Working with you to care for your patients.

When OHSU Doernbecher Children’s Hospital opened its doors in 1926, it became the first full-service children’s hospital in the Pacific Northwest.

Today, we offer the most comprehensive pediatric care for children in the region. Our unique, wide-ranging team of health care experts includes specially trained physicians, nurses, therapists, child life therapists, chaplains, technicians and support personnel.

At Doernbecher, our 1,300 physicians and staff members are available to partner with you in the care of your patients.

As part of our health mission, we provide:

• The region’s only hospital with specialists in every major area of pediatric care.
• A major referral center for cancer, heart disease, cardiac surgery, neurosurgery, diabetes, neonatal and pediatric intensive care, metabolic disorders, organ and stem cell transplantation and trauma.
• A comprehensive pediatric diabetes center.
• A comprehensive neonatal intensive care unit including all neonatal, medical and surgical specialists.
• A comprehensive pediatric intensive care unit with 24/7/365 in-house coverage.
• Hospitalist service.

Please direct patients to call 503 494-8811.

Adolescent and Young Adult Clinic

OHSU Doernbecher Children's Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Adolescent and Young Adult Clinic provides health services for young people between the ages of 10 and 22. Adolescents may select the clinic for their primary health care needs or their primary care provider can refer them for consultation.

Services
- Primary care
- Behavioral and mental health care
- Consultation and care for eating disorders
- Reproductive care
- Management of chronic illnesses

Faculty/Staff
C. Wayne Sells, M.D., M.P.H.
Jennifer Gilhooly, C.P.N.P.

Audiology/Hearing Loss

OHSU Doernbecher Children's Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Doernbecher Pediatrics - Westside at Bethany Village
15220 NW Laidlaw Rd., Suite 1000
Portland, OR 97229

The Audiology/Hearing Loss Clinic focuses on the early identification and treatment of hearing loss. Children can be referred to this clinic by their primary care provider.

Services
- Hearing screening
- Comprehensive diagnostic testing
- Limited hearing aid evaluation and fitting, including auditory brain stem response testing, middle ear studies and otoacoustic emissions
- Educational consultation
- Coordination of care and referral

Faculty/Staff
Natasha Carmichael, M.S.
Heather Durham, M.S.
Kristin Gilmer-Knight, M.S.
Donald Plapinger, Ed.D.

Lyndsay Duffus, Au.D.
Autism Program – CDRC

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The CDRC Autism Program at OHSU provides services to children with established autism or suspected symptoms on the autism spectrum. The clinic is comprised of an interdisciplinary team of clinical psychologists, developmental pediatricians, speech/language pathologists, occupational therapists, audiologists and social workers. The goal of the program is to understand the individual differences and needs of each child and to provide specific diagnoses and recommendations to families.

Services

- Assessment
- Diagnoses
- Recommendations and treatments, including individualized parent training, naturalistic interventions (such as floor time, pivotal response training and incidental teaching), social skills groups, speech therapy and occupational therapy
- Ongoing consultation

Faculty/Staff
Robin McCoy, M.D.
Robert Nickel, M.D.
Rita Panoscha, M.D.

Cardiology

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Pediatric Cardiology program provides state-of-the-art expertise in the entire spectrum of congenital and acquired cardiac diseases. Our pediatric cardiac consultative services are available at a variety of locations, including OHSU Doernbecher Children’s Hospital, Doernbecher - Westside at Bethany Village, Albany, Bend, Coos Bay, Corvallis, Eugene, Klamath Falls, La Grande, Medford, Pendleton, Roseburg, Salem and Vancouver. Children can be referred to this clinic by their primary care provider.

