

2023-2024 ECAP WORKSHOP SCHEDULE

Specific Aims: Grant Writing Workshop

September 28, 2023
12 – 1:30 pm
Rood Family Pavilion Room B

Grants are won or lost based on the impact of the specific aims page. This workshop will provide the opportunity to receive critical feedback on your SA page using NIH study section format. Faculty at both early and advanced stages of grant development (any funding mechanism) may participate. All ECAP members will benefit by gaining insights into the peer review process and learning tips on how to optimize their SA for maximum impact.

Promotion & Tenure

November 9, 2023
12 – 1:30 pm
Rood Family Pavilion Room D

This workshop will review step-by-step yearly accomplishments you need to advance from Assistant to Associate Professor. We will discuss what you do and do NOT need to accomplish to reach your promotion goals. Candid discussion by panel members will highlight their tips for staying on track for your promotion.

Intellectual Property & Tech Transfer

December 14, 2023
12 – 1:30 pm
Rood Family Pavilion Room B

Research offers exciting opportunities to develop innovations that advance science and transform health care. Led by the OHSU Innovates team, this workshop focuses on resources and strategies to support IP development and protection, startup fundamentals, and best practices for developing industry collaborations. Opportunities to jumpstart your commercialization goals will be discussed.

Specific Aims: Grant Writing Workshop 2.0

January 18, 2024
12 – 1:30 pm
Mackenzie Hall 3198

Back by popular demand, this workshop will provide an additional opportunity for participants to submit a specific aims page and receive critical feedback using NIH study section format.

Establishing Your Lab's Culture

February 29, 2024
12 – 1:30 pm
Rood Family Pavilion Room B

How do you create a research team that maximizes scientific discovery, career development and satisfaction, as well as staff retention? Learn concrete strategies to establish and maintain a culture of positive productivity from a diverse group of successful OHSU researchers.

Business of Lab Management

April 18, 2024
12 – 1:30 pm
Rood Family Pavilion Room B

Leading a research program requires business management skills not included in biomedical education. This workshop will provide an overview of the financial and HR considerations of running a thriving research program, managing expenses and supplies, as well as best use of start-up packages. Budget strategies for grant applications will also be discussed.

Strategies for Negotiating UP

May 30, 2024
12 – 1:30 pm
MAC 3198

On-going negotiations with your Supervisor/Chair are often needed to support research programs. Successful negotiation requires skills that can be learned. Work with a conflict resolution specialist and participate in real-time negotiations with trained actors to optimize your negotiation strategies and ensure success in gaining the support you need.
