

Exhibit 20-01.03G

**OHSU School of Nursing – Graduate Programs
Statistics Requirement**

You have received this form because: (1) you have applied for admission into a graduate program; and (2) you have not yet fulfilled the statistics requirement for entry into the program (must have taken statistics within the last five years).

The statistics requirement must be met prior to the start of your program of study. Please indicate below your plan for taking a basic statistics course (make sure an official transcript is sent to the OHSU Registrar upon completion of this course):

Plan for Completing Statistics Requirement

I, _____, plan to meet the statistics requirement for the OHSU School of Nursing Graduate Program, as follows:

College/University	Term/Year	Course Number/Name

(signature required below)

Alternative:

You may request a waiver for the statistics requirement based on one of the following three criteria:

1. If you took statistics 5.5 years ago;
2. You have already earned a M.S. in another field, used statistics to support thesis work, and can talk about statistics with the faculty of record; or
3. You can show that you use statistics in your work environment and can discuss statistics comfortably with the faculty of record.

_____ Check here if you would like to request a waiver of the statistics requirement.

Please attach a written request for waiver in which you explicitly explain your reason for requesting the waiver.

Signature: _____ Date: _____

Upload to your NursingCAS application.
