

# FREE Head and Neck Cancer Screening

**Saturday, January 29 • 8:30 a.m. to 3:30 p.m.**  
*No Appointment Necessary*

**Bay Area Hospital Radiation Therapy Center**  
*(located on the hospital campus)*

Head and neck cancers can affect your ability to speak, eat, drink, and swallow. If found early, however, they can be successfully treated.

The free screening is quick and painless for the following:

- Skin cancer of the face and scalp (including melanoma)
- Mouth cancer
- Thyroid cancer
- Neck cancer

Bay Area Hospital and OHSU healthcare providers will be on hand to answer your questions and provide information on how to prevent head and neck cancers.

*"Every day that I get up I give thanks for another day."*

*– Bob Pedro, Coos Bay  
Diagnosed and successfully treated for oral cancer  
at Bay Area Hospital Cancer Care Center*

In association with

**Knight Cancer Institute**  
Oregon Health & Science University
