Dear Physicians and Health Care Professionals,

All of us at the Casey Eye Institute consider it a privilege to share in the care of your patients with complex eye disease. Our specialists are committed to giving your patients access to the latest therapies and diagnostic technologies available.

OHSU Casey Eye Institute is a leader in clinical eye care and is recognized for its high-quality clinical care, rigorous academic program and its vision research.

Casey faculty are responsible for many of the most recent advances in ophthalmology, which have revolutionized the diagnosis and treatment of many ophthalmic conditions. Advances in optical coherence tomography, ophthalmic informatics, corneal refractive, retina and pediatric eye care have been pioneered at Casey.

Patients receiving care at Casey receive the most up-to-date and innovative approaches to diagnosis and management. We are proud to be ranked in the top 10 NEI-funded Eye Research Institutes in the United States.

For the past five years, our average ranking for federally funded research has been fifth out of about 140 programs in the country. Our research faculty are making significant contributions in many areas including stem cell therapy, gene therapy, glaucoma, inflammatory eye diseases and retinal diseases.

Right now, we are conducting seven gene therapy clinical trials for retinal degenerative diseases. People across Oregon and beyond will benefit from these new therapies.

Casey has a unique commitment to training future ophthalmologists and subspecialists. We have 15 ophthalmology residents and fellowships in cornea, glaucoma, retina, oculoplastics, uveitis and pediatric ophthalmology. It’s important to us to instill in these trainees a sense that service to the community is part of professionalism. This will ensure that our citizens are well served in the coming decades.

I hope that you will contact me if you have thoughts on how we might better meet the needs of our community. We are grateful for your partnership and input.

Warm regards,

David J. Wilson, M.D.
Professor and Thiele-Petti Chair, Department of Ophthalmology
Director, Casey Eye Institute

In the quarter-century since, Casey Eye Institute has become an international leader in gene therapy, ophthalmic informatics and noninvasive imaging technology.

Some signature Casey Eye Institute accomplishments:
- First to perform gene therapy for Stargardt disease and Usher syndrome.
- Identified genes that cause macular degeneration and glaucoma.
- Pioneered clinical trials of biologic therapies for uveitis.
- Led a study to establish the treatment skills of retinopathy of prematurity.
- Developed OCT imaging platforms and algorithms that are used internationally.

Since 1991, annual patient visits have risen from 12,000 to current totals of more than 132,000, and the faculty has grown from 10 to 84. In 2016, 500 candidates applied for five places in the residency program.

Our mission is to eliminate blindness through education, innovation and community service. In Oregon, outreach efforts include vision screening programs for preschoolers and underserved adults. Through partnerships in Myanmar, Thailand and American Samoa, our clinicians and researchers disseminate skills and resources across the globe.

In 2016, OHSU Casey Eye Institute celebrated its 25th anniversary. What began as a small ophthalmology department in 1948 is now a major national comprehensive eye-care center, rigorous academic program and pioneering research facility. This growth was spurred by a 1991 move to a new state-of-the-art building named for UPS founders George and James Casey.

In 2016, OHSU Casey Eye Institute celebrated its 25th anniversary. What began as a small ophthalmology department in 1948 is now a major national comprehensive eye-care center, rigorous academic program and pioneering research facility. This growth was spurred by a 1991 move to a new state-of-the-art building named for UPS founders George and James Casey.

Current research
Our researchers are exploring ways to develop and improve treatment for glaucoma, inflammatory diseases, macular degeneration and inherited eye diseases.

Since 2009, our patients have been participating in gene therapy trials for retinal degenerative diseases. We currently offer more gene therapy trials (seven) than any other center in the United States and are eagerly anticipating that this promising technology for one disease, Leber congenital amaurosis, will progress to an FDA-approved treatment in the next year.

We are leaders in research on the application of biomedical informatics to clinical ophthalmology and computer-based image analysis for clinical diagnosis.

Our COOL lab has pioneered OCT angiography, allowing us to noninvasively image the capillaries within the eye and transform the treatment of glaucoma, macular degeneration and diabetic eye disease.

