Factors not included in wage bracket calculations:

- Incentives, bonuses, differentials, or other variances in your wage.
- Wages from a non-primary assignment.
- Your wage before deductions or scheduled pay changes that have not yet occurred.
- Wages reported on tax documents (Your real time wage is calculated; not your cumulative annual wages).
- Household income, home location or other expenditures.

OHSU CAMPUS SERVICES Wage Based Daily Parking

Estimated Wage vs. Annual Wage

Your estimated annualized wage is automatically calculated based on HR and payroll data of your real time wage, not including differentials and other varying factors. Since the system requires simplified, real-time calculation, this estimate will vary from your actual annualized wage. If you believe your bracket is inaccurate, please contact HR or payroll.

Wage Information Updates

The data is updated daily. Any change in bracket will take place once it has been updated in Oracle. Any existing reservations for future dates will stay at the original rate at which it was reserved. The daily rate is based on the wage bracket at the time the reservation is made.
