Family Medicine
FAMP 730 Family Medicine Core Clinical Experience

**Course Purpose Statement:** The purpose of the Family Medicine core clinical experience is for students to learn how access, continuity, comprehensiveness, coordination, and context of care improves the health of individuals, families, and communities. Students will also learn about the patient centered medical home, population health and the role of the physician in health advocacy. Students will care for patients of all ages in a variety of settings, which may include ambulatory clinics, nursing facilities, hospitals, athletic training rooms, and urgent care.

**Required Prerequisite(s):** None

**FAMP 731A Family Medicine Continuity Core**

*Family Medicine*

**Course Purpose Statement:** The purpose of the Family Medicine Continuity Core clinical experience is to augment the Family Medicine Core experience with an additional four weeks in the same clinical environment to allow for an enhanced continuity experience. Working with their clinic, students tailor the experience to allow exploration of specific aspects of the field of Family Medicine in greater depth (for example additional adolescent, maternity, or geriatric care, inpatient, procedures, or sports medicine). Students will learn how access, continuity, comprehensiveness, coordination, and context of care improve the health of individuals, families, and communities. Students will also learn about the patient centered medical home, population health and the role of the physician in health advocacy and will complete a clinic-based project. Dedicated time is built in for project work and medical knowledge study. Students should approach this experience with flexibility of schedule and transportation as students will care for patients of all ages in a variety of settings, which may include ambulatory clinics, nursing facilities, hospitals, home visits, group visits, athletic training rooms, and urgent care. Students will simultaneously satisfy requirements for: Family Medicine core clinical experience and the continuity experience.

**Required Prerequisite(s):** None

**Duration:** Eight Weeks

**Site(s):** OHSU or community practice or rural site

**Grading Method:** 5-tiered Letter Grade

**Type:** Core

**Credit:** 12

**FAMP 731B Family Medicine Continuity Core - Rural Immersive**

*Family Medicine*

**Course Purpose Statement:** The Family Medicine Rural Immersive experience will allow students an opportunity to immerse themselves in, and to explore the career choice of, rural Family Medicine. Students will work with select FM rural preceptors for twelve consecutive weeks at one rural site. As student skills progress, a high level of autonomy is allowed and students care for the full spectrum of patients and participate in the multitude of procedures available to the field of Family Medicine. Students will be engaged with the community through work on a community project and dedicated time is incorporated to complete this work as well as medical knowledge study. Students who complete the Rural Immersive will gain a comprehensive understanding of Family Medicine in a rural context and will learn concepts in rural medicine, FM Core, and community health. Continuity concepts will span the twelve weeks. Students will simultaneously satisfy requirements for: Family Medicine core clinical experience, the rural experience, and the continuity experience.

**Required Prerequisite(s):** None

---

**Duration:** Twelve Weeks  
**Site(s):** Rural sites as approved by department of FM  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Rural Core  
**Credit:** 18  
**Available through the Lottery:** Yes

Core Clinical Experiences
Internal Medicine
IMED 730 Internal Medicine Core Clinical Experience

Course Purpose Statement: In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or dangerous conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope.

Required Prerequisite(s): None

Duration: Four Weeks

**IMED 731A Internal Medicine Continuity Core - Hospital-based**

*Internal Medicine*

**Course Purpose Statement:** In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or dangerous conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope. Students will develop a longitudinal relationship with key faculty, and focus on interdisciplinary care, evidence-based medicine, quality improvement and patient safety in the hospital setting. Safe transitions of care from the unit to home/ICU/skilled nursing will be an emphasis.

**Required Prerequisite(s):** None

**Duration:** Eight Weeks  
**Site(s):** Various  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Core  
**Credit:** 12

IMED 731B Internal Medicine Continuity Core - Inpatient/Ambulatory

Internal Medicine

Course Purpose Statement: The purpose of the Internal Medicine continuity core clinical experience is for students to develop clinical diagnosis, reasoning and communication skills in the care of adult patients with a wide range of acute and chronic, multi-organ system disease in both the ambulatory and hospital settings, with a focus on transitions of care. Students will have the opportunity to see post-hospitalization patients in clinic and to see hospitalized patients during their clinic weeks in order to better understand the patient context of complex transitions of care. They will work in an interdisciplinary team to better understand everyone’s role in both settings. Students will be able to use their knowledge and clinical reasoning skills to perform basic history and physical examinations, develop differential diagnoses, order and interpret diagnostic studies, and devise basic treatment plans.

As part of this clinical experience students will work one on one with outpatient attendings in a fast paced outpatient practice where they will further enhance their time management and agenda setting skills. In addition, students will experience full breadth and depth of the practice of general internal medicine.

Neurology
NEUR 730 Neurology Core Clinical Experience

Neurology

Course Purpose Statement: The purpose of the Neurology core clinical experience is for students to learn the principles and skills underlying the recognition and management of the neurologic diseases that a general medical practitioner is most likely to encounter in practice. These include acute and chronic diseases of the brain, spinal cord, peripheral nervous system, and muscles. Students will be able to perform a neurological history and examination across the developmental spectrum to create an ordered differential diagnosis and initial treatment plan. This includes the ability to interpret common neurological diagnostic testing, and apply basic neuroscience principles as they care for patients. Students will understand the role of a consultant in the care of patients with neurological disease in both inpatient and outpatient settings.

OBGY 731 Obstetrics and Gynecology Continuity Core

Obstetrics and Gynecology

Course Purpose Statement: The purpose of the Obstetrics and Gynecology Continuity Core clinical experience is to offer learning experiences that are relevant to a variety of future specialty choices. Students will develop a basic understanding of the care of pregnant women including prenatal care, labor and delivery, and postpartum care; and acquire a basic knowledge of gynecology including fertility and family planning. Students will learn to evaluate and manage obstetric and gynecologic conditions using medical and surgical treatments in both inpatient and outpatient settings. This clinical experience allows some individualization to be relevant for a variety of future specialty interests, including but not limited to pediatrics, family medicine, urology, internal medicine, and general surgery. These options may include: Mother Baby care, high risk obstetrics, prenatal diagnosis, NICU care, OB anesthesia, women’s imaging, cancer, chemotherapy, radiation therapy, family planning, abortion care, reproductive endocrinology and infertility, minimally invasive surgery, and adolescent medicine. The longer timeline of this rotation will promote increased opportunities for involvement in deliveries, office procedures, and surgeries.

Pediatrics
PEDI 730 Pediatrics Core Clinical Experience

Course Purpose Statement: The purpose of the Pediatric Core clinical experience is for students to learn the basics of history-taking, perform age-appropriate physical exams, and develop assessments and plans for infants, children and adolescents. Students will develop an understanding of the unique healthcare needs of pediatric patients. Students will identify age specific milestones in children and learn basic management of children with special healthcare needs. Students will be exposed to both general and specialty pediatric patients in inpatient and outpatient settings.

Psychiatry
**PSYC 730 Psychiatry Core Clinical Experience**

*Psychiatry*

**Course Purpose Statement:** The purpose of the Psychiatry Core clinical experience is for students entering any field of medicine to perform a thorough mental status evaluation, learn the basics of psychiatric disease and psychopathology, utilize appropriate psychopharmacology and perform a psychiatric risk assessment. Students will participate in the management of complex psychiatric patients. Students will work effectively within a multidisciplinary team, demonstrate appropriate management of boundaries with psychiatric patients and demonstrate professionalism in their interactions with patients, colleagues and staff. Students may see patients in both inpatient and outpatient settings.

Students will be assessed in the below competencies as well as those assessed in the Core experience corresponding to their RSP 731 primary care speciality.

Surgery
SURG 730 Surgery Core Clinical Experience

Course Purpose Statement: The purpose of the Surgery core clinical experience is for students to learn the principles of operative and perioperative management of surgical patients and to learn to recognize an acutely ill or injured patient. Students will be able to perform a surgical history and physical examination, and create an ordered differential diagnosis and initial treatment plan. Students will learn the basic principles of wound healing and management of chronic wounds. Students will participate in the care of patients in inpatient and outpatient setting, including the operating room where they will be able to demonstrate proper suturing and knot tying techniques.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Various
Grading Method: 5-tiered Letter Grade

Intersessions and Scholarly Project
INTS 770 Assessment
School of Medicine

Course Purpose Statement: Students will demonstrate their knowledge and understanding on established biomedical scientific and clinical science principles fundamental to the healthcare of patients and populations. The following seven Subject Examinations must be completed by week 2 of Summer 2 of year 3: Aquifer Family Medicine Assessment, Internal Medicine Shelf, Pediatrics Shelf, Psychiatry Shelf, Neurology Shelf, Obstetrics/Gynecology Shelf, and Surgery Shelf (all Shelf Exams administered through NBME except the Family Medicine Assessment which is through Aquifer). ALL exams are proctored on campus. ALL Exams are held on the Friday of the week you select. ALL Shelf Exams last 2 hours 45 minutes plus a 15 minute optional tutorial, totaling 3 hours and have 110 questions. The Family Medicine Shelf exams lasts 3 hours and has 100 questions (start times and exam duration for students with reasonable accommodations will vary. Please contact Leslie Haedinger (haedinger@ohsu.edu), Assessment Coordinator, for accommodation information).

Special Notes: Select dates indicated with an *, have both an AM and PM testing time. Students MUST take an AM exam to be eligible for a PM exam. Students may drop a testing intersession no later than Friday 2 weeks prior to the exam date after which they will not be allowed to drop without resulting in a “W” on their transcript

Required Prerequisite(s): None

Duration: One Week
Site(s): OHSU
Grading Method: Scaled Percentage Score and Pass/No Pass
Type: Shelf Exams
Credit: 1
Available through the Lottery: Yes

INTS 770 Policy: Adding/Dropping Testing Intersessions

Students may add an available testing intersessions to their schedule up to eight weeks prior to the start of the session. A student wishing to add testing intersession to their schedule with less than eight weeks’ notice will require the approval of the Assessment Coordinator.

Students may drop a testing intersession no later than Friday two weeks prior to the exam date after which they will not be allowed to drop without resulting in a “W” on their transcript.

Students who drop a testing intersession with less than eight weeks’ notice, will not be eligible to add clinical coursework. They may be eligible to register for Scholarly project work if they have submitted a proposal and it has been approved or Intersessions if space is available.

Students who do not meet the deadline (Week 2 of Summer 2 of third year) for completing all seven shelf exams may be subject to disciplinary action including a Professionalism Monitoring Form and amended language in the Medical Student Performance Evaluation (MSPE) stating (e.g., “Exam score unavailable and not completed by deadline”).
INTS 771 Cancer
School of Medicine

Course Purpose Statement: Students who complete this intersession will be able to integrate basic and clinical science knowledge and principles of health care delivery related to cancer and oncology. Students will begin by reviewing cases presented during the Foundation blocks, and any relevant cases encountered during their clinical experiences. In didactic sessions and small groups, they will examine recent literature to understand the mechanisms underlying development of cancer and its progression, including those mechanisms associated with cancer treatment and prevention. Several types of cancer will be explored, discussed and compared. Students will participate in a variety of activities in the OHSU clinical and scientific enterprise to support the application of knowledge to the delivery of health care for patients. This intersession will emphasize key basic science concepts of cancer and may build on some or all of the following threads: anatomy, embryology, histology, cell biology, genetics, biochemistry, nutrition, physiology, pathology, pharmacology, microbiology and immunology threads as well as communication, ethics, professionalism, epidemiology, bio statistics, informatics, evidence-based medicine, and health policy, quality and safety that were introduced during the Foundation of Medicine blocks.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): Various
Grading Method: Pass/No Pass
Type: Required Intersession

INTS 772 Cognitive Impairment

School of Medicine

Course Purpose Statement: Students who complete this intersession will be able to integrate basic and clinical science knowledge and principles of health care delivery related to cognitive impairment. Students will begin by reviewing cases presented during the Foundation blocks, and any relevant cases encountered during their clinical experiences. In didactic sessions and small groups, they will examine recent literature to understand the neuropathological mechanisms underlying development of cognitive impairment across the lifespan. Methods and tools to assess the degree of impairment and prognosis for recovery will be discussed. Impairments associated with different cognitive functions (e.g., memory, attention), will be explored, discussed and compared. Students will participate in a variety of activities in the OHSU clinical and scientific enterprise to support the application of knowledge to the delivery of health care for patients. This intersession will emphasize key basic science concepts of neural functioning and may build on some or all of the following threads: anatomy, embryology, histology, cell biology, genetics, biochemistry, nutrition, physiology, pathology, pharmacology, microbiology and immunology threads as well as communication, ethics, professionalism, epidemiology, bio statistics, informatics, evidence-based medicine, and health policy, quality and safety that were introduced during the Foundation of Medicine blocks.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): Various
Grading Method: Pass/No Pass
Type: Required Intersession
Credit: 2
Available through the Lottery: Yes

Intersessions and Scholarly Project
**INTS 773 Infection**  
*School of Medicine*

**Course Purpose Statement:** Students who complete this intersession will be able to integrate basic and clinical science knowledge and principles of health care delivery related to the transmission and development of infectious diseases. Students will begin by reviewing cases presented during the Foundation blocks, and any relevant cases encountered during their clinical experiences. In didactic sessions and small groups, they will examine recent literature to understand the mechanisms underlying development of infection and its progression, including those mechanisms associated with treatment. Several types of infection, including bacterial, viral and fungal will be explored, discussed and compared. Students will participate in a variety of activities in the OHSU clinical and scientific enterprise to support the application of knowledge to the delivery of health care for patients. This intersession will emphasize key basic science concepts of infection and may build on some or all of the following threads: anatomy, embryology, histology, cell biology, genetics, biochemistry, nutrition, physiology, pathology, pharmacology, microbiology and immunology threads as well as communication, ethics, professionalism, epidemiology, bio statistics, informatics, evidence-based medicine, and health policy, quality and safety that were introduced during the Foundation of Medicine blocks.

**NEPH 771 Nephrology Intersession**

*Internal Medicine*

**Course Purpose Statement:** The Nephrology Intersession is a two week elective course and will provide interested students with an opportunity to more deeply engage with the basic and clinical science required for the care and treatment of patients with kidney disease and diseases associated with fluid and electrolyte imbalances or hypertension. The structure of the course will involve both case-based foundational knowledge review and clinical rotations. Week 1: Basic science and clinical pathophysiology review delivered via pre-assigned independent reading, didactics, and small group discussion of cases. Week 2: Clinical applications with opportunities to participate on the Renal Consult, ESRD, or Renal Transplant services.

**Required Prerequisite(s):** Successful completion of USMLE Step 1

*Course Director will not waive prerequisites for this course.*

**Duration:** Two Weeks  
**Site(s):** OHSU/VAMC  
**Grading Method:** Pass/No Pass  
**Type:** Elective Intersession  
**Credit:** 2  
**Available through the Lottery:** Yes

**SCHI 702 Scholarly Project**

*School of Medicine*

**Course Purpose Statement:** Scholarly Projects is an in-depth investigation of topics of interest to medical students during the course of their undergraduate medical education (UME) experiences with the goal of creating critical thinkers and lifelong learners. Students who complete Scholarly Projects will be able to think critically about complex clinical problems; expand beyond the established curriculum to investigate topics and problems in more depth; identify, define, and answer important questions relevant to clinical practice and healthcare delivery; and work effectively within a learning community. Students will also understand and apply principles of professionalism, ethics, communication, and collaboration while pursuing their projects.

**Special Notes:** Cannot co-enroll with any required courses (except for testing intersessions) including: 7 cores, 4 intersessions (cancer, cognitive, pain, infection), any of the 2 transition courses, any 4-week electives that are 6 or more credits, two 2-week electives that are 3 or more credits per block.

**Required Prerequisite(s):** Introduction to Scholarly Projects (SCHI 701 in Year 1), a signed mentor agreement form, and a non-hypothetical proposal that is signed by both the mentor and concentration lead.

Faculty concentration lead must approve enrollment in SCHI 702 post-Capstone (SCHI 703.) Send written approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu/seymore@ohsu.edu to be enrolled.

**Duration:** four weeks  
**Site(s):** OHSU  
**Grading Method:** Pass/No Pass  
**Type:** Scholarly Project  
**Credit:** Variable per block enrollment  
**Available through the Lottery:** No

intersessions and scholarly project
SCHI 703 Scholarly Project Capstone

School of Medicine

Course Purpose Statement: The annual Capstone event provides an opportunity for students to present their Scholarly Projects to the university community.

Special Notes: Must complete project work by the end of the term prior to the Capstone event in which the student plans to participate. Capstone is a graduation requirement.

Required for Graduation. All six weeks of SCHI 702 must be completed prior to the capstone event.

Required Prerequisite(s): SCHI 701, SCHI 702

MD/MPH and MD/PhD students and students in the 1-year physician-scientist track who matriculated in 2014 or later must participate in the Capstone event prior to graduation, but are exempt from completing SCHI 701 and SCHI 702.

Duration: Winter term
Site(s): OHSU-RLSB
Grading Method: Pass/No Pass
Type: Scholarly Project
Credit: 1
Available through the Lottery: No

Elective Experiences
Anesthesiology & Perioperative Medicine
ANST 701A Anesthesiology Research

Anesthesiology & Perioperative Medicine

**Course Purpose Statement:** The Research Elective Request form must be signed off by the faculty member, department clerkship coordinator and the Curriculum and Student Affairs office prior to starting. Students may arrange for laboratory or a clinical research experience in anesthesiology, primarily in the pulmonary and cardiovascular physiology or pain management. Times of year and durations of research electives are flexible and will be determined by the time schedules of students and mentors; however, students should plan on spending a minimum of 4 weeks on a project. The research elective is intended for students who think they might be interested in pursuing a career in academic anesthesiology who would like more experience with the scientific process. Please refer to the department website (www.ohsu.edu/anesth) “Research” for topics and mentors. Students must obtain departmental approval to enroll in this course. Complete the Research Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’

**Required Prerequisite(s):** Departmental approval and completed Research Elective Request Form

*Course Director will not waive prerequisites for this course.*

ANST 709A Anesthesiology
Anesthesiology & Perioperative Medicine

Course Purpose Statement: Students receive supervised instruction and gain experience with the clinical aspects of anesthesiology by working in the operating room with either a faculty physician or both a faculty physician and an anesthesiology resident. The course emphasizes: 1) perioperative patient care with a focus on intraoperative anesthetic and non-operative pain management, 2) using scientific principles and practices of anesthesiology to develop individual patient plans, and 3) developing technical skills involved with airway management, tracheal intubation, and IV infusion therapy. This elective requires weekly written assignments and a final exam, submitted through Sakai.

Required Prerequisite(s): None
Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

ANST 709D Anesthesiology ICU
Anesthesiology & Perioperative Medicine

Course Purpose Statement: Students receive supervised instruction in components of critical care medicine specific to post-operative care of surgical and cardiac and thoracic patients. The rotation emphasizes: 1) airway management, 2) circulatory support, 3) metabolic demands, 4) infection prevention in critically ill patients. This will emphasize the physiological changes that occur in our post-operative patients and give the students good understanding of said applied physiology. The medical student will be expected to review and present patients on a daily basis, make up a sound, evidence-based plan on care, and work with the ICU team to implement the care of patients currently in the ICU. The student is expected to be prepared to start team ICU rounds at 0800, and to participate in patient care until dismissed by the attending or fellow after afternoon sign out. The student is expected to come in to round, including both weekday and weekend days, following the below schedule.

- Week 1: Monday through Friday
- Week 2: Sunday through Thursday
- Week 3: Monday through Saturday
- Week 4: Monday through Friday

Required Prerequisite(s): SURG 730 and IMED 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 6
Available through the Lottery: Yes

ANST 709E Global Anesthesia
Anesthesiology & Perioperative Medicine

Course Purpose Statement: One MS4 each year is offered the opportunity to travel to an underserved international community and do anesthesia along with an OHSU faculty. The purpose of the elective is to learn about some of the issues and barriers to global health in general, and global anesthesia specifically. There are typically several available trips per year, so the selected student can choose among them for a date range that fits with their schedule and a country/culture in which they are interested. This opportunity is funded by a fellowship created by retired physicians John and Betty Thompson, and requires attending a pre- and post-dinner, as well as keeping a journal during the trip. Students must submit a CV and statement of interest to Dr. Dawn Dillman by May 15th of their MS3 year, and will be notified by May 31st.

If there is a travel warning, we will not be offering this elective.

(http://travel.state.gov/content/passports/english/alertswarnings.html)

Department approval is required for this elective. It will not be available for registration through the lottery. Please follow the directions above to apply. If approved for this elective, please forward your approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu.

Required Prerequisite(s): Application to program and instructor consent

Course Director will not waive prerequisites for this course.

Duration: Two Weeks

**ANST 709H Anesthesiology • PeaceHealth Sacred Heart**

**Anesthesiology & Perioperative Medicine**

**Course Purpose Statement:** Students receive supervised instruction and gain experience with the clinical aspects of anesthesiology by working in the operating room with either an attending faculty physician. This elective requires weekly written assignments and a final exam, submitted through Sakai. The course emphasizes: 1) perioperative patient care with a focus on intraoperative anesthetic and non-operative pain management, 2) using scientific principles and practices of anesthesiology to develop individual patient plans, and 3) developing technical skills involved with airway management, tracheal intubation, and IV infusion therapy. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

**Required Prerequisite(s):** Site approval

ANST 709N Neuroscience Critical Care
Anesthesiology & Perioperative Medicine

Course Purpose Statement: The medical student is expected to attend all activities in the Neurosciences Critical Care Unit (NSICU) during this rotation. Rounds are structured toward active participation with distinct roles for each member of the team (attending, fellow, resident, nurses, pharmacist, and social worker). Detailed critical care rounds occur with a "systems-approach" to each patient and special emphasis is laid on bedside teaching as it pertains directly to patient care. Multiple goal-directed rounds occur through the course of the day (Combined Neurosurgical rounds, Critical Care rounds, Radiology rounds, Evening rounds). The expectation is to provide exposure to a few procedures during this rotation. These procedures would include lumbar puncture, intubation, and arterial and central venous line placements. Medical students are expected to keep an ongoing log of procedures that they have observed over the course of their training. Medical students are expected to participate actively in patient care and under the direction of housestaff, fellows and attendings in the NSICU. Overnight call will be required once weekly.

