Residency Scholarship Opportunities:
Document owner & contact for questions: Dr. Avi O'Glasser

General medicine versus sub-specialty??
You don't need to be considering a fellowship to benefit from the scholarly process of writing and submitting an abstract. Also, there is benefit in both research projects as well as case reports/clinical vignettes. See below for specialty-specific meetings and opportunities. However, even if you are sub-specialty focused, consider submitting a clinical case to one of the abstract competitions through the general internal medicine meetings. The process of writing and establishing a relationship with a mentor can be invaluable!

Local opportunities:
OHSU resident paper competition (last year's information)
- Hosted by the School of Medicine Alumni Council
- Papers are evaluated by a multidisciplinary panel at OHSU
- In press/published papers are eligible
- The winner is invited to present at the Sommer Memorial Lectures and OHSU Research week

OHSU Research Week
- Held in May each year
- Is a university-wide event that celebrates student, faculty, and staff research across all the schools, centers, and educational programs
- Submission opportunities for poster and oral presentations

General Internal Medicine
American College of Physicians (ACP) Oregon Chapter Meeting
When/where: Early November, Thursday afternoon/evening of the conference, which alternates between Salem and Eugene. The 2017 event will be November 2nd.
Categories: Clinical vignette, basic research, clinical research, quality improvement research, high-valve cost conscious care (HVCCC) research
Looking for: cases with a TEACHING point, such as unique diagnoses, unusual presentation of common diseases, diagnostic challenges, management challenges
Process: written abstracts (<450 words) are submitted in advance, with a select number from each residency program in the state selected to be oral presenters. The remainder are presented as posters. Abstracts are submitted to the residency program in late August (info will be emailed in advance).
Misc additional criteria: cannot have been previously published, though can be previously presented as an abstract/poster. Need to be a resident member of ACP, but the residency program supports this fee.
Prizes: educational support $, possibly Governor’s Submission to National ACP
Insider tips: only first authors get to present (and potentially move on to Nationals if you win). However, there is also a medical student competition. Pairing with your medical student and helping them to be first author on their own case can be an excellent mentoring/teaching opportunity.
See also: ACP National Abstract Competition
Contact: Avi O'Glasser (oglassea@ohsu.edu)

National American College of Physicians (ACP) Meeting
Lots of overlap with the Oregon meeting. In fact, there’s very little reason not to submit your abstract for consideration if you’ve just presented it at the State level
When/where: late April/early May, hops all over the country. The 2017 meeting will be in San Diego, CA, from March 30-April 1. Clinical vignette abstract deadlines are 11/23/16, research abstract deadline are 11/30/16.
Categories: Clinical vignette, basic research, clinical research, quality improvement research, high-valve cost conscious care (HVCCC) research
Looking for: cases with a TEACHING point, such as unique diagnoses, unusual presentation of common diseases, diagnostic challenges, management challenges
Process: written abstracts (<450 words) are submitted in advance through a National online portal. Abstracts are then reviewed by judges, and finalizes are selected to present posters at the National Meeting. Therefore, making sure your abstract is very well written is very important,
Misc additional criteria: cannot have been previously published, though can be previously presented as an abstract/poster. Need to be a resident member of ACP, but the residency program supports this fee.
See also: ACP National Abstract Competition
Contact: Avi O'Glasser (oglassea@ohsu.edu)

Society for General Internal Medicine (SGIM) Northwest Regional Meeting:
When/where: first Friday in February. Alternates between Seattle and Portland. The 2017 meeting will be in Portland on February 3rd.
Categories: Clinical vignette, research, clinical innovations poster categories. Select clinical vignettes are selected to be oral presentations.
Process: written abstracts are submitted in advance through an online portal (usually due in October). Abstracts are judged ahead of time, with selected abstracts invited to present posters (or oral) presentations.
Misc: your ACP abstract can also be submitted to SGIM
See also: Northwest Regional SGIM
Contact: Avi O'Glasser (oglassea@ohsu.edu)

Society for General Internal Medicine (SGIM) National Meeting
The 2017 annual meeting will be in Washington, DC, April 19-22
Categories include: a wide range of scientific/research abstracts
There is also a vignette abstract section for residents
Abstracts are submitted through an online portal
For more info see: SGIM abstract info

Society of Hospital Medicine (SHM)
The annual meeting has a poster and abstract competition called “Research, Innovation, and Clinical Vignettes (RIV)”
The next annual meeting (Hospital Medicine 2017) will be May 1-4 in Las Vegas
For more info see: SHM abstract info
Past abstracts can be found here: [http://www.shmabstracts.com](http://www.shmabstracts.com) and [Online abstract book](#).

