

VERIFICATION OF CLINICAL HOURS

The Post-Master's DNP program requires a total of 1,000-hours of supervised advanced practice practicum. Post-Master's students may apply up to 640-clinical hours completed in their master's program toward the 1,000-hour total. This form serves as a verification of clinical hours completed in the master's program.

If a student's combined clinical hours from their past graduate program and the expected 360-hours from 9 credits of NURS 790 do not equal 1,000-hours, the student will be required to take additional credits of NURS 709 Advanced Nursing Practice Practicum to reach a total of 1,000-practicum hours at the time of graduation.
