## NETWORK NEWS- UPDATED NUMBERS EDITION!

Welcome to our new and improved Network Enrollment Graph & Tables. Please note that the chart will include currently active trials moving forward.

<b>434</b>	<b>Current Network Total enrollment (Primary + substudies)</b>	<b>466</b>	<b>Legacy Total Enrollment (Includes Duke, Wake thru 1/31/23)</b>
<b>372</b>	<b>Current Network Primary study enrollment</b>	<b>404</b>	<b>Legacy Primary study enrollment (Includes Duke, Wake thru 1/31/23)</b>

## CLINICAL TRIALS METHODOLOGY APPLICATIONS DUE

*From the desk of the Clinical Trials Methodology Team:* We are pleased to announce the continuation of the NINDS Clinical Trials Methodology Course (CTMC). We are currently accepting applications for the 2024 cohort. The overarching goal of the CTMC is to help investigators develop scientifically rigorous, yet practical clinical trial protocols. Our focus is on investigators who have not previously designed their own prospective, interventional clinical trials. Applicants proposing large, multi-center trials will also be considered this year. The multi-center proposals should ideally be aligned with the focus areas of one of the established NINDS clinical research networks. Please see application instructions for more information.

**Course:** There is a combination of distance learning activities and a **REQUIRED** residential course, along with small group mentorship from experienced clinical trialists and biostatisticians. The residential part of the course will be held **June 3<sup>rd</sup> – 6<sup>th</sup> in Charlottesville, VA**. Funding for travel (within the US) and accommodations will be provided for participants.

**Who Should Apply?** Qualified applicants from clinical disciplines focused on neurological disease or injury (including, but not limited to pediatric and rare diseases), along with biostatisticians working on projects with clinical neuroscience researchers should apply. All preliminary trial ideas are encouraged, but it is **REQUIRED** that protocols be focused on the clinical neurosciences. Trainees should have content area mentors to assist them with the science and implementation of their project. A small number of projects may qualify for additional work using clinical trial simulation.

### Application:

[2024 Application Webpage](#)

[2024 Application Instructions](#)

**DEADLINE:** The application submission deadline is **March 4<sup>th</sup>, at 9am Eastern Time**. Application forms and additional details are available on the course website: <https://siren.network/training/ctmc>. **Applications will be accepted on a rolling basis. Early applications will be considered for early acceptance.**

**Have Questions?** Please refer to our FAQ here. Please contact [NINDS-CTMC-Info@umich.edu](mailto:NINDS-CTMC-Info@umich.edu) or [William Meurer, MD, MS](#) with any additional questions.

*The NINDS Clinical Trials Methodology Course is supported by the NeuroNEXT DCC Grant Number U01 NS077352 and is administered by the University of Michigan, the University of Iowa, University of Indiana, and University of Virginia. Additional support is provided by the American Academy of Neurology.*

## STANDARD OPERATING PROCEDURE (SOP) SPOTLIGHT

As a part of the new SIREN award notice, we will help facilitate the DCC efforts to distribute the SIREN general SOPs and training for our spoke sites.

Your site can access all SIREN SOPs at any time here: <https://siren.network/nett-resources/standard-operating-procedures>. We will also spotlight a monthly SOP in our newsletter for your review.

- This month, please review the [Collaborative Trial and Ancillary Study Budget Development](#) SOP

## BOOST 3 NEWS & UPDATES

### *Brain Oxygen Optimization in Severe Traumatic Brain Injury Phase 3*

- BOOST 3 enrollments: 599; 55% of target (Target: 1094)
- **OHSU Network Enrollment: 136**
- Thank you to our recent network enroller! – OHSU, URM
- Bio-BOOST enrollments: 137; **OHSU Network: 51**
- ELECTROBOOST enrollment: 86 **OHSU Network: 11**

## ICECAP NEWS & UPDATES

### *Influence of Cooling Duration on Efficacy in Cardiac Arrest Patients*

- ICECAP Enrollments: 884; 49% of target (Target: 1800)
- **OHSU Network Enrollment: 177**
- Thank you to our recent network enrollers! OSU, OSU-East, & URM

## POST-ICECAP NEWS

### *Patterns Of Survivors' Recovery Trajectory in the ICECAP Trial*

Sites should now have their DOA approved and people documents updated in the system.

Please visit the POST ICECAP study page for the latest documents and study updates. Site Readiness Checklist, just in time training, the Protocol, and other documents are all now available on the site. <https://siren.network/clinical-trials/icecap/post-icecap>

## PEDS ICECAP NEWS & UPDATES

### *Pediatric Influence of Cooling Duration on Efficacy in Cardiac Arrest Patients*

- P-ICECAP Enrollments: 145; 16% (Target: 900)
- **OHSU Network Enrollment: 19**
- Thank you to our recent network enroller! – Children's of Alabama
- Welcome Children's of Alabama and team to the OHSU Network! Children's is currently the 3<sup>rd</sup> highest enrolling site in the P-ICECAP trial. Great work!!
- The P-ICECAP investigator meeting will be May 1-2 in Clearwater, FL at the Sheraton Sand Key Resort; 1160 Gulf Blvd; Clearwater Beach, FL 33767.
  - The trial funds and arranges travel and accommodation for any two study team members you would like to send.
  - There will be no virtual attendance option this year.
  - You will receive instructions about travel arrangements in the near future.