**AMA Research Symposium**
The 14th Annual AMA [AMA Research Symposium](#) took place on 11/11/2016 in Orlando, FL. The abstract deadline was August 17th. Any resident who is a member of the AMA is welcome to submit scientific research abstracts to be considered as a poster presentation. Stay tuned for 2017 submission information.

**Perioperative Medicine**
The Society for Perioperative Assessment and Quality Improvement (SPAQI) has collaborated with the Annual Perioperative Medicine Summit, held in Florida in March 2017. The meeting has a dedicated abstract portion. Categories include research in perioperative medicine, innovations in perioperative medicine, and perioperative clinical vignettes. [http://periopmedicine.org/p/can-i-submit-abstract.html](http://periopmedicine.org/p/can-i-submit-abstract.html). Any of the hospitalists in the PreOperative Medicine Clinic would be happy to mentor residents on a project (including Avi O'Glasser and Renee Dversdal).

**Geriatrics**

**The American Geriatrics Society**
The ACS has a fantastic resident/student poster session 2017 meeting will be in San Antonio, TX, May 18-20
Additional online information pending, but deadline is December 1st, 2016: [http://www.americangeriatrics.org/annual_meeting/2017_annual_meeting/test02147/](http://www.americangeriatrics.org/annual_meeting/2017_annual_meeting/test02147/)
Contact: Dr. Elizabeth Eckstrom—she strongly encourages residents to submit and is happy to mentor

**Oregon Geriatrics Society**
Dr. Eckstrom shares that they have done individual “recruiting” for posters at the State meeting in October Oct 7-9, 2016 in Sun River)
Official online invitation to submit posters is not yet online

**American College of Medical Quality:**
Call for abstracts, due December 1, for their March 29-April 1 conference in DC
For specifics including categories follow the link above.

**Ultrasound (point-of-care ultrasound)**
Dr. Renee Dversdal shares that the main ultrasound-related meeting (AIUM) currently only had a small Internal Medicine focus. She recommends that ultrasound related posters (research or clinical vignettes) be submitted to the general internal medicine meetings. She also has some study ideas, so interested residents can email her directly. The Society of Ultrasound in Medical Education (SUSME) may also be a future venue, and residents/students have presented work at the [World Congress Ultrasound in Medical Education](#).
Medical education

Both the Association of Program Directors in Internal Medicine (APDIM) and Alliance for Academic Internal Medicine (AAIM) have calls for abstracts at their national meetings. Abstracts are usually faculty driven, though there is certainly the potential for residents to be involved in a project. The focus would be on educational research.

MEDICINE SUBSPECIALIES

Cardiology

Word on the street: residents have various opportunities to present (oral and poster) to the major scientific sessions in cardiovascular medicine. Per Dr. Camacho, the best approach is for residents to identify an area of interest and/or mentor and then develop a research plan to be presented at one of these meetings. Contact: Dr. Camacho offered that he is happy to help with this process by meeting with any interested resident, and then he will guide you to a mentor.

Details:

**The American College of Cardiology Annual Scientific Session and Expo:**
- Both oral and poster abstracts
- General cardiology and cardiology subspecialties
- Abstracts are then published in a JACC supplement
- The 66th session will be in Washington, DC, March 17-19, 2017
- Submission deadline to be announced
- Anticipate additional online information during the summer of 2015

**American Heart Association Scientific Sessions**
- General cardiology and cardiology subspecialties
- Basic science, Clinical science, Population science, Special focus
- 2016 meeting is November 12-16th in New Orleans
- General abstract submission for the 2016 meeting is already closed
- “Late breaking basic science submission” opens in July
- For more information (including submission checklist, abstract submission tips, best practices, fees, and abstract categories): AHA Submit Science

**Heart Rhythm Society Annual Scientific Session**
- The 38th Annual meeting will be held in Boston in May 2017
- Information about the submission process is currently not available online.