Services expertise
We provide several unique services to Oregon and the surrounding region:
- Macular Degeneration Center: This comprehensive center is dedicated to research, clinical care and patient education regarding the leading cause of blindness in Oregon.
- Oregon State Elks Children’s Eye Clinic: Provides a statewide preschool vision screening program and treatment for pediatric glaucoma, cataract and orbital and retinal diseases.
- Adult and child eye tumor treatment.
- Neuro-ophthalmology: Bridges the connection between eye and brain.
- An Ophthalmic Informatics Center: Pioneering telemedicine approaches to screening and diagnosis of retinopathy of prematurity and other eye diseases. Coordinates the use of informatics and electronic health records in ophthalmology.
- Diagnostic laboratories for eye pathology and ocular immunology.
A new building for children’s eye care

Plans are being drawn up for a new facility for the Oregon State Elks Children’s Eye Clinic. The building will be adjacent to the Casey Eye Institute and will house subspecialty pediatric care as well as the Macular Degeneration Center, the Reading Center and the Gene Therapy Center.

Every year the Elks Children’s Eye Clinic provides more than 18,000 pediatric visits, performs 1,200 surgeries and supplies glasses to children in need.

By consolidating in this optimally designed space, the pediatric and macular degeneration programs will be able to offer enhanced services to more patients.

Construction of the 60,000-square-foot building, named for a $20 million philanthropic investment from the Oregon State Elks, will begin in July 2018.

Continuing medical education

Casey Eye Institute offers health care professionals up to four and a half hours of CME per month including grand rounds, lectures and imaging conferences.

Presentations, which are streamed for the convenience of professionals who live outside the area, are given by nationally recognized speakers who have published high-impact journal articles.

A unique feature: Speakers provide online questions allowing audiences to test their knowledge before and after the presentation, and acquire self-assessment CME.

Ophthalmology grand rounds take place twice monthly at Casey Eye Institute or at Legacy’s Devers Eye Institute. Watzke imaging conferences are held twice monthly at OHSU. An annual all-day meeting takes place in May.
Provider listings

OHSU CENTER FOR HEALTH & HEALING

COMPREHENSIVE OPHTHALMOLOGY

Mitchell V. Brinks, M.D., M.P.H.
Special interests: Cataract and intraocular lenses, comprehensive eye care, lens-based refractive surgery, international ophthalmology
Research interests: Epidemiology of vision loss in the U.S.
M.D.: Oregon Health & Science University, Portland, Ore.
M.P.H.: Oregon State University, Corvallis, Ore.
Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Ellen J. Davis, M.D.
Special interests: Cataract and intraocular lenses, lens-based refractive surgery
Residency: Ophthalmology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Rachael L. Garrett, O.D.
Special interests: Dry eye, ocular surface disease and wellness
O.D.: Marshall B. Ketchum Southern California College of Optometry, Fullerton, Calif.
Residency: Sepulveda VA Medical Center, North Hills, Calif.
Fellowship: American Academy of Optometry, Orlando, Fla.
Academic appointment: Assistant professor

Seema Gupta, M.D.
Special interests: Cataract surgery, comprehensive ophthalmology
M.D.: Seth G.S. Medical College and K.E.M. Hospital, Mumbai, India
Residencies: Ophthalmology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.; internal medicine, Loma Linda University, Loma Linda, Calif.; ophthalmology, Seth G.S. Medical College and K.E.M. Hospital, Mumbai, India
Fellowships: Cornea and anterior segment, L.V. Prasad Eye Institute, Hyderabad, India; uveitis, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Academy of Ophthalmology
Academic appointment: Assistant professor

Jeffrey M. Healey, M.D.
Special interests: Lens-based refractive surgery, uveitis and ocular immunology, macular degeneration
M.D.: University of Pittsburgh, Pittsburgh, Penn.
Residency: UPMC Eye Center, University of Pittsburgh, Pittsburgh, Penn.
Fellowship: Uveitis, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Donna H. Kim, M.D.
Special interest: Comprehensive ophthalmology
M.D.: Stanford University, Stanford, Calif.
Residencies: Byers Eye Institute, Stanford University, Stanford, Calif.; Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Fellowship: Health care ethics, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic and clinical appointments: Associate professor; director of inpatient consultations

Tammie L. Krisciunas, O.D., M.Ed.
Special interests: Contact lenses
O.D./M.Ed.: Pacific University College of Optometry, Forest Grove, Ore.
Academic appointment: Assistant professor

To Refer a Patient for a Consult, Call: 503-494-3000 or 800-245-6478
**Daniel J. Kelly, M.D.**  
Special interests: Cataract surgery with implants, diabetic eye care  
M.D.: Oregon Health & Science University, Portland, Ore.  
Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.  
Board certification: American Board of Ophthalmology  
Academic appointment: Assistant professor

