It's helpful when everyone (parents, caregivers, and other family members) are on the same page about your child's treatment plan. It can be challenging to move forward when some members disagree.

Join us to connect with other parents about:

- Making and sharing key health decisions
- Staying organized when medical information or treatment plans change
- Setting up a routine that works for everyone

As a thank you for participating, there will be a drawing at the end of the session.