Services

- Full-service cardiac evaluation for heart murmur, congenital heart disease and acquired heart disease
- State-of-the-art echocardiographic services, including screening for fetal cardiac abnormalities
- Transesophageal and standard trans-thoracic echocardiography
- Cardiac MRI
- Interventional catheterization techniques for non-operative catheter-based procedures such as balloon angioplasty for vascular obstructions
- Coil and closure devices for cardiac shunt lesions (ASD, PDA, VSD or collateral vessels)
- Complete electrophysiology service for evaluating and treating arrhythmia including pacemaker insertion and catheter ablation procedures

Cardiothoracic Surgery

OHSU Doernbecher Children’s Hospital
8th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Cardiothoracic Surgery program at OHSU provides nationally recognized excellence in cardiac surgical care for children and families from Oregon and the Pacific Northwest. The program is headed by Ross Ungerleider, M.D., the John C. Hursh Chair of Pediatric Cardiac Surgery for OHSU Doernbecher Children’s Hospital. The program includes an exceptional team of pediatric cardiac surgeons, pediatric cardiac anesthesiologists, pediatric pump specialists, pediatric intensive care physicians, pediatric cardiac operating room nurses and PICU nurses who specialize in the perioperative care of children before and after cardiac surgery.

Services
• All forms of congenital heart surgery
• Cardiopulmonary bypass and brain protection for infants undergoing heart surgery
• Ross procedure, Hypoplastic left heart syndrome, tetralogy of Fallot, TGA and neonatal complete repair

Faculty/Staff
Stephen Langley, M.B.B.S., M.D., F.R.C.S. (C.Th.), F.E.T.C.
Ross Ungerleider, M.D.

Child Abuse and Suspected Child Abuse and Neglect (SCAN)

The Rosenfeld Center for the Study and Treatment of Child Abuse and the Suspected Child Abuse and Neglect (SCAN) team assess child abuse cases, both local and referred; report abuse episodes to the appropriate authorities and educate students, medical residents, faculty and community health professionals on legal, medical and social aspects of child abuse.

Please call our DCH 1-Call number for information or assistance in reporting suspected child abuse or neglect (physical, emotional, sexual and/or failure to thrive), or to check on a child admitted to Doernbecher for child abuse issues. To report child abuse or neglect in Oregon, you also can call your county abuse hotline.

Faculty/Staff
Noelle Gibson, P.N.P.
Child Development Clinic

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Child Development Clinic provides interdisciplinary diagnosis and consultation for infants and children who have established or suspected development problems and are referred by their primary care physicians. Our care team may include specialists in developmental pediatrics, speech/language pathology, audiology, psychology, special education, occupational therapy, physical therapy and social work. Children are referred to this clinic by their primary care provider.

Services

• Formal developmental and behavioral assessments of preschool children (5 years of age or younger)
• Treatment for children with complex disorders of learning and communication, including mental retardation, autism, language disorders, attention deficit disorders and neurobehavioral disorders
• Coordination of care and follow up with health, educational, and social services throughout the region
• Liaison educators who work with schools in the community to provide effective translation of clinic findings into appropriate educational programs for each child

Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Eugene
Clinical Services Building
University of Oregon
901 E. 18th Ave.
Eugene, OR 97403

The CDRC improves the lives of individuals with disabilities or special health needs through leadership and effective partnerships with individuals, families, communities and public and private agencies. We serve as an exemplary local, state and national resource through our commitment to excellence in interdisciplinary clinical practice, research, education, policy development and community service.
The Craniofacial Disorders Clinic provides evaluation and ongoing care coordination for children with cleft palate (with or without cleft lip) or other craniofacial disorders from birth through adulthood. Early nursing consultation is critical for success of initial feeding efforts and is a unique feature of this clinic. Another unique feature is our temporary speech appliance (obturator) clinic. This clinic also offers nonsurgical treatment of children with velopharyngeal insufficiency. Children are referred to this clinic by their primary care provider.

OHSU Doernbecher Children's Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Dental Clinic at the CDRC serves children and young adults (up to age 18) with disabling conditions such as cerebral palsy, autism, spina bifida and genetic conditions. The clinic also manages the dental and oral health of children with cancer and congenital heart disease. The clinic staff includes a pediatric dentist, a dental hygienist and a dental assistant. Children needing general anesthesia will be sent to OHSU Doernbecher Children's Hospital for day surgery. A physician, nurse or parent may refer children to this clinic.

Faculty/Staff
Peter Lax, D.M.D.
Sherry Lemon, M.S., R.D.H.
The Dermatology clinic provides skin care and dermatologic evaluation for children and adolescents with skin disease and conditions such as atopic dermatitis (eczema), warts, molluscum, acne, tinea capitis (fungal infections), nevi (moles), blistering skin diseases, hemangioma and vascular birthmarks, port wine stains and any skin birth defects.