**Winston Chamberlain, M.D., Ph.D.**  
Special interests: Corneal transplants, laser vision correction surgery, anterior segment surgery, ocular surface reconstruction and anterior segment disorders, cataract surgery  
Research interests: Endothelial keratoplasty, corneal endothelial cell imaging, corneal crosslinking for ectatic disorders, ocular surface imaging using optical coherence tomography  
M.D.: University of Colorado School of Medicine, Denver, Colo.  
Ph.D.: Department of Immunology, University of Colorado/National Jewish Hospital, Denver, Colo.  
Residency: Ophthalmology, University of California, Irvine, Calif.  
Fellowship: Cornea and refractive surgery, University of California, Irvine, Calif.  
Board certification: American Board of Ophthalmology  
Academic and clinical appointments: Petti Associate Professor of Ophthalmology; director, cornea and refractive surgery

**Daniel L. Gradin, M.D.**  
Special interests: Cataract and intraocular lenses  
Research interest: Improving outcomes of cataract surgery  
M.D.: Oregon Health & Science University, Portland, Ore.  
Residency: Walter Reed Army Medical Center, Washington, D.C.  
Board certification: American Board of Ophthalmology  
Academic appointment: Assistant professor

**John Clements, M.D.**  
Special interests: Corneal and refractive surgery, cataract surgery, secondary intraocular lens implantation, complex anterior segment reconstruction  
Research interests: Cataract surgery, international ophthalmology, cornea transplantation  
M.D.: University of Nebraska Medical Center, Omaha, Neb.  
Residency: Loyola University Medical Center, Maywood, Ill.  
Fellowship: Massachusetts Eye and Ear Infirmary, Harvard Medical School, Boston, Mass.  
Board certification: American Board of Ophthalmology  
Academic appointment: Assistant professor

**Bryan Edgington, M.D.**  
Special interests: Cataract surgery, anterior segment surgery, cornea transplantation, cornea infections and inflammation, ocular surface disease  
M.D.: University of Wisconsin, Madison, Wis.  
Residency: George Washington University, Washington, D.C.  
Fellowship: Cornea and external disease, Tufts New England Medical Center and Ophthalmic Consultants of Boston, Boston, Mass.  
Board certification: American Board of Ophthalmology  
Academic appointment: Assistant professor

**David Huang, M.D., Ph.D.**  
Special interests: Refractive surgery (LASIK, PRK), phototherapeutic keratectomy (PTK), Intacs, laser-assisted corneal transplantation, laser custom collagen cross-linking (CXL) for keratoconus, post-refractive surgery complications and cataract surgery  
Research interests: Optical coherence tomography (OCT) and OCT angiography imaging of the eye  
M.D.: Harvard Medical School, Boston, Mass.  
Residency: Ophthalmology, University of Southern California, Los Angeles, Calif.  
Fellowship: Cornea, external diseases and refractive surgery, Emory University, Atlanta, Ga.  
Board certification: American Board of Ophthalmology  
Academic appointments: Peterson Professor of Ophthalmology; professor, biomedical engineering

**Afshan Nanji, M.D., M.P.H.**  
Special interests: Corneal transplantation, cataract and intraocular lens surgery, anterior segment surgery, ocular surface oncology and laser vision correction  
Research interest: Ocular surface oncology  
M.D.: Johns Hopkins University School of Medicine, Baltimore, Md.  
Residency: Wilmer Eye Institute, Johns Hopkins Hospital, Baltimore, Md.  
Fellowships: Cornea and external diseases, Bascom Palmer Eye Institute, Miami, Fla.; ocular surface oncology, Bascom Palmer Eye Institute, Miami, Fla.  
Board certification: American Board of Ophthalmology  
Academic appointment: Assistant professor

**John Peterson, M.D.**  
Special interests: Corneal and external disease, anterior segment surgery, cornea transplantation, cornea infections and inflammation, ocular surface disease  
M.D.: Oregon Health & Science University, Portland, Ore.  
Residency: University of Wisconsin, Madison, Wis.  
Fellowship: George Washington University, Washington, D.C.  
Board certification: American Board of Ophthalmology  
Academic appointment: Assistant professor

GLAUCOMA

Joannah Vaughan, MBA
Special interests: Promoting statewide preschool vision screening; research on emerging vision screening technology; research on barriers to preschool eye care
M.B.A.: George Fox University, Newberg, Ore.
Academic and clinical appointments: Assistant professor; instructor/director of Elks Preschool Vision Screening Program

