The Edward S. Hayes Gold-Headed Cane Award

PRESENTED BY

Tracy Bumsted, M.D., M.P.H., F.A.A.P.
ASSOCIATE DEAN FOR UNDERGRADUATE MEDICAL EDUCATION

Cornelia Hayes Stevens
GRANDDAUGHTER OF EDWARD S. HAYES, M.D.

The Edward S. Hayes Gold-Headed Cane Award of the OHSU School of Medicine, with the trust it symbolizes, is presented annually to a member of the graduating medical school class who has been selected for this high honor by a vote of his or her peers and teachers. The award is given to a student in recognition of the compassionate devotion and effective service to the sick, with the conviction that its holder will forever epitomize and uphold the traditions of the true physician.

The gold-headed cane represents the spirit of service which is based upon the precepts of the Oath of Hippocrates, Prayer of Maimonides, and the Golden Rule. In addition to the cane and a commemorative plaque, a monetary gift is awarded to support the furtherance of the recipient’s postgraduate education.

A tradition at a number of American medical schools today, this award originated with the late Dr. William J. Kerr of the University of California School of Medicine. He noted that there were many awards for scholarship or other similar accomplishments, but none for the qualities of mind, heart and hand that are so much a part of the true physician.

Because of his interest in promoting and preserving the high stature of medical practice and the care of the patients in future physicians, the late Edmund Hayes of Portland made a gift for this purpose in 1966 to the Medical Research Foundation of Oregon in memory of his father, Dr. Edward S. Hayes, who for many years was a dedicated and respected practitioner of medicine in Eau Claire, Wisc.
It was decided by the Board of Trustees of the Foundation and the executive faculty of the School of Medicine, that because of uniquely related historical significance, the Gold-Headed Cane Award would recognize and support the vitally important ideals expressed by Dr. Hayes.

The cane, while not an exact replica of Radcliffe's cane, is similar and traditional in its form and is permanently displayed in the History of Medicine Room at Oregon Health & Science University.