Specialty clinics in Pediatric Dermatology include:
- Hemangioma and vascular birthmarks clinic, held on the second Tuesday of each month
- Pulse dye laser treatment of port wine stains, available on the second and fourth Friday of each month
- Genetic skin diseases clinic, held Mondays at the Child Development and Rehabilitation Center

Faculty/Staff
Alfons L. Krol, M.D.
Dawn Siegel, M.D.

The Doernbecher Cardiac Echo lab is the only Pediatric ICAEL certified lab in Oregon. It is staffed with pediatric certified echo sonographers and pediatric cardiologists to provide the most accurate, state-of-the-art echo available.

All echo requests must be accompanied by a faxed order that includes the following patient information:
- Name
- Birth date
- Phone number
- Reason for request
- ICD-9 code

We will contact the family to register them and schedule an appointment at a convenient time. Once we have echo results, we will fax them to the office of the requesting physician. If there is a significant finding, a pediatric cardiologist will contact the requesting physician by phone. (For your convenience, a fax order sheet is available at www.doernbecher.com/referral)
Pediatric Emergency Services

Pediatric Emergency Services has a fully equipped, dedicated pediatric area and is a Level 1 Pediatric Trauma Center. The Emergency Department (ED) uses an electronic patient tracking system to manage patient referral information and communication with referral providers. Charts are 100 percent dictated and can be faxed to providers as soon as the patient’s visit is completed.

The staff includes physicians board-certified in pediatric emergency medicine and emergency medicine. The nursing staff is certified in Pediatric Advanced Life Support and the Emergency Nursing Pediatric Course. Ask for the emergency physician covering pediatric patients when you call the DCH 1-Call number.

In the fall of 2008, OHSU will open a new Pediatric Emergency Department offering 24-hour urgent, emergent and observation care.

Faculty/Staff

Endocrinology and Diabetes
Harold Schnitzer Diabetes Health Center

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Harold Schnitzer Diabetes Health Center at Oregon Health & Science University serves adults and children who are living with diabetes. Our integrated, patient-centered and family-oriented approach helps reduce the burden of diabetes so our patients can live healthy, productive lives. Our multidisciplinary team includes many diabetes specialists, board-certified pediatric endocrinologists, specially trained nurses, a dietician, a psychologist, diabetes educators, and an exercise physiologist. Each patient’s team is customized to his or her developmental level and particular needs.

The Pediatric Endocrinology Clinic evaluates and treats children with a wide range of endocrine problems, including diabetes; growth problems; pituitary hormone deficiencies; thyroid, adrenal, and gonadal disorders and precocious or delayed puberty. Our multidisciplinary team includes pediatric endocrinologists, a pediatric endocrine nurse, certified diabetes educators, pediatric dietitians skilled in nutritional management and a social worker specially trained in family counseling. The medical staff helps children and their families understand and manage their particular health situation.

Outreach clinics are held at three-to four-month intervals in Bend, Coos Bay, Eugene, Grants Pass, Klamath Falls, Medford, Ontario, Roseburg and Salem. Primary care physicians refer children to this program.

The Pediatric Gastroenterology Clinic offers consultation, diagnostic evaluation and treatment for infants and children with gastrointestinal problems — such as chronic diarrhea, chronic abdominal pain, vomiting, encopresis, inflammatory bowel disease, gastroesophageal reflux, celiac disease and pediatric liver disease (including pre- and post-transplant evaluation).

The Pediatric Gastroenterology Division includes board-certified pediatric gastroenterologists, a pediatric nurse practitioner with special expertise in treating children with constipation or encopresis, two pediatric gastroenterology nurses and a dedicated support team. Specialty lab services include gastrointestinal endoscopy, pH probe monitoring, liver biopsy and motility testing.

The division also offers a Liver clinic, a Feeding and Swallowing Disorders clinic and a clinic specializing in gastrointestinal disorders in autism patients.

The Genetics and Birth Defects Clinic helps primary care providers diagnose and care for children with common and uncommon genetic disorders. The clinic’s extensive staff includes medical geneticists and genetic counselors. Each clinician is experienced in general clinical genetics and trained in subspecialty areas such as dysmorphology, cytogenetics, biochemical disorders or molecular genetics.