Aiyin Chen, M.D.
Special interest: Medical and surgical treatment of glaucoma
M.D.: University of California School of Medicine, San Francisco, Calif.
Residency: Ophthalmology, University of California, San Francisco, Calif.
Fellowship: Glaucoma, University of California, San Francisco, Calif.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Beth Edmunds, M.D., Ph.D.
Special interests: Medical and surgical management of glaucoma (including MIGs), cataract in glaucoma patients and childhood glaucoma
Research interests: Surgery outcomes, imaging studies in optic nerve structure and perfusion, glaucoma genetics, childhood glaucoma
Medical degrees: M.B.Ch.B. (University of Cape Town, South Africa) and M.D. (Oregon, USA)
Research degree: University College, London, England
Residencies: Junior residency: Kent County Aural and Ophthalmic Hospital, Southampton General Hospital - Eye Unit; senior residency: South Thames Rotation (King's College Hospital, Queen Mary's Hospital, Sussex Eye Hospital, St. Thomas’ Hospital and the National Hospital for Neurology and Neurosurgery), United Kingdom
Fellowships: Moorfields Eye Hospital, King's College Hospital, St. Thomas’ Hospital, London, England; Discoveries in Sight, Portland, Ore.
Board certification: Fellow of the Royal College of Ophthalmologists, UK
Academic appointment: Associate professor

Eiliesa Ing, M.D.
Special interests: Complex glaucoma management and surgery
Research interest: OCT imaging of the optic nerve head
M.D.: University of Vermont College of Medicine, Burlington, Vt.
Residency: Ophthalmology, University of Texas Health Science Center, San Antonio, Texas
Fellowship: Glaucoma, Devers Eye Institute/Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

John C. Morrison, M.D.
Special interest: Evaluation and treatment of difficult adult glaucomas; glaucoma surgery
Research interest: Understanding the cellular mechanisms of glaucomatous optic nerve damage
M.D.: Oregon Health & Science University, Portland, Ore.
Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.
Fellowships: Ophthalmology, Oregon Health & Science University, Portland, Ore., and Johns Hopkins University, Baltimore, Md.
Board certification: American Board of Ophthalmology
Academic appointments: Weeks Professor of Ophthalmology; vice chair, research

Hana Takusagawa, M.D.
Special interests: Evaluation and treatment of all types of adult glaucoma; complex glaucoma and cataract surgery
Research interests: Blood flow/OCT angiography and glaucoma
M.D.: Mount Sinai School of Medicine, New York, N.Y.
Residency: Harvard Medical School, Massachusetts Eye and Ear Infirmary, Boston, Mass.
Fellowships: Glaucoma, Casey Eye Institute, Oregon Health & Science University, and Devers Eye Institute, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Shandiz Tehrani, M.D., Ph.D.
Special interests: Evaluation and treatment of all adult glaucoma; complex glaucoma and cataract surgery
Research interests: Cellular and molecular mechanisms of glaucomatous optic nerve damage and identification of novel pathways for therapeutic intervention
M.D., Ph.D.: Washington University School of Medicine, St. Louis, Mo.
Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Fellowship: Glaucoma, University of Iowa, Iowa City, Iowa
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor
INTERNATIONAL OPHTHALMOLOGY

Mitchell V. Brinks, M.D., M.P.H.
Special interests: Cataract and intraocular lenses, comprehensive eye care, lens-based refractive surgery, international ophthalmology
Research interests: Building solutions to avoidable blindness; epidemiology and program intervention; international vision screening and education programs; mid-level eye-care personnel training programs
M.D.: Oregon Health & Science University, Portland, Ore.
M.P.H.: Oregon State University, Corvallis, Ore.
Residency: Ophthalmology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

John Clements, M.D.
Special interests: Cornea and refractive surgery
Research interests: Cataract surgery, international ophthalmology, cornea transplantation
M.D.: University of Nebraska Medical Center, Omaha, Neb.
Residency: Loyola University Medical Center, Maywood, Ill.
Fellowship: Massachusetts Eye and Ear Infirmary, Harvard Medical School, Boston, Mass.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Bryan Edgington, M.D.
Special interests: Cataract surgery, anterior segment surgery, cornea transplantation, cornea infections and inflammation, ocular surface disease
M.D.: University of Wisconsin, Madison, Wisc.
Residency: George Washington University, Washington, D.C.
Fellowship: Cornea and external disease, Tufts New England Medical Center and Ophthalmic Consultants of Boston, Boston, Mass.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Derek J. Louie, M.Sc., O.D.
Special interest: Medical contact lenses
Research interests: Dry eye, keratoconus, contact lens interactions with the ocular surface
O.D.: Marshall B. Ketchum, Southern California School of Optometry, Fullerton, Calif.
Residency: Oklahoma College of Optometry at Northeastern State University, Tahlequah, Okla.
Fellowship: American Academy of Optometry, Orlando, Fla.
Academic and clinical appointments: Associate professor; director, optometric services