Required Prerequisite(s): SURG 730 and IMED 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

ANST 709SC Anesthesiology - St. Charles Bend

Anesthesiology & Perioperative Medicine

**Course Purpose Statement:** Students receive supervised instruction and gain experience with the clinical aspects of anesthesiology by working in the operating room with either an attending physician. This elective requires weekly written assignments and a final exam, submitted through Sakai. The course emphasizes: 1) perioperative patient care with a focus on intraoperative anesthetic and non-operative pain management, 2) using scientific principles and practices of anesthesiology to develop individual patient plans, and 3) developing technical skills involved with airway management, tracheal intubation, and IV infusion therapy. Students will be expected to attend weekly Grand Rounds, clinical conferences, and other continuing medical education activities as assigned by their attending. St. Charles Bend is located in Bend, OR, approximately 160 miles southeast of the main OHSU campus. St. Charles (Bend) is designated as a Level II Trauma Center by the Oregon Public Health Division. Bend is the only Level II Trauma Center east of the Cascades. St. Charles (Redmond) is a certified Level III Trauma Center. Pioneer Memorial Hospital (Prineville) is a Level IV Trauma Center.

Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) your name, which class (i.e., MED19, MED18), elective course number and name, your top three choices of block dates (for example, 1st choice: Winter 3, 2017, 2nd choice: Spring 1, 2017, 3rd choice: Summer 1, 2017), whether or not you will have met all prerequisites, and whether or not you need housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu. Generate one email per course. You must be in good academic standing in order to take this elective.

Dermatology

Course Purpose Statement: This general elective is intended for those students pursuing primary care or non-dermatologic subspecialties who are interested in learning the basics of Dermatology. Students are exposed to the breadth of Dermatology and spend the majority of their time in the busy OHSU and VA faculty clinics. Clinics are also held at the OHSU Lake Oswego and Beaverton Clinics, and students may be expected to travel to these sites which are approximately within 10 miles of the main OHSU campus. Rotations on the inpatient consultation service, dermatologic surgery (including exposure to the Mohs procedure) and dermatopathology are also provided. Attendance at weekly departmental Grand Rounds, educational conferences, and student-directed didactic sessions is required. Evaluation is based on clinical interactions, a written examination and an oral presentation required at the end of the rotation which is given to the course director and residents. There is no overnight or weekend call.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): OHSU; VA; DCH; Portland area satellite clinics

Elective Experiences
DERM 709C Subspecialty Dermatology

Dermatology

Course Purpose Statement: This advanced elective is intended for those students interested in pursuing a career in Dermatology. Students spend much of their time in the OHSU faculty clinics focused on subspecialty areas of Dermatology including psoriasis, atopic dermatitis, contact dermatitis, pediatric dermatology, autoimmune dermatology and Mohs surgery. Experience in the Dermatology VA clinics and Dermatopathology may also be provided. Clinics are also held at the OHSU Lake Oswego and Beaverton Clinics, and students may be expected to travel to these sites which are approximately within 10 miles of the main OHSU campus. Students will interact with a variety of faculty to ensure exposure to both common and uncommon dermatological problems. Attendance at weekly departmental Grand Rounds and educational conferences is required. Evaluation is based on clinical interactions, a written examination and an oral presentation required at the end of the rotation to the course director and residents. There is no weekend or overnight call.

Required Prerequisite(s): DERM 709A

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

**Course Purpose Statement:** The purpose of the Eugene Dermatology elective is for Students to gain experience and proficiency in the care of patients with a wide range of dermatologic diseases. Students will learn basic clinical dermatology with an emphasis on mastering standard terminology, common dermatologic diseases and common procedures. Students will assist with and perform KOH slide preparations, biopsies, and excisions. Students will see patients in both a private office and a multidisciplinary clinic, while working under the supervision of an attending dermatologist. Students will also have exposure to dermatopathology and Mohs surgery. Students will contribute to a monthly clinical case conference. Students participating in rotations in this community will work one on one with their attending with increased autonomy. Students participating in rotations in this community will work one on one with their attending physician with increased autonomy. There are no residents practicing at these hospitals or community clinics.

Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you.

**Required Prerequisite(s):** Site approval

DERM 709SC Dermatology - St. Charles Bend
School of Medicine

Course Purpose Statement: The purpose of the Bend Dermatology elective is for students to gain experience and proficiency in the care of patients with a wide range of dermatological diseases. Students will learn basic clinical dermatology with an emphasis on mastering standard terminology and common procedures. Students will perform KOH slide preparations, biopsies, and excisions. Students will see patients in both the office and a multidisciplinary clinic, while working under the supervision of an attending dermatologist. Students will attend weekly Grand Rounds and contribute to a clinical case conference. Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) your name, which class (i.e., MED19, MED18), elective course number and name, your top three choices of block dates (for example, 1st choice: Winter 3, 2017, 2nd choice: Spring 1, 2017, 3rd choice: Summer 1, 2017), whether or not you will have met all prereq, and whether or not you need a housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu. Generate one email per one course. You must be in good academic standing in order to take this elective.

DERM 710A Clinical Dermatology

Dermatology

Course Purpose Statement: This general elective is intended for those students pursuing primary care or non-dermatologic subspecialties who are interested in learning the basics of Dermatology. Students are exposed to the breadth of Dermatology and spend the majority of their time in the busy OHSU and VA faculty clinics. Clinics are also held at the OHSU Lake Oswego and Beaverton Clinics, and students may be expected to travel to these sites which are approximately within 10 miles of the main OHSU campus. Rotations on the inpatient consultation service, dermatologic surgery (including exposure to the Mohs procedure) and dermatopathology are also provided. Attendance at weekly departmental Grand Rounds, educational conferences, and student-directed didactic sessions is required. Evaluation is based on clinical interactions, a written examination and an oral presentation required at the end of the rotation which is given to the course director and residents. There is no overnight or weekend call.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): OHSU; VA; DCH; Portland area satellite clinics
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 2
Available through the Lottery: No

DERM 710B Dermatopathology

Dermatology

Course Purpose Statement: Students on this elective gain experience in the microscopic diagnosis of skin disease. Students work closely with both dermatology and pathology residents, and participate in daily sign-outs of cases with the faculty dermatopathologist at the microscope. Students attend all departmental educational conferences, Grand Rounds and weekly didactics alongside the students in Derm 709A.

Note that this is a half-time elective (24 hours workload per week).

Elective Experiences
**DERM 741X Dermatology Special Elective - Continuity**

**Dermatology**

**Course Purpose Statement:** This special elective is intended for the student perusing primary care who is interested in learning the basics of dermatological care across the lifespan. The student will be exposed to the breadth of dermatology and spend the majority of his/her time in the OHSU and VA faculty clinics. The student will focus on topics including psoriasis, atopic dermatitis, contact dermatitis, pediatric dermatology autoimmune dermatology, skin cancer and Mohs surgery. Rotations on the inpatient consultation service, dermatologic surgery and dermatopathology are also provided. Students will interact with a variety of faculty to ensure exposure to both common and uncommon dermatological problems. By the conclusion of the rotation, students will have mastered standard terminology and be able to perform common procedures, including biopsies and excisions. Attendance at weekly departmental Grand Rounds, educational conferences, and student-directed didactic sessions is required. There is no overnight or weekend call.

**Required Prerequisite(s):**

**Duration:** Eight Weeks  
**Site(s):** OHSU; VA  
**Grading Method:** Pass/No Pass

Diagnostic Radiology
RADD 701A Diagnostic Radiology Research

Diagnostic Radiology

Course Purpose Statement: Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any area of Diagnostic Radiology. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting. Students must obtain departmental approval to enroll on this course.

Students must obtain departmental approval to enroll in this course. Complete the Research Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’.

Required Prerequisite(s): Departmental approval and completed Research Elective Request Form.

RADD 709A Diagnostic Radiology - General

Diagnostic Radiology

Course Purpose Statement: This elective includes 12 hours per week didactic instruction in film reading and appropriate radiologic procedures in patient work-up. Students are expected to attend daily conferences, and spend time on rotations in Chest, Bone, CT, Neuroradiology. Students will also choose a topic of their own interest on which they will prepare a presentation that will be presented at the end of the elective.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

RADD 709F Multidisciplinary Approach to Pulmonary Disease

Diagnostic Radiology

Course Purpose Statement: This organ-based four-week elective is targeted to advanced level medical students interested in a comprehensive multidisciplinary learning experience focusing on pulmonary diseases. Trainees will spend time in multiple clinical specialties including pulmonary medicine, pulmonary (non-cardiac) surgery, pulmonary medical and radiation oncology, pulmonary pathology and chest radiology and actively participate in the weekly OHSU Multidisciplinary Lung Cancer Clinic. This course will combine a traditional clinical experience at multiple sites including OHSU, VAH, and Adventist Medical Center with exposure to a rich array of electronic resources. This format will provide a more flexible approach to learning.

Required Prerequisite(s): IMED 730

Course Director will not waive prerequisites for this course.

Emergency Medicine
EMED 709A Sub-I/Clerkship in Emergency Medicine - OHSU

Emergency Medicine

Course Purpose Statement: This sub-internship/clerkship elective provides students with an introduction to all aspects of Emergency Medicine. Students participate in the daily care of emergency patients with attending staff and residents, attend the departmental conference, and attend weekly lectures covering a broad range of topics in Emergency Medicine. An introduction to pre-hospital care and toxicology will also be included. Students will be assigned shifts at OHSU and DCH.

Required Prerequisite(s): Either FAMP 730 or IMED 730 as well as either SURG 730 or OBGY 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Four Weeks
Site(s): OHSU; DCH

EMED 709F Emergency Ultrasound

Emergency Medicine

Course Purpose Statement: This 2 week hands-on rotation will serve as an introduction to emergency bedside ultrasound (US). Rotating students will be introduced to the core Emergency Medicine applications of bedside US (FAST, Cardiac, RUQ, Renal, DVT, Thoracic, Pregnancy and procedures) and will receive training in general ultrasound physics and principles as well as image acquisition and interpretation. Students will be expected to demonstrate competency in all three areas by the end of the rotation. The skills gained during the rotation will be applicable not just in the Emergency Department but in other fields utilizing bedside US. Rotation Guidelines and Curriculum: The rotation consists of three components: formal didactics, clinical time and self-study. Clinical Time: Will consist of 6-8 hour supervised scanning shifts in the ED. Students will be expected to complete 4 shifts per week in order to perform 75 ultrasounds by the end of the rotation. During scanning shifts, students will be supervised by the current ultrasound fellow and the fellowship director as well as other Emergency Department faculty and residents. Didactics: Didactics will take place in the form of weekly lectures covering the basic principles and applications of emergency ultrasound. In addition, students will participate in weekly QA and review processes that will allow for additional instruction and also serve as a way of assessing students’ progress. Self-Study: Students will be expected to complete assigned readings in Emergency Ultrasound Textbooks and to review instructional DVD. Students will also be expected to give a 15 minute presentation on a topic of their choice. Evaluation: Rotation will be graded on a pass/fail basis and grades will be determined by performance on all aspects of the rotation.

Required Prerequisite(s): Either FAMP 730 or IMED 730 as well as either SURG 730 or OBGY 730

Duration: Two Weeks
Site(s): OHSU

EMED 709H Emergency Medicine • PeaceHealth Sacred Heart

*Emergency Medicine*

**Course Purpose Statement:** Students will be assigned shifts in the Emergency Departments at Sacred Heart Medical Center at RiverBend, a 432 bed quaternary care, Level II trauma facility, and at University District offering students an excellent educational and clinical experience. You will have an introduction to all aspects of Emergency Medicine; working one-on-one with Board certified Emergency Medicine physicians. Students participate in the daily care of emergency patients with attending staff and attend weekly lectures covering a broad range of topics in Emergency Medicine. An introduction to pre-hospital care and toxicology will also be included. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

**Required Prerequisite(s):** None

**Duration:** Four Weeks

**Site(s):** PeaceHealth Sacred Heart Medical Center, Eugene

EMED 709J Emergency Medicine - Rogue Regional

Emergency Medicine

Course Purpose Statement: A month at the Asante Rogue Regional Medical Center in Medford offers students an excellent educational and clinical experience. We are a 50K visit/year community hospital, and act as the trauma referral center for a large swath of southern Oregon and northern California. Students here work directly with board certified ED attendings—there are no residents or other students to compete with. Our emphasis is on clinical learning: you'll get direct one-on-one lectures, see lots of patients, and get immediate feedback on presentation skills. We prefer students who are planning on a residency in Emergency Medicine—this will be a great rotation for you to broaden your horizons and to complement your academic center learning experience. Housing may be available, depending on the month. Please inquire.

Required Prerequisite(s): Either FAMP 730 or IMED 730 as well as either SURG 730 or OBGY 730

Duration: Four Weeks
Site(s): Asante Rogue Regional Medical Center

EMED 709SC Emergency Medicine - St. Charles

Emergency Medicine

Course Purpose Statement: This elective provides students with an introduction to all aspects of Emergency Medicine. Students participate in the daily care of emergency patients with attending staff. Students will be assigned shifts in the Emergency Departments at St. Charles Bend, St. Charles Redmond, or Pioneer Memorial Hospital. Students will be expected to attend weekly Grand Rounds, clinical conferences, and other continuing medical education activities as assigned by their attending. St. Charles Bend is located in Bend, OR, approximately 160 miles southeast of the main OHSU campus. St. Charles (Bend) is designated as a Level II Trauma Center by the Oregon Public Health Division. Bend is the only Level II Trauma Center east of the Cascades. St. Charles (Redmond) is a certified Level III Trauma Center. Pioneer Memorial Hospital (Prineville) is a Level IV Trauma Center.

Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) your name, which class (i.e., MED19, MED18), elective course number and name, your top three choices of block dates (for example, 1st choice: Winter 3, 2017, 2nd choice: Spring 1, 2017, 3rd choice: Summer 1, 2017), whether or not you will have met all prepreq, and whether or not you need a housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu. Generate one email per one course. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): None

**ETOX 709A Medical Toxicology**  
*Emergency Medicine*

**Course Purpose Statement:** The Oregon Poison Center Medical Toxicology rotation is highly recommended for students with interests in Emergency Medicine, Pediatrics, Family Medicine, Internal Medicine, Psychiatry, or Occupational medicine. The student's role will be in discussing cases throughout our calling area (Oregon, Alaska, and Guam) and participating in conferences, bedside consultations, and assigned reading materials. A weekly presentation on a historical toxic event is required. This is an excellent review of basic pharmacology as it applies to therapeutic use of medications and overdose situations. Additional topics covered include environmental toxicology, occupational toxicology, drug abuse toxicology, and laboratory screening for drugs. Oregon Poison Center staff provide students with an excellent opportunity to become familiar with the recognition and management of acute toxicologic emergencies. Monday to Friday didactics and conference. If space is available after the lottery, this course may be able to offer students two week rotations. Contact Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu to set this up.

**Required Prerequisite(s):** None

**Duration:** Four Weeks  
**Site(s):** OHSU  
**Grading Method:** Pass/No Pass  
**Type:** Non-Clinical  
**Credit:** 4  
**Available through the Lottery:** Yes

Family Medicine
**FAMP 709A Sub-I Family Medicine**

*Family Medicine*

**Course Purpose Statement:** A four-week sub-internship in Family Medicine is available for medical students interested in a family medicine residency who have completed the core. The sub internship is an intensive, rigorous experience in which students will spend two weeks on inpatient service and two weeks in one of four OHSU Family Medicine outpatient clinics. As much as possible, sub interns will be given opportunities to demonstrate skills at the level of an incoming intern. On inpatient service students will be responsible for closely following patients, managing their care under the guidance and supervision of residents and faculty, and presenting their patients at morning report. Students will also be expected to work with their teams on early evening coverage of patient calls, ER visits, and inpatient care. In clinic, students will work with a senior resident or faculty preceptor, seeing a wide variety of patients independently and observing or being observed by their preceptors during the course of patient care. Under the supervision of their preceptors, students will be expected to write chart notes and/or do dictations and to help provide ancillary care such as interpreting x-rays, reading ECGs, etc.

**Required Prerequisite(s):** All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730). For the purpose of prerequisite requirements, continuity core and Rural immersive core are equivalent to the four week core experiences and fulfill the same prerequisites even if not specified in the catalog.

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

**Duration:** Four Weeks  
**Site(s):** OHSU

**Grading Method:** 5-tiered Letter Grade  
**Type:** Sub-Internship

**Credit:** 6  
**Available through the Lottery:** Yes

FAMP 709AB Family Medicine Inpatient

Family Medicine

Course Purpose Statement: The purpose of the Family Medicine Inpatient Elective is for students to develop clinical diagnosis, reasoning and communication skills in the care of adult, pediatric and potentially obstetric patients with a wide range of acute, chronic, and multi-organ system disease in the inpatient hospital setting. Students will be able to use their knowledge and clinical reasoning skills to perform basic history and physical examinations, develop differential diagnoses, order and interpret diagnostic studies, and devise basic treatment plans. On the Family Medicine service, students will learn how access, continuity, care coordination, and psychosocial factors affect the health of individuals and families and learn how to apply these factors to the care of individuals in the inpatient setting. If there are no openings available please contact family medicine course coordinator for up to date information regarding open slots.

Required Prerequisite(s): None

Elective Experiences
**FAMP 709D Community Family Medicine - PeaceHealth Sacred Heart**

**Family Medicine**

**Course Purpose Statement:** The course will provide a community experience with a Family Medicine clinic or combined Family Medicine and Internal Medicine primary care clinic. Students will spend time with chronic disease management, in-clinic office procedures or preventative care. Students may also gain experience with older adult populations and round in skilled nursing facilities to gain greater understanding of transition of care needs, palliative care and management of patients through the lifespan. As much as possible, students will be given opportunities to demonstrate skills at the level of an incoming intern. In clinic, students will see patients independently and observe or be observed by their preceptors during the course of patient care. Under the supervision of their preceptors, students will be expected to write chart notes and to help provide ancillary care. PeaceHealth Sacred Heart Medical Center has three hospitals; University District in Eugene, RiverBend in Springfield, and Cottage Grove Hospital in Cottage Grove, Oregon (locations are approximately 100 miles south of the main OHSU campus). Students participating in rotations in this community will work one on one with their attending with increased autonomy.

There are no residents practicing at these hospitals or community clinics. Students may have greater opportunity for hands-on care and one to one mentoring with physicians. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / jrobertson2@peacehealth.org (Joanie Robertson) with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you.

**Required Prerequisite(s):** None

**Duration:** Four Weeks  
**Site(s):** PeaceHealth Sacred Heart Medical Center, Eugene  
**Grading Method:** Pass/No Pass  
**Type:** Clinical (Patient Care)  
**Credit:** 4

Elective Experiences
FAMP 709J Sports Medicine - PeaceHealth Sacred Heart

*Family Medicine*

**Course Purpose Statement:** Students will actively participate in patient care in the Slocum Center for Orthopaedics and Sports Medicine. This elective is clinically oriented with emphasis placed on examination techniques and the diagnosis and treatment of common Orthopaedic and sports injuries. Students will participate in both surgical and non-surgical approaches to injuries. Opportunities may exist for students to participate with their attending physician at local school athletic events. PeaceHealth Sacred Heart Medical Center has two hospitals; University District in Eugene and RiverBend in Springfield, Oregon (locations are approximately 100 miles south of the main OHSU campus). Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics, so students may have greater opportunity for hands on care and one to one mentoring with physicians.

FAMP 709KF Rural Inpatient Family Medicine - Campus for Rural Health - Klamath Falls

Family Medicine

Course Purpose Statement: The purpose of this elective is for students to develop clinical diagnosis, reasoning, and communication skills in the care of adult patients with a wide range of acute and chronic, multi-organ system disease in the hospital setting. Students will be able to use their knowledge and clinical reasoning skills to perform basic history and physical examinations, develop differential diagnoses, order and interpret diagnostic studies, and devise basic treatment plans. Students will focus on quality improvement and patient safety in the hospital setting. Attendance at noontime lectures, morning report, inpatient rounds, and regular independent study is expected.

Special Notes: Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations. Housing is provided. Travel reimbursements may be provided dependent upon availability.

Required Prerequisite(s): IMED 730 or IMED 731A or IMED 731B

Course Director will not waive prerequisites for this course.

FAMP 709L Rural Sub-I Family Medicine - Campus for Rural Health - Klamath Falls

Family Medicine

Course Purpose Statement: Klamath Falls Family Medicine Sub-Internship is an intensive, rigorous experience in which the students will spend one week on the inpatient wards with the resident medical team. Students work nine half days per week in the Cascades East Family Practice Clinic, under a faculty or resident preceptor. Clinics at Juvenile Hall, Butte Valley Clinic and Doris may also be attended. Thursday Behavioral Science programs should also be attended. There is some flexibility in order to meet the student's specific objectives. Students completing clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required inter-professional community-based project course on their first Campus for Rural Health rotation and have the option of enrolling again in subsequent rotations.

Special Notes: Department approval is required prior to registering for this elective to ensure availability of this Sub-I. Students must have approval from Kristi Coleman, MD prior to registering in the Dean's Office. To apply, please contact Dr. Coleman at (541) 274-6733, coleman@ohsu.edu and forward your approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

Housing is provided. Travel reimbursements may be provided dependent upon availability.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Required Prerequisite(s): All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730). For the purpose of prerequisite requirements, continuity core and Rural immersive core are equivalent to the four week core experiences and fulfill the same prerequisites even if not specified in the catalog.

