For families of pre-school or school age children with medical needs and the professionals who support them.

Shared Care: Teaming Up With Your School Nurse

Keeping our kids in school and healthy is the common goal. Join a panel of parents and school nurses, to talk about:

- What does an individual health plan look like?
- What steps parents can take to start a relationship with their student's school nurse?
- How can school nurses support students and families?

There will be a moderated question and answer session after the panel.
