

Introduction to the Data Equity Framework

Jodi Lapidus, Ph.D.

Biostatistics, Epidemiology, and Research Design (BERD) Program

Seminar offered through the University of Michigan Applied Biostatistical Sciences (ABS) Network

—
Wednesday
February 21, 2024
9:00 – 10:00 a.m.

Virtual meeting

In this lecture, Dr. Lapidus will introduce frameworks and resources for data equity and each phase of the We All Count data equity framework along with strategies for each:

- Project Motivation and Funding/Resources
- Project Design
- Data Collection and Sourcing
- Analysis
- Interpretation
- Communication & Dissemination

At the end of this session, attendees will be able to:

- List some data equity frameworks and describe their foci and/or philosophies
- Describe one or more data equity issues to consider in each facet/phase of a data-oriented project
- Articulate data equity considerations that arise in population health studies

Register through the ABS Network site. Seminar will be recorded.
