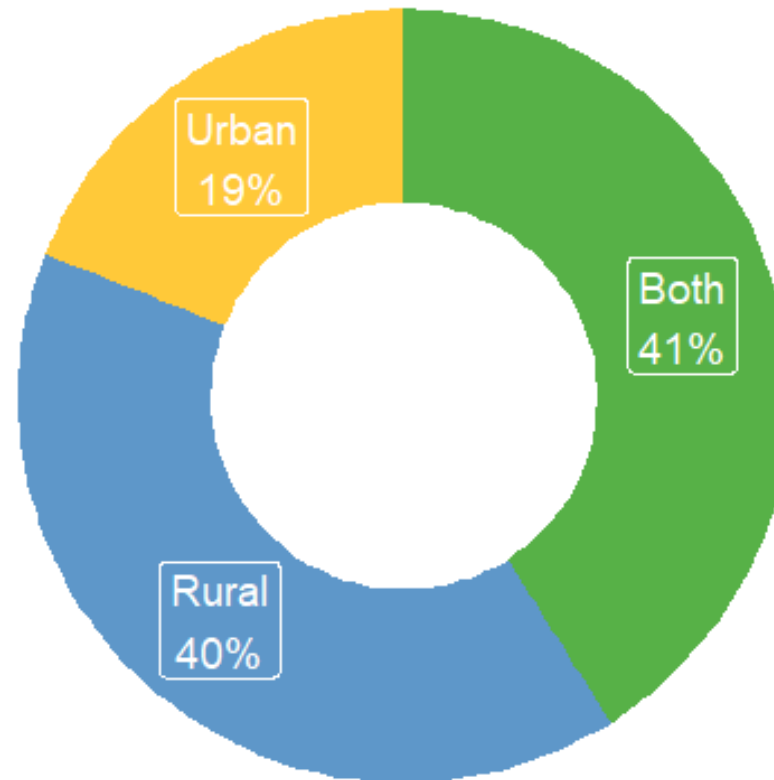

Race and/or Ethnicity

69 funded projects focus on a particular race and/or ethnicity

Geographic Focus

81% of funded projects include a focus on rural areas

2023 Conference Goals:

- Identify opportunities for collaboration with fellow grantees
- Share best practices and challenges
- Discuss strategies for addressing local community cancer issues

Thank you!