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

FAMP 709M Integrative Medicine Clinic

Family Medicine

Course Purpose Statement: In this elective students will gain an understanding of the definition and tenants of integrative medicine as well as its importance in an allopathic medical practice. Students will develop skills in accessing information on evidenced based modalities and will have the opportunity to witness these in practice at: clinics within OHSU (including Family Medicine at CHH, Richmond and the Comprehensive Pain Center), National University of Naturopathic Medicine (NUNM), University of Western States (UWS) and Oregon College of Oriental Medicine (OCOM). Students will also use their knowledge of integrative medicine and its modalities to create a wellness self-care prescription for themselves. They will be aided in personalizing their elective experience in order to focus more heavily on areas of interest.

Special Notes: Department approval is required prior to registering for this elective to ensure availability. To inquire about availability, please contact the family medicine course coordinator, gustafsb@ohsu.edu

Required Prerequisite(s): FAMP 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu.

FAMP 709NA Native American Family Medicine

Course Purpose Statement: This elective is for students who wish to gain greater understanding of Native American Health within a clinical Family Medicine environment. Additionally, students will have culturally immersive experiences that will help them better understand unique cultural and socioeconomic components of tribal health. Students will rotate within the Native American Rehabilitation Association (NARA) clinic sites. The mission of NARA is to provide education, physical and mental health services and substance abuse treatment that is culturally appropriate to American Indians, Alaska Natives and anyone in need. Workload expectations for this elective will include six total clinic sessions per week, with additional reflective coursework.

Elective Experiences
FAMP 709P Sub-I Family Medicine at Providence Milwaukie

Family Medicine

Course Purpose Statement: A four-week sub-internship in Family Medicine is available for students who meet the required prerequisites. The sub internship is an intensive, rigorous experience in which students will spend two weeks on inpatient service and two weeks at either PMG Milwaukie Clinic or PMG Southeast Clinic. As much as possible, sub interns will be given opportunities to demonstrate skills at the level of an incoming intern. On inpatient service students will be responsible for closely following patients, managing their care under the guidance and supervision of residents and faculty, and presenting their patients at morning report. Students will also be expected to work with their teams on early evening coverage of patient calls, ER visits, and inpatient care. During the two weeks on the inpatient service students will take two overnight calls with the family medicine night float team and participate in admissions with our hospitalists. In clinic, students will work with a senior resident or faculty preceptor, seeing a wide variety of patients independently and observing or being observed by their preceptors during the course of patient care. Under the supervision of their preceptors, students will be expected to write chart notes and/or do dictations and to help provide ancillary care such as interpreting x-rays, reading ECGs, etc.

Special Notes: Department approval is required prior to registering for this elective to ensure availability of this Sub-I. Students must have approval from Ms. Kara Castro prior to registering in the Dean's Office. To apply, contact Kara Castro, 503-513-8930, kara.castro@providence.org and contact Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu once approved in order to register for this elective during the dates you were approved for.

Required Prerequisite(s): All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730). For the purpose of prerequisite requirements, continuity core and Rural immersive core are equivalent to the four week core experiences and fulfill the same prerequisites even if not specified in the catalog.

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

FAMP 709S Sports Medicine - OHSU

Family Medicine

Course Purpose Statement: Students will actively participate in patient care in the OHSU Sports Medicine Clinics. This elective is clinically oriented with emphasis place on physical examination techniques, and the diagnosis and treatment of musculoskeletal injuries as well as care of the athlete. These concepts will be applied to the care of professional and elite athletes, as well as grade school, high school, college and recreational athletes in the Portland Metro area. Opportunities will exist for the student to participate with their attending physicians at Portland State University, Lewis and Clark College sports medicine clinics and events. Experience may also include medical coverage for several other athletic events here in Portland. The student will also attend sports medicine conferences, family medicine grand rounds and case conferences. Some weekend commitments may be required. This rotation is for those students with a strong interest in Primary Care Sports Medicine whose goal is to provide a link between the rapidly expanding core of knowledge related to sports medicine and its application to patients in the primary care setting.

Required Prerequisite(s): FAMP 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Two Weeks

Elective Experiences
FAMP 709T Focused Clinical Elective

Family Medicine

Course Purpose Statement: This elective is geared toward students who wish to either augment their family medicine experience with clinical experience or add exposure to outpatient clinical care. Students will have a myriad of clinic possibilities and Spanish-speaking clinics are potentially available. The students will be matched to a clinic pending a survey of their specific interests, which will be administered after students sign up for the elective. Student will gain exposure to common diagnoses in an environment that encourages problem solving and use of electronic information resources. Students will also learn about the patient centered medical home, population health and the role of the physician in health policy advocacy. Students will care for patients of all ages in an ambulatory clinic. Workload expectations for this elective will include six total clinic sessions per week plus independent study for preceptor related tasks and simulated case practice.

Required Prerequisite(s): None

Duration: Four Weeks  
Site(s): OHSU or community practice

FAMP 709U Rural Integrative Behavioral Health

Family Medicine

Course Purpose Statement: Students will gain a better understanding of both the availability of resources and the delivery system of mental health services. Students will gain exposure to integrated behavioral health in a community mental health and the justice system. This elective includes inter-professional interactions with family medicine behavioral health consultants, LCSW’s, doctoral students, consulting psychiatrists, community mental health, parole and probation, and child abuse assessment center staff. Partnering agencies include Columbia Community Mental Health, Amani Center; and Columbia County Parole and Probation. Students will gain experience with an Inter-professional approach to psychiatric rehabilitation, outpatient counseling, crisis evaluation, substance abuse treatment, forensic child abuse evaluations; and parole and probation. There may be a requirements of this rotation to include the ability to attend daily (M-F) activities in Columbia County (approximately 30 min drive from OHSU).

Required Prerequisite(s): FAMP 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Four Weeks
Site(s): OHSU and Various Community Agencies
Grading Method: Pass/No Pass
Type: RuralClinical (Patient Care)
Credit: 4
Available through the Lottery: No

**FAMP 709W Sub-I Family Medicine at SWWMC**

**Course Purpose Statement:** SW Washington Family Medicine Sub-Internship is an intensive, rigorous experience in which the students will spend the mornings rounding on patients and afternoons in the outpatient clinic. The medical student will do one brief presentation per week to the family medicine team. The student will write hospital progress notes on patients as directed by the FM rounding faculty. The medical student may elect to round with the adult internal medicine service on 2-4 mornings during the four week rotation to get additional exposure to inpatient adult internal medicine. Afternoon clinics - the student will have 2-4 patients per session, depending on skill level of the student.

**Special Notes:** Department approval is required prior to registering for this elective to ensure availability of this Sub-I. Students must have approval from Ms. Angel prior to registering in the Dean's Office. To apply, contact Krista Angel, 360-514-7560, kangel2@peacehealth.org and forward your approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

**Required Prerequisite(s):** All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730). For the purpose of prerequisite requirements, continuity core and Rural immersive core are equivalent to the four week core experiences and fulfill the same prerequisites even if not specified in the catalog.

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**FAMP 710B Reproductive Health in Family Medicine**

*Family Medicine*

**Course Purpose Statement:** This elective will focus on the student's development of knowledge and skills in the area of women’s reproductive health, including, but not limited to, contraception, routine clinical preventive services, early pregnancy ultrasound, and abortions. The student will work with faculty during their clinic hours at Family Medicine clinics and during specialty clinic sessions as available (e.g. South Waterfront’s Friday morning clinic). The student will be expected to review core literature in the field (provided by the faculty), identify target quality benchmarks at either the state or national level and the interplay of routine clinical and public health programs in the provision of reproductive health. The student will complete a brief educational summary based on a clinical case for the reproductive health newsletter. As directed by the interest of the student there will be opportunity to gain knowledge in basic policy in this area as well. Students with interest may engage in advocacy opportunities (e.g. contacting elected officials, letters to editors, etc...). The elective will allow the student to explore the breadth of women’s healthcare services provided to patients in a Family Medicine outpatient setting.

**FAMP 741R Rural Family Medicine**

*Family Medicine*

**Course Purpose Statement:** This elective is geared toward students who wish to have a robust experience working with family physicians in rural Oregon. The rural clinics arranged for this experience provide an in-depth educational experience and are approved by the department of Family Medicine. The community allow the student to learn common diagnoses in an environment that encourages hands-on problem solving at the site and use of electronic information resources. Students will be expected to attend all clinical events and participate in the community. Housing may be provided dependent upon clinic site. Travel reimbursements may be provided dependent upon availability.

**Required Prerequisite(s):** None

FAMP 741TH - Tribal Health Immersion Cont

Family Medicine

Course Purpose Statement: This elective is for students who wish to gain a greater understanding of Native American Health within a clinical Family Medicine environment. Additionally, students will have culturally immersive experiences that will help them better understand unique cultural and socioeconomic components of tribal health. Students will rotate within the Warm Springs Health and Wellness Center Indian Health Services Clinic. The mission of the Warm Springs Health and Wellness Center is to provide an innovative, caring, and diverse healthcare system that is trusted and responsive to the needs of the Warm Springs community. Workload expectations for this elective will include a minimum of six clinical sessions, one community health session, one occupational health session, and two reflective coursework sessions each week.

Required Prerequisite(s): None

Duration: Eight Weeks
Site(s): Warm Springs Health and Wellness Center
Grading Method: Pass/No Pass
Type: ContinuityRuralClinical (Patient Care)
Credit: 8
Available through the Lottery: No

Elective is offered on a space-available basis. Please contact course coordinator for availability and list your preference of block dates when applying for this course.

Internal Medicine
**AMBL 709B Ambulatory Primary Care**

*Internal Medicine*

**Course Purpose Statement:** The purpose of the Ambulatory Internal Medicine elective is for students to develop skills in patient communication, population management, clinical diagnosis/reasoning and management in the care of both acutely ill and complex chronically ill adults. In this experience students work one-on-one with experienced faculty in the outpatient internal medicine clinic. Students will see patients independently, obtain an accurate history and physical exam, develop a differential diagnosis and plan. They will interpret labs and others test results and communicate with patients and care givers. As part of this experience, students will work collaboratively in an interprofessional team as part of patient centered medical home.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks  
**Site(s):** OHSU

AMBL 709G Ambulatory Practice

Internal Medicine

Course Purpose Statement: In this multi-specialty clinic, students work with the Internal Medicine Faculty in their private practices. They are exposed to patients of multiple social and economic backgrounds and gain experience in hands on primary care of complex patients. During the rotation, the student will spend time with our geriatrician as well. Their sessions with the Internal Medicine faculty will expose them to the diverse opportunities of internal medicine including HIV care and preventive medicine. The electronic medical record and interdisciplinary approach to patients will expose them to innovative methods of outpatient medicine. The emphasis on evidence based approaches and availability of real-time electronic information resources enhance the learning experience. Students participate in our noon conference lecture series as well as continuity clinic conference. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator. Students who have or will have completed 8 weeks for Internal Medicine Core prior to this Sub-I rotation may take this courses without having completed one of the required elective listed in the prerequisites.

Course Director will not waive prerequisites for this course.

**AMBL 709S Ambulatory Practice**

**Internal Medicine**

**Course Purpose Statement:** Three months advance notice to sign up or cancel. Students learn the principals of longitudinal care of adults. Students are exposed to a unique model for ambulatory education that emphasizes continuity of care among patients, residents, attending, and care teams in a patient-centered medical home. The demography of our patients include the full range of ethnicity, socioeconomic status, and disease burden and acuity. Excellent access to medical information allows students to answer everyday medical questions in real time. Students attend daily morning reports and noon conference. Exceptional exposure to community based practice setting that emphasizes intellectual curiosity and provides students an opportunity to participate in primary care internal medicine. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. ARTH 709H Arthritis/Rheumatology • PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students are expected to learn diagnosis/therapy of common rheumatic disorders, interpretation of lab tests and musculoskeletal x-rays, and simple procedures such as joint injections. Problems commonly seen include osteoarthritis, rheumatoid arthritis, systemic lupus erythematosus, osteoporosis, gout, bursitis, vasculitis and fibromyalgia. Students participate in approximately five outpatient clinics per week averaging 1-2 new patients each clinic or 4-5 return patients. No call responsibilities. Students assist and possibly perform joint aspiration/injection, tendon injections, and bursa injections. Conferences include medical Grand Rounds at Sacred Heart Medical Center, Rheumatology journal club, and daily tutorials based on assigned reading. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Required Prerequisite(s): None

Students will participate in outpatient clinics and reading assignments, and may have some inpatient exposure as well. Students participate in approximately five outpatient clinics per week averaging 1-2 new patients each clinic or 4-5 return patients. No call responsibilities. Students assist and possibly...
perform joint aspiration/ injection. Conferences include Grand Rounds, Rheumatology Grand Rounds, Rheumatology Journal Club, X-Ray Conference, Clinical Case Conference and didactic sessions. The rotation is based at OHSU and the VA.

**Required Prerequisite(s):** One of the following: FAMP 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709P, HOSP 709M, HOSP 709S, HOSP 709SH, HOSP 709V, IMED 730, PEDI 730

*Course Director will not waive prerequisites for this course.*

CARD 709A Cardiology Consult
Internal Medicine

Course Purpose Statement: Students are expected to refine their skills at taking a cardiac history and performing an examination of the cardiovascular system. They will learn how to perform a consultation on a patient at the request of another physician and to interact productively with other physicians who have primary responsibility for the care of the patient. They will learn the role of common diagnostic tests used in cardiology for management of patients. They will gain experience in interpretation of electrocardiograms and be exposed to the role of non-invasive testing as needed. It may be possible to arrange experience watching exercise treadmill testing (primarily VA rotation). Commonly seen conditions include evaluation of chest pain syndromes, coronary artery disease, heart failure, risk assessment prior to non-cardiac surgery, valvular heart disease, and infective endocarditis. Students respond to requests for consultation by evaluating the patient, analyzing the data, preparing a diagnostic and management plan, record a note in the patient record, and present the patient to the attending physician. Students regularly interpret electrocardiograms and review them with the attending physician. No call responsibilities. Students may observe performance of treadmill exercise tests, cardiac catheterization procedures and other cardiac diagnostic tests. Students are encouraged to attend cardiology conferences that include, Multidisciplinary (Clinical Case) Conference, Cardiac Catheterization Conference, ECG Conference, Pathophysiology Conference, and other subspecialty conferences. Students work with a cardiology consulting resident (if one is assigned), a fellow, and an attending. Evaluation includes informal feedback and standard evaluations by the attending physician. The student also evaluates the educational experience during the rotation. At the end of the rotation, students will have increased skills in the assessment of patients with heart disease.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

**CARD 709G Cardiology Arrhythmia**

*Internal Medicine*

**Course Purpose Statement:** Cardiology/Arrhythmia Consult at Good Samaritan Hospital. Daily work with Attending Cardiologist. Objective is to gain basic experience in clinical cardiology, particularly electrophysiology. Student responsibilities include seeing patients in the hospital and in clinics, and attending/assisting in procedures such as pacemaker or defibrillator placement, electrophysiology studies, and ablation procedures. Students also practice reading approximately five EKG’s per day, and review with attending physician. Daily internal medicine conference and weekly cardiology conference. This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Please contact Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu after the lottery to register for this course.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

CARD 709H Cardiology - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students will be working with physicians from Oregon Cardiology, a high volume practice. They will be exposed to a full spectrum of cardiac pathology including heart artery disease, cardiac dysrhythmias, heart valve disease, and heart failure. They will see both new and follow-up patients in a variety of hospital and clinical settings such as the ICU, office, catheterization lab, and operating room. Students will be expected to learn how to organize and present a routine cardiac history and physical exam. Students will formulate assessments and plans based on their patient encounters. Focused reading of guidelines, textbooks and pertinent literature should support these assessments. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you.

Required Prerequisite(s): IMED 730 and Site approval

Course Director will not waive prerequisites for this course.

Elective Experiences
CARD 710D Preventive Cardiology

Internal Medicine

Course Purpose Statement: This elective course will give learners exposure to clinical evaluation and management of patients at different levels of risk for ischemic cardiovascular disease, including standard care diagnostic approaches and therapeutic decisions ranging from life style changes and supplemental therapy, to use of medications, to invasive procedure such as cholesterol dialysis (LDL Apheresis). Through one-on-one or small group settings in journal club, data club, or case discussion format, students will develop ability to critically analyze literature and understand background, motivations, and political nuances of current guidelines. This elective rotation will give learners opportunities to individualize learning goals according to their background, interests and needs. The final outcome is practical knowledge on the standard-of-care approach to cardiovascular risk assessment and management.

Required Prerequisite(s): None

CARD 741E Advanced Heart Failure Continuity Experience
Internal Medicine

Course Purpose Statement: The purpose of the Advanced Heart Failure continuity experience is for students to learn the principles of heart failure management across the spectrum of disease. Students will work with the advanced heart failure team and will follow patients in both the ambulatory and inpatient settings. In the advanced heart failure clinic they will see patients with heart failure in all stages as well as patients receiving follow-up care after left ventricular assist device placement or heart transplant. On the inpatient advanced heart failure service they will care for patients with cardiogenic shock, acute on chronic heart failure, pre- and post left ventricular assist device and pre and post cardiac transplantation. Students will have the opportunity to observe procedures in the cardiac catheterization laboratory and operating room. This continuity experience will be superb for those desiring surgery or medicine as a career with in depth learning of cardiac physiology and treatment.

Required Prerequisite(s): IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

Elective Experiences
ENDC 709A Endocrine Metabolism

**Internal Medicine**

**Course Purpose Statement:** Students learn essentials of the evaluation and management of inpatient and outpatient clinical endocrinology and metabolism. Problems commonly seen include diabetes, lipid diseases, metabolic bone disease, disorders of thyroid, pituitary, adrenal and gonadal functions. Outstanding opportunity to learn about many disorders frequently not seen or discussed in other areas. Students see 5-12 patients per week in the University and VA Med Center General Endocrinology, Diabetes, Bone and Mineral and Obesity clinics, as well as 5-10 patients per week on the inpatient Endocrine consult service. Conferences include Journal Club and Clinical Case Conference. Students will work as part of a team of residents, fellows, and attendings. No call responsibilities. Evaluation is by observed clinical performance, case presentations, and knowledge of the subject area.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks  
**Site(s):** OHSU/VAMC  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Clinical (Patient Care)  
**Credit:** 4  
**Available through the Lottery:** Yes

**GERI 709A Geriatric Medicine**

*Internal Medicine*

**Course Purpose Statement:** The student will rotate during the month through both outpatient and inpatient geriatric-related settings at OHSU and the Portland VA. This will include experiences working with geriatricians in Geriatric Primary Care and Consultative Clinic at OHSU, Geriatric and Fall Assessment Clinics at VA, Wound Care Clinic at VA, and the Inpatient Geriatric Consult Service at OHSU.

**Required Prerequisite(s):** One of the following: IMED 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.*

**Duration:** Four Weeks  
**Site(s):** OHSU/VAMC  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Clinical (Patient Care)  
**Credit:** 4  
**Available through the Lottery:** Yes

Elective Experiences
GERI 709H Geriatrics - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students will receive in-depth exposure to clinical geriatrics across the spectrum of care settings. They will develop and refine skills in caring for older patients and acquire knowledge and understanding of how to recognize, assess, and manage conditions common in elderly patients. The students’ time will generally include two days a week at the outpatient clinic, Senior Health and Wellness Center, two days a week in care facilities, and one day for independent learning and exposure to other disciplines, such as hospice, neuropsychiatry, and wound care. In the clinic, students will have the opportunity to interview and examine patients, present and discuss the patients’ care with the attending, and participate in weekly interdisciplinary team meeting. In the skilled nursing facility, students will work-up and follow patients weekly in sub-acute rehab (post-hospitalization), independently develop assessments and plans for these patients and create ‘shadow charts’ to follow them. They will participate in family meetings/care planning discussions as these arise. The student will present and discuss a patient at the care facility “Grand Rounds”, an educational in-service for nurses and other staff, weekly case discussions and didactic sessions, and read/self-direct learning to cover common geriatric conditions. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene

GMED 701A Internal Medicine Research

Internal Medicine

Course Purpose Statement: The research elective is intended for students who think they might be interested in pursuing a career in academic internal medicine or who would like more experience with the scientific process. Students may arrange for laboratory or a clinical research experience in Internal Medicine. Times of year and durations of research electives are flexible and will be determined by the time schedules of students and mentors; however, students should plan on spending a minimum of 4 weeks on a project.

Students must obtain departmental approval to enroll in this course. Complete the Research Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): OHSU; VA
Grading Method: Pass/No Pass

GMED 705AB Developing a Personal and Professional Narrative

Internal Medicine

Course Purpose Statement:
Narrative Medicine provides the essential tools for distillation of personal narrative and formation of professional identity. Students in this course will build upon the skills developed during the Foundations of Medicine Narrative Medicine curriculum—namely of listening, observation, reflection, and story-telling—in order to grow and sustain a reflective practice.

