

Biomedical & Bioinformatics Research Internship and Training Experience (B-BRITE) at the Knight Cancer Institute

The **Biomedical & Bioinformatics Research Internship and Training Experience (B-BRITE)** aims to inspire curiosity in the next generation of research scientists. We encourage applications from students identifying with groups historically underrepresented in the sciences, as well as first generation college students, and those from socioeconomically disadvantaged backgrounds.

B-BRITE OFFERS:

- An introduction to experimental design and data analysis.
- Participation in a guided research project facilitated by an experienced researcher.
- Hands-on experience in cutting-edge biological and quantitative cancer research methods.
- Scientific research poster development and presentation experience.
- Networking opportunities within a broad community of scientists.
- Stipend of \$4,500 for the full 8-week program.
- Limited need-based housing and airfare support is available.

ELIGIBILITY:

We are looking for motivated upper-level undergraduates interested in careers in biomedical or data science research.

Students must be available to participate for the duration of the internship. The expected commitment is 40 hours per week.

DATES:

B-BRITE is scheduled for **June 23 - August 15, 2025**.

LOCATIONS:

Interns work in the Knight Cancer Institute Laboratories at the Oregon Health & Science University Marquam Hill and South Waterfront campuses in Portland, OR.

WHERE TO APPLY:

Applications Open: Early November 2024
Applications DUE: 5 p.m. PST January 23, 2025
