DOERNBECHER CHILDREN'S Hospital
OHSU

Welcome to the Child Development and Rehabilitation Center and the OHSU Doernbecher Children's Hospital

We are honored that you chose us to care for your child. Our goal is to provide the highest quality care in a timely and respectful manner.

On the following page, we have provided you with a list of items you will need to obtain to help us with your child's evaluation.

We need you to return all the required documents before we can place your child on a waiting list for an appointment. Please either mail, fax or email the documents to our office as soon as possible to:

OHSU Health Information Management
3151 SW Sam Jackson Park Rd OP17A
Portland, OR 97239-9745

Fax: 503 494-4447
email: cdrcnorthunit@ohsu.edu

If you have any questions or problems completing these forms, or need this information in another language, please call 877-346-0640.

Please use black ink on all forms, make a copy of anything you send in the mail, and always keep your originals.

Thank you for your time and effort in completing and returning the packet. We look forward to working with you and your family.

If you need this information in another language, please call 877-346-0640.

Frequently Asked Questions about CDRC Evaluations

When should I call to check on the status of my child's referral?

CDRC receives many referrals each week and we strive to connect you with OHSU's registration department within 48 hrs. If you do not hear from us within 5 business days, please call 503-346-0640.

When do I receive an intake packet?

Please call 503-494-8505 to update your child's registration information, as this step is required (even if you have previously worked with CDRC). Please have your insurance card available when you call. After contacting registration, your intake packet should arrive within 10 business days.

How long are your clinical program's waitlists?

We have several different evaluation clinics at CDRC. Patients are assigned to a particular clinic depending on their age, symptoms, diagnoses (if known), and information from your returned intake packet. Each clinic's wait time is different, and you may have to wait several months after you have returned the packet for an appointment.

When should I call to check where my child is on their clinical program's waitlist?

You can call to check if your returned intake paperwork has been received by our clinic (please make copies of everything you send by mail), and should also call to let us know if anything has changed, such as your address or phone number. However, please wait 90 days before calling to check where your child is on the waitlist, as it often takes that long to process the information.

Will my insurance cover this cost?

We work with most insurance plans, but each policy is different. We recommend that you contact your insurance company early to make sure our services are covered, that we are in your network, and that any needed authorizations are taken care of in advance. Testing for learning disabilities, if needed, is usually not covered by medical insurance, and can be done by your school district.

Can I bring other children to the appointment?

Your attendance in clinic is required during the entire appointment (which may last from 1 ½ hours to 6 hours in length). Please have additional siblings and family members stay at home from this appointment.

How do I fill out the Authorization to Use and Disclose Protected Health Information?

Please see the next page for a sample form.

Child Development and Rehabilitation Center

Community Resources

What can we do now?
There are many resources in local communities for families in Oregon. You don't need to wait until you get your child's evaluation from Child Development and Rehabilitation Center (CDRC) to use these supports. You can start now!

If your child needs developmental support:
If you are worried about your child's progress, your Education Service District may be able to assist your family. They may offer testing or learning ideas. These methods review your child's thinking and learning, self-care, communication, sensory system and/or motor skills.

Children ages 0-5:

Babies and toddlers
Find help for children ages 0-5 through your county's Early Intervention (EI) or Early Childhood Special Education (ECSE) programs. Learn more at https://bit.ly/2XVGNSw.

Head Start programs
The Early Head Start program is for pregnant women, babies and toddlers. The Head Start program is for children ages 3-5. These programs help children get ready for school. They provide education, health and food services. There are also services for families of traveling or seasonal farmworkers. Learn more at www.ohsa.net.

If your child needs support at school:
If your child is in school, your child may be able to receive special education support from your school district. Contact your child's school to start the process. **You do not have to wait for the results of a CDRC evaluation to begin services with your school.**

For help with school-based services, contact:

FACT Oregon	1-888-988-3228	http://factoregon.org_or
Washington PAVE	253-565-2266	http://www.wapave.org
Stand for Children	800-663-4032	http://stand.org/oregon

If your family needs more than school services:
You can find support services through a community provider even if your child does not yet have an autism diagnosis.

Skill development and practice:
Ask your child's doctor for a therapy referral. Call your insurance carrier to learn which providers are covered near your home. Your insurance company's phone number will be on your insurance card.

- Speech-language pathologists work on communication skills, such as talking and listening, and social skills like playing together.
- Occupational therapists work on movement, daily living skills and sensory differences like reactions to noises and textures.