Shane McDonald, O.D.
Special interests: Medical contact lenses, dry eye, comprehensive optometry
Research interest: Dry eye
O.D.: Pacific University College of Optometry, Forest Grove, Ore.
Fellowship: Oregon Health & Science University, Portland, Ore.
Academic appointment: Assistant professor

NEURO-OPHTHALMOLOGY

Julie Falardeau, M.D.
Special interests: Optic neuritis, compressive optic neuropathy, idiopathic intracranial hypertension, ocular myasthenia gravis, visual impairment secondary to brain tumor
Research interests: Idiopathic intracranial hypertension, optic neuritis
M.D.: University of Montreal, Quebec, Canada
Residency: Ophthalmology, University of Montreal, Quebec, Canada
Fellowship: Neuro-ophthalmology, University of Iowa Hospitals and Clinics, Iowa City, Iowa
Board certification: American Board of Ophthalmology
Academic appointment: Schnitzer Associate Professor of Ophthalmology

William L. Hills, M.D., O.D.
Special interests: Optic neuritis, ischemic optic neuropathy, compressive optic neuropathy, pseudotumor cerebri, neurodegenerative vision loss, nystagmus
Research interests: neurodegenerative vision loss, eye movements and nystagmus
M.D.: University of Nevada, Reno, Nev.
Residency: Neurology, Oregon Health & Science University, Portland, Ore.
Fellowship: Neuro-ophthalmology, Moran Eye Center, University of Utah, Salt Lake City, Utah
Board certification: American Board of Psychiatry and Neurology
Academic appointment: Associate professor

MEDICAL CONTACT LENS

Shane McDonald, O.D.
Special interest: Medical contact lenses
Research interests: Dry eye, keratoconus, contact lens interactions with the ocular surface
O.D.: Marshall B. Ketchum, Southern California School of Optometry, Fullerton, Calif.
Residency: Oklahoma College of Optometry at Northeastern State University, Tahlequah, Okla.
Fellowship: American Academy of Optometry, Orlando, Fla.
Academic and clinical appointments: Associate professor; director, optometric services

Derek J. Louie, M.Sc., O.D.
Special interest: Medical contact lenses
Research interests: Dry eye, keratoconus, contact lens interactions with the ocular surface
O.D.: Marshall B. Ketchum, Southern California School of Optometry, Fullerton, Calif.
Residency: Oklahoma College of Optometry at Northeastern State University, Tahlequah, Okla.
Fellowship: American Academy of Optometry, Orlando, Fla.
Academic and clinical appointments: Associate professor; director, optometric services
Ophthalmology

OHSU Casey Eye Institute – Marquam Hill, Hood River and The Dalles, Ore.; Vancouver, Wash.

Roger A. Dailey, M.D., F.A.C.S.
- Special interests: Cosmetic facial surgery, lacrimal surgery, endoscopic and laser surgery, orbital surgery for thyroid disease
- Research interests: Cosmetic facial surgery, lacrimal surgery, endoscopic and laser surgery, thyroid eye disease
- M.D.: Mayo Clinic Medical School, Rochester, Minn.
- Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.
- Fellowship: Oculofacial plastic surgery, Oregon Health & Science University, Portland, Ore.
- Board certification: American Board of Ophthalmology; Oculofacial Plastic Surgery ASOPRS Sponsor Certificate
- Academic and clinical appointments: Professor, ophthalmology and dermatology; Lester T. Jones endowed chair, oculofacial and plastic surgery; chief, Casey Aesthetic Facial Surgery Center and Thyroid Eye Disease Center