The course consists of a series of reading and writing assignments focused on recognizing and constructing narrative threads. As many students will be traveling for interviews during this time, the course is designed to accommodate flexibility. Students will attend an in-person orientation and writing session at the start of the rotation, then read and write independently throughout the duration of the month. At the end of this course, students will meet to share their final writing. In addition to brief daily prompt-based writing exercises for personal development, students will complete several lengthier reflective pieces to share with their peers. Students will be expected to read one-another’s writing, and meet weekly, either through virtual or in-person meetings, to discuss and give constructive feedback. At least one piece of reflective writing will be submitted for assessment by supporting faculty. Students will have the option of submitting their writing for wider distribution via appropriate medical student publications.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): OHSU
Grading Method: Pass/ No Pass
Type: Non-Clinical
Credit: 1
Available through the Lottery: No

GMED 709E Sub-I Hospitalist

Internal Medicine

Course Purpose Statement: Legacy Internal Medicine Program runs a Hospitalist Sub-I program rooted in Evidence based Medicine. This is an amazing opportunity to not only rotate in a busy Academic Hospitalist setting at a Level 1 trauma Center (Legacy Emanuel) but it also combines bedside teaching with an intensive Evidence Based Medicine review. You will round in the mornings, present to a teaching attending, and participate in patient care. The afternoons 4-5 days a week consist of 2 hours dedicated to reviewing the key literature for Internal Medicine in interactive high yield teaching sessions. Teaching is provided by the IM Program Director (Dr. Gilden), Associate Program Director (Dr. Estabrook) and key teaching faculty. It is a highly rated experience and a must for any budding IM applicant. A week of geriatric hospitalist is available for those interested in the experience. Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having taken any of the required electives listed in the prerequisites. Please contact Tomo Ito at itot@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

GMED 709J Sub-I Hospitalist

Internal Medicine

Course Purpose Statement: The sub-internship rotation with the Clinical Hospitalist Service (CHS) provides a supervised, but highly-independent experience that is ideal for the student who is internal medicine bound or simply wanting to gain intern hands on internship skills before beginning residency. The CHS manages a wide variety of patient populations including general medicine and perioperative consultation, post-procedural care, solid tumor oncology, and core inpatient internal medicine. You will work directly with attendings who will provide direct daytime and nighttime supervision without any concurrent resident presence. During the elective, sub-interns will gain experience admitting both ED and outside hospital transfer patients, rounding on a personal census of ~6 patients during daytime shifts and cross-covering patients overnight. Each sub-intern will spend two weeks on days and two weeks on nights during the rotation. Each week consists of five 10-12 hour workdays (on dayshift, Monday through Friday; on nightshift, Sunday through Thursday) with weekends off. In the event of interviews or other obligations during the rotation, there is some flexibility with regard to days off. Procedural experience (paracentesis, thoracentesis, lumbar puncture, etc.) is also included on the rotation as much as possible. Learners with any questions regarding the content or logistics of the rotation are encouraged to contact the Sub-Internship director, Brian Leese, DO (leese@ohsu.edu).

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

Elective Experiences
GMED 709N Transitional Care for Socioeconomically Vulnerable Adults

Internal Medicine

Course Purpose Statement: The purpose of this elective is to familiarize students with community health needs of adults across the care continuum within Washington, Multnomah, and Clackamas Counties. The student will coordinate care for adults with a variety of chronic medical conditions, mental illnesses, substance use disorders, and socioeconomic barriers. Patients may be seen in settings including: nursing homes, clinics, substance abuse treatment facilities, transition housing, patient homes, and in the community (shelters, homeless camps, under bridges etc.). Students will participate with outreach activities along with attend community meetings and inpatient rounds. Students are expected to participate in a two part reflection paper at the beginning and end of the rotation. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): One of the following: EMED 709A, EMED 709CB, EMED 709D, EMED 709G, EMED 709H, EMED 709J, EMED 709SC, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V, IMED 730, PSYC 730, PSYC 709C, PSYC 709D

Course Director will not waive prerequisites for this course.

GMED 709T Advanced Illness Care

Internal Medicine

Course Purpose Statement: The student will gain proficiency in the practice of primary care internal medicine in a community setting. Students will develop clinical diagnosis, reasoning and communication skills in the care of adults with a wide range of acute and chronic diseases. Students will be active participants in patient care, taking the initial focused history and physical exam, developing a differential diagnosis and management plan prior to discussing with their preceptor(s).

This elective offers students the opportunity to work with an interdisciplinary team to develop skills and expertise in the palliative care of patients living with life-threatening illnesses who are receiving either home based palliative care or hospice services. Students will explore clinical practice of Palliative and Hospice Care through home care experiences. Teaching occurs in the course of patient care provided with a supervising hospice physician or interdisciplinary team member. Examples of typical experiences include: performing palliative care assessments of patients in the home and/or long-term care facility setting, participating in family meetings, participating in interdisciplinary team conferences, or seeing patients in the outpatient oncology setting. Focus is on teaching palliative care assessment (including pain/symptom management, psychosocial assessment, prognosis, and goals of care), effective opioid use, effective use of adjuvant pain therapies and modalities, supporting family caregivers, assisting patients/families to achieve developmental goals and milestones at end of life, managing grief and loss, broaching difficult subjects with care, effectively using advance directives and POLST, self-care, and an interdisciplinary approach to care. Students will see patients and experience both bedside teaching and time alone with patients to assess them and discuss living with serious illness. Students will participate in weekly interdisciplinary team care conferences. Students will have the opportunity to participate in clinical quality improvement projects. Students will have opportunity to interact with pharmacy interns from Pacific University School of Pharmacy and work with hospice leaders with over 35 years of hospice and palliative care experience. Attending physicians include Jeanne LaMont, MD, (OB/GYN/Hospice), Gerald Gibbs, MD (Hematology/Oncology/Hospice).

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Care Partners, Hillsboro and patient residences throughout the Portland Metro Area
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

Course Director (name / email): Rebecca Harrison / harrisor@ohsu.edu
Course Coordinator (name / email): Marcie Evans / evanma@ohsu.edu
Qualified Assessor (name / email): Rebecca Harrison / harrisor@ohsu.edu

GMED 709V Sub-I Hospitalist

Internal Medicine

Course Purpose Statement: The purpose of this course is to further develop clinical diagnosis, reasoning, and communication skills in the care of complex patients with a wide range of acute and chronic, multi-organ system disease. Students will develop targeted history and physical examination skills, refine clinical reasoning skills, and devise comprehensive differential diagnoses and advanced treatment plans. Emphasis will be placed on increased number of patients and patient care responsibilities and autonomy, in order to develop intern-level skills in preparation for residency. The VA provides students with an exposure to a unique patient population and healthcare delivery system. Students will provide clinical care to patients with severe mental health, substance abuse and psychosocial problems and will learn how the VA supports patients in those aspects of their lives. Students will have a unique opportunity to watch faculty interact with each other in a shared team-room and develop models for lifelong learning and peer-teaching. Supervising Attendings are all OHSU faculty, many with roles in the School of Medicine and Internal Medicine Residency Program. Depending on availability students may have the opportunity to interact with Foundations years students, practice procedures in the Simulation lab, and develop or practice point-of-care ultrasound skills. There are often opportunities to observe coronary angiograms, bronchoscopies, and upper endoscopies in this setting. Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having taken any of the required electives listed in the prerequisites. Please contact Tomo Ito at itot@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

GMED 710A Physical Diagnosis
Internal Medicine

Course Purpose Statement: This course is designed to improve students’ overall comfort with the physical examination. Students should become more adept at performing the physical exam, understanding the significance of findings, and reporting this information in a succinct and unified presentation. Logistically, students should expect to examine two patients per day with specific exam findings. The course instructors will select the patients. Students will examine the patients on their own in the morning and then present the findings to the large group in the afternoon. When the large group is together, there will be time for additional examination and key points will be highlighted. The breadth of findings will range from patients with heart murmurs to those with splenomegaly. However, the heaviest emphasis will be on the cardiac examination.

To register for this course, email course coordinator with your name, class, the elective course number and name, and which block (date) you want to take. The coordinator will let you know if it’s available. Once you get a confirmation from the coordinator, forward the email to casa@ohsu.edu so that Curriculum & Student Affairs can officially enroll you.

**GMED 710F Palliative Care**

*Internal Medicine*

**Course Purpose Statement:** This elective offers students the opportunity to work with an interdisciplinary team to develop skills and expertise in the palliative care of patients living with life-threatening illnesses. Students will explore clinical practice of Palliative Care through inpatient and outpatient experiences. Most teaching occurs in the course of supervised patient care. Examples of typical experiences include: performing palliative care assessments of hospitalized patients, participating in a family meeting, or seeing patients in the Supportive Oncology and Palliative Medicine outpatient clinic. Focus is on teaching palliative care assessment (including pain/symptom management, psychosocial assessment, prognosis, and goals of care), effective opioid use, broaching difficult subjects with care, effectively using advance directives and POLST, self-care, and an interdisciplinary approach to care. Students will see patients and experience both bedside teaching and time alone with patients to assess them and discuss living with serious illness. In the hospital, students will have the opportunity to participate in consultations and family conferences. The Palliative Care team includes – Sue Best LCSW, Jessica Bordley MD., Tiffany Culbertson RN,NP., Erik Fromme MD., Jeff Myers PA., Terri Schmidt MD., Mary Denise Smith RN, CNS, and Eric Walsh MD.

This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Please contact Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu after the lottery to register for this course.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730)

**Elective Experiences**
GMED 710HH Project Helping Hands Med Team

Internal Medicine

Course Purpose Statement: In this two week elective, students will travel with a Project Helping Hands health care and health education team to multiple High Andean communities surrounding Urubamba, Peru. Students will be a part of a mobile, interprofessional team comprised of physicians, nurses, physician assistants, dentists, translators, educators and other students. Team members will work with community school and health leaders to provide direct patient care (medical, dental, vision) and public health education (nutrition, first aid, etc). Students will spend 8-12 hours per day working as a team member. Spanish fluency is not required, but familiarity with the language is recommended. Priority is given to Spanish speakers. Students will need to apply through Project Helping Hands and be accepted into the program before being eligible for the elective.

Special Notes: The cost for participating in the trip is $3,650.00. It includes:
- Round trip Domestic Airfare (from a major USA airport except Alaska or Hawaii, does not include regional airports)
- Round trip International Airfare (From USA departure point to destination country)
- All in-country air and ground transportation (All transportation while in our host country)
- All applicable VISA fees
- Airport departure taxes
- Travel Insurance
- All meals and drinking water.
- All lodging.
- Project Helping Hands team shirt/name tag
- Transportation, meals and any fees associated with PHH sanctioned team activities.

Please contact Elizabeth Lahti, MD (lahtie@ohsu.edu) to register for this course Students must complete and submit Internal Approval Request Form for GMED 710HH Project Helping Hands Medical Team (in Student Portal, under Medicine, under Forms). and forward the final acceptance email to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu before they can be registered for this elective.

GMED 711A Internal Medicine Research

Course Purpose Statement: The research elective is intended for students who think they might be interested in pursuing a career in academic internal medicine or who would like more experience with the scientific process. Students may arrange for laboratory or a clinical research experience in Internal Medicine. Times of year and durations of research electives are flexible and will be determined by the time schedules of students and mentors; however, students should plan on spending a minimum of 2 weeks on a project.

Students must obtain departmental approval to enroll on this course. Please email the Course Coordinator to obtain approval and then complete the Research Elective Request form. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form. If you are approved, forward the departmental approval email as well as the completed Special Elective Request form to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu to register.

Required Prerequisite(s): None.

GMED 741B Primary Care and the Social Determinants of Health

*Internal Medicine*

**Course Purpose Statement:** This outpatient clinic-based experience in the heart of downtown Portland would be ideal for students considering a career in primary care, psychiatry, or addiction medicine, and those with a passion for care of the underserved. The patient population is beset by mental illness, substance use disorders, and homelessness, and covers a broad range of ages and medical comorbidities, and introduces more diversity than is seen in most of our clinical settings. This experience would enhance your creative problem-solving skills and enrich your understanding of the social determinants of health, and the role of the healthcare provider in the larger system of care and social services. This is a truly interdisciplinary experience including delivering primary care in a patient-centered medical home and opportunities to work with mental health care providers, social workers, addiction specialists, pharmacists, and acupuncturists in addition to the Attending Internists.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

GMED 741S Internal Medicine Clinic Continuity Elective

Internal Medicine

Course Purpose Statement: This elective encourages students to delve deeper into the complexities of primary care for complicated patients. The elective gives special attention to shared decision making, motivational interviewing, and team-based care. The student will have continuity of patients and of preceptors throughout this experience, along with ample time for chart review and additional training as needed.

We propose that students will follow 15-20 complex patients from 4-5 providers. Over an 8-week period, students will attend all primary care appointments and also specialist visits as feasible. The student will participate in telephone encounters in conjunction with care managers, be they Nurses, Pharmacists or Social Workers. The student will add value to the care of the patient while simultaneously learning how to promote patient wellness, improve health outcomes, and improve coordination of care across the healthcare continuum.

The student will work closely with all members of our clinic, including providers, medical assistants, panel coordinators, and care managers. In addition, based on availability of willing participants, the student will work with pre-identified patient-mentors who will help to enrich the experience and teach the students the importance of patient-centered care. The student will be assigned a Core Preceptor who will help guide the student and ensure meaningful encounters and exposure. The student will be evaluated on the competencies listed below.

Required Prerequisite(s): IMED 730 or FAMP 730

Course Director will not waive prerequisites for this course.

Duration: Eight Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade

GMED 741X Internal Medicine Continuity Special Elective

Internal Medicine

Course Purpose Statement: The purpose of this continuity clinical elective is for students to have more in-depth experience in General Medicine. Students must make special arrangements with a faculty member and the department for an individual program of study.

Students must obtain departmental approval to enroll in this course. Complete the Clinical Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’.

Required Prerequisite(s): None

Duration: Eight Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: ContinuityClinical (Patient Care)
Credit: 8
Available through the Lottery: No

Course Director (name / email):

GSTR 709A Gastroenterology Consult

Internal Medicine

**Course Purpose Statement:** Students learn an integrated approach to the diagnosis and therapy of gastroenterology diseases with emphasis on pathophysiology and exposure to the utility and application of the various diagnostic therapeutic endoscopic procedures. Problems commonly seen include diagnosis/treatment of GI bleeding, abdominal pain, peptic ulcer disease, gastrointestinal tumors, pancreatitis, chronic liver disease and inflammatory bowel disease. Students see approximately two inpatient consults per day and in addition to other consultations seen as emergencies or in the weekly Tuesday GI clinic. No night call responsibilities. Conferences include Grand Rounds, GI Medical Surgical Conference, GI Pathology Conference, Hematology/Biliary Conference, and GI Research Conference. Students work with a team of medical resident, GI fellow and GI Attending. Evaluation is by observed clinical performance.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks  
**Site(s):** OHSU  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Clinical (Patient Care)  
**Credit:** 4  
**Available through the Lottery:** Yes

GSTR 709H Gastroenterology - PeaceHealth Sacred Heart

**Internal Medicine**

**Course Purpose Statement:** Students learn an integrated approach to the diagnosis and therapy of gastroenterology diseases with emphasis on pathophysiology and exposure to the utility and application of the various diagnostic therapeutic endoscopic procedures. Problems commonly seen include diagnosis/treatment of GI bleeding, abdominal pain, peptic ulcer disease, gastrointestinal tumors, pancreatitis, chronic liver disease and inflammatory bowel disease. Students see approximately two inpatient consults per day and in addition to other consultations seen as emergencies. No night call responsibilities. Conferences include Medicine Grand Rounds and GI Pathology Rounds. Evaluation is by observed clinical performance. Students will be based at Sacred Heart Medical Center at RiverBend, a 432 tertiary care hospital. Sacred Heart Medical Center is located in Eugene and Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations at this site do not interact with OHSU Residents or Residency Program Directors. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you.

**Required Prerequisite(s):** IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V) and Site approval

*Course Director will not waive prerequisites for this course.*

HEMA 709A Hematology/Oncology Consult

Internal Medicine

Course Purpose Statement: Students learn to manage, diagnose and treat common hematologic/oncologic diseases. Use and interpretation of chest, abdominal, bone x-rays, CT Scans, MRI, and nuclear medicine scans as well as interpretation of blood and bone marrow smears, and the management of oncologic emergencies. Problems commonly seen include anemia, neutropenia, thrombocytopenia, lung cancer, head and neck cancer, colon cancer, prostate cancer, lymphoma, leukemia, and myeloma. Students manage 2-3 patients per week in the inpatient setting. 1-2 patients per week will be seen in the outpatient setting. The outpatient experience will be scheduled once each week. Opportunities to observe and perform procedures include bone marrow aspirations, biopsies, interpretation of blood smears and bone marrow smears. Conferences include Morning Report, Grand Rounds, Pathology Slide Conference, Hematology Journal Club, Lymphoma Conference, Clinical Case Conference, and Case Management Conference where students present particularly difficult cases. Students work with a team of one full time attending physician, a subspecialty Hematology/Oncology fellow, and often an internal medicine resident or intern. Students are provided with a volume of directed clinical reading to cover essential elements in Hematology/Medical Oncology. Evaluation is by clinical performance, weekly informal oral examinations on the assigned reading, quality of case presentations, and humanistic skills. With the intense involvement of students in both the inpatient & outpatient arenas, with such a cohesive course curriculum, unique skills in Hematology/Medical Oncology should be acquired. Should unique patients be cared for by the students, careful evaluation and documentation may lead to a case report that may be submitted for publication in the medical literature.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

HEMA 709B Sub-I Bone Marrow Transplant

Internal Medicine

Course Purpose Statement: The purpose of this course is to further develop clinical diagnosis, reasoning, and communication skills in the care of complex patients with a wide range of acute and chronic, multi-organ system disease. Students will develop targeted history and physical examination skills, refine clinical reasoning skills, and devise comprehensive differential diagnoses and advanced treatment plans. Emphasis will be placed on increased number of patients and patient care responsibilities and autonomy, in order to develop intern-level skills in preparation for residency. Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this course without having taken any of the required electives listed in the prerequisites. Please contact Tomo Ito at itot@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

HEMA 709H Hematology/Oncology - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students learn to diagnose and treat common hematologic and oncologic diseases in a comprehensive community setting. Common problems typically seen include breast cancer, colon cancer, lung cancer, lymphoma, gynecological, head and neck cancer and both benign and malignant hematologic diseases. Rotation will be predominately outpatient medical oncology but students may have the option of rotating through other specialties such as with radiation and/or gynecological oncologists. Goal of the rotation learn the initial diagnosis and follow up care by direct patient contact and interpretation of imaging, labs tests including bone marrow biopsies, genetic tests, etc. Student is expected to attend tumor board conferences and maybe required to present cases that he/she is involved. Evaluation is done mainly by clinical performance. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you.

Required Prerequisite(s): IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V) and Site approval

Course Director will not waive prerequisites for this course.

Elective Experiences
Elective Experiences

**HOSP 709A Inpatient Ward**

*Internal Medicine*

**Course Purpose Statement:** In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or complex conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope.

The HOSP courses are highly recommended to all students regardless of intended specialty. They can be taken prior to the Core Experience in order to build a solid foundation for success, or after, to consolidate and further enrich skills. This course will be graded on a pass/fail basis. HOWEVER, a numeric score will be calculated which may be used to demonstrate your comparative performance to prospective residency programs.

**Required Prerequisite(s):** IMED 730 or HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

HOSP 709B Inpatient Ward - St. Charles Health System

*Internal Medicine*

**Course Purpose Statement:** In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or complex conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope. Students will work directly with supervising faculty with an emphasis on developing clinical autonomy.

The HOSP courses are highly recommended to all students regardless of intended specialty. They can be taken prior to the Core Experience in order to build a solid foundation for success, or after, to consolidate and further enrich skills. This course will be graded on a pass/fail basis. HOWEVER, a numeric score will be calculated which may be used to demonstrate your comparative performance to prospective residency programs.

**Required Prerequisite(s):** None

**Duration:** Four Weeks  
**Site(s):** St. Charles Health System, Bend  
**Grading Method:** Pass/No Pass  
**Type:** Clinical (Patient Care)  
**Credit:** 6  
**Available through the Lottery:** Yes

Internal Medicine

Course Purpose Statement: In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or complex conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope.

Students at this site often have the opportunity to spend one week in the medical ICU where they will work with resident teams evaluating critically ill patients and have exposure to ventilated patients and those with multi-organ failure. There is also the opportunity to work one-on-one with the admitting Hospitalist service for a week where the student will be able to take initial history and physicals of patients being admitted to the hospital and get direct feedback from supervising attending teaching Hospitalists.

The HOSP courses are highly recommended to all students regardless of intended specialty. They can be taken prior to the Core Experience in order to build a solid foundation for success, or after, to consolidate and further enrich skills. This course will be graded on a pass/fail basis. HOWEVER, a numeric score will be calculated which may be used to demonstrate your comparative performance to prospective residency programs.

PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Course Purpose Statement: In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to obtain hypothesis-driven histories, perform problem-focused exams, and formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or complex conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope. There is a broad exposure to procedures, including bedside ultrasound, which are all done by the housestaff. Students will learn to incorporate evidence based medicine in their patient care decisions. Typically there is only one student per ward team which allows for individualized attention to the student’s educational goals for the rotation. A medical student preceptor distinct from the ward attending is assigned to medical student education for the month.

The HOSP courses are highly recommended to all students regardless of intended specialty. They can be taken prior to the Core Experience in order to build a solid foundation for success, or after, to consolidate and further enrich skills. This course will be graded on a pass/fail basis. HOWEVER, a numeric score will be calculated which may be used to demonstrate your comparative performance to prospective residency programs.

**IMED 709A Sub-I Ward**

*Internal Medicine*

**Course Purpose Statement:** The purpose of this course is to further develop clinical diagnosis, reasoning, and communication skills in the care of complex patients with a wide range of acute and chronic, multi-organ system disease. Students will develop targeted history and physical examination skills, refine clinical reasoning skills, and devise comprehensive differential diagnoses and advanced treatment plans. Emphasis will be placed on increased number of patients and patient care responsibilities and autonomy, in order to develop intern-level skills in preparation for residency. Students will be rotating on a one intern, one resident team in a university hospital setting on mainly medicine and oncology dedicated floors. We emphasize multidisciplinary patient focused rounding practice where students will present patient care plans at the bedside. Students also participate in multidisciplinary care management rounds. Students are encouraged to attend noon reports and residents conferences along with weekly didactics sessions. Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having taken any of the required electives listed in the prerequisites. Please contact Tomo Ito at itot@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INF D 709A, INF D 709H, INF D 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

*Course Director will not waive prerequisites for this course.*

**IMED 709MT Sub-I Ward at Mt Hood**

*Emergency Medicine*

**Course Purpose Statement:** Students will learn the inpatient management of acute medical illnesses on the medical ward, as well as in the MICU. Problems commonly seen on the wards rotation include community acquired pneumonia, CHF, exacerbation of chronic lung diseases, acute and chronic renal failure, bacterial endocarditis, pyelonephritis, and other acute illnesses. Problems commonly seen on the MICU rotation include myocardial infarction, septic shock, acute respiratory failure, diabetic ketoacidosis, and acute gastrointestinal hemorrhage. Students are assigned to work directly with Attending physicians and will advance their knowledge, skills and clinical judgment of the management of acutely ill medical patients.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, , GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

**IMED 710K Clinical Ultrasound**

*Internal Medicine*

**Course Purpose Statement:** This clinical course provides foundational skills in the use of ultrasonography to augment the physical examination. Basic ultrasonography skills for the assessment of normal anatomy and physiology will be learned and applied to the differentiation of normal from basic pathologic states commonly encountered in clinical care. Students will learn the limitations of ultrasonography and when further imaging is appropriate for the care of the patient. The goal of the course is to provide foundational skills in limited ultrasonography that can be further developed during residency training. The course will include didactic sessions, asynchronous modules, deliberate practice in the simulated and supervised clinical settings, and small group discussions. Feedback will be provided by ultrasonographers, peers, residents, and faculty.

