All-City Palliative Care

The Medical Care Choice Model: Year 1 Evaluation Results

Dr. Teno will give an update of public release information of the year 1 evaluation of the Medical Care Choice Model and the implications as we transition from Fee-for-Service (FFS) to Value Based Care.

Joan Teno, MD, MS

Dr. Teno completed medical school at Hahnemann University in Philadelphia, her residency at Rhode Island Hospital and her Fellowship from Brown University. She also holds advanced degrees in Community Health with a specialty in Gerontology and Chronic Disease Epidemiology from Brown.

Dr. Teno has devoted her career to understanding how to measure and improve the quality of end of life care for vulnerable populations. She was the lead investigator in a research effort to create a Toolkit of Instruments to Measure Care at the End of Life (TIME). In this grant effort, she created the Brown University Family Evaluation of Hospice Care that was in part adapted into CAHPS Hospice Survey. She has led a state wide effort to improve pain management in nursing homes, for which she has received an award from the American Cancer Society. Dr. Teno has served on numerous advisory panels including the Institute of Medicine, World Health Organization and American Bar Association and as grant peer reviewer for the National Institutes of Health. She has been the recipient of funding from the National Institute of Health (NIH) and the Robert Wood Johnson Foundation. Dr. Teno's focus has been on measuring and evaluating interventions to improve the quality of medical care for seriously ill and dying patients. She has published over 200 research articles have been published in leading medical journals focusing on examining medical care for dying persons and frail persons residing in nursing homes.

In January 2018, Dr. Teno joined the division of general internal medicine & geriatrics at Oregon Health & Science University where she is expanding a program of research in the care of the seriously ill.