John D. Ng, M.D., M.S., F.A.C.S.
- Special interests: Reconstructive eyelid surgery; lacrimal surgery; orbital and facial trauma; facial nerve palsy rehabilitation; techniques for orbit reconstruction; pediatric oculoplastic, lacrimal, orbital, and reconstructive surgery; coordinated, multidisciplinary subspecialty surgical care of complex conditions; orbital oncology; and inflammatory disease
- Research interests: Orbital and eyelid reconstruction after tumor resection, facial palsy rehabilitation
- M.D.: George Washington University School of Medicine, Washington, D.C.
- Residency: Ophthalmology, Letterman Army Medical Center and Madigan Army Medical Center, Tacoma, Wash.
- Fellowships: Oculofacial plastics; orbital, lacrimal and reconstructive surgery, Indiana University/ Midwest Eye Institute, Indianapolis, Ind.
- Board certification: American Board of Ophthalmology
- Fellowship accreditation: American Society of Ophthalmic Plastic, Orbital and Reconstructive Surgery
- Academic and clinical appointments: Professor of ophthalmology and otorhinolaryngology/head & neck surgery; chief, division of oculofacial plastics, orbital and reconstructive surgery
Eric A. Steele, M.D.
Special interests: Ophthalmic plastic and reconstructive surgery, including surgery of the eyelids, orbit and lacrimal system
M.D.: Baylor College of Medicine, Houston, Texas
Residency: Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Fellowship: American Society of Ophthalmic Plastic and Reconstructive Surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Associate professor

Mark E. Pennesi, M.D., Ph.D.
Special interests: Ophthalmic genetics, inherited retinal degenerations, retinitis pigmentosa, Stargardt disease, Best dystrophy, pattern dystrophy, visual electrophysiology
Research interests: Neuroprotection, gene therapy, stem cells
M.D. and Ph.D.: Baylor College of Medicine, Houston, Texas
Residencies: Transitional year, Scripps Mercy Hospital, San Diego, Calif.; ophthalmology, University of California, San Francisco, Calif.
Fellowship: Ophthalmic genetics, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Associate professor

Richard G. Weleber, M.D., F.A.C.M.G.
Special interests: Ophthalmic genetic disease, retinitis pigmentosa, ophthalmic genetics/retinal dystrophies, syndromes with retinal degeneration, juvenile or early adult-onset macular dystrophies, visual electrophysiology
M.D.: University of Oregon Medical School, Portland, Ore.
Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.
Fellowships: Medical genetics, University of Oregon Medical School, Eugene, Ore., and University of Colorado Medical School, Boulder, Colo.
Board certification: American College of Medical Genetics; American Board of Ophthalmology
Academic appointment: Professor

Paul Yang, M.D., Ph.D.
Special interests: Retinal dystrophies and ophthalmic genetics, autoimmune retinopathy, white dot syndromes and posterior uveitis, cataract surgery in patients with retinal comorbidities and/or low vision
Research interests: Retinal gene therapy and stem cell therapy clinical trials, neuroprotection translational research, autoimmune retinopathy
M.D. and Ph.D.: Dartmouth Medical School, Hanover, N.H.
Residency: Ophthalmology, Moran Eye Center, Salt Lake City, Utah
Fellowships: Ophthalmic genetics and visual electrophysiology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.; ocular immunology and uveitis, Massachusetts Eye Research and Surgery Institution, Cambridge, Mass.; cataract, uveitis, electrophysiology and ultrasound, Moran Eye Center, Salt Lake City, Utah
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Michael F. Chiang, M.D.
Special interests: Pediatric ophthalmology, adult strabismus, retinopathy of prematurity
Research interests: Retinopathy of prematurity, biomedical informatics, information technology, clinical research
M.D.: Harvard Medical School and Harvard-MIT Division of Health Sciences and Technology, Cambridge, Mass.
Residency: Johns Hopkins Wilmer Eye Institute, Baltimore, Md.
Fellowship: Pediatric ophthalmology and adult strabismus, Johns Hopkins Wilmer Eye Institute, Baltimore, Md.
Board certification: American Board of Ophthalmology
Academic and clinical appointments: Knowles Professor of Ophthalmology; vice chair, research

Daniel J. Karr, M.D.
Special interests: Pediatric ophthalmology and adult strabismus; amblyopia, pediatric cataract, international pediatric eye care
M.D.: University of Miami School of Medicine, Miami, Fla.
Residency: Pediatrics and ophthalmology, University of Washington, Seattle, Wash., and Washington Children’s Hospital and Medical Center, Seattle, Wash.
Fellowship: Pediatric ophthalmology, University of Iowa Hospital, Iowa City, Iowa
Board certification: American Board of Ophthalmology
Academic and clinical appointments: Professor; director, Elks Children’s Eye Clinic
Annie Kuo, M.D.
Special interests: Pediatric ophthalmology and strabismus
M.D.: Pritzker School of Medicine, University of Chicago, Chicago, Ill.
Residency: Ophthalmology, Moran Eye Center, University of Utah, Salt Lake City, Utah
Fellowship: Pediatric ophthalmology and strabismus, Kellogg Eye Center, University of Michigan, Ann Arbor, Mich.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Allison Loh, M.D.
Special interests: Pediatric ophthalmology, pediatric glaucoma, amblyopia and strabismus
Research interests: Ophthalmic imaging in children, pediatric glaucoma
Residency: Ophthalmology, University of California, San Francisco, Calif.
Fellowship: Pediatric ophthalmology and strabismus, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Leah G. Reznick, M.D.
Special interests: Childhood and adult ocular motility disorders including strabismus and nystagmus; general pediatric vision care, pediatric cataracts
M.D.: University of Rochester, Rochester, N.Y.
Residency: University of Pittsburgh, Pittsburgh, Pa.
Fellowship: Pediatric ophthalmology and strabismus, University of Pittsburgh, Pittsburgh, Pa.
Board certification: American Board of Ophthalmology
Academic appointment: Clinical associate professor