**Required Prerequisite(s):** None

**Duration:** Two Weeks  
**Site(s):** OHSU; VA  
**Grading Method:** Pass/No Pass  
**Type:** Clinical (Patient Care)

IMED 710L Appraising Landmark Medical Literature

Internal Medicine

Course Purpose Statement: The primary objective of this 2-week pass/no-pass course is to prepare future physicians to effectively integrate evidence-based medicine into their clinical practice. The skills the course aims to impart (formulating focused clinical questions, searching the medical literature, evaluating the quality of research, and integrating evidence into clinical practice, giving effective article presentations) will focus on general medicine topics and apply to all future clinicians, regardless of specialty. Workshops will practice performing systematic review and meta-analysis, with instructor facilitated post-presentation discussions covering topics of trial design, equipoise, surrogate end-points, identifying sources of bias, and relative vs absolute risk. After this course, medical students should feel more comfortable not only analyzing scientific papers and recognizing the clinical applications of their findings, but also effectively presenting articles to colleagues and stating their findings in language that is meaningful to patients.

Required Prerequisite(s): At least one required clinical Core (IMED 730, IMED731A, IMED731B, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730)

Course Director may waive prerequisites on a case-by-case basis for this course.

**IMED 709V Sub-I Ward**

*Internal Medicine*

**Course Purpose Statement:** The purpose of this course is to further develop clinical diagnosis, reasoning, and communication skills in the care of complex patients with a wide range of acute and chronic, multi-organ system disease. Students will develop targeted history and physical examination skills, refine clinical reasoning skills, and devise comprehensive differential diagnoses and advanced treatment plans. Emphasis will be placed on increased number of patients and patient care responsibilities and autonomy, in order to develop intern-level skills in preparation for residency. Students will be rotating on a two intern, one resident team in the Veterans hospital setting, practicing mainly on medicine dedicated floors. We emphasize multidisciplinary patient focused rounding practice where students will present patient care plans at the bedside. Students also participate in multidisciplinary care management rounds. Students are encouraged to attend noon reports and residents conferences along with weekly didactics sessions. Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having taken any of the required electives listed in the prerequisites. Please contact Tomo Ito at itot@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Elective Experiences
INFD 709A Infectious Disease Consult

Internal Medicine

Course Purpose Statement: Students learn clinical and laboratory approaches to the diagnosis and therapy of infectious diseases. Students participate in both the OHSU and VAMC infectious diseases rounds. They will work up and present new consultation patients, follow up with patients on the consult service, and participate in Division Conferences. Placement is within a combined OHSU/VAMC rotation.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU/VAMC
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

INFD 709H Infectious Disease - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students obtain a working knowledge of the management of common infectious diseases. Management will include diagnostic procedures and appropriate use of antimicrobial agents. Students will participate in the ID consultative service which involves both outpatient and inpatient consultation. They will perform 2-3 complete consultations per week. In each instance, they evaluate patients independently and then present their findings to the infectious diseases faculty. They are then obligated to follow the course of the patient’s illness for the duration of hospitalization and outpatient follow-up where appropriate. There are home reading assignments with learning objectives. Students also are required to complete a medical knowledge self-assessment test in the area of infectious diseases. Students will also get to work with the Hyperbaric/Infectious Disease program. It is certified by the Undersea and Hyperbaric Medical Society and it is operated solely by board-certified ID physicians. This is ideal for coordinating treatment with our wound care program and with providers in the region. Treatment is available 24/7 for emergency care. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V) and Site approval

Course Director will not waive prerequisites for this course.

### NEPH 709C Nephrology/Transplant

**Internal Medicine**

**Course Purpose Statement:** Students are expected to learn about the evaluation and management of patients undergoing renal transplantation, including pre-transplant evaluation and post-operative management. In addition, they are expected to learn about short and long term complications of renal transplantation. Activities include participation in all aspects of the service including in-patient rounds, outpatient clinics, operative procedures and organ procurement. Students evaluate 1-2 new patients per day and 4-6 patients in clinic. Students have the opportunity to observe renal transplants and renal transplant biopsies. Conferences include Combine Transplant Conference, Transplant Renal Biopsy Conference and Transplant Selection Conference. Students participate on a multidisciplinary team of transplant Medicine and Surgery specialists. Team members include Transplant Medicine and Transplant Surgery attendings, Transplant Medicine Fellow, Surgery Residents and a Transplant Pharmacist. Evaluation is based on observations of clinical performance and case presentations. Departmental approval is required prior to registering for this elective. To apply, contact the Course Director and Course Coordinator. Once approved, forward the email to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu.

**Required Prerequisite(s):** One of the following: IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

NEPH 709A Nephrology/Hypertension

Internal Medicine

Course Purpose Statement: Students are expected to learn the clinical approach and therapy of common renal diseases and hypertension. Students are active participants on the nephrology inpatient consultation services at the VA Medical Center and University Hospitals. Problems commonly seen include acute renal failure, glomerulonephritis, nephrotic syndrome, electrolyte and acid-base abnormalities, diabetic nephropathy and hypertension. Students also participate in renal and hypertension clinics. Students average one new patient per day on the inpatient consultative service and generally follow between 3-5 patients. Students may attend clinic one half day per week and see between 2-4 patients. Students may observe placement of central catheters for hemodialysis and renal biopsies. Conferences include Clinical Case Conference, weekly Nephrology Didactic Sessions, Nephrology Journal Club and Medicine Grand Rounds. Students work with a team of two residents, one or two nephrology fellows and an attending nephrology staff. Written evaluation and oral feedback are provided based on observed case presentations and knowledge acquired. Students will acquire a good understanding of the management and diagnosis of renal disease and hypertension.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

PEDI 710MP OHSU DCH PICU - Medical Student-Nurse Experience

**Pediatrics**

**Course Purpose Statement:** Collaboration between physicians and bedside nurses is a cornerstone of quality patient care. Despite improved attention to interprofessional education as a means of enhancing understanding and teamwork, there remain few authentic, clinically based Interprofessional experiences for students in the inpatient setting.

On this rotation, you will spend Six – 12 hour RN shifts (Minimum of 2 night shifts) working with the MICU nurses, learning nursing interventions, interacting with patients and families, and generally becoming acclimated to the interdisciplinary environment of the MICU. You will be assigned a nursing preceptor by the MICU charge nurse during the shifts worked. You will also spend Additional 2 – four hour blocks with pharmacy and dietician.

At least two weeks prior to the beginning of the rotation, you should contact the Course Director and Course Coordinator with the shifts you wish to work and set up a time to orient to the unit.

**Required Prerequisite(s):** None

**Duration:** Two Weeks  
**Site(s):** OHSU

Elective Experiences
**PULM 709A Pulmonary MICU**

**Internal Medicine**

**Course Purpose Statement:** The purpose of the pulmonary/medical ICU elective is to develop clinical diagnosis, reasoning and communication skills in the care of the critically ill patient. Students will gain direct experience with key topics in critical care medicine including respiratory failure and ventilator management, acid-base disturbances, overdose assessment and treatment, and the diagnosis and treatment of sepsis and various shock states. Students will work with other healthcare professionals as a member of an inter professional ICU team in the care of complex critically ill patients, and participate in family meetings with may include discussion of end of life issues and withdrawal of life support.

During this rotation, students will be expected to work one week of night shift (weeks 2-4), with a schedule choice of either the attending evening/night shift (4pm-midnight or later) or the resident/fellow overnight shift 6pm-6am. Each student will predetermine their week with the course coordinator prior to the course starting. If you are unable to complete a week of nights for a particular reason, please notify the course coordinator. Students are expected to attend weekly didactic session while on night shift.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INF 709H, INF 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V).

*Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having taken any of the required electives listed in the prerequisites. Please contact Tomo Ito at itot@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.*

PULM 709C Pulmonary Consult

Internal Medicine

Course Purpose Statement: Pulmonary Consult – OHSU: Students may participate full-time in the consultation service of the Pulmonary and Critical Care Division. This experience includes workup of patients for whom pulmonary consultations have been requested, consultation rounds, bronchoscopy sessions, Pulmonary clinic, attendance at three weekly pulmonary conferences, and reading in pulmonary and critical care medicine. The service (staff Pulmonologist, PCCM fellow and an IM resident most months) sees outpatients in the morning in our subspecialty urgent care clinic. Inpatient consultations are staffed in the afternoons. We perform bronchoscopies and thoracenteses most days as well. The service interprets all pulmonary function tests and supervises review of a high volume of abnormal thoracic imaging studies. Depending on the student’s interest, there may be opportunities to observe care in our multidisciplinary lung cancer and multidisciplinary ALS clinics. There are three Pulmonary conferences weekly, along with opportunities for directed reading in Pulmonary medicine.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

PULM 709CV Pulmonary Consult

Internal Medicine

Course Purpose Statement: The purpose of this rotation is to introduce students to the evaluation, diagnosis, and treatment of patients with respiratory disease, building on the basic science and pathophysiologic aspects of respiratory disease taught in years 1-2. Students will participate as full-time members of the Pulmonary Consult Service at the Portland VA Medical Center. The team includes a fellow, one or two medical residents, nurses, and an attending. Working closely with the fellow/attending, students will evaluate patients in the hospital and in the outpatient clinic, observe procedures such as bronchoscopy and thoracentesis, attend clinical conferences, and read about topics specific to their patients. Specific goals for students during this rotation include:

1) To describe pathophysiology in patients with respiratory disease by interpreting symptoms and physical findings, chest imaging, lung pathology, and pulmonary function tests;
2) To learn the basic approach to evaluation and management of patients with respiratory diseases such as chronic obstructive pulmonary disease, asthma, lung cancer, interstitial lung disease, occupational and environmental lung disease, and pulmonary infections.

Required Prerequisite(s): One of the following: IMED 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

**PULM 709E Critical Care/ICU**

*Internal Medicine*

**Course Purpose Statement:** The purpose of the pulmonary/medical ICU elective is to develop clinical diagnosis, reasoning and communication skills in the care of the critically ill patient. Students will gain direct experience with key topics in critical care medicine including respiratory failure and ventilator management, acid-base disturbances, overdose assessment and treatment, and the diagnosis and treatment of sepsis and various shock states. Students will work with other healthcare professionals as a member of an inter professional ICU team in the care of complex critically ill patients, and participate in family meetings with may include discussion of end of life issues and withdrawal of life support.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having taken any of the required electives listed in the prerequisites. Please contact Tomo Ito at itot@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

Interventional Radiology
RADD 709B Dotter Interventional Institute - Interventional Radiology

Course Purpose Statement: To gain basic understanding of the minimally invasive, image guided diagnostic and therapeutic techniques that the specialty of interventional radiology can provide to the current healthcare patients. Procedural experience includes: interventional oncology, peripheral vascular and aortic interventions, embolization, TIPS, central venous catheter placement, drainage and feeding tube management, as well as venous/lymphatic interventions. Clinical experience includes: IR outpatient clinic for pre and post procedural patient management as well as IR inpatient management in collaboration with many health care teams including several multidisciplinary patient management groups.

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Four Weeks

RADD 709E Dotter Interventional Institute - Advanced Interventional Radiology

Interventional Radiology

**Course Purpose Statement:** This is an advanced four week elective for students who have already completed the basic interventional radiology elective (RADD 709B) and are looking to delve deeper into the patient care and research aspects of the field. Rotation highlights will include time in the Interventional Radiology Clinics, attending multidisciplinary case conferences, serving on the inpatient IR consult service, with possible additional time in the translational research lab. This is not a primary procedural based rotation, but rather, focuses on the evaluation of patients before and after their procedures, and on the critical role of clinical decision making. Students will be expected to take “buddy call” on one weeknight per week and one weekend with the scheduled on call resident/fellow during the elective. Additionally, the student will prepare one didactic lecture on a topic of their choosing to present at weekly Friday IR didactic conference.

**Required Prerequisite(s):** IMED 730, RADD 709B, SURG 730,

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. Medical Genetics
MGEN 709A Medical Genetics

Course Purpose Statement: Students will participate in outpatient services for evaluation of patients with birth differences, syndrome identification, hereditary cancer syndromes and other suspected genetic disorders. They will also participate in a variety of genetics clinics including Pediatric Genetics, Metabolic Genetics, Perinatal Genetics, Cancer Genetics, other sub specialty genetics clinics as available. They will be expected to attend the regularly scheduled Departmental Clinical conference. In addition, students will accompany the on-call geneticists for inpatient consults from the University. They will also attended Doernbecher and MMG Grand Rounds presentations. Additional educational and didactic opportunities may be available as time allows.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730 or PEDI 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

DERM 709H Dermatology - PeaceHealth Sacred Heart

School of Medicine

Course Purpose Statement: The purpose of the Eugene Dermatology elective is for Students to gain experience and proficiency in the care of patients with a wide range of dermatologic diseases. Students will learn basic clinical dermatology with an emphasis on mastering standard terminology, common dermatologic diseases and common procedures. Students will assist with and perform KOH slide preparations, biopsies, and excisions. Students will see patients in both a private office and a multidisciplinary clinic, while working under the supervision of an attending dermatologist. Students will also have exposure to dermatopathology and Mohs surgery. Students will contribute to a monthly clinical case conference. Students participating in rotations in this community will work one on one with their attending with increased autonomy. Students participating in rotations in this community will work one on one with their attending physician with increased autonomy. There are no residents practicing at these hospitals or community clinics. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you.

Required Prerequisite(s): Site approval

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene
Grading Method: Pass/No Pass

IS 709A OHSU Global Southeast Asia Clinical Field Experience

School of Medicine

Course Purpose Statement: The OHSU Global Southeast Asia Clinical Field Experience provides a structured global health immersion experience, introducing medical students to the factors contributing to health and disease globally through the lens of experiential clinical learning in Southeast Asia. Based in Bangkok, Thailand, the elective allows students to expand and refine clinical skills in a setting that highlights variations in burdens of disease, resources, diagnostic and treatment algorithms, and health systems. More broadly, the course aims to develop students’ ability to understand and conceptualize health as the endpoint of multiple complex processes – including historical, political, economic, and cultural – and apply these concepts in various settings.

This elective is not available through the lottery. Interested students should contact the Course Director as soon as possible to express interest and discuss the application process for the Faculty of Medicine Siriraj Hospital, which must be completed 6 months prior to planned travel. Upon successful completion of the application process and confirmation of clinical placement at the partnering site in Thailand, the Course Director will sign off on the International Away Form for IS 709A OHSU Global SE Asia Clinical Field Experience (located on the Student Portal under Forms). Note that this form is required for OCA registration and must be submitted as part of the OCA application process a minimum of 4-6 weeks prior to plan departure. Please forward the final acceptance email to Marcia Decaro (decaro@ohsu.edu) and Kaitlin Seymore (seymore@ohsu.edu).

Required Prerequisite(s): Internal Medicine (IMED 730 or Elective) or Family Medicine (FAMP 730 or Elective)

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

**Course Purpose Statement:** This course is designed for 3rd or 4th year medical students that are interested in becoming medical educators. Medical students taking this elective will be working with students in the Wy’East post baccalaureate program, a Northwest Native American Center of Excellence grant funded program. Wy’East is a structured program designed to assist students from Native American backgrounds who have been unsuccessful in gaining admission to any US medical school. The goal of the program is to better prepare the Wy’East participants for the challenges of medical school. Through this elective, medical students will be mentored on what it takes to become medical educators, as well as complete new faculty modules created by the Teaching and Learning Center at OHSU. Medical students will be expected to design and lead didactic small group sessions on foundation science and community health curriculum for the Wy’East students. These sessions will be evaluated and the medical students will receive timely feedback in order to reflect and make necessary changes for the following week. Medical students will receive mentorship and leadership from faculty from the following areas; foundational sciences, family medicine, community health, and teaching and learning.

### MULT 705C Quality Improvement in Rural Healthcare - Campus for Rural Health - Klamath Falls

**School of Medicine**

**Course Purpose Statement:** The purpose of the Quality Improvement in Rural Healthcare elective is for students to gain experience and proficiency in the science of quality improvement in a rural healthcare system. Students will participate in performance improvement initiatives. Students will work with an interprofessional team of clinicians and administrators to improve patient care and prevent medical errors. Students will learn and apply system solutions to improve rural healthcare delivery. Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations. This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, parkerra@ohsu.edu (Racyne Parker) with your name, class (e.g. MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will email you to let you know the block in which they have placed you and will cc both Kaitlin Seymore and the OHSU Coordinator to formally enroll you. Housing is provided by OHSU.

**MULT 705D Biotechnology Innovation Entrepreneurship**

*School of Medicine*

**Course Purpose Statement:** The purpose of the Biotechnology Innovation elective is for students to gain experience and proficiency in the commercialization of ideas to help patients. Students will participate on a defined research/product development project with a biotechnology startup company at the OTRADI (Oregon Translational Research and Development Institute) Bioscience Incubator (OBI). Students will learn the basics of biotechnology innovation through experiential learning and a comprehensive curriculum delivered in both lecture and small group formats. Students will understand the challenges unique to life science entrepreneurship and successful implementation. Students will interact with the Portland area bioscience community and attend meetings and events at the OBI. Required readings during the course will include The Startup Owner’s Manual by Steve Blank, Business Model Generation by Alexander Osterwalder, The Lean Startup by Eric Reis, and How to Build a Startup by Steve Blank (https://www.udacity.com/course/how-to-build-a-startup--ep245).

**Required Prerequisite(s):** None

**Duration:** Four Weeks  
**Site(s):** OHSU  
**Grading Method:** Pass/No Pass

MULT 709A Multidisciplinary Care of the Underserved - Bend Volunteers in Medicine Clinic

School of Medicine

Course Purpose Statement: The purpose of the Multidisciplinary Care of the Underserved elective is for students to gain experience and proficiency in the comprehensive care of at-risk patients in a volunteer clinic for the uninsured. Students will participate in the diagnosis and treatment of a wide range of acute and chronic diseases, including health maintenance, while gaining an appreciation of the unique challenges of the underserved. Students will create and implement care management plan under the supervision attending physicians across multiple specialties, including family medicine, internal medicine, and gynecology. Students will work seamlessly with an interprofessional team of nurses, pharmacists, counselors, social workers, and interpreters. Elective is offered on a space-available basis. Please contact course coordinator Meghan Rogers for availability, and list your preference of block dates when applying for this course.

Required Prerequisite(s): None

**MULT 709C Multidisciplinary Care of the Underserved - BCCC**

### School of Medicine

**Course Purpose Statement:** Care Clinic is a longitudinal integrated clinical experience for students to gain experience and proficiency in the comprehensive care of at-risk patients in a clinic for the uninsured. Students will participate in the diagnosis and treatment of a wide range of acute and chronic diseases, including health maintenance, while gaining an appreciation of the unique challenges of the underserved. Students will create and implement care management plans under the supervision of attending physicians across multiple specialties. Students will work seamlessly with an interprofessional team of nurses, pharmacists, counselors, and social workers.

**Special Notes:** If you are interested, contact Zoe Teton (teton@ohsu.edu) to register 8 weeks before the start of the term. If you are enrolled in core clinical experience(s) and/or full-time electives in all three blocks during the term, students will not be allowed to take this course. If you have at least one block (4-week) of the term registered for testing intersessions, required intersessions (cancer, cognitive, pain, infection), and/or scholarly project, you will be able to register for this course.

OPHT 709H Ophthalmology - PeaceHealth Sacred Heart

School of Medicine

Course Purpose Statement: The purpose of the Eugene Ophthalmology elective is for students to gain experience and proficiency in the diagnosis and treatment of common eye problems. Students will learn clinical ophthalmology with an emphasis on obtaining a comprehensive ocular history and performing a basis ophthalmological exam. Students will master basic ocular anatomy and pathophysiology. Students will see patients in both the office and the Oregon Eye Surgery Center, while working under the supervision of an attending ophthalmologist. Students will supplement their clinical education with required readings from “Basic Ophthalmology for Medical Students and Primary Care Residents”, 9th Edition, American Academy of Ophthalmology. Students participating in rotations in this community will work one on one with their attending with increased autonomy.

Required Prerequisite(s): Site approval

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene; Fine, Hoffman & Sims Clinic

Neurology
NEUR 701A Neurology Research

Neurology

Course Purpose Statement: Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any areas of neurology. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting.

Students must obtain departmental approval to enroll in this course. Complete the Research Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’.

Required Prerequisite(s): None

Duration: Four Weeks

NEUR 709A Advanced Clinical Neurology

Neurology

Course Purpose Statement: The purpose of this elective is for students to participate in depth in the care of patients with neurological disease. The student will be assigned to two consecutive two week block rotations consisting of either inpatient or ambulatory neurology services. Students may have the potential of working on the general neurology inpatient ward at a sub-intern level if there is availability. Students will also be able to work in depth with neurology subspecialty services. Availability of this experience will depend on enrollment numbers for NEUR 730 for the block requested.

