HealthE STEPS 2.0 Undergraduate Scholarship is Now Open

OHSU School of Nursing has been awarded a special grant to enroll, empower and graduate students from backgrounds typically underrepresented in nursing, including students from ethnic and racial minority groups, to improve health equity within our communities through professional nursing practice.

The HealthE STEPS program provides funding to new and current nursing students in the 3-year baccalaureate programs on all campuses, as well as incoming summer and fall accelerated students on the Portland and Ashland campuses and in the on-campus transition (CC transition) Baccalaureate Completion program in Portland.

Apply at