Behavioral and mental health support:
Families who have children with developmental differences may benefit from support of a mental health provider. These providers are skilled at helping families cope with challenging behaviors or other concerns, such as anxiety or ADHD. Your insurance carrier can help find a qualified provider. To find these services for mental health:

If you have private insurance:
Look for a telephone number on your insurance card.

If you have the Oregon Health Plan:
Call your local Coordinated Care Organization (CCO) to learn about these services. Find a list of CCOs at https://bit.ly/2D5E5lg.

If you have Washington State Medicaid:
Call your managed care plan. Find the list of managed care plans at https://bit.ly/2VBEITO.

Where else can we find help?

There are several support groups for families and children with developmental differences in Oregon. A few are:

- **The Oregon Center for Children & Youth with Special Health Needs (OCCYSHN)**
  www.occyshn.org or 503-494-8303

- **CaCOON Care**
  Coordination provided by home-visiting public-health nurses.
  http://www.ohsu.edu/xd/outreach/occyshn/programs-projects/cacoon.cfm

- **FACT Family Support**
  www.factoregon.org or 1-888-988-3228

- **Oregon Family to Family**
  Provides information for families of children and youth with special health care needs.
  www.oregonfamilytofamily.org or 1-855-323-6744 (**Spanish:** 503-931-8930)

- **Autism Society of Oregon/Washington (ASO)**
  ASO can provide support and recommendations **regardless** of a child's medical diagnosis.
  https://autismsocietyoregon.org or 1-888-Autism-1 (1-888-288-4761)

Other ideas include:
- Local playgroups
- Local groups for parents of children with differences
- Local Parks and Recreation centers' classes for children who need more support

INFORMED CONSENT FOR PSYCHOLOGICAL ASSESSMENT AT CDRC

ACCOUNT NO.
MED. REC. NO.
NAME
BIRTHDATE

Patient Identification

I hereby give my informed consent to participate and/or have my child participate in the delivery of psychological services at the Child Development and Rehabilitation Center (CDRC) of the Institute on Development and Disability, Oregon Health & Science University (OHSU), as described on this form, including the financial, legal and ethical conditions listed below. Legal conditions listed below are based on the Oregon Revised Statutes (ORS). Ethical conditions set forth herein are based on the Ethical Principles and Code of Conduct of the American Psychological Association (APA).

Definitions of Psychological Assessment
Psychological assessment at the CDRC refers to any evaluative relationship I and/or my child may have with a CDRC psychologist in an effort to diagnose and/or treat a developmental, psychological, behavioral, or emotional condition for myself, my child and/or my family.

Responsibilities of Patient and Psychologist
Responsibilities of patient include but are not limited to the following: being open and honest about the issues that bring him or her to an evaluation clinic; arriving on time for appointment(s); and attending scheduled appointment(s). Patients and their caregivers are also responsible for providing any available documentation from previous evaluations and services (e.g., Individualized Education Plans, treatment notes, evaluation reports). Responsibilities of psychologist include but are not limited to the following: obtaining consent for assessment from patient or patient's legally authorized healthcare representative; providing psychological assessment; and evaluation reports as appropriate; Psychological assessment evaluation reports will automatically be sent to the patient's referring medical provider. Sharing reports with other entities (e.g. school, other providers) is the responsibility of the patient and their caregivers.

Attendance at Appointments
If you and/or your child cannot attend a scheduled appointment, we request that you tell us at least **24 hours in advance** by calling our appointment line at **503-346-0640**. If you call to cancel an appointment with less than 24 hours notice it is considered a "no-show." If you have 2 "no-show" appointments we may not be able to work with you and/or your child any longer. Missing 3 scheduled appointments in a row, even if you call ahead of time, may mean we cannot see you and/or your child any longer.

Treatment of Unemancipated Minors
Pursuant to ORS 109.675, children 14 years of age and older are able to obtain diagnosis and treatment for mental or emotional disorders or chemical dependency without parental permission with the condition that the parent's involvement will be sought before the end of the treatment, unless this is not in the best interest of the minor, there is identified sexual abuse or the parent refuses. However, in some cases (i.e., deterioration in functioning, suicidality, etc.), CDRC staff have the legal right to divulge information to a minor's parent(s) or legal guardian without permission of the minor if it is in the minor's best interest.

