

	Purpose	Support Provided by CORE	Expectations of the Researcher(s)
<b>Data Concierge</b>	<p>Data Concierge has access to many publicly available datasets, which have been restructured for easy querying and aggregation to fulfill a variety of research questions, grant prep, or presentations.</p> <p>Reduces data duplication and researcher efforts. Provides data dictionary, citations, and data limitations.</p>	<ul style="list-style-type: none"> <li>• Expertise in publicly available population-health data</li> <li>• Assist in identifying what questions can be answered with these datasets</li> <li>• Querying of most up-to-date datasets</li> <li>• Basic data visualizations</li> </ul>	<ul style="list-style-type: none"> <li>• Meet with Data Concierge to clearly describe which variables are needed to complete request (video or email, depending on extend of request).</li> <li>• Make sure “ask” is clearly defined at the time of request – adding variables later may result in significant delay of dataset delivery.</li> </ul>
<b>Connect with a Community Partner</b>	<p>Engage and collaborate with community-based organizations and other health care, governmental, education, and business stakeholders to enhance your grant application, inform project design, and extend the reach and impact of your work.</p>	<ul style="list-style-type: none"> <li>• Connect with a CORE team member to identify community organizations that align with your needs</li> <li>• Facilitate introductions &amp; meetings to develop collaborative research opportunities (e.g., letters of support for grant applications, project partnerships, share results)</li> <li>• Assist in setting mutual expectations and/or scope of work</li> </ul>	<ul style="list-style-type: none"> <li>• Meet with CORE team to discuss your goals and desired level of collaboration</li> <li>• Collaborate with community organizations around specific research topics and shared interests</li> <li>• Share your research in a community-friendly setting</li> </ul>
<b>Knight Scientific Research Advocates</b>	<p>Consultative session(s) with a cancer advocate that has experience working with research teams.</p> <p>Advocates represent the collective patient perspective, or the disease experiences of many patients in the research process.</p>	<ul style="list-style-type: none"> <li>• Identify appropriate Advocate(s) for your needs</li> <li>• Provide an introduction between the researcher and Advocate</li> <li>• Advocates can provide input on projects ad hoc or ongoing</li> </ul>	<ul style="list-style-type: none"> <li>• Convene an introductory meeting</li> <li>• Engage your Advocate at any stage of your research</li> <li>• Share proposed drafts and/or other materials in advance</li> <li>• Request a letter of support, lay abstract review or other related evaluation from the Advocate (optional)</li> <li>• Approx. 2-8 hours of your time</li> </ul>

<p><b>Listening Sessions</b></p>	<p>Community engaged approach that includes a 1-2 hour interactive session with a community group.</p> <p>Gather information and explore topics with a community organization or population of interest.</p>	<ul style="list-style-type: none"> <li>• Arrange for 3-12 individuals from a community group or organization to discuss your project or idea</li> <li>• Provide input on community-friendly materials for session</li> <li>• Lead the discussion</li> <li>• Notes from session</li> </ul>	<ul style="list-style-type: none"> <li>• Meet with CORE to develop goals and materials</li> <li>• Approx. 3-4 hours of your time</li> </ul>
<p><b>Community Engagement Studios (CES)</b></p>	<p>Evidence-based approach (Joosten et al, 2015, 2018) that includes a facilitated 2-hour interactive discussion(s) with your population of interest.</p> <p>Gather specific input and invite new perspectives to your materials to enhance your proposal or study.</p>	<ul style="list-style-type: none"> <li>• Identify and orient 8-10 participants with relevant community expertise</li> <li>• Co-develop community-friendly materials and questions</li> <li>• Summary report with recommendations and debrief</li> </ul>	<ul style="list-style-type: none"> <li>• Meet with CORE to define goals, population of interest, develop materials and review summary report</li> <li>• Attend the Studio with facilitator, present for 10 minutes and respond to questions during the discussion</li> <li>• Approx. 6-8 hours of your time</li> </ul>
<p><b>Focus Groups</b></p>	<p>Collect qualitative data in a group setting for a research question.</p> <p>Gather anonymous opinions and perspectives in or about a region.</p>	<ul style="list-style-type: none"> <li>• Co-develop focus group materials</li> <li>• Recruit focus group participants</li> <li>• Record session, provide transcript</li> </ul>	<ul style="list-style-type: none"> <li>• Meet with CORE to discuss goals, focus group questions and plan for analyses</li> <li>• Approx. 5-10 hours of your time</li> </ul>
<p><b>Disseminate Results</b></p>	<p>Share your results with specific populations or organizations.</p>	<ul style="list-style-type: none"> <li>• Provide input and/or test community-friendly materials</li> <li>• Identify and help you connect with appropriate community audiences</li> </ul>	<ul style="list-style-type: none"> <li>• Include a dissemination strategy in your initial project plan</li> <li>• Co-develop community-friendly materials</li> <li>• Meet with community organizations to discuss presentation and other dissemination opportunities</li> </ul>

Ready to get started on your project? Please fill out the [Project Assistance Program consultation form](#) and someone from our team will reach out within 1-2 weeks to discuss next steps. For questions, please email [communityresearch@ohsu.edu](mailto:communityresearch@ohsu.edu).
