BIOGRAPHIES FOR PRESS CONFERENCE PARTICIPANTS

Joe E. Robertson, M.D., M.B.A  President, Oregon Health & Science University

Joe E. Robertson, M.D., M.B.A., appointed OHSU's president in 2006, has led numerous initiatives aimed at providing improved health care access to Oregonians. Other professional interests include the development of healthcare delivery systems and the application of cost accounting principles to medical practice, with the goal of reducing expenses for care while enhancing patient outcomes. He began at OHSU as a resident in 1979 and held numerous posts, including director of the Casey Eye Institute, and most recently, dean of the School of Medicine. Robertson is an acclaimed surgeon and researcher who has participated in numerous clinical trials. His clinical focus is on vitreous surgery, with special emphasis on surgery for macular diseases. He received his medical degree from the Indiana University School of Medicine, Indianapolis, in 1978 and he received his business administration degree from the University of Oregon, in 1987. He is also a member of the American Academy of Ophthalmology, American Medical Association, American Society of Retina Specialists, and the International Society for Ocular Trauma.

Jeanette Mladenovic, M.D., M.B.A., M.A.C.P. Provost , Oregon Health & Science University

Jeanette Mladenovic, M.D., M.B.A., MACP, joined Oregon Health & Science University as executive vice president and provost in 2011. She has more than 25 years of experience in academic administration, having held positions as chair of the department of medicine, dean for education, faculty and hospital affiliations; and director of research education and career development. Mladenovic is an Alpha Omega Alpha graduate of the University of Washington School of Medicine, and trained in internal medicine and hematology/oncology at Johns Hopkins Hospital, Stanford University, and the University of Washington, where she also served as chief medical resident. For 18 years, her NIH-funded research lab studied hematopoietic stem cells. Nationally, she has served as a member of the board of directors of the American Board of Internal Medicine, having chaired its examination committees; the American Board of Medical Specialties; and the residency review committee of the Accreditation Council for Graduate Medical Education. She has held leadership roles in the American Society of Hematology and the Association of Professors of Medicine.