Allison Summers, O.D., M.C.R.
Special interests: Amblyopia; strabismus and ocular motility disorders of adults and children; international and rural pediatric eye care; general pediatric vision evaluation and care
Research interests: Amblyopia, myopia, exotropia, international eye care
O.D.: Pacific University School of Optometry, Forest Grove, Ore.
M.C.R.: Oregon Health & Science University, Portland, Ore.
Fellowship: American Academy of Optometry
Academic appointment: Assistant professor

Lori Wilson, M.D.
Special interests: Pediatric ophthalmology and strabismus, amblyopia, pediatric cataract, adult strabismus
Academic appointment: Assistant professor

RETINA AND VITREOUS DISEASE AND SURGERY

OHSU CASEY EYE INSTITUTE – MARQUAM HILL; THE DALLES, ORE.; LONGVIEW WASH.; AND VANCOUVER, WASH.

Steven T. Bailey, M.D.
Special interests: Age-related macular degeneration, retina and vitreous disease, retina surgery
Research interests: Advancements in retinal imaging, carotenoids in age-related macular degeneration, clinical trials for retinal vascular diseases and age-related macular degeneration
M.D.: University of Iowa Carver College of Medicine, Iowa City, Iowa
Residency: Ophthalmology, Emory Eye Center at the Emory University School of Medicine, Atlanta, Ga.
Fellowship: Vitreoretinal surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Associate professor

Kavita V. Bhavsar, M.D.
Special interests: Evaluation and treatment of vitreoretinal disorders including macular degeneration, diabetic retinopathy, macular edema, vascular occlusions, and rare or challenging medical retinal cases
Research interests: Retinal imaging including optical coherence tomography, OCTA
M.D.: Boston University, Boston, Mass.
Residency: Tufts University School of Medicine, Boston, Mass.
Fellowships: Medical retina and uveitis, Manhattan Eye and Throat Hospital, Vitreous Retina Macula Consultants of New York, New York University, Columbia University, New York, NY; electrophysiology, inherited retinal disease, uveitis, Moorfields Eye Hospital, London, England
Board certification: American Board of Ophthalmology
Academic and clinical appointments: Assistant professor
J. Peter Campbell, M.D., M.P.H.
Special interests: Retina surgery, retina (pediatric), retina and vitreous disease
Research interests: Retinopathy of prematurity, optical coherence tomography angiography
M.D. and M.P.H.: The Johns Hopkins School of Medicine, Baltimore, Md.
Residency: Wilmer Eye Institute, Johns Hopkins Hospital, Baltimore, Md.
Fellowship: Vitreoretinal surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Christina J. Flaxel, M.D.
Special interests: Macular degeneration, medical and surgical management of diabetic retinopathy, retinal vascular disease, hereditary retinal disease, proliferative vitreoretinopathy and other surgical retinal disorders
M.D.: Oregon Health & Science University, Portland, Ore.
Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.
Fellowships: Retina, West Virginia University, Morgantown, W.V.; medical and surgical retina, Moorfields Eye Hospital, London, England
Board certification: American Board of Ophthalmology
Academic appointment: Aversion Professor of Ophthalmology

Thomas S. Hwang, M.D.
Special interests: Macular degeneration, diabetic retinopathy, retinal vein occlusion, retinal detachment, ocular trauma and other surgical and medical diseases of the vitreous and retina
Research interests: Ophthalmic imaging, diabetic retinopathy, medical education, clinical informatics
M.D.: University of California, San Diego, Calif.
Residency: Wilmer Eye Institute, Johns Hopkins University, Baltimore, Md.
Fellowship: Vitreoretinal surgery, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology, American Board of Preventive Medicine – clinical informatics
Academic and clinical appointments: Associate professor; residency program director