Required Prerequisite(s): NEUR 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Four Weeks
Site(s): OHSU; VA; Remote sites available only for advanced elective and only with prior approval of clerkship director and site preceptor.
Grading Method: Pass/No Pass

Elective Experiences
NSUR 709A Neurosurgery

Neurosurgery

**Course Purpose Statement:** This intensive exposure to clinical neurosurgery is intended for students with a serious interest in the clinical neurosciences. Students work closely with the resident team in day-to-day patient care taking call, working up new patients in both the outpatient clinic and inpatient setting, scrubbing with the residents and faculty in the operating room, and following patients through their postoperative courses. Head and spine trauma, brain tumors, stroke, aneurysmal subarachnoid hemorrhage, chronic pain syndromes, degenerative spine disease, hydrocephalus, spina bifida, movement disorders, and medically intractable epilepsy are the more common clinical problems encountered. The ICU management of critically ill neurological patients is an integral part of the rotation. Placement is at OHSU.

**Required Prerequisite(s):** SURG 730

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks  
**Site(s):** OHSU  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Clinical (Patient Care)  
**Credit:** 4  
**Available through the Lottery:** Yes

OBGY 709A Sub-I Maternal-Fetal Medicine

Obstetrics and Gynecology

Course Purpose Statement: This elective focuses on the clinical care of high-risk obstetric patients, both inpatient and outpatient. Students participate in antenatal testing, ultrasound, and see patients in clinic with fellows, residents, and faculty maternal fetal medicine specialists. Students will participate in prenatal diagnostic care and attend weekly multi-specialty Fetal Care conferences. Night call is every Thursday at OHSU. Students are expected to give a presentation on an MFM topic of their choice in the last 2 weeks of the rotation.

Required Prerequisite(s): OBGY 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU

OBGY 709F Sub-I OBGYN/Oncology

Course Purpose Statement: Students will be responsible for the preoperative, operative, and post-operative care of gynecologic oncology patients with the, including inpatient and outpatient elements. They will scrub in for surgery 1-4 days per week. The focus will be on the surgical care of patients with gynecologic masses / malignancies, and the surgical implications of the clinical issues for these patients. Additionally, students will be involved with the work up and management of patients, including understanding the differential diagnoses of presenting clinical signs and symptoms common to a Gynecologic Oncology practice. In the outpatient setting, students may also be involved in ongoing cancer surveillance, application of chemotherapy and radiation therapy of gyn/onc patients. Students will attend gynecologic oncology tumor conferences and may be on call during the week and weekends to attend emergency surgeries and consults. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery.

To apply, please email the course coordinator by email and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): Departmental approval as well as IMED 730/731A/731B, OBGY 730/731 and SURG 730

Course Director will not waive prerequisites for this course.

OBGY 709H Advanced Reproductive Health Elective

*Obstetrics and Gynecology*

**Course Purpose Statement:** This medical student 4 week rotation is focused on exposure to family planning clinical experiences. This rotation is organized through the Dept. of Ob/Gyn at OHSU and takes place at multiple sites at OHSU and off-campus. The rotation is led by OHSU Family Planning Faculty, but experiences occur with other providers as well, such as with Planned Parenthood staff. During this rotation, students can expect to participate in clinical visits for contraceptive counseling; both routine and complex, to observe procedures, including IUD and contraceptive implant placement and removal and permanent contraception procedures, and to participate in the care of women undergoing abortion in the first and second trimester. This rotation is open to OHSU medical students who have completed an Ob/Gyn core block or to visiting medical students in an MD program who have completed an Ob/Gyn rotation. One applicant is accepted for the Summer 1 block. Applications are due DEC 22nd and decided by JAN 5th. The application consists of a one-page personal statement answering the question, “Why do you want to participate in this elective?” Successful applications describe prior experiences and motivating factors and demonstrate a commitment to reproductive health care. Commitment to Ob/Gyn specialty is not required. Applications are reviewed blinded by students who have previously participated in the externship and by Family Planning faculty. Visiting students may be eligible for funds from the Medical Students for Choice national office.

**OBGY 709K Sub-I Maternal Fetal Medicine - PeaceHealth Sacred Heart**

*Obstetrics and Gynecology*

**Course Purpose Statement:** This elective focuses on the clinical care of high-risk obstetric patients, both outpatient and inpatient care. Students participate in antenatal testing and ultrasound and see patients in clinic with faculty perinatologists. They will take call one night per week. Students are expected to present a case conference during the final week of their clerkship. Students will be involved in the prenatal diagnosis and consultative management clinics. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics. Site approval is required. This elective is not available through the lottery. Required prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you. You must be in good academic standing in order to take this elective.

**Required Prerequisite(s):** OBGY 730 and Site approval and Course Director approval

*Course Director will not waive prerequisites for this course.*

OBGY 709M Advanced GYN/ONC Surgery - PeaceHealth Sacred Heart

Obstetrics and Gynecology

**Course Purpose Statement:** Students will be responsible for the post-operative care of gynecologic oncology patients and will be involved in the pre-operative work up of their Surgery patients. They will scrub in for surgery 2-4 days per week for 5-12 major surgeries. The focus will be on the surgical care of patients with a pelvic mass and the differential diagnosis and surgical implications of the differential for these patients as well as the work up and management of patients with post-menopausal bleeding, especially patients with endometrial cancer. While s/he is in clinic, s/he will also be involved in the ongoing cancer surveillance of these patients and all patients with gynecologic oncologic issues. As such, s/he will attend gynecologic oncology tumor conferences, and the breast tumor conference. S/he will be on call by cell phone during the week and on at least one weekend during the month for consults and emergency surgeries. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you. You must be in good academic standing in order to take this elective.

**Required Prerequisite(s):** OBGY 730 and Site approval and Course Director approval

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks

**Site(s):** PeaceHealth Sacred Heart Medical Center, Eugene; Willamette Valley Cancer Institute

**Grading Method:** 5-tiered Letter Grade

**Type:** Clinical (Patient Care)

**Credit:** 6

**OBGY 710H Family Planning**  
_Obstetrics and Gynecology_

**Course Purpose Statement:** This elective will focus on contraception and abortion care in the outpatient setting. Students will see patients at OHSU in the Ryan Family Planning Clinic and at Planned Parenthood. There are assigned reading and weekly didactic sessions. Dr. Maureen Baldwin is the faculty preceptor.

This elective is not open to students who have taken OBGY 731 continuity core as the experiences are largely duplicated.

**Required Prerequisite(s):** OBGY 730 and department approval

*Course Director will not waive prerequisites for this course.*

OBGY 711A Obstetrics/Gynecology Research

Obstetrics and Gynecology

**Course Purpose Statement:** Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any area of OBGyn. Projects are pre-established, planned, reviewed and approved PRIOR TO the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department course directory, and the Curriculum and Student Affairs office prior to starting.

Departmental approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preference of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specific the block/dates for which you have been approved. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator. Once approved, students must complete the Research Elective Request form in order to take this course. Please visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after you receive departmental approval.

**Required Prerequisite(s):** None.

ORTH 709A Sub-I Orthopaedic Ward

Orthopaedics

Course Purpose Statement: This is as sub-internship level elective is designed for students interested in careers in orthopaedics. Placement is at OHSU and is designed to rotate students through several orthopaedic subspecialty services in order to introduce students to a wide variety of orthopaedic surgery. Students participate as member of teams providing patient care. Four Weeks at OHSU inpatient and outpatient orthopaedic services. Students will spend one week on the inpatient trauma or spine service and 3 additional weeks on other services such as spine, tumor, sports, pediatrics, joints, upper extremity, and foot and ankle. If students have a particular interest in any of those disciplines, they should notify the clerkship director. Students will take overnight in-house call at a minimum of one day a week with opportunity for additional call dates. There are daily 30-60 minute didactic/education sessions with the residents and faculty. Students will be graded on their clinical performance, a 15 minute structured didactic case presentation given at departmental grand rounds, and a written exam. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): SURG 730 and department approval

Course Director will not waive prerequisites for this course.

ORTH 709C Introduction to Orthopaedics

Orthopaedics

Course Purpose Statement: This elective is designed for students interested in gaining exposure to Orthopaedic surgery and musculoskeletal medicine, but not necessarily planning a career. Placement is at OHSU on a single orthopaedic subspecialty service such as spine, tumor, upper extremity, foot and ankle, and trauma. Students participate as members of teams providing patient care. During the month, there will likely be days where the student will have the opportunity to work with other subspecialties as schedules allow. Four Weeks at OHSU inpatient and outpatient orthopaedic services. Two week rotations are allowed with approval of the course director. If students have a particular interest in any of those disciplines, they should notify the clerkship director. Students may take overnight in-house call at a minimum of one day a week with opportunity for additional call dates if the student desires. There are daily 30-60 minute didactic/education sessions with the residents and faculty.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): OHSU
Grading Method: Pass/No Pass

ORTH 709D Pediatric Orthopaedics

Orthopaedics

Course Purpose Statement: This experience provides students with an introduction to common and uncommon diseases of the musculoskeletal systems seen in childhood. They participate in patient-care activities with OHSU’s Pediatric Orthopaedists, Dr. Matthew Halsey & Dr. Scott Yang, at Doernbecher. The elective is designed for students planning careers in primary care or pediatric orthopaedics, and have an interest in musculoskeletal medicine.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

Course Director (name / email):

ORTH 709SC Physical Medicine & Rehabilitation • St. Charles Bend

Orthopaedics

Course Purpose Statement: Students will actively participate in patient care at The Center: Orthopaedics and Neurosurgical Care and Research. This elective is clinically oriented with an emphasis on examination techniques and the diagnosis and treatment of common sports injuries. Students will be expected to attend weekly Grand Rounds, clinical conferences, and other continuing medical education activities as assigned by their attending. St. Charles Bend is located in Bend, OR, approximately 160 miles southeast of the main OHSU campus. St. Charles (Bend) is designated as a Level II Trauma Center by the Oregon Public Health Division. Bend is the only Level II Trauma Center east of the Cascades. St. Charles (Redmond) is a certified Level III Trauma Center

Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) your name, which class (i.e., MED19, MED18), elective course number and name, your top three choices of block dates (for example, 1st choice: Winter 3, 2018, 2nd choice: Spring 1, 2019, 3rd choice: Summer 1, 2019), whether or not you will have met all prereq, and whether or not you need a housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu. Generate one email per one course. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): None.

ORTH 709X Orthopaedic Special Elective

Orthopaedics

Course Purpose Statement: The purpose of this elective is for students to have more in-depth experience in a subspecialty of orthopaedics. Students must make special arrangements with a faculty member and the department for an individual program of study. The Special Elective Request form must be signed off by the faculty member, department Clerkship Director and the Curriculum & Student Affairs office prior to starting. Four Weeks at OHSU inpatient and outpatient orthopaedic services. This elective is designed for students interested in careers in orthopaedics. Placement is at OHSU and is designed to rotate students through a single orthopaedic subspecialty services for an in-depth exposure. If students have a particular interest in any of those disciplines they should notify the clerkship director. Students will take overnight in-house call at a minimum of one day a week with opportunity for additional call dates. There are daily 30-60 minute didactic/education sessions with the residents and faculty. Students will be graded on their clinical performance as well as a 15 minute structured didactic case presentation given at departmental grand rounds.

Students must obtain departmental approval to enroll in this course. Complete the Clinical Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’.

OTOL 709A Sub-I Medical/Surgical Otolaryngology
Otolaryngology-Head/Neck Surgery

Course Purpose Statement: This rotation is an intense clerkship experience, intended for those who are seriously considering a residency in Otolaryngology. Students will rotate on 2 services (head and neck/microvascular, pediatrics, laryngology, facial plastic surgery, VA, sinus, otology) for 2 weeks each. Students may make a special request to spend all 4 weeks on one rotation. Every effort will be made to accommodate rotation preferences, but these cannot be guaranteed. In-house call is expected once per week. Attendance at weekly grand rounds (Monday 7-9am) and resident didactics (Tuesday 6-7pm) is required. The student will be required to complete an oral case presentation at Grand Rounds, including a literature review to answer a specific clinical question illustrated by a chosen case. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

Required Prerequisite(s): SURG 730 and department approval

Course Director will not waive prerequisites for this course.

OTOL 709B Sub-I Microvascular Reconstruction and Rehabilitation

Otolaryngology-Head/Neck Surgery

Course Purpose Statement: The purpose of the Microvascular Reconstruction and Rehabilitation clinical experience is for students to participate in the care and operative management of patients on the Microvascular Reconstruction service by assuming an active role as a subintern. Students will see patients in the clinic, follow them to the operating room, and care for them during their inpatient hospital stay. Surgical exposure will be intense with an opportunity to first assist. Students will participate in a publishable clinical project. Students will attend weekly didactic teaching sessions and will be required to complete an oral case presentation at Grand Rounds, including a literature review to answer a specific clinical question illustrated by a chosen case. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

**OTOL 709J Sub-I Pediatric Otolaryngology**

*Otolaryngology-Head/Neck Surgery*

**Course Purpose Statement:** This elective has been designed to give students an in-depth experience in ambulatory and operative pediatric Otolaryngology. The student will serve as a sub-intern, and assist the resident with the management of hospitalized patients including morning, afternoon and weekend rounds. They will also attend a variety of clinics, including exposure to several multidisciplinary clinics (aerodigestive, craniofacial, hereditary hearing loss, and vascular anomalies). In-house call is encouraged but not required. Attendance at grand rounds (Monday 7-9am), resident didactics (Tuesday 6-7 pm), and pediatric otolaryngology conference (alternate Wednesdays, 8-9 am) is required. Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. OTOL 710C Ambulatory Care in Otolaryngology

Otolaryngology-Head/Neck Surgery

Course Purpose Statement: This elective offers an ambulatory care experience, designed for students planning to enter a primary care field. The goals of the rotation are to learn a comprehensive head and neck examination; to understand basic anatomy and embryology of the head and neck; understand the basic work up and treatment of common otolaryngologic diseases and emergencies; and to gain exposure to the spectrum of otolaryngologic practice. Students will be assigned to outpatient otolaryngologic clinics where they will encounter a variety of non-surgical, pre- and post-operative patients. Requirements include attending grand rounds (Monday 7-9am) and resident didactics (Tuesday 6-7 pm).

Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Marcia DeCaro and Kaitlin Seymore (decaro@ohsu.edu / seymore@ohsu.edu) in order to register for this elective during the dates you were approved for.

OTOL 710E Facial Plastic Reconstructive Surgery
Otolaryngology-Head/Neck Surgery

Course Purpose Statement: The purpose of the Facial Plastics and Reconstruction clinical experience is for students to participate in the ambulatory care and operative management of facial plastic surgery patients. Students will gain experience in reconstructive surgical techniques. Students will attend weekly didactic teaching sessions and Grand Rounds, complete reading assignments, and view educational videotapes showing operative techniques in facial plastic surgery.

Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

Required Prerequisite(s): SURG 730 and department approval

Course Director will not waive prerequisites for this course.

Duration: Two Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 2
Available through the Lottery: No

PATH 709A Introduction to Pathology

Pathology

Course Purpose Statement: This is a 4 week elective course designed to introduce students to the field of pathology as practiced in the clinical setting. Students will attend relevant lectures and clinical conferences, including the anatomic pathology and laboratory medicine resident lectures, Department Grand Rounds and the Autopsy Case review. A pathology interesting case of the month submission is required. Scheduling details will be worked out through Stacey Davis and the Clerkship Director prior to beginning the elective. This course is NOT offered in blocks S3, U1 or U2. Preference for August - October slots will be given to students who are applying to pathology residency. Maximum of 3 students per period (including students enrolled in PATH710A). Completion of IMED 730 or SURG 709A is preferred prior to the start of this rotation.

**PEDI 705E Quality Improvement and Patient Safety in Pediatrics**

*Pediatrics*

**Course Purpose Statement:** The purpose of the Quality Improvement and Patient Safety in Pediatrics elective is to provide medical students with foundational knowledge and experience regarding what it means to be on a quality improvement team and how to undertake a quality improvement project. Students will learn the fundamentals of improvement science, the importance of interprofessional teamwork, and how to incorporate quality improvement methods into clinical practice. The course will include didactic sessions but the primary focus will be experiential learning. Students who complete the course will be adequately prepared to participate in clinical quality improvement projects and will obtain the skills to identify and initiate quality improvement work.

PEDI 709A Sub-I Pediatric Inpatient

Pediatrics

Course Purpose Statement: Doernbecher Children's Hospital offers a one-month clinical elective sub-internship in inpatient pediatrics. This experience gives students a concentrated view of general and subspecialty inpatient pediatrics, allowing for more in-depth exposure to multiple members of the inpatient team. The Sub-I facilitates a more substantive evaluation of students in an active and challenging hospital environment. This rotation is intended to prepare students for an internship. Students will develop skills in a variety of areas important in the care of hospitalized children, including: history taking, physical exam skills, patient presentations, clinical reasoning and assessment, problem solving, and discharge planning. At least four call experiences are required, including one weekend experience; please refer to the DCH call schedule tailored to your rotation. Call experiences enable students to achieve continuity of care with their patients, and expose them to “middle of the night” decision-making experience. Students should confirm their call schedule with the senior resident on the first day of the rotation. Students will pre-round on their patients daily, give bedside presentations on rounds, attend morning report and noon conferences, and, if possible, present one patient for morning report. Students should receive feedback from the ward attending or senior resident at the end of each week. When you enroll in this Sub-I course, you will be placed with one of the two ward teams. The Lead Preceptor for the Coast Ward is Bronwyn Baz, MD (baz@ohsu.edu), and the Lead Preceptor for the Hood Ward is Jared Austin, MD (austinja@ohsu.edu).

Required Prerequisite(s): PEDI 730

Course Director will not waive prerequisites for this course.

Elective Experiences
**PEDI 709AB Outpatient General Pediatrics**

*Pediatrics*

**Course Purpose Statement:** The General Pediatric Outpatient Elective is designed to expose students to the world of general pediatrics practiced in the community setting. Utilizing a variety of local private outpatient practices, students will see a wide variety of acute as well as well-child care. Students will work directly with pediatrician preceptors, as well as other members of an interprofessional team including but not limited to RNs, MAs, social workers and lactation consultants. Students will participate in the well child visits for newborns through adolescents, and gain exposure to a variety of core pediatric topics including normal development, growth, developmental screening, vaccine schedules and routine screening for depression and substance use in adolescent patients. While variety and volume of urgent/acute visits in pediatric clinics vary over the course of the year, students will have the opportunity to improve their history taking/data gathering and assessment/plan skills for the following acute illnesses: neonatal jaundice, upper respiratory illness, lower respiratory illness, gastrointestinal complaint, skin complaint and fever. Students will be assessed by preceptors using the pediatric medical student clinical assessment form, with a final grade assigned by the elective rotation director. Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator (Alina Dunbar, dunbaal@ohsu.edu) and describe your interest in the course. Include your name, graduation year, whether you have met stated prerequisites, the name and course number of the elective you wish to take, and the specific block(s)/dates during which you are available. The coordinator will review your request and will forward approval of your enrollment to the Dean’s Office (Kaitlin Seymore, seymore@ohsu.edu and Marcia DeCaro, decaro@ohsu.edu) if indeed your request is approved.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**Duration:** Four Weeks  
**Site(s):** Various Outpatient Clinics  
**Grading Method:** Pass/No Pass  
**Type:** Clinical (Patient Care)

Elective Experiences
**PEDI 709AP Sub-I Pediatric Ward Night Team**

*Pediatrics*

**Course Purpose Statement:** This elective course is designed to expose students to the unique features of overnight care of the hospitalized pediatric patient. Students will have the opportunity to partner with the night resident team and participate in the IPASS handover process, an evidence based structured handover program that has been demonstrated to reduce medical errors and preventable adverse events. Students will have the opportunity to strengthen skills in contingency planning, situational awareness, communication and medical decision making in a busy clinical environment. Students will have ample opportunity to participate in the admission process - performing initial history and physical exams, placing orders, oral presentations and note writing. Department approval is required prior to enrolling in this course via the lottery. Please email the course coordinator (Alina Dunbar, dunbaal@ohsu.edu) to obtain approval. If you are approved, forward the confirmation email to Tomo Ito (itot@ohsu.edu) no later than one day prior to the end of the lottery. The approval will be entered into the lottery, and will allow you to list the course as a preference. Please note that this approval process does not guarantee you a spot in the course.

To register for this course outside of the lottery, email the course coordinator (Alina Dunbar, dunbaal@ohsu.edu) and describe your interest in the course. Include your name, graduation year, whether you have met stated prerequisites, the name and course number of the elective you wish to take, and the specific block(s)/dates during which you are available. The coordinator will review your request and will forward approval of your enrollment to the Dean’s Office (Kaitlin Seymore, seymore@ohsu.edu and Marcia DeCaro, decaro@ohsu.edu) if indeed your request is approved.

It is recommended that students complete all of the Core Clinical Experiences (FAMP 730, IMED 730, NEUR 730, OBGY 730, PSYC 730 and SURG 730) prior to taking this course.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks  
**Site(s):** OHSU

Elective Experiences
PEDI 709B Sub-I Neonatal Medicine

Pediatrics

Course Purpose Statement: This elective allows the student to work at the subintern level with exposure to both common and unusual neonatal problems in a NICU with admissions from a high-risk delivery service and regional referrals. Students are expected to attend high-risk deliveries and to manage patients with guidance from residents and staff.

Required Prerequisite(s): PEDI 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Sub-Internship
Credit: 6
Available through the Lottery: Yes

PEDI 709CD Pediatric Hospital Medicine - Asante Rogue Regional Medical Center

**Pediatrics**

**Course Purpose Statement:** This elective experience gives students a concentrated view of general inpatient pediatrics in a hospitalist model at Asante Rogue Regional Medical Center. It allows for more in-depth exposure to multiple members of the inpatient team, facilitating a more substantive evaluation of students in an active and challenging hospital environment. RVMC is a large general hospital with a dedicated pediatric unit, and students will have exposure to newborns, pediatric patients, and pediatric intermediate care patients throughout the course. The student will be an integral part of the team and experience pediatrics away from a tertiary care hospital. The Lead Preceptor for this course is Lora Bergert, MD ([lora.bergert@asante.org](mailto:lora.bergert@asante.org)). You will be working directly with her during your time in Asante Rogue.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**PEDI 709D Sub-I Pediatric Critical Care**

*Pediatrics*

**Course Purpose Statement:** This elective will expose the student to the critical care of infants, children, and adolescents in a children’s hospital. The student will serve in a sub-intern role, and will assist the attending physicians with admissions as well as the ongoing care of patients. The goal of the course is to teach students how to recognize and stabilize critically ill children and to provide thoughtful, ongoing care.

