

SCHOOL OF MEDICINE

Oregon Health & Science University

RESEARCH VISION

By 2016, the OHSU School of Medicine will be recognized globally for excellence in scientific discovery, collaboration and the rapid translation of new knowledge into practices that improve human health.

To achieve this vision we will:

- Nurture, support and invest in a scientific culture that rewards innovation and collaboration.
- Strengthen our research training infrastructure and create new education models and curricula that advance our scientific excellence.
- Develop strategic external interactions and partnerships.
- Increase awareness, understanding and support for OHSU biomedical research.

STRATEGIC INITIATIVES

1. Identify and invest in areas of research strength that make best use of School of Medicine resources to advance human health and well-being.
2. Advance School of Medicine capacity in translational research.
3. Promote research excellence through effective organizational systems and infrastructure.
4. Enhance training, career development and mentoring opportunities for the next generation of biomedical researchers.
5. Promote, nurture and support a professionally rewarding culture for researchers at OHSU.
6. Increase awareness, appreciation and understanding of the value of research at OHSU to both internal and external stakeholders and the public.