**American Society of Echocardiography**
- 28th Annual Scientific Session will be June 2-6, 2017 in Baltimore
- Poster abstract session
- Clinical cases and research abstracts
- Online portal for submissions several months in the Fall/Winter
- See also: Abstract FAQs

**Transcatheter Cardiovascular Therapeutics (TCT)**
- The next meeting will be October 29-November 2, 2017 in Denver, CO
- Abstract submission is currently closed:
- Accepted abstracts will be published online in JACC
- There is also a submission process for “Challenging Cases”—deadline is mid July: http://www.crf.org/tct/call-for-science/challenging-cases
Society for Cardiovascular Angiography and Interventions
Annual meeting in May

GI/Hepatology
Digestive Disease Week (DDW)
- Has poster/abstract venues that are open to resident submission
- Has a GI focus, but liver-related abstracts are welcome
- Conference May 6-9, 2017 in Chicago
- Submission deadline is December 1st, 2016, notification of acceptance in February
- Case reports/clinical vignette option in addition to research abstracts
- There is also a “late-breaking abstract” option
- Very helpful FAQs here: Abstract FAQs

ACG Annual Meeting
- Has poster/abstract venues that are open to resident submission
- Has a GI focus, but liver-related abstracts are welcome
- Categories include Original research and Case reports/clinical vignettes
- The case report forum is excellent for residents who may not have original research
- The 2017 meeting information is pending
- Abstract deadline will be in June
- See also: Call for Abstracts Brochure

The Liver Meeting
- AALSD's annual meeting
- Has poster/abstract venues that are open to resident submission
- 2016 Annual meeting will be November 11-15 in Boston
- The submission deadline will be in June
- There is also a “late-breaking abstract” option, deadline in September
- Lots of information at the link above

Endocrinology
The Endocrine Society
- April 1-4, 2017 in Orlando
- Abstract submission Fall 2015
- There is also a “late-breaking abstract” option

Pulmonology/Critical Care
Society of Critical Care Medicine (SCCM) Annual Congress
- Options for research and case report abstract submission
- 46th Annual meeting will be January 9-13, 2017 in Hawaii
- Abstract submission deadline is August 3, 2016

CHEST Meeting (ACCP)
- Next annual meeting is October 28-November 1, 2017 in Toronto
- Late breaking abstract submissions are accepted
- Abstracts are published online in a CHEST supplement
- Includes an option for case reports

American Thoracic Society
Annual meeting May 19-24, 2017 in Washington, DC
Case reports and research abstracts
Updated information not yet available online

**North American Cystic Fibrosis Conference**
October 2017 in Indianapolis
For more info: [https://www.nacconference.org/abstract_submissions.html](https://www.nacconference.org/abstract_submissions.html)
Multiple category options: Abstract info
Contact: Dr. Matt Drake or Dr. Jeff Gold

**Allergy/Immunology**

**American Academy of Allergy, Asthma, & Immunology**
Annual meeting is March 3-6, 2017, in Atlanta
The AAAAI encourages trainees to submit abstracts
Abstract submission opens July 2016
2015 abstracts an be seen here: abstract examples JACI online
Contact: Dr. Tony Montanaro, who is “enthusiastically” supportive of anyone who is interested, and he is happy to help

**American College of Allergy, Asthma, & Immunology**
Annual meeting is November 10-14, 2016 in San Francisco
The ACAAI encourages trainees to submit abstracts
Current abstract submissions are due July, 2016
Contact: Dr. Tony Montanaro, who is “enthusiastically” supportive of anyone who is interested, and he is happy to help

**Hematology/Oncology**

**American Society of Hematology**
The 58th ASH Annual Meeting will be December 3-6, 2016 in San Diego
Call for abstracts is currently open, due early August: call for abstracts
Abstracts may be submitted for oral or poster presentations
Abstracts can also be submitted to the 2015 ASH Meeting on Hematologic Malignancies

**American Society of Clinical Oncology**
The next meeting is June 2-6, 2017 in Chicago
Abstract submission for 2016 meeting opens mid-November, due February 2, 2017
There is also a “late breaking abstract” option
See for more information: [http://am.asco.org/policies-and-exceptions](http://am.asco.org/policies-and-exceptions)
For past examples: 2015 ASCO abstracts
Contact: Sharl Azar—he is working to pair residents with research mentors in heme/onc

**Rheumatology**

**ACR/ARHP Annual Meeting**
The ACR/ARHP Annual Meeting will be in Washington, DC, November 12-16, 2016.
Abstract submission is currently open: Call for abstracts
See for information about 2016 abstract submissions: abstract information
Research abstracts are accepted, no case reports
Rheumatology Research Foundation

According to Dr. Pascale Schwab, there are also scholarship opportunities through the Rheumatology Research Foundation for residents to apply to travel to the meeting as well as residency preceptorship awards.

Infectious Disease

ID Week

The meeting (October 26-30, 2016 in New Orleans) has quite a few opportunities for residents

Abstracts were due in late May, but there is a “late breaking abstract” option
Abstracts are presented as posters or oral presentations
See for more info: http://www.idweek.org/program/abstracts/

According to Dr. Lynne Strasfeld, there is strong interest from IDSA in fostering interest in resident scholarship as well as mentorship opportunities for residents
