-		r student. For the student listed above, please answer the following questions. nent data from this form in the Medical Student Performance Evaluation (formerly known as the Dean's
Have you ever	provided healthcare to	this student? Are you a relative or current OASIS Academic Advisor to this student?
Per OHSU SoN	M policy, you will not be	able to assess this student if you respond yes to either question.
No	Yes	
Comments		
provide a ddx,	•	an overall evaluation of the student's performance, including but not limited to the following activities oral and written presentations and handovers, enter orders, interpret tests, participate in shared fessional teams.

Competency Assessment

Please indicate the student's performance for each of the competencies listed below.

Please use the space below to comment on next steps for growth.

PCP1 Gather information through history-taking and physical/mental status examination on patients.

Not Yet Level 1	Milestone Level 1	Milestone Level 2	Milestone Level 3	Above Level 3	Not Observed
	Gathers information in a	Gathers all needed	Gathers all needed		
	structured manner, often	information based on	information related to