Andreas K. Lauer, M.D.
Special interests: Macular pucker, macular hole, retinal detachment, surgical disorders of the retina and vitreous, macular degeneration, diabetic retinopathy
Research interests: Ocular gene therapy, macular degeneration, diabetic retinopathy
M.D.: University of Oklahoma, Norman, Okla.
Residency: Ophthalmology, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Fellowship: Retina and vitreous fellowship, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic and clinical appointments: Kenneth C. Swan Professor of Ophthalmology; vice chair, education; chief, vitreoretinal division

Phoebe Lin, M.D., Ph.D.
Special interests: Retinal detachment surgery, including proliferative vitreoretinopathy; macular holes; macular pucker; diabetic retinopathy; macular degeneration; ocular inflammation
M.D. and Ph.D.: University of Illinois, Chicago, Ill.
Residency: University of California, San Francisco, Calif.
Fellowships: Vitreoretinal diseases and surgery, Duke University, Durham, N.C.; uveitis and ocular inflammation, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor

Brandon J. Lujan, M.D.
Special interests: Retinal imaging, age-related macular degeneration, diabetic retinopathy
Research interests: Photoreceptor imaging, structural OCT and OCT angiography, data science
M.D.: Harvard Medical School, Boston, Mass.
Residency: Ophthalmology, University of California, San Francisco, Calif.
Fellowships: Medical retina, Bascom Palmer Eye Institute, Miami, Fla.; retinal imaging, Bascom Palmer Eye Institute, Miami, Fla.
Board certification: American Board of Ophthalmology
Academic appointment: Assistant professor
**David J. Wilson, M.D.**

Special interests: Ocular melanoma, intraocular lymphoma, adult ocular tumors, clinical trials

Research interests: Ocular melanoma, intraocular lymphoma, retinovascular disease, cell-based and gene therapies

M.D.: Baylor College of Medicine, Houston, Texas

Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.

Fellowships: Ophthalmic pathology and clinical research, Wilmer Eye Institute, Baltimore, Md.; retina, Ophthalmic Consultants of Boston, Boston, Mass.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Professor; Thiele-Petti Chair; director, Casey Eye Institute; chairman, ophthalmology

**Eric B. Suhler, M.D., M.P.H.**

Special interests: Uveitis, scleritis and other inflammatory diseases in children and adults

Research interests: Clinical trials in uveitis and ocular inflammation, biologic response modifiers, epidemiology of uveitis

M.D.: University of Texas, Southwestern Medical Center, Dallas, Texas

Residency: Ophthalmology, Oregon Health & Science University, Portland, Ore.

Fellowship: Uveitis and clinical ocular immunology, National Institute of Health, Bethesda, Md.

Board certification: American Board of Ophthalmology

Academic and clinical appointments: Professor of ophthalmology and public health; chief of ophthalmology, Veterans Affairs Portland Health Care System

**Phoebe Lin, M.D., Ph.D.**

Special interests: Retinal detachment surgery, including proliferative vitreoretinopathy; macular holes; macular pucker; diabetic retinopathy; macular degeneration; ocular inflammation

M.D. and Ph.D.: University of Illinois, Chicago, Ill.

Residency: University of California, San Francisco, Calif.

Fellowships: Vitreoretinal diseases and surgery, Duke University, Durham, N.C.; uveitis and ocular inflammation, Casey Eye Institute, Oregon Health & Science University, Portland, Ore.

Board certification: American Board of Ophthalmology

Academic appointment: Assistant professor

**John M. Boyer, O.D.**

Special interests: Evaluation and management of vision disability in adults and children

O.D.: Pacific University, Forest Grove, Ore.

Academic and clinical appointments: Assistant professor; clinical director

**James T. Rosenbaum, M.D.**

Special interests: Ocular inflammatory disease, uveitis, scleritis, orbital pseudotumor, ocular cicatricial pemphigoid or systemic inflammatory diseases with ocular manifestations

M.D.: Yale Medical School, New Haven, Conn.

Residency: Medicine, Stanford Medical Center, Stanford, Calif.

Fellowship: Rheumatology, Stanford Medical Center, Stanford, Calif.

Board certification: American Board of Internal Medicine, internal medicine and rheumatology

Academic and clinical appointments: Rosenbaum Professor of Ophthalmology; director, uveitis; chair, arthritis and rheumatic disease division
