

**Discover the power of collaboration . . . Two great universities with a shared vision:
Excellence in Public Health education and practice**

Oregon Health & Science University (OHSU) and Portland State University (PSU) are pleased to announce three new doctoral training programs beginning in 2014:

- PhD in Epidemiology in the OHSU School of Medicine prepares students to work independently and to collaborate with health professionals in other disciplines on research and applied projects that include epidemiologic elements, and to teach graduate students and health professionals in academic, governmental, nonprofit, and private sector settings (epi@ohsu.edu).
- PhD in Health Systems and Policy in the Mark O. Hatfield School of Government, College of Urban and Public Affairs at PSU provides students with advanced knowledge, analytic skills, and competencies in conducting research and developing teaching and learning skills in health systems and policy (<http://www.pdx.edu/hatfieldschool/health-systems-and-policy-phd>).
- PhD in Community Health in the School of Community Health, College of Urban and Public Affairs at PSU provides students with advanced learning in conducting research and developing instruction skills in public health, social and behavioral determinants of health, urban health, gerontology, and social epidemiology (schinfo@pdx.edu).

Oregon MPH Tracks 2014- 2015:

- Epidemiology & Biostatistics
- Health Promotion
- Health Management & Policy
- Environmental Systems & Human Health
- Primary Health Care & Health Disparities (online)