**Required Prerequisite(s):** PEDI 730

*Course Director will not waive prerequisites for this course.*

PEDI 709I Pediatric Infectious Diseases

**Pediatrics**

**Course Purpose Statement:** The primary objective of this elective is to provide students with experience in several aspects of pediatric infectious diseases. Students will review basic microbiology, learn to perform a complete evaluation of a patient with a possible or proven infectious disease, and gain knowledge in the management of infectious disease patients. Patients will be seen in an outpatient subspecialty clinic and in inpatient consultations. Didactic teaching sessions, an open-book examination, and a suggested reading list are provided to the student.

**Required Prerequisite(s):** PEDI 730

*Course Director will not waive prerequisites for this course.*

PEDI 709J Sub-I Pediatric Hematology/Oncology

Pediatrics

Course Purpose Statement: The objective of this course is to provide the student with fundamental understanding of the pathophysiology, clinical characteristics and treatment of hematologic and oncologic conditions occurring in childhood. While there is an emphasis on the most common childhood cancers such as leukemias and brain tumors, the student also has the opportunity to learn the full spectrum of malignant solid tumors in children and common hematologic conditions such as aplastic anemia, coagulation disorders and the hemoglobinopathies. In addition, the student is involved in the stem cell transplant program and its role in the treatment of hematologic, oncologic, immunologic and genetic disorders, and will learn the treatment of infection in the immunocompromised patient. Students receive a written evaluation based on observation of performance and attendance at and contributions to the Division’s rounds and conferences. Students will spend time in the clinic or on the ward depending on their learning objectives and the census of the clinic or ward.

Required Prerequisite(s): PEDI 730

Course Director will not waive prerequisites for this course.

PEDI 709K Developmental/Behavioral Pediatrics

Pediatrics

Course Purpose Statement: Provides experience in a broad spectrum of neurodevelopmental, behavioral, learning and emotional problems in infants to patients aged 18 years. Clinics include the following: Genetics, Metabolic, Neurodevelopmental, Child Development, Spina Bifida, Neonatal Intensive Care follow-ups, Autism, ADHD, Medication Management and more. Clinic assignments can be adjusted based on the interests of the student to some extent. Because the rotation consists of outpatient clinics, there is no night call or weekend duty.

**PEDI 709KF Rural Pediatrics · Campus for Rural Health · Klamath Falls**

*Pediatrics*

**Course Purpose Statement:** The purpose of the Rural Pediatrics elective is to allow students to develop skills that allow for independent evaluation and management of pediatric patients. Students will concentrate on well child checks, growth and development, and common outpatient pediatric problems. Students will develop an understanding of unique healthcare needs of rural pediatric patients and their families. Students will round on inpatient pediatric patients, present patients and offer plan suggestions, and provide at least one brief teaching conference to the team. Students who rotate at a Campus for Rural Health site will automatically be enrolled in a mandatory, interprofessional community-based project course and participate in various interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based, 1-credit course, students will have the option of being enrolled in the course in subsequent rotations.

**Required Prerequisite(s):** PEDI 730

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**PEDI 709N Diagnosis & Management of Child Abuse**

**Pediatrics**

**Course Purpose Statement:** Educational goals in the Diagnosis & Management of Child Abuse elective will be achieved through a variety of educational experiences. 1. Participation in abuse and neglect consults at DCH and Randall Children’s Hospital. 2. Participation in meetings with CPS and police investigators regarding ongoing abuse evaluation. 3. Attendance at peer review conferences, include state and national teleconferences, and county multidisciplinary team meetings. 4. Participation in outpatient physical and sexual abuse evaluations at CNW, including observation of forensic interviews of children. 5. Shadowing a CPS worker for a day. 6. Attendance at court proceedings in which a medical provider is testifying. 7. Review of journal articles and video presentations on common child abuse topics to ensure a foundation of knowledge independent of the types of consults seen during the month. 8. Completion of a series of child abuse case scenarios with an attending physician at the end of the rotation. 9. Brief presentation on a topic of interest in child abuse.

Approximately 50% of the student’s time will be spent on the inpatient consultation service at DCH and RCH. In between consults, the student will complete the required reading and video list and prepare a presentation. Approximately 30% of the student’s time will be spent participating in outpatient consultations at CNW. Approximately 20% of the student’s time will be spent on field trips to court and meetings and attending peer review conferences. Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator (Alina Dunbar, dunbaal@ohsu.edu) and describe your interest in the course. Include your name, graduation year, whether you have met stated prerequisites, the name and course number of the elective you wish to take, and the specific block(s)/dates during which you are available. The coordinator will review your request and will forward approval of your enrollment to the Dean’s Office (Kaitlin Seymore, seymore@ohsu.edu and Marcia DeCaro, decaro@ohsu.edu) if indeed your request is approved.

**PEDI 709P Pediatric Gastroenterology**

*Pediatrics*

**Course Purpose Statement:** This elective offers the student clinical experience in combined inpatient and outpatient settings seeing children with various gastrointestinal disorders. Students will round on the inpatient service and be asked to follow one or two consult patients. Students will see patients on a daily basis and report and present patients' vital signs, lab test results, clinical courses, and plans from the previous 24 hours. When on the outpatient service, the students will see, interview and examine patients and their families and report back to the attending gastroenterologist with their findings. Students should make an attempt at an assessment and plan. Students will also have the opportunity to observe various GI procedures and attend some teaching conferences like path and radiology rounds with the GI team. The rotation will introduce the student to acute and chronic conditions affecting the entire gastrointestinal (GI) tract including nutritional disorders and hepatobiliary-pancreatic systems. Specifically, patients may have a wide array of disorders ranging from acute (e.g., GI bleeding) or chronic disorders (e.g., Crohn's disease) and low (e.g., irritable bowel syndrome) to high (e.g., s/p liver transplant) acuity. The student may observe endoscopic and other diagnostic (e.g., motility) and therapeutic (e.g., foreign body removal) procedures. Some patients have liver failure requiring artificial liver support or hepatic transplants, while others have short bowel syndrome and intestinal failure requiring chronic intravenous nutrition, enteral tube feeding or a small intestinal transplant. The student will work collaboratively with dieticians, speech therapists, psychologists, pulmonologists, otolaryngologists, surgeons, other subspecialists and primary care doctors. Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator (Alina Dunbar, dunbaal@ohsu.edu) and describe your interest in the course. Include your name, graduation year, whether you have met stated prerequisites, the name and course number of the elective you wish to take, and the specific block(s)/dates during which you are available. The coordinator will review your request and will forward approval of your enrollment to the Dean’s Office (Kaitlin Seymore, seymore@ohsu.edu and Marcia DeCaro, decaro@ohsu.edu) if indeed your request is approved.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**Duration:** Four Weeks  
**Site(s):** OHSU

PEDI 709PR Pediatric Physical Medicine and Rehabilitation

**Pediatrics**

**Course Purpose Statement:** The rotation is based at Legacy Randall Children’s Hospital and is available to students who have completed their Pediatrics, Family Medicine or Internal Medicine Core rotation in addition to a pediatric-focused preceptorship. The student will be mentored by all of the rehabilitation attending physicians and will participate in the management of the inpatient and outpatient rehabilitation service. The student will also have an opportunity to spend 2- to 3-hour blocks with the physical, occupational and/or speech therapists in the department. The Lead Preceptor for this course is Steven Janselewitz, MD (sjansele@lhs.org). You will be working directly with him during your time at Legacy Randall. Goals: Understand pediatric rehabilitation settings and types of available services Understand indications for rehabilitation services

**Objectives:** Upon completion of the rotation, the student will be able to: • Describe normal pediatric development • Identify impairments in a child/adolescent with disability • Outline a rehabilitation plan • Be able to recommend appropriate orthotics and assistive devices • Describe specific standardized testing and therapy techniques commonly used by pediatric therapists

Elective Experiences
Elective Experiences

PEDI 709R Pediatric Surgery - PeaceHealth Sacred Heart

Course Purpose Statement: Students will be responsible for preoperative evaluation of pediatric patients with surgical disorders, including evaluation of laboratory and imaging information, performance of history and physical examinations, and discussion of differential diagnoses for common presenting chief complaints. The student will acquire operative skills in both simple and complex pediatric surgical procedures; postoperative management skills, including wound care, pain, nutrition and fluid/electrolyte status; and experience with long-term follow-up of patients. The student will spend 30% of their time seeing patients in clinic performing basic clinical procedures in pediatric patients, including primary closure of incisions, management of open and infected wounds, intravenous line placement, and placement of urinary catheters. Students will also spend time in the NICU/Pediatric Unit/ER for rounds and consults. PeaceHealth Sacred Heart Medical Center has 2 hospitals: the University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one-on-one with their attending with increased autonomy. There are no residents practicing at these hospitals or community clinics. The Lead Preceptors for this course are Chris Hammond, MD (chammond@peacehealth.org) and Kierst Bradley, MD (kbradley@peacehealth.org). You will be working directly with them during your time in Eugene. There are no residents practicing at these hospitals or community clinics. Site approval is required; this elective is not available through the lottery. To register for this course, email the site coordinators, Irene Sogge (isogge@peacehealth.org) and Joanie Robertson (JRobertson2@peacehealth.org) with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and whether you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): SURG 730 and Site approval

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene
Grading Method: Pass/No Pass

**PEDI 710MP OHSU DCH PICU - Medical Student-Nurse Experience**

*Pediatrics*

**Course Purpose Statement:** Collaboration between physicians and bedside nurses is a cornerstone of quality patient care. Despite improved attention to interprofessional education as a means of enhancing understanding and teamwork, there remain few authentic, clinically based Interprofessional experiences for students in the inpatient setting.

On this rotation, you will spend Six – 12 hour RN shifts (Minimum of 2 night shifts) working with the MICU nurses, learning nursing interventions, interacting with patients and families, and generally becoming acclimated to the interdisciplinary environment of the MICU. You will be assigned a nursing preceptor by the MICU charge nurse during the shifts worked. You will also spend Additional 2 – four hour blocks with pharmacy and dietician.

At least two weeks prior to the beginning of the rotation, you should contact the Course Director and Course Coordinator with the shifts you wish to work and set up a time to orient to the unit.

PEDI 710W Well Newborn Nursery

Pediatrics

Course Purpose Statement: The goal of this rotation is to expose the student to the care of the well newborn. Students can also expect to learn about a variety of common conditions in the newborn period, including neonatal jaundice, neonatal infections, evaluation and management of newborn feeding problems, and the management of infants born to mothers with diabetes, infections, substance use, and other medical conditions. Learning will be accomplished through didactic instruction, reading, and hands-on experience caring for infants in the OHSU Mother Baby Unit.

PEDI 711A Pediatric Research

Pediatrics

Course Purpose Statement: Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any area of Pediatrics. Projects are planned, reviewed and approved prior to the beginning of the elective. The supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office must sign off the Research Elective Request form prior to the first day of the elective rotation.

Students must obtain departmental approval to enroll in this course. Complete the Research Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Research
Credit: 2
Available through the Lottery: No

Course Director (name / email): Laura Ibsen / ibsenl@ohsu.edu
Course Coordinator (name / email): Alina Dunbar / dunbaal@ohsu.edu
Qualified Assessor (name / email): Laura Ibsen / ibsenl@ohsu.edu

**PEDI 741A Pediatric Critical Care Continuity Experience**

**Pediatrics**

**Course Purpose Statement:** The student will be part of the Critical Care team for a full 8 weeks as part of a continuity experience, including continuity of faculty and continuity of place. Students will follow patients who are in the ICU for several days to several weeks in order to provide the student with a patient care continuity experience. Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

PEDI 741B Congenital Heart Disease Continuity Experience

*Pediatrics*

**Course Purpose Statement:** This course will expose the student to the depth and breadth of care of the patient with congenital heart disease (CHD). The student will follow patients through pre-natal diagnosis, to the NICU, PICU, surgery, imaging, and follow up. They will also be exposed to adults with congenital heart disease. The student will gain experience with multiple aspects of CHD care, including imaging, surgery, ICU care, clinic, and follow up. Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

PEDI 741U NICH: Novel Interventions in Children's Healthcare Continuity Experience

Pediatrics

Course Purpose Statement: NICH is a program for children and adolescents with complex medical conditions who struggle to properly manage their health and are repeatedly hospitalized. In collaboration with CareOregon and other insurance providers, we have developed NICH, or Novel Interventions in Children's Healthcare, to provide intensive behavioral health care for young people living with diabetes, cancer, cystic fibrosis, kidney disease and chronic pain. Students will be paired with a Master's prepared Interventionist and will participate in all clinical activities related to that worker's caseload (typically 5-10 patients). The student will also attend clinical reviews of cases and supervision with PhD psychologists. The interventionists go to patient homes, attend patients' medical appointments, provide care coordination, work with state agencies, etc. Depending on interest, students can also be involved in research performed by the program and participate in systems-level program development. The student should have access to a car. Students must have access to a car to drive to off-site locations.

Required Prerequisite(s): None

Notes: Other dates/blocks may be available. Please contact the course coordinator for assistance.

Duration: Eight Weeks

PEDI 741W Neonatal Continuity Experience

Pediatrics

Course Purpose Statement: This course will expose the student to continuity care of the neonatal and infant patient. Students will attend prenatal visits and conferences, follow patients in the NICU, and visit the NICU follow up clinic. Students will be assigned patients and follow those patients through the entire duration of the rotation. Students will also participate in discharge planning and clinical consensus conferences. Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu/seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Elective Experiences
# PEDI 741X Pediatrics Continuity Special Elective

**Pediatrics**

**Course Purpose Statement:** The purpose of this continuity elective is for students to gain in-depth experience in a Pediatrics subspecialty of their choosing. Students must make special arrangements with a faculty member and department for an individual program of study. The Special Elective Request form must be approved by the faculty member, departmental Clerkship Director, and the Curriculum & Student Affairs office prior to the first day of the rotation.

Students must obtain departmental approval to enroll in this course. Complete the Clinical Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’.

PSYC 709A Emergency Psychiatry

Psychiatry

Course Purpose Statement: The emergency psychiatry elective provides students with the opportunity to learn to evaluate, assess and develop treatment plans for patients presenting to the Unity Behavioral Health Psychiatric Emergency Service. The student will become familiar with the roles of all of the members of the treatment team in the Psychiatric Emergency Service. In addition, students will develop an understanding of the role of the Unity Psychiatric Emergency Service as part of the mental health care system in Oregon. The student will work directly with attending staff to gain additional experience and expertise in interviewing, diagnosing and managing acute psychiatric patients. The purpose of the elective is for students to learn management of patients with acute behavioral health emergencies, to learn how to assess for risk of suicide and risk of violence, and how to triage and differentiate patients presenting with medical and psychiatric complaints.

Required Prerequisite(s): Either Psychiatry Core OR Emergency Medicine Core - 2 or 4 week

Duration: Four Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

**PSYC 709C Sub-I Psychiatry**

*Psychiatry*

**Course Purpose Statement:** This elective is designed for those students who, having already completed their core psychiatric clinical experience, wish to gain further inpatient psychiatry experience. This experience includes a program of guided reading, patient interviewing, and patient follow-up for the assessment and treatment of acute psychopathology presentations. Students are assigned to an OHSU faculty member at any of several inpatient treatment sites. The student is the primary contact with the patients on their team, with either the second year resident and/or the attending providing supervision on a wide range of patients encountered in acute inpatient psychiatry. Students must contact the Psychiatry Medical Student Coordinator taylorki@ohsu.edu as soon as they are registered to find out their designated site placement. Students assigned to OHSU should email Dr. Blekic (blekica@ohsu.edu) and Dr. Haupt (haupt@ohsu.edu); students assigned to Unity Hospital should contact Dr. Meehan at both of her email addresses (mehans@ohsu.edu & SMEEHAN@LHS.ORG) one month prior to the elective start date to ensure all required access paperwork and other required information is completed prior to start date. Please CC taylorki@ohsu.edu on this email.

**Required Prerequisite(s):** IMED 730 and PSYC 730

*Course Director* may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Tomo Ito at itot@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

**Duration:** Four Weeks  
**Site(s):** OHSU; Unity  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Sub-Internship  
**Credit:** 6  
**Available through the Lottery:** Yes

PSYC 709D Consultation Liaison Psychiatry

Psychiatry

Course Purpose Statement: The purpose of the Consultation Liaison Psychiatry elective is for students to learn to manage psychopathology in an inpatient consultation setting. Students will evaluate and follow patients on the medical and surgical services. Students will assist in the assessment and ongoing management of patients with complicated presentations. Students will apply and synthesize their knowledge in the areas of medicine, surgery and psychiatry. This elective is at OHSU. Students should email Dr. Blekic (blekica@ohsu.edu) and Dr. Haupt (haupt@ohsu.edu) one month prior to the elective start date to ensure all required access paperwork and other required information is completed prior to start date. Please CC taylorki@ohsu.edu on this email. Elective will not be available if a PSYC 709C student is assigned to the C/L service for the same block.

PSYC 709L Community Psychiatry

Course Purpose Statement: The purpose of the Community Psychiatry elective is to familiarize the student with the community mental health system in Oregon and allow the student to participate in various aspects of consultation and patient care in a community mental health center. Students will learn about patterns of mental illness, the nature of mental health care delivery, drug and alcohol treatment programs and the interface of law and psychiatry. Students will participate in both seminars and community training experiences. A part-time option limited to seminar attendance is also available. Please email Dr. Betlinski (betlinsk@ohsu.edu), Dr. Falk (Neil.falk@co.multnomah.or.us), and Kathryn Brant (brantk@ohsu.edu) at least two months prior to the elective start date to begin creating elective schedule and ensure all required access paperwork and other required information is completed prior to start date. Please CC taylorki@ohsu.edu on this email. The Public Psychiatry Training Program staff will provide supervision.

Required Prerequisite(s): None

PSYC 710A Emergency Psychiatry

Psychiatry

Course Purpose Statement: The emergency psychiatry elective provides students with the opportunity to learn to evaluate, assess and develop treatment plans for patients presenting to the Unity Behavioral Health Psychiatric Emergency Service. The student will become familiar with the roles of all the members of the treatment team in the Psychiatric Emergency Service. In addition, students will develop an understanding of the role of the Unity Psychiatric Emergency Service as part of the mental health care system in Oregon. The student will work directly with attending staff to gain additional experience and expertise in interviewing, diagnosing and managing acute psychiatric patients. The purpose of the elective is for students to learn management of patients with acute behavioral health emergencies, to learn how to assess for risk of suicide and risk of violence, and how to triage and differentiate patients presenting with medical and psychiatric complaints.

Required Prerequisite(s): Either Psychiatry Core OR Emergency Medicine Core - 2 or 4 week

Duration: Two Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 2
Available through the Lottery: Yes

Elective Experiences
PSYC 710K Intercultural Psychiatric Program

Psychiatry

Course Purpose Statement: The purpose of the Intercultural Psychiatric Program (IPP) elective is for students to learn about the practice of psychiatry in a unique outpatient setting. IPP provides culturally sensitive mental health services for immigrant and refugee communities, with an emphasis on individuals and families whose first language is not English. IPP staff includes 7 faculty and 16 counselors offering services in over 15 languages including Amharic, Arabic, Bosnian, Burmese, Cambodian, Farsi, Kurdish, Laotian, Mai Mai, Mien, Oromo, Russian, Somali, Swahili, and Vietnamese. Students will have the opportunity to observe and participate in patient care and treatment.

Please email Dr. Boehnlein (boehnlei@ohsu.edu) one month prior to the elective start date to ensure all required access paperwork and other required information is completed prior to start date. Please CC taylorki@ohsu.edu on this email.

Required Prerequisite(s): None

RADT 741X Radiation Medicine Special Continuity Elective

Radiation Medicine

Course Purpose Statement: The purpose of this continuity clinical elective is for students to have more in-depth experience in Radiation Medicine. Students must make special arrangements with a faculty member and the department for an individual program of study. Students must obtain departmental approval to enroll in this course. Complete the Continuity Clinical Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’

Required Prerequisite(s): None

Duration: Eight Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: ContinuityClinical (Patient Care)
Credit: 8
Available through the Lottery: No

Course Director (name / email):
Nima Nabavizadeh / nabaviza@ohsu.edu
Course Coordinator (name / email):
Terri Welsh / welsht@ohsu.edu

Rural Scholars
RSP 741 Oregon Rural Scholars Program

**Rural Scholars**

**Course Purpose Statement:** The purpose of the Oregon Rural Scholars Program Experience is to provide students who are highly motivated toward rural primary care with an opportunity to experience what their future career path could be. Rural Scholars are competitively admitted into the program during their first year. Each Scholar is matched to a community with which the Scholar will interact throughout his or her training. Depending on the site, students will complete a Specialty/Core Clinical Experience in a primary care practice during the first 4-weeks (Family Medicine or General Surgery), followed by an 8-week long RSP elective in the same practice. Students will develop a deep and comprehensive understanding of a primary care specialty practiced within a rural community setting, as well as concepts of community and public health, epidemiology, and resource allocation. Students complete their rural experience, their continuity experience, and (with department approval) a specialty core.

This elective’s duration is 12 weeks in total in combination with Core/Specialty Clinical Experience component.

**Required Prerequisite(s):** Admittance to the Rural Scholars Program

_Course Director will not waive prerequisites for this course._

Surgery
CSUR 709A Sub-I Cardiothoracic Surgery

Course Purpose Statement: The purpose of the Cardiothoracic Surgery clinical experience is for students to participate in the surgical management of adult cardiac and thoracic surgery patients. Students will learn all aspects of cardiothoracic surgery, including valve replacements, coronary artery revascularization, aortic dissection repair, surgical arrhythmia ablation, heart transplantation, lung resection, esophageal procedures and mediastinal exploration. Students will attend didactic lectures, one-on-one faculty teaching sessions, clinical rounds, and scrub into cases. Students will see patients in the clinic, on the ward, and in the CVICU.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks

PLAS 709A Plastic & Reconstructive Surgery

Course Purpose Statement: Students are exposed to an extraordinary variety of congenital and acquired defects in both children & adults. Cranio-facial anomalies, maxillofacial trauma, microsurgery, and unusual surgical problems are seen daily. Cosmetic surgery and reconstructive surgery of the hand, head, neck, torso, and lower extremities are common procedures. Students will have the opportunity to evaluate patients and actively participate in the operating room, clinics, and wards. They will interact directly with the attending, residents, and patients.

