

ABOUT THE MIDWEST QIN-QIO PROGRAM FOR HOSPITALS

Midwest QIN-QIO is a comprehensive quality improvement program that helps hospitals by facilitating connection to and implementation of quality improvement initiatives, including the spread of evidence-based practice. We aim to bridge the gap between population health and patient safety, healthcare quality, and emergency management.

PARTNERING WITH THE MIDWEST QIN-QIO

When a facility agrees to work with the **Midwest QIN-QIO program**, they receive **no-cost access** to:

One-on-One or Group Technical Assistance

Quality Improvement Webinars & Training

Networking Opportunities

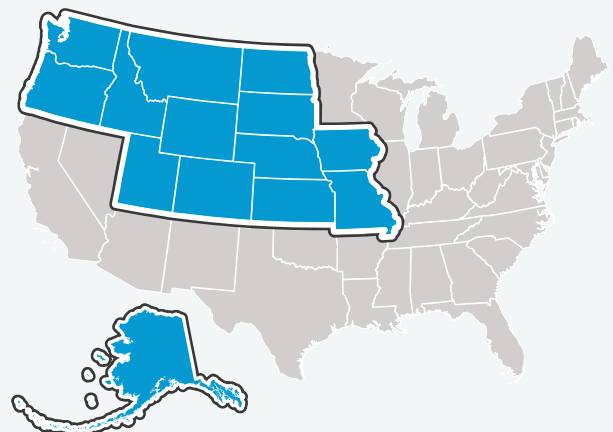

Data Dashboards & Customized Reports

QUALITY INNOVATION NETWORK-QUALITY IMPROVEMENT ORGANIZATION (QIN-QIO)

Telligen in partnership with Mountain Pacific are responsible for quality improvement work in each of the 14 states in the Midwest Region. This includes planning and implementing hands-on technical assistance to CMS-identified healthcare facilities that include hospitals, nursing homes, and outpatient clinical practices to meet the clinical aims and priorities established by CMS.
