

2026 Forum on Rural Population Health - Sponsorship Packet

Complete your sponsorship by [submitting the Sponsorship Form](#)

Please consider supporting the **2026 Forum on Rural Population Health**, an annual event dedicated to advancing the health and vitality of Oregon's rural communities. The Forum brings together health care professionals, community leaders and experts from across the health continuum to exchange knowledge, share proven strategies and explore innovative models that strengthen community well-being.

By sponsoring the Forum, you are investing in more than an event—you are helping to build a platform for collaboration, learning and meaningful progress. Your support makes it possible for rural hospitals, clinics, public health departments and community-based organizations to connect, gain new insights and develop solutions that address the unique health challenges faced by rural Oregonians.

Together, we can foster partnerships, inspire action and help create a healthier, more equitable future for every rural community across Oregon.

By sponsoring the Forum, you are helping to:

- Sustain the Forum's impact by supporting the cost of in-person gatherings, held every other year to strengthen connections across Oregon's rural health network;
- Provide scholarships for rural attendees, students and community partners who do not otherwise have the means to participate;
- Offset event expenses such as virtual platform hosting, speaker honoraria and technology to ensure accessible, high-quality programming;
- Expand access to knowledge by helping record and share Forum sessions, resources and outcomes with rural communities statewide;
- Foster collaboration and innovation by bringing together diverse voices—from health care providers to public health leaders and community organizations;
- Ensure equitable participation by reducing barriers for under-resourced and geographically isolated communities;
- Invest in Oregon's rural future by supporting the exchange of ideas that lead to stronger, healthier and more resilient communities; and
- Provide financial support for the [ORH Rural Population Health Incubator](#) grant program.

About the Oregon Office of Rural Health

The Oregon Office of Rural Health (ORH) is dedicated to improving the quality, accessibility and sustainability of health care for rural and underserved communities across Oregon. Established in 1979 and based at Oregon Health & Science University (OHSU), ORH serves as a statewide resource connecting rural providers, hospitals, public health departments, policymakers and community-based organizations.

ORH works to strengthen rural health systems through technical assistance, education, data and research, workforce recruitment and retention, and grant programs that support innovation and collaboration. By identifying community needs and sharing best practices, ORH helps ensure that all Oregonians—regardless of where they live—have access to the care, resources and opportunities they need to thrive.

Ready to sponsor the Forum? Simply submit the Sponsorship Form, and ORH will reach out to you soon.