Required Prerequisite(s): None

**SURG 701A Surgery Research**

**Surgery**

**Course Purpose Statement:** Students will participate in research (arrangement made by student) within the department of surgery. At the completion of the rotation, the student should turn in a summary of the research performed (2-4 pages) which includes background of the process you are studying and the question you are trying to answer, methods (including statistical analysis), results, and a description of your actual research experience. Using preliminary data to write an abstract is encouraged. Students should also include a plan for eventual submission and presentation of your work. Students must fill out a form and have approval from the surgical faculty mentor, the surgery department and the dean’s office prior to signing up. Please contact the surgery coordinator for the requirements for this course. Students must obtain departmental approval to enroll on this course.

Students must obtain departmental approval to enroll in this course. Complete the Research Special Elective Request form in the Student Portal under ‘Medicine’ and ‘Forms’

SURG 709A OHSU TICU / SICU

Surgery

Course Purpose Statement: Students have the opportunity to participate in the management of complex, critically ill trauma, general surgery, and transplant patients. This is a highly educational experience that combines opportunities for patient management with excellent bedside and didactic teaching. OHSU is a quaternary care center for the state of Oregon and one of the only two Level 1 Trauma Centers, adding to the excellence of this opportunity. Students make daily rounds with trauma surgeons, fellows, residents, and PAs. This is an excellent educational experience secondary to bedside teaching as well as multiple planned conferences to include Trauma Conference, Morbidity and Mortality, and a didactic lecture series. Students also get the opportunity to present a case they have managed at one of the Trauma Conferences. Throughout the rotation, students will be presented with case based modules and will receive feedback on these assignments. Students will take a final exam at the end of the rotation.

Required Prerequisite(s): SURG 730 and IMED 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade

SURG 709B Sub-I General Surgery Blue - OHSU

Surgery

Course Purpose Statement: The rotation focuses primarily on the pancreas, the hepatobiliary system, diseases of the adrenal glands and spleen, along with some aspects of foregut surgery and hernia repair. The physicians are trained in both minimally invasive and open surgery. You will develop skills evaluating, diagnosing and caring for surgical patients. You will be able to identify critical aspects of patient care in patients with diseases of the pancreas, hepatobiliary system, adrenal glands, spleen, and foregut disease. You will have hands on experience in the operating room as a part of the operative team. Responsibilities include evaluating consult patients in the emergency room, on the hospital wards and in our out-patient clinics. You will round on and present your patients on the wards as well as assist with wound care. You will be able to participate in multidisciplinary tumor conferences and you will be expected to deliver succinct and informative patient presentations. You will be expected to have the ability and willingness to work in a cooperative manner with all other healthcare personnel who care for our patients. After completing this rotation, you will have an in-depth knowledge of benign and malignant disease of the pancreas, hepatobiliary system, adrenal disorders and surgical diseases of the spleen.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

**Surgery**

**Course Purpose Statement:** The rotation focuses specifically on clinical oncology through participation in radiotherapy and chemotherapy clinics, surgical oncology clinic and tumor boards, surgery conference and inpatient rounds. The breadth of diseases span tumors of the breast, skin, liver, pancreas, biliary tree, intestines, as well as endocrine and neuroendocrine tumors. You will develop skills evaluating, diagnosing and caring for surgical patients. You will be able to identify critical aspects of patient care. You will be expected to provide at least one detailed review to the team regarding a disease entity and treatment that they encounter during rotation. You will have hands on experience in the operating room assisting with operative procedures. Responsibilities include evaluating consult patients, on the hospital wards and in our out-patient clinics. You will round on and present your patients on the wards as well as participating in clinic. You will be expected to have the ability and willingness to work in a cooperative manner with all other healthcare personnel who care for our patients.

**Required Prerequisite(s):** SURG 730

*Course Director will not waive prerequisites for this course.*

SURG 709GE Vascular Surgery

Course Purpose Statement: The purpose of this rotation is for students to participate in the evaluation and management of patients with vascular diseases. Students will participate in the continuum of care of patients presenting with vascular diseases including preoperative evaluation and risk stratification/reduction, operative management of vascular diseases, postoperative management (both inpatient and outpatient setting) and surveillance of surgical (open and endovascular) outcomes. Students will be expected to understand the pathophysiology of, and participate in the care of patients with hemodialysis access needs, thoracic and/or abdominal aortic aneurysms, acute arterial occlusion, chronic arterial occlusive disease, extracranial carotid occlusive disease, and acute and chronic venous diseases. Students will attend didactic lectures, participate in clinical rounds, and scrub into open and endovascular cases. Students will see patients in the clinic, on the ward, and in the cardiovascular intensive care unit.

SURG 709H General Surgery - PeaceHealth Sacred Heart

Course Purpose Statement: This rotation is for students who want to further develop a higher level of comfort evaluating, diagnosing, and treating surgical patients. They will learn to identify critical points in inpatient and outpatient care and follow-up of surgical patients. They will have the opportunity to work at PeaceHealth Sacred Heart Medical Center RiverBend in Springfield, a Level II Trauma Center, and at the RiverBend Ambulatory Surgery Center. Students participating in rotations in this community will work one on one with their attending with increased autonomy functioning at an intern level. There are no residents practicing at this hospital or community clinics. Students will spend the majority of the time in general surgery or Trauma Surgery but will have exposure to a broad based surgery service. They will also have hands on experience with minor office procedures. Elective is offered on a space-available basis. Please contact site coordinators for availability and list your preference of block dates when applying. Site physician is Dr. David DeHaas. Site coordinators; Joanie Robertson, JRobertson2@peacehealth.org and Irene Sogge, isogge@peacehealth.org. Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / JRobertson2@peacehealth.org (Joanie Robertson), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): SURG 730 and Site approval

Course Director will not waive prerequisites for this course.

SURG 709K Rural General Surgery - Grants Pass

_Surgery_

**Course Purpose Statement:** Students will have exposure to a rural general surgery practice and identify the important issues involved in being a rural surgeon (that differ from practicing in a tertiary referral center). They will develop a higher level of comfort evaluating, diagnosing, and treating surgical patients and will learn to identify critical points in inpatient and outpatient care of surgical patients. They will have exposure to the broad spectrum of rural general surgical procedures and will also have hands on experience with minor office procedures. Students will be assigned a preceptor surgeon who will supervise their experience. The majority of the time will be spent in general surgery, but students will have the opportunity to rotate through other surgical specialties.

**Required Prerequisite(s):** SURG 730

*Course Director will not waive prerequisites for this course.*

SURG 709KF Rural General Surgery - Campus for Rural Health - Klamath Falls

**Course Purpose Statement:** The purpose of the Klamath Falls General Surgery clinical experience is for students who have completed at least 4 weeks of surgery core clinical experience and are interested in a surgical career to participate in the care and operative management of surgical patients in a rural setting. Students will learn the specific issues encountered by a rural surgeon and how they differ from those practicing in an urban or tertiary setting. Students will hone their skills in evaluating, diagnosing, and treating a broad range of surgical patients. Students will see patients in the outpatient clinics, emergency room, and inpatient wards. Students will gain hands-on experience with minor office procedures and assist in the operating room. Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations. Completion of IMED 730 prior to taking this course is recommended.

**Required Prerequisite(s):** SURG 730

*Course Director will not waive prerequisites for this course.*

SURG 709L Sub-I Burns/General Surgery - Legacy Emanuel

Course Purpose Statement: The rotation includes general surgery, acute burn care and the surgery required thereto (ICU and step-down care), reconstructive burn care, and a variety of complex wound management cases, such as necrotizing soft tissue infections, open abdomen/fistulas, purpura fulminans, pressure ulcers, etc. The burn ICU generally has between 5-7 patients in some phase of their surgical critical care. We are doing 80-100 cases per month.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

**PEDI 709R Pediatric Surgery - PeaceHealth Sacred Heart**

*Pediatrics*

**Course Purpose Statement:** Students will be responsible for preoperative evaluation of pediatric patients with surgical disorders, including evaluation of laboratory and imaging information, performance of history and physical examinations, and discussion of differential diagnoses for common presenting chief complaints. The student will acquire operative skills in both simple and complex pediatric surgical procedures; postoperative management skills, including wound care, pain, nutrition and fluid/electrolyte status; and experience with long-term follow-up of patients. The student will spend 30% of their time seeing patients in clinic performing basic clinical procedures in pediatric patients, including primary closure of incisions, management of open and infected wounds, intravenous line placement, and placement of urinary catheters. Students will also spend time in the NICU/Pediatric Unit/ER for rounds and consults. PeaceHealth Sacred Heart Medical Center has 2 hospitals: the University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one-on-one with their attending with increased autonomy. There are no residents practicing at these hospitals or community clinics. The Lead Preceptors for this course are Chris Hammond, MD (chammond@peacehealth.org) and Kierst Bradley, MD (kbradley@peacehealth.org). You will be working directly with them during your time in Eugene. There are no residents practicing at these hospitals or community clinics. Site approval is required; this elective is not available through the lottery. To register for this course, email the site coordinators, Irene Sogge (isogge@peacehealth.org) and Joanie Robertson (JRobertson2@peacehealth.org) with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and whether you need student housing. The coordinators will let you know which block they have placed you and will cc CASA@ohsu.edu to formally enroll you. You must be in good academic standing in order to take this elective.

SURG 710N Surgical Nutrition

Surgery

Course Purpose Statement: Students will spend 5-10 hours per week of discussion/didactic sessions with faculty plus 20-30 hours per week of clinical responsibilities. (They will average 35 hours a week.) Students will be expected to take overnight call on a schedule determined by faculty availability. Student responsibilities include working up patients, participating in operations, and postoperative care rounds with surgical, wound care, nutritional, and multidisciplinary teams. Didactics and discussions will focus on topics and literature relevant to surgical nutrition. In clinical duties, special emphasis will be placed on care of patients with special nutritional needs. At the completions of the rotation, students should be able to design and implement a plan for nutrition management for a patient throughout the course of their surgical condition. Site physician is Dr. Robert Martindale.

Only the dates listed in the table below will be available for registration through the lottery. If students want to take this elective during other blocks, please contact Marci Jo Carlton at carltonm@ohsu.edu for availability and Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu to enroll in this course after the lottery.

SURG 710Q Transition to Surgical Internship

Course Purpose Statement: The course focuses on teaching technical and patient management skills expected of any surgical intern using a hands-on approach and case-based scenarios. Simulations and labs will be used to teach technical skills with concurrent and summary feedback provided by residents and faculty. The emphasis is on preparing students to manage common problems encountered in surgical patients. Students will be asked to independently assess and form a plan of action of patient care in a number of settings including via mock page scenarios.

It is preferred that students who take this course intend to go into a Surgical internship.

Required Prerequisite(s): SURG 730 and one of the following: CSUR 709A, PLAS 709A, PSUR 709A, SURG 709A, SURG 709B, SURG 709D, SURG 709G, SURG 709GE, SURG 709H, SURG 709K, SURG 709KF, SURG 709L, SURG 709M, SURG 709PA, SURG 709R, SURG 709RE, SURG 709RR, SURG 709S, SURG 709T, SURG 709U, SURG 709V, SURG 709VA

SURG 709PA General Surgery - Providence

Course Purpose Statement: The focus of the rotation will be on the management of a broad variety of malignant and benign general surgical disease using advanced general surgical techniques. Students will have the opportunity to have focused experiences in hepatobiliary/pancreatic, esophageal, or colorectal diseases. They will have the opportunity to participate in other general surgery experiences as well. Students will be assigned a preceptor surgeon who will supervise their experience. Students will participate in outpatient clinics, operating room, and the inpatient ward. They will have the opportunity to gain experience by scrubbing into a wide variety of operations.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

**SURG 709R Abdominal Organ Transplant**

*Course Purpose Statement:* This course is designed to educate medical students regarding the surgical management of liver and kidney transplantation as well as hepatobiliary surgery. Exposure to transplant patients will help students appreciate the process of abdominal organ transplantation from the patient perspective. Interaction with experts in the field will allow the student to expand their clinical knowledge in kidney disease, liver disease and transplant surgery. The student will participate in rounds, clinic, selection committee meetings, and tumor board conferences, as well as assist with surgical procedures. The student may have the option of participating in local organ procurement procedures when they occur.

*Required Prerequisite(s):* SURG 730

*Course Director will not waive prerequisites for this course.*

SURG 709RE Sub-I General Surgery Red - OHSU

Surgery

Course Purpose Statement: This course specifically focuses on conditions and surgery of the foregut (esophagus, stomach and small bowel). The physicians are trained in minimally invasive, bariatric and robotic surgery as well as conventional surgical approaches. You will develop a higher level of comfort evaluating, diagnosing, triaging surgical patients, and working on a multi-functioning specialty team. You should be able to identify critical points in inpatient and outpatient follow-up of surgical patients with morbid obesity or diseases of the esophagus or stomach. You will have hands on experience with minor clinical procedures. Responsibilities include working up patients, pre-and post-operative care, evaluating in the emergency room and outpatient clinics, rounding in wards, assisting in surgeries, postoperative care rounds, and surgical wound care. You will also participate in multidisciplinary conferences. You should be able to design and implement a patient plan, write orders, and give patient presentations. After completing this rotation, you will have an in-depth knowledge of benign esophageal conditions, spastic disorders of the esophagus, esophageal and gastric cancer, metabolic syndrome and the consequences of bariatric surgeries and gallbladder disease.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Sub-Internship
Credit: 6
Available through the Lottery: Yes

SURG 709RR Rural General Surgery - Redmond

**Surgery**

**Course Purpose Statement:** Students will have exposure to a rural general surgery practice and identify the important issues involved in being a rural surgeon (that differ from practicing in a tertiary referral center). They will also have exposure to the broad spectrum of rural general surgical procedures and follow patients in both the inpatient and outpatient setting. They will also have hands on experience with minor office procedures as well as assist in surgeries.

**Required Prerequisite(s):** None

SURG 709S Sub-I General Surgery - St. Vincent

Course Purpose Statement: The students further develop higher level of comfort evaluating, diagnosing, and treating surgical patients, while functioning at an intern level. They will spend the majority of the time in general surgery, but will have exposure to a broad based surgery service. They will learn to identify critical points in inpatient and outpatient follow-up of surgical patients. They will also have hands on experience with minor office procedures.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): St. Vincent

SURG 709T Surgery/Trauma - Legacy Emanuel

Course Purpose Statement: The purpose of the Emanuel Trauma and Critical Care clinical experience is to allow students to participate in the care and operative management of acutely-injured patients in a Level 1 trauma center. They will care for the critically ill patient in the ICU. Students will hone their skills in evaluating, diagnosing, and treating surgical patients, as well as, delivering patient presentations on the ward, ICU, and at conferences. Students will assist with procedures in the operating room, attend teaching conferences, and assume an active role on a multi-functioning specialty team.

Required Prerequisite(s): SURG 730 and IMED 730

SURG 709U Sub-I General Surgery Green - OHSU

**Surgery**

**Course Purpose Statement:** This course specifically focuses on conditions and surgery of the colon and rectum, and ventral hernias. The physicians are trained in minimally invasive, robotic and open surgery. You will develop a higher level of comfort evaluating, diagnosing, triaging surgical patients, and working on a multi-functioning specialty team. You should be able to identify critical points in inpatient and outpatient follow-up of surgical patients with diseases of the colon and rectum and of all hernias. You will have hands on experience with minor clinical procedures. Responsibilities include working up patients, pre- and post-operative care, evaluating in the emergency room and outpatient clinics, rounding in wards, assisting in surgeries, postoperative care rounds, and surgical wound care. You will also participate in multidisciplinary conferences. You should be able to design and implement a patient plan, write orders, and give patient presentations. After completing this rotation, you will have an in-depth knowledge of benign and malignant disease of the colon and rectum as well as of complex ventral hernias.

**SURG 709V Sub-I Surgery - VAMC**

**Surgery**

**Course Purpose Statement:** This is a four week course in general surgery. The VA rotation offers exposure to a wide variety of surgeries and surgical diseases, including surgical oncology, vascular, foregut, biliary, colorectal, minimally invasive, and general surgery. Students will be fully participating members of a team in preoperative and postoperative care, in both inpatient and ambulatory settings, evaluate consults from ED or other services, and assist in surgery and wound care. Students who want to experience a practicing role and responsibilities in ensuring patient care value the VA experience. In addition, you will gain experience evaluating complex patients with significant medical co-morbidities. You should be able to design and implement patient care plans, write orders and give patient presentations. You will be participating in twice weekly student and resident education conferences as well as weekly pre-operative indications conferences. After completing this rotation, you should have an in-depth knowledge of a broad range of surgical diseases and their management.

**Required Prerequisite(s):** SURG 730

SURG 741G Vascular Surgery Continuity Elective

Surgery

Course Purpose Statement: The purpose of the Vascular Surgery Continuity Clinical Experience is for students interested in a vascular surgical career to experience an in-depth opportunity to participate in the evaluation and management of patients with vascular diseases. This eight-week rotation will allow students to follow patients from their preoperative clinic visit through their surgery and postoperative care. Students will participate in preoperative evaluation and risk stratification/reduction, scrub into open and endovascular cases, participate in clinical ward rounds both on the floor and in the intensive care unit, and learn about surveillance of surgical (open and endovascular) outcomes in an outpatient setting. Students will be expected to understand the pathophysiology of, and participate in the care of patients with hemodialysis access needs, thoracic and/or abdominal aortic aneurysms, acute arterial occlusion, chronic arterial occlusive disease, extracranial carotid occlusive disease, and acute and chronic venous diseases.

Required Prerequisite(s): None

Duration: Eight Weeks
Site(s): OHSU; VA

SURG 711A Surgery Research

Surgery

Course Purpose Statement: Students will participate in research (arrangement made by student) within the department of surgery. At the completion of the rotation, the student should turn in a summary of the research performed (2-4 pages) which includes background of the process you are studying and the question you are trying to answer, methods (including statistical analysis), results, and a description of your actual research experience. Using preliminary data to write an abstract is encouraged. Students should also include a plan for eventual submission and presentation of your work. Students must fill out a form and have approval from the surgical faculty mentor, the surgery department and the dean’s office prior to signing up. Please contact the surgery coordinator for the requirements for this course.

Students must obtain departmental approval to enroll on this course. Please email the Course Coordinator to obtain approval and then complete the Research Elective Request form. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form. If you are approved, forward the departmental approval email as well as the completed Special Elective Request form to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu to register.

**Urology**

**Course Purpose Statement:** Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any areas of Urology. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting.

Students must obtain departmental approval to enroll on this course. Please email the Course Coordinator to obtain approval and then complete the Research Elective Request form. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form. If you are approved, forward the departmental approval email as well as the completed Special Elective Request form to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu to register.

**Required Prerequisite(s):** None.

### Duration: Four Weeks

**Site(s):** OHSU

UROL 709A Primary Care Adult Urology

Course Purpose Statement: This rotation is intended for students interested in learning about Urology as it applies to everyday clinical practice and who are not considering a career in Urology or Surgery. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students will be exposed to the full range of urologic diseases in pediatric urology, adult urology, or both in an outpatient and inpatient setting with an emphasis on the diagnosis and treatment of problems encountered in general practice. Students will have extensive exposure to outpatient management of urologic patients, inpatient management and urologic consultation, and the most commonly performed urologic surgeries (i.e., surgery for prostate cancer, kidney stones, prostatic enlargement, urinary incontinence). There will be opportunities to learn basic skills such as Foley insertion, perform microscopic urinalyses, or measure bladder residuals during the rotation. Students may choose to focus primarily on outpatient urology. Students will spend time at OHSU, VAMC, and/or Doernbecher. Students may choose to focus on adult or pediatric urology, or both, by providing advance notice to the department. Students will be asked to complete the National Core Medical Student Curriculum in Urology (online) during their rotation.

Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take, and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia Decarо and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): SURG 730 and department approval

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

Duration: Four Weeks

Elective Experiences
UROL 709B Introduction to Pediatric Urology

**Urology**

**Course Purpose Statement:** This is a two or four-week rotation intended for students early in their clinical experience who are interested in an introduction to Pediatric Urology. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students can expect to observe and participate in the management of a variety of pediatric urological disorders in an inpatient, operative, and outpatient setting. Students may be exposed to a wide range of conditions, including urinary tract infections, vesico-ureteral reflux, hydronephrosis, undescended testis, hypospadias, and common pediatric urologic problems. Students will spend 2 or 4 weeks at Doernbecher. Students will be asked to complete the National Medical Student Curriculum in Urology (online) as well as other assigned reading during their rotation. They will complete a short examination based on their readings at the end of the rotation.

Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take, and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Marcia DeCaro and Kaitlin Seymore at decaro@ohsu.edu / seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** SURG 730 and department approval

**UROL 709C Sub-I General Urology**

*Urology*

**Course Purpose Statement:** This rotation is intended for students considering a career in Urology. Students function in a sub-intern role with house staff and faculty on the urology service and participate in all educational activities of the OHSU urology program. Students can expect to observe and participate in the management of a wide variety of adult & pediatric urological disorders in an outpatient, inpatient, and operative setting. Students will be exposed to the full range of urologic subspecialties, including urologic oncology, pediatric urology, male infertility, stone disease, female and male reconstructive urology. Students will spend 1-2 weeks at OHSU, 1 week at the VAMC (pending credentialing approval) and 1-2 weeks at Doernbecher. Students will give a presentation at the weekly departmental Grand Rounds at the end of the rotation.

Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take, and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for.