Limits of Confidentiality
The content of psychological assessment is privileged information, and shared with people outside of OHSU only with my consent or as authorized by law. The following are some situations in which psychological assessment information may be disclosed: 1) suspected or reported child abuse (including but not limited to physical abuse, sexual abuse, neglect), 2) suspected or reported elder abuse, 3) suspected or reported animal abuse, 4) suspected or reported abuse of adults who are developmentally disabled and/or mentally ill, 5) threatened harm to self or others, or 6) legal proceedings in which the client uses information shared in session. Assessment reports based on psychological services are part of the

patient's OHSU medical record. Information about assessment, ongoing or past psychological treatment may be exchanged or accessed by other OHSU employees for professional purposes, who also may share information with outside sources with my consent or as authorized by law. Also minimal information will be provided to insurance companies and other parties as necessary for the provision of assessment, treatment, and payment.

Caregiver Status
Except as stated above under "Treatment of Unemancipated Minors," parent/legal guardians are required to give express permission for the assessment of a child before initiating services. To give such permission, the adult must be a custodial or noncustodial parent or legal guardian who maintains the legal right to make such decisions or another adult (e.g., grandparent, aunt, other relative) who has been given the legal right to make such decision for the child.

By signing below, I understand that I am indicating that I have the legal right to consent to assessment on behalf of the named child. If I am consenting to assessment on behalf of the named child, I agree that I will inform other parties with legal interests in the child, such as a noncustodial parent, that the child has started to receive psychological assessment, unless informing such other party is not in the best interest of the child. I understand that other parties with the legal right to make decisions about the child, such as a noncustodial parent, may have access to records about my child's care, unless there is legal documentation preventing this.

Informed Consent
CDRC staff will discuss with me applicable practical aspects of such assessment, including but not limited to the financial arrangement of assessment, limits of confidentiality, any supervision of this assessment (including the name of the supervisor), and any recording or videotaping of such assessment. If I have not been able to give informed consent, someone working in my or my child's best interest has done so. If my child is the subject of such assessment and is unable to give legal and binding consent, his/her consent was secured in addition to my informed consent.

Signature
Signing this form signifies that I have understood all of the information contained in it, and have given my full and informed consent to the procedures described.

Intake Packet

The following items are needed from you before we can place you on the wait list for an appointment. If you have any questions or problems completing these forms, or need this information in another language, please call 503-346-0640.

Please make a copy of anything you send in the mail, and always keep originals. Please complete all forms in BLACK ink.

Items for you to complete:

- ☐ OHSU Child Development and Rehabilitation Center, Patient Medical History
- ☐ NICHQ Vanderbilt Assessment Scale, Parent Informant
- ☐ Call patient registration at 503-494-8505 to set up or update your child's account with OHSU. Please have insurance information ready when you call.

Items to obtain from school:

A Release of Information form is enclosed if you would like the school to send this information to us directly.

- ☐ Teacher Questionnaire
- ☐ NICHQ Vanderbilt Assessment Scale, Teacher Informant
  These are to be completed by a teacher, therapist, daycare provider, or home visitor.

If your child has an Individualized Education Plan (IEP) or 504 Plan, also include:

- ☐ Copy of Individualized Education Plan (IEP) or 504 Plan paperwork (if available)
- ☐ Copy of most recent testing or special education eligibility testing (if available)

Other Information *(optional)*:

- ☐ Consider including copies of any prior testing related to learning, language, sensory/motor skills, or behavior AND/OR recent progress notes from current intervention/therapy providers

You may send packet by mail to:

OHSU Health Information Management
3151 SW Sam Jackson Park Rd OP17A
Portland, OR 97239-9745

You may also email or fax documents to:

Fax: 503-494-4447
email: cdrcnorthunit@ohsu.edu

CHILD DEVELOPMENT AND REHABILITATION CENTER

Dear Teacher:

The parent(s)/guardian(s) of one of your students is seeking to have their child evaluated at the Child Development and Rehabilitation Center at Oregon Health & Science University. As part of the evaluation process, we are requesting the following information to assist us with the diagnosis and treatment of your student.

Please use black ink on all forms; make a copy of anything you send, and always keep your originals.

Items to complete:

☐ Teacher Vanderbilt Questionnaire (enclosed)

☐ Teacher Information Form (enclosed)

Items to provide to parent:

☐ Copy of Individualized Education Plan (IEP) or 504 Plan (if applicable)

☐ Copy of most recent special education eligibility testing (if applicable)

We ask that you complete the questionnaires and provide us with any other information as soon as possible as we are unable to begin the student's evaluation without it. Your time and cooperation in this matter are greatly appreciated.

You may give the completed questionnaires and other information directly to your student's parent or guardian for them to return to us. If the parent/guardian has signed a release of information, you may return the questionnaire directly to us at:
