

OCTRI Today and Tomorrow: Increasing the statewide presence

DATE: May, 2025
Dr. Cynthia Morris

OREGON CLINICAL & TRANSLATIONAL
RESEARCH INSTITUTE

We are part of a national network of NIH-funded institutions – called hubs – working together to improve the translational research process to *get more treatments to more patients more quickly.*

CTSA=Clinical and Translational Science Award

OCTRI today
2006-2027

OCTRI tomorrow
May 2026 submission

We would like to
increase OCTRI's
statewide presence

OCTRI is infrastructure

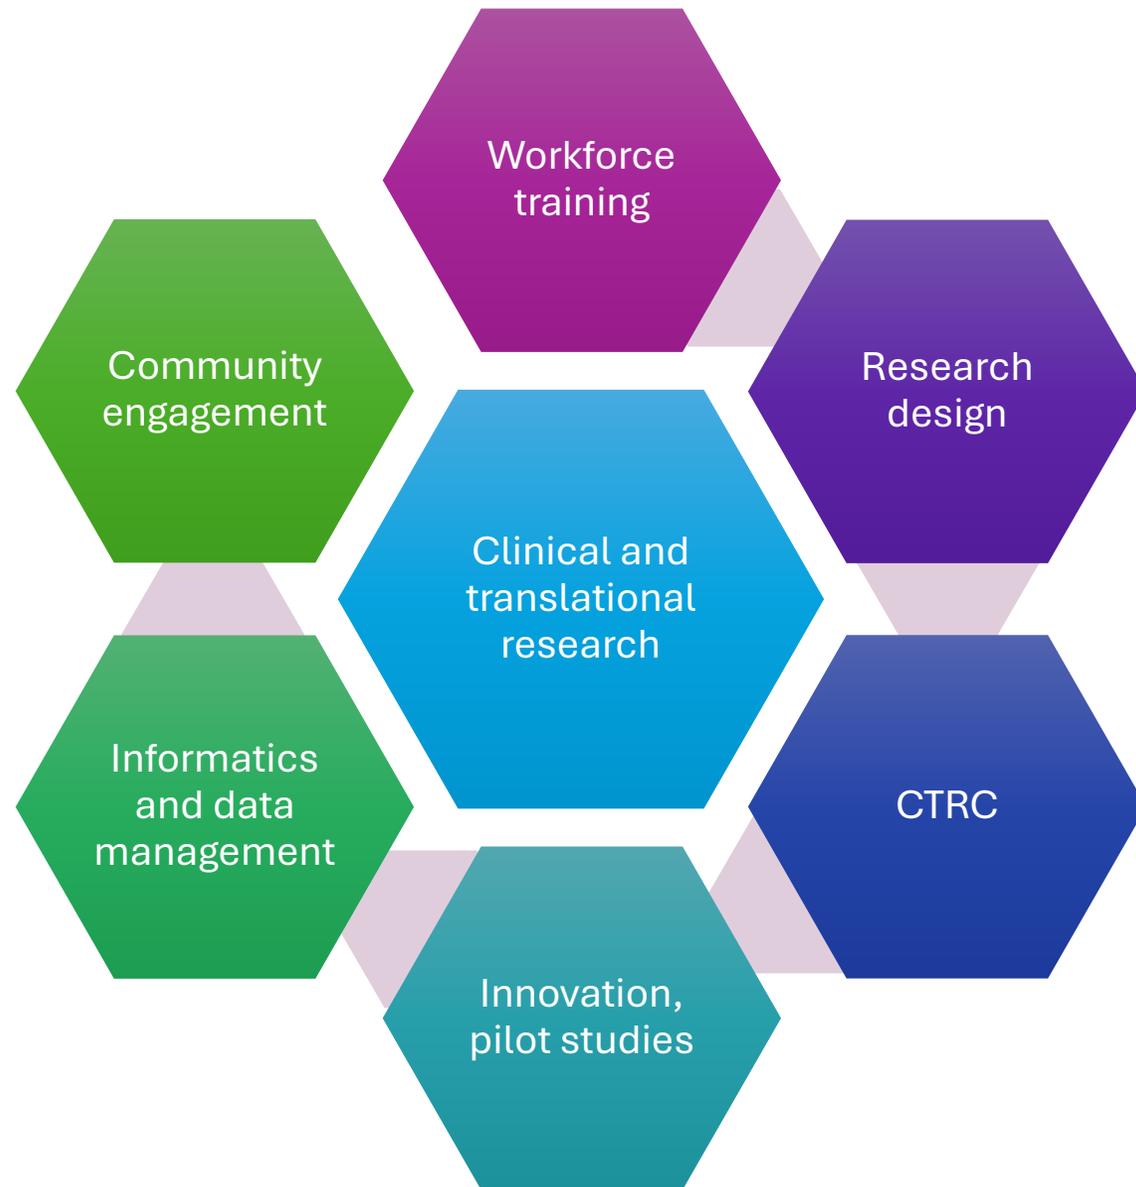

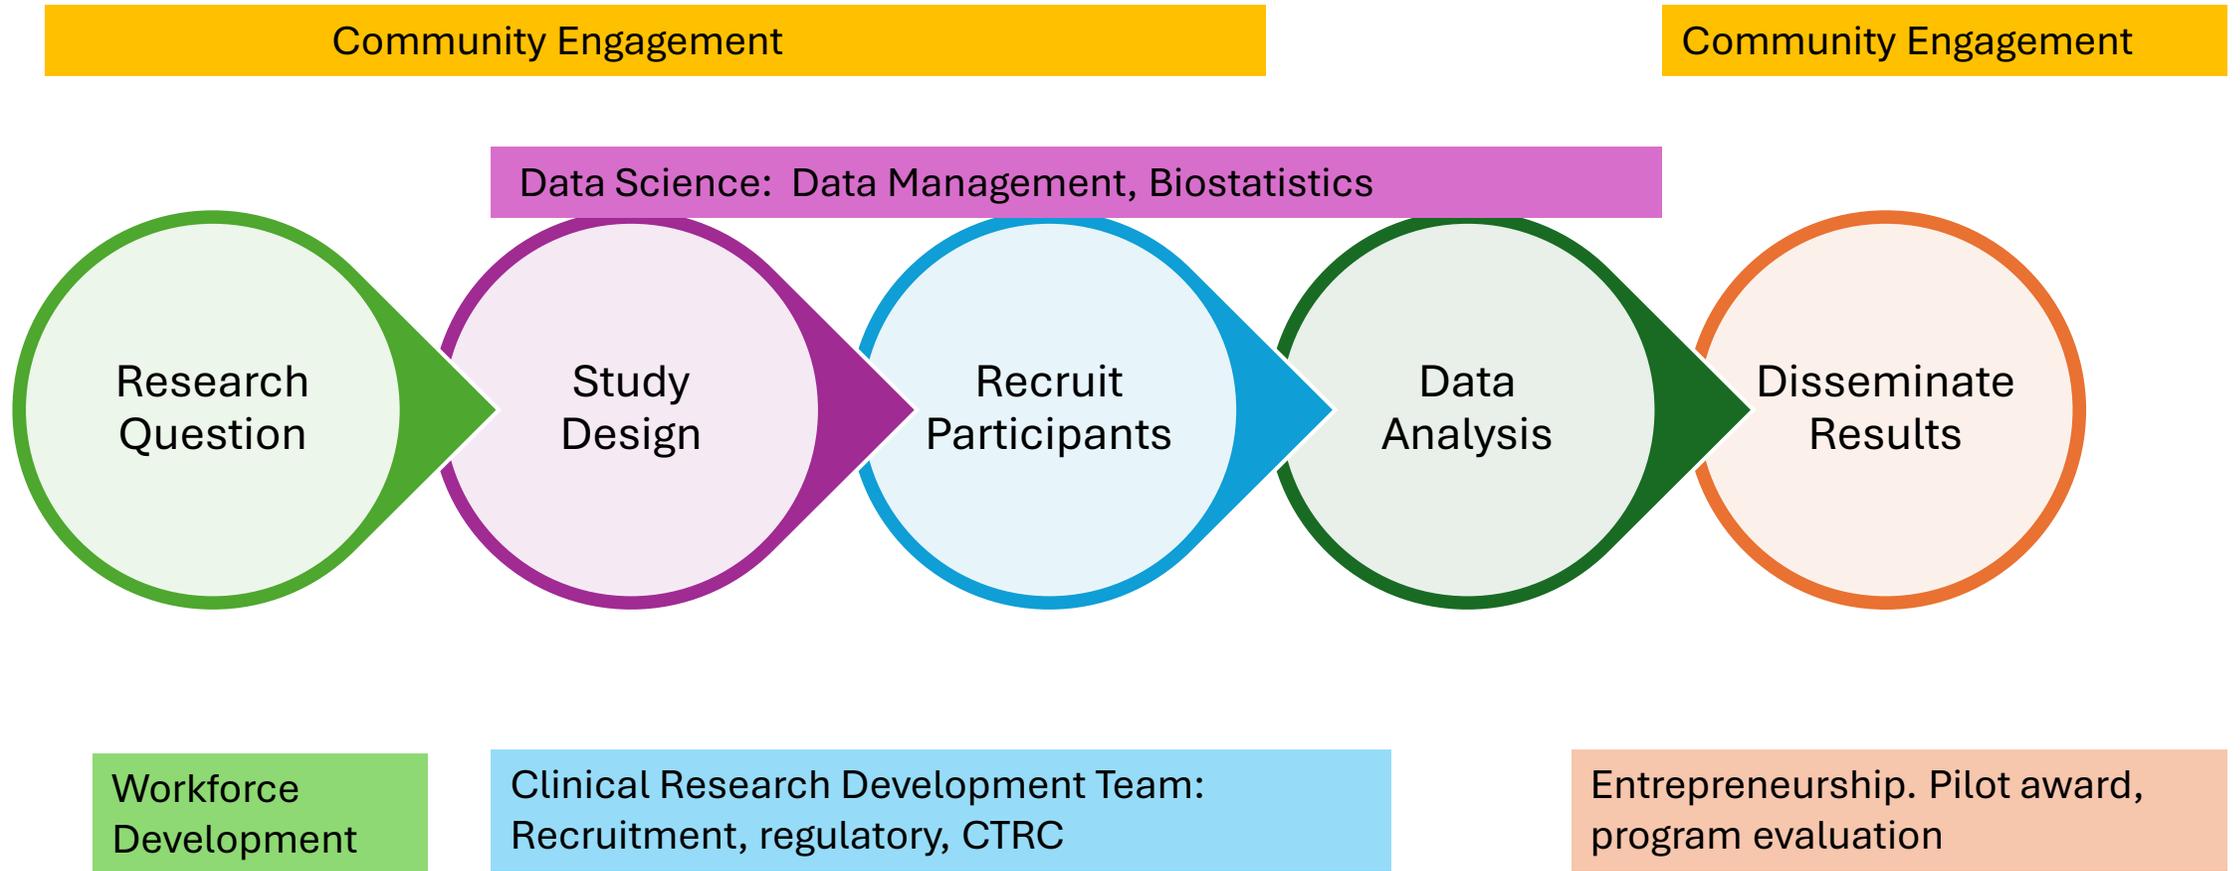

Oregon State
University

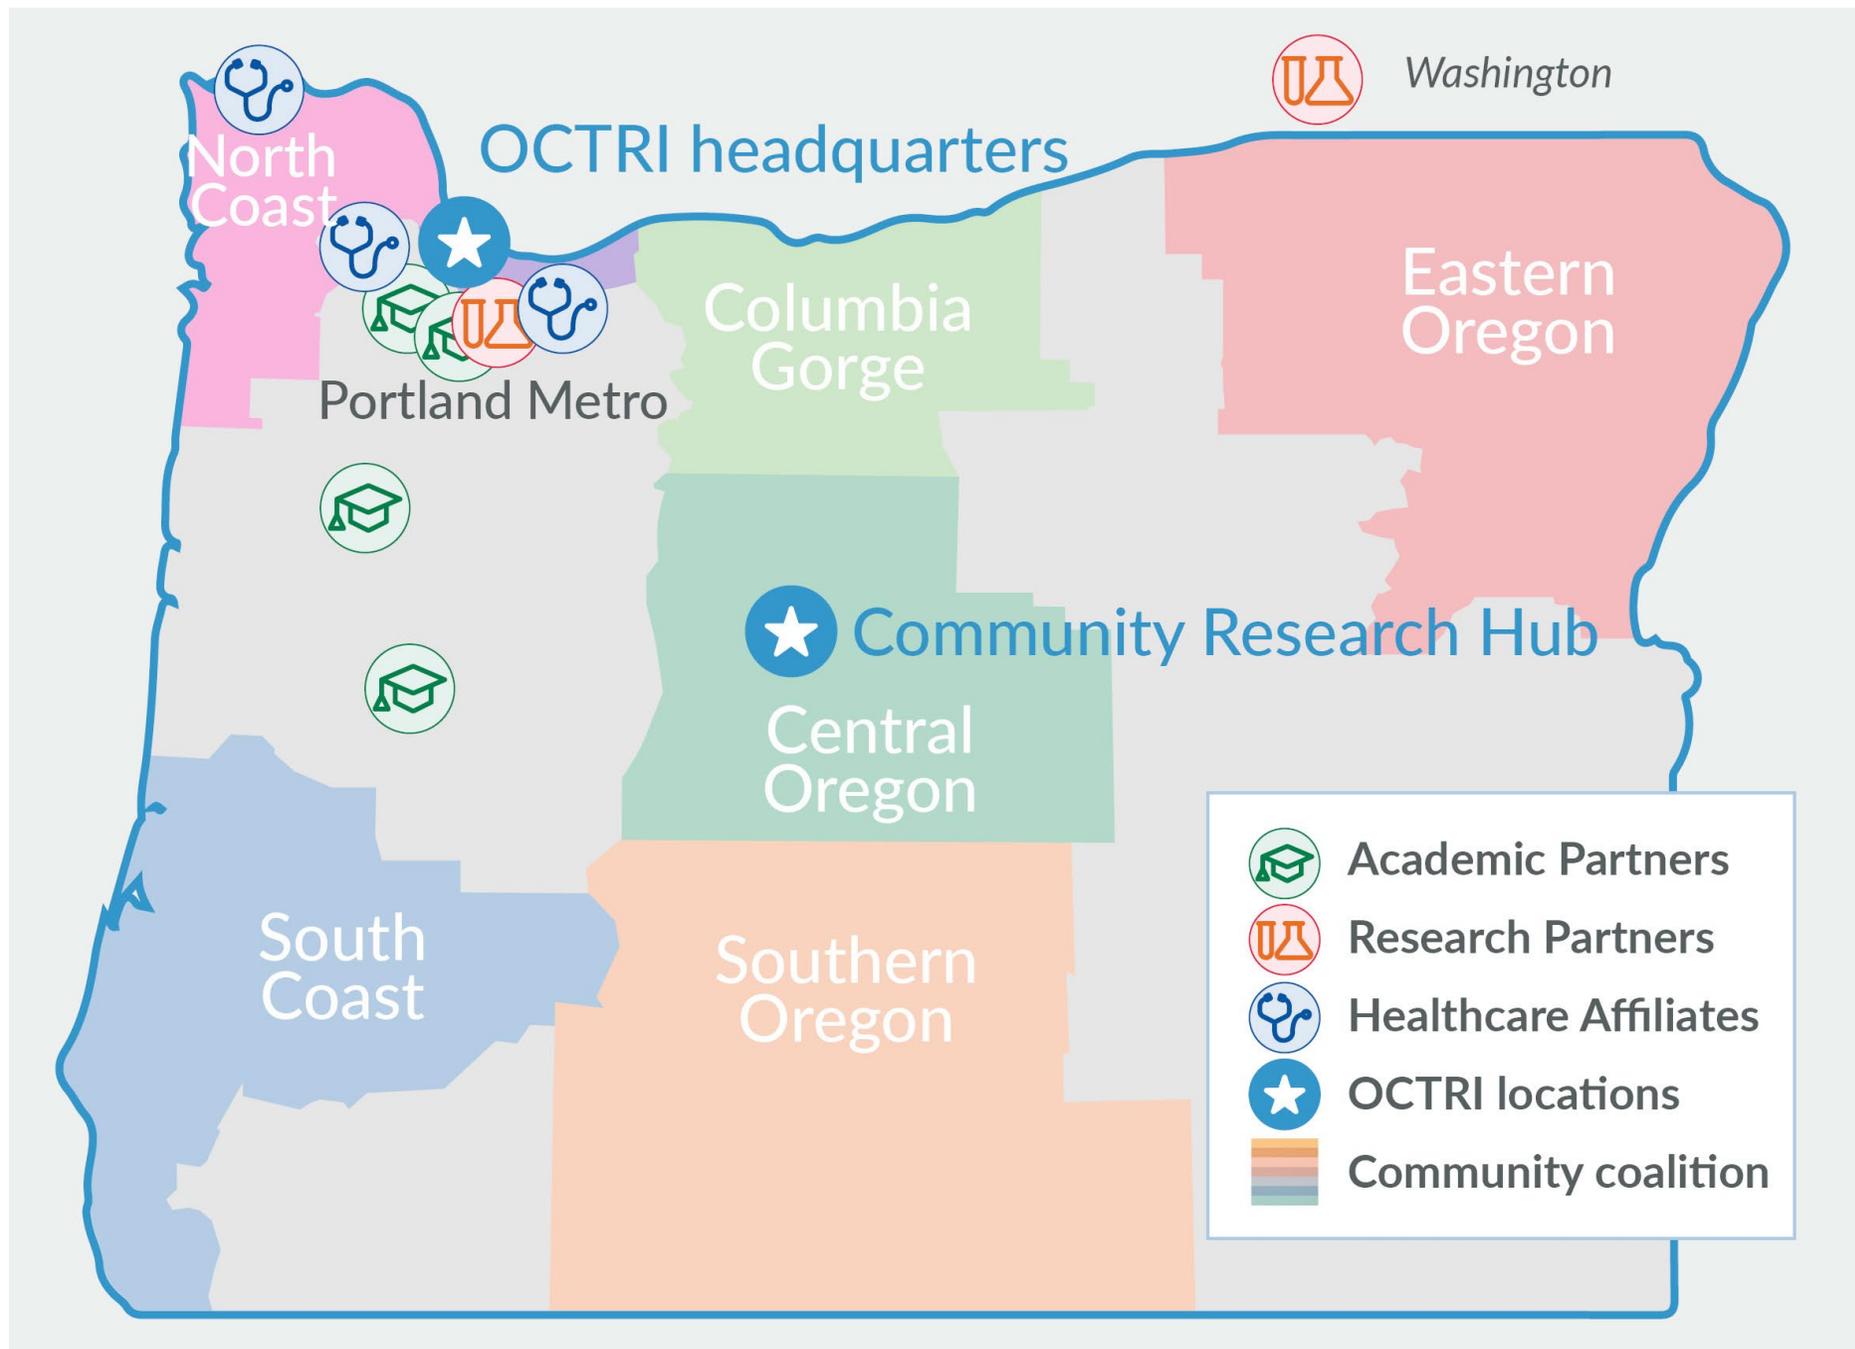

Portland State
UNIVERSITY

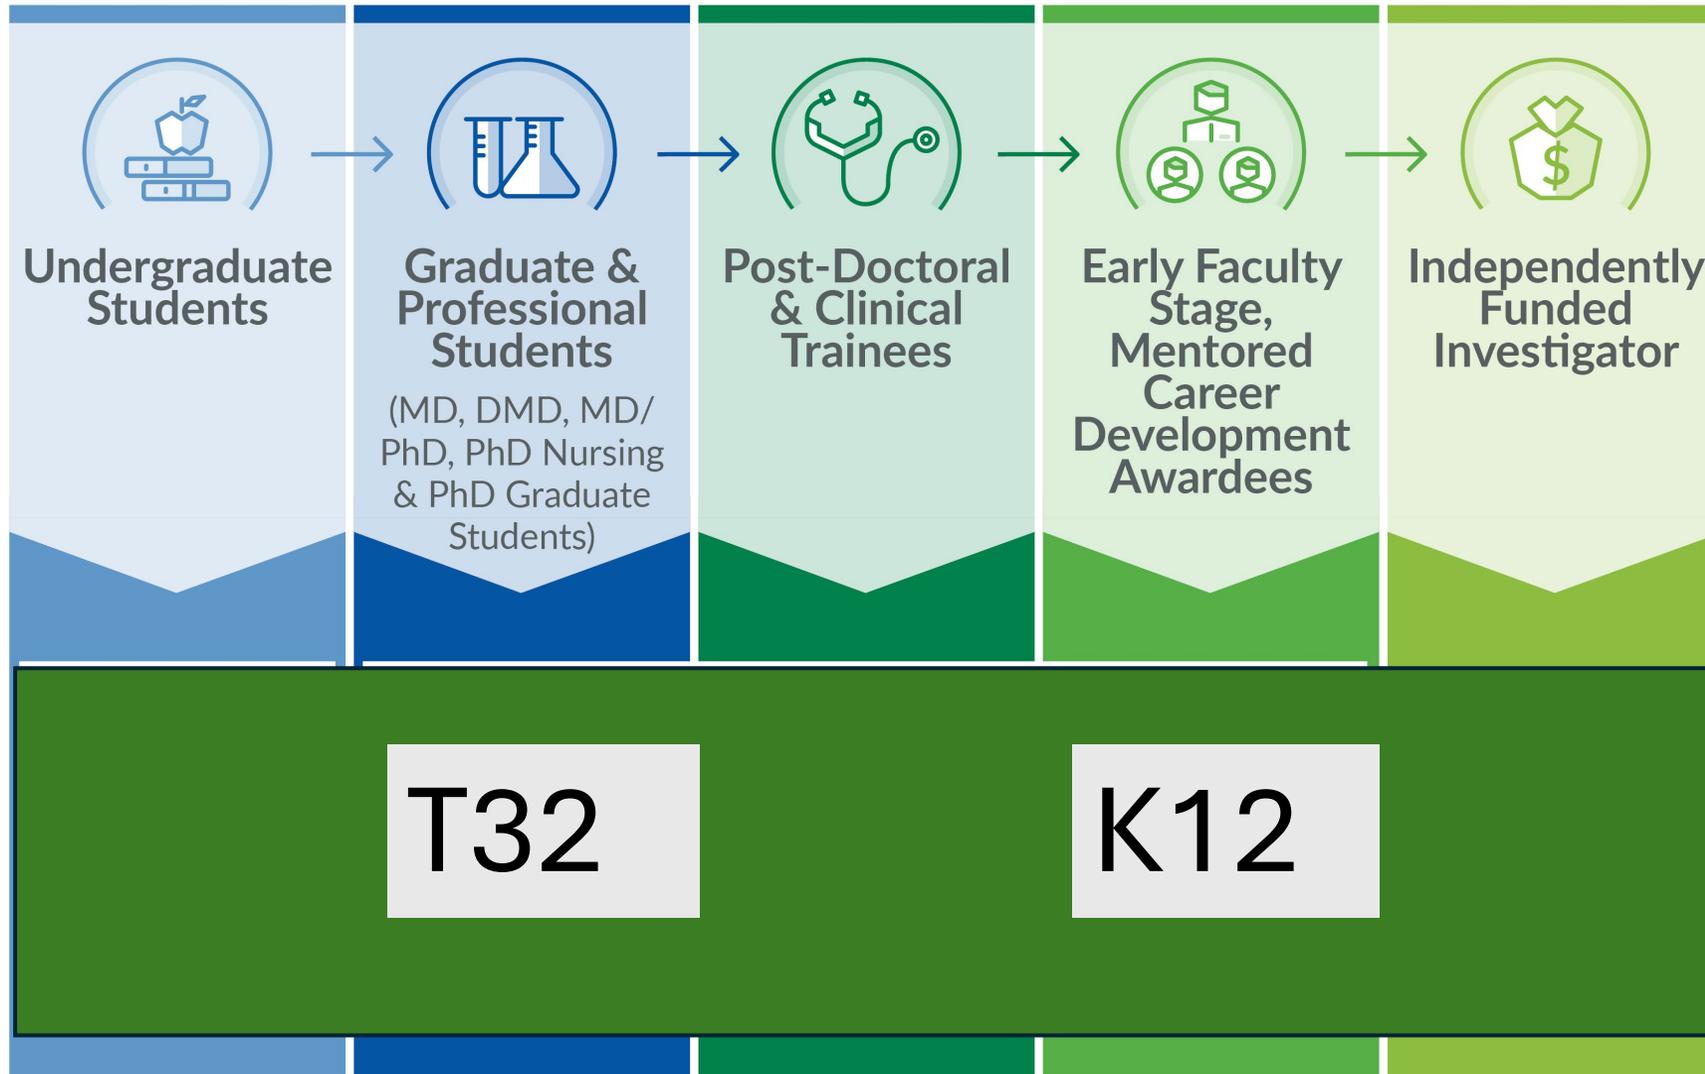

OCTRI builds research as a team

OCTRI
is in the
community

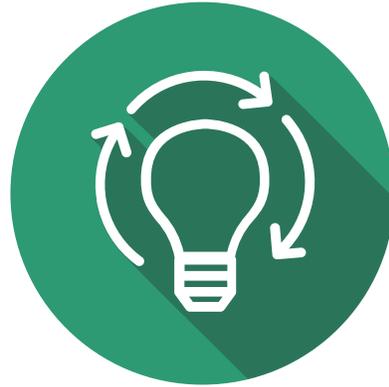

OCTRI develops the workforce

OCTRI innovates

**Intellectual Property Protection
and Transactions**

**Collaboration
Management**

Technology Funding

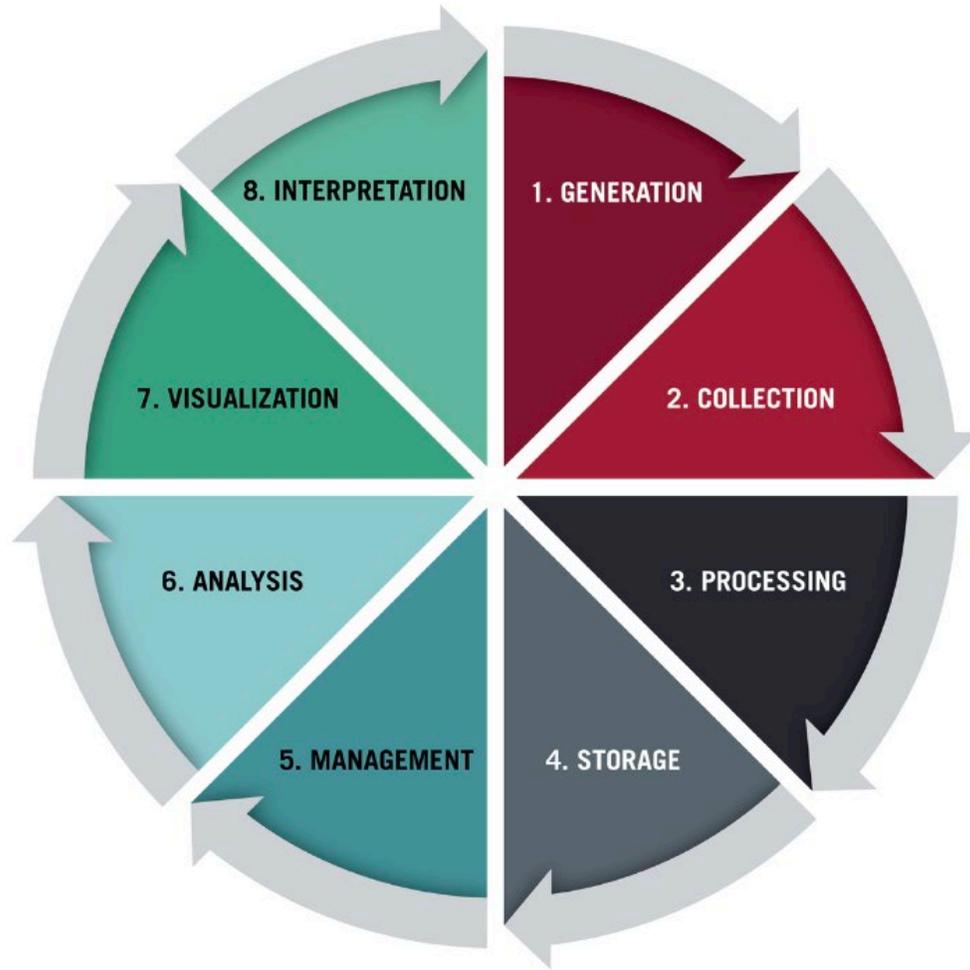

New Ventures

Entrepreneurial Education

OCTRI is data

- Solutions to store clinical research data
- To obtain and use real world data
- To develop custom solutions to collect data
- To display and analyze data

How can you help?

- We want to increase participation from UO, OSU, PSU
- We have had very strong participation in training
- More modest research collaboration
- We would like to increase support from research leadership
- We will appoint an ambassador at UO, OSU to help integration
- We want ideas! Joint pilot study between OHSU, UO and OSU, annual research retreat

Who to contact?
