

Prerequisite List for: Applicants with Bachelor's Degree (any major)

Student Name: _____

Email: _____ Phone: _____

Instructions:

1. Download your unofficial transcripts, including course names, term completed, & final grades, from each institution you have attended.
2. Complete the form below by listing the prerequisites you have already completed.
3. If you attended a semester* school, keep in mind:
 - a. OHSU converts semester to quarter credits by multiplying by 1.5 to obtain the transfer credit value.
 - b. For our science requirements, a **full course series** at a **semester-based school** may include **2 courses**, while the same series at a **quarter-based school** may include **3 courses**.

	Prerequisites	Course Name	Course #	Credits	Semester or Quarter	Letter Grade	School Name	Year
Lab Science (12 credits)	Any Chem + Lab <i>or</i> Bio + Lab							
	Any Chem + Lab <i>or</i> Bio + Lab							
	Any Chem + Lab <i>or</i> Bio + Lab							
Anatomy & Physiology (12 credits)	A&P 1							
	A&P 2							
	A&P 3							
General Physics (algebra based) (12 credits)	General Physics 1							
	General Physics 2							
	General Physics 3							
College Math	Precalculus I/ College Algebra							
	Precalculus II/ Trigonometry							
Other	Nutrition							
	Medical Terminology							

Prerequisite List for: Applicants with Bachelor's Degree (any major)

List Other Relevant (Science, Math) Courses:

Next Steps:

1. Send unofficial transcripts (in PDF format) and this completed document to: rttprogram@ohsu.edu
2. The RTT Program will review and follow up with you via email.

Commonly Asked Course Equivalent Questions:

1. ***What is the difference between a Semester and Quarter credit system?** Quarters (Fall, Winter, Spring, Summer) are generally 12 weeks. Semesters/Trimesters (Fall, Spring, Summer) are generally 16 weeks. Be sure to indicate whether each course was completed on a **semester** or **quarter** system. This helps us accurately evaluate your coursework. OHSU converts semester to quarter credits by multiplying by 1.5 to obtain the transfer credit value. **For the purpose of this form, please only list the exact credits you completed.**
2. **Can I complete either Chemistry or Biology for the lab science requirement?** We can accept a combination of chemistry and biology courses, so long as a laboratory component is included in each course. If you have not yet begun these classes, we recommend completing a full year-long sequence for continuity. The most common sequences are Allied Health Chemistry, or General Chemistry, or General Biology, or Principles of Biology.
3. **Does the Physics requirement have to be 200-level?** General Physics classes are usually offered at the 200-level at most quarter-based schools. If you are attending a semester-based school, General Physics may fall under a 100-level course. We can accept either.
4. **Do you accept calculus-based General Physics?** Yes, we can accept calculus-based physics. *Note: Because we only require precalculus mathematics, we only require algebra-based physics.*
5. **What if I placed into higher level math?** We accept calculus classes toward our math requirement.

Prerequisite List for: Applicants with Bachelor's Degree (any major)

6. **Can statistics satisfy the math requirement?** No, we cannot accept statistics toward our math requirement. OHSU requires a minimum of 3 credits of transcribed math coursework. The OHSU Radiation Therapy Program requires at minimum the equivalent of pre-calculus mathematics with trigonometry, or higher level math such as calculus.