The staff clinician with the most appropriate expertise handles a patient’s evaluation. In addition, all cases are presented at a post-clinic conference. When appropriate, patients may consult with specialists in genetic ophthalmology, pediatric cardiology, endocrinology or neurology. If developmental or behavioral questions exist, developmental assessment of a child can also be performed in the clinic. Specialized laboratory services are available through the DNA diagnostic, cytogenetic and biochemical genetics laboratories. Children are referred to this clinic by their primary care provider.

---

The Kenneth W. Ford Northwest Children’s Cancer Center is a comprehensive children’s cancer center. It is also the pediatric program of the OHSU Cancer Institute. This center is staffed by full-time board-certified pediatric hematology/oncology specialists, nurses specially trained in pediatric hematology/oncology and a support team that includes the entire range of pediatric and surgical subspecialties. Social workers, child life specialists, pediatric nutritionists and pediatric pharmacists also staff the center.

Each year, our team treats more than 150 children and adolescents with newly diagnosed cancer. The team also cares for children and adolescents with other potentially life-threatening blood disorders, such as aplastic anemia, hemophilia and sickle cell disease. In addition, Doernbecher houses the Comprehensive Pediatric Brain Tumor Program and the Hemophilia Center. It also is the only hospital in Oregon that performs pediatric stem cell and bone marrow transplants and has a pediatric survivor program for long-term follow-up and support.

Hospitalists

OHSU Doernbecher Children’s Hospital
9th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Doernbecher Pediatric Hospitalist team cares for children admitted to the Pediatric Acute Care Center with general pediatric conditions.

Services
- General inpatient pediatric medicine
- Coordination of care for children with complex medical conditions
- Collaboration with consulting services and referring physicians to streamline inpatient care and transitions home.

Immunology/Rheumatology

OHSU Doernbecher Children's Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Pediatric Immunology provides consultation, clinical and laboratory diagnosis and management services to infants and children with pediatric immunodeficiency diseases or those who have increased susceptibility to infections.

The Immunology faculty has expertise in the use of intravenous immunoglobulin (IVIG) and bone marrow transplantation. It is the only service in Oregon with the medical staff trained in pediatric immunodeficiency diseases and board-certified in allergy and immunology. The Pediatric Rheumatology Service includes a board-certified pediatric rheumatologist.

Pediatric Rheumatology provides consultation, diagnosis, management and rehabilitative care to children and adolescents with rheumatic diseases, such as juvenile rheumatoid arthritis, juvenile dermatomyositis and juvenile spondyloarthopathies.

Faculty/Staff
Michael Borzy, M.D., F.A.A.P.

Infectious Diseases

OHSU Doernbecher Children's Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The OHSU Doernbecher Children's Hospital Pediatric Infectious Disease Service provides expert consultation for children with infectious diseases. The service also provides telephone consultation for physicians in Oregon. The staff includes three full-time and two part-time board-certified pediatric infectious disease physicians and a registered nurse clinical research coordinator. Patients must be referred for consultation by a health care professional.

Doernbecher's division of Infectious Diseases is active in clinical research protocols for treating pediatric HIV and its complications. Host defense and tuberculosis immunopathogenesis are under laboratory-based study at the Child Development and Rehabilitation Center.

Lactation Service

OHSU Doernbecher Children’s Hospital
Mother-Baby Unit, 13th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Doernbecher’s Lactation consultants help mothers and babies who are having problems with breastfeeding. Patients may be scheduled for inpatient or outpatient visits and are seen by a team of nurses who are Board Certified Lactation Consultants.

Services

- **Prenatal Consultation**: Appointments created to help women understand how breastfeeding works and discuss questions or potential issues that may interfere with a successful lactation.
- **Consultation**: Private prenatal or postnatal appointments designed to support mothers in creation of breastfeeding plans or address postnatal breastfeeding concerns such as sore nipples and repeated mastitis.
- **Urgent consultations**: The lactations specialists are available to address urgent problems that are interfering with breastfeeding or babies who are not feeding well or failing to gain weight.
- **Retail services**: We offer a variety of products for purchase, including Medela breastpumps and bras.
- **Industry consultation**: Consultation to companies wishing to provide breastfeeding support in the workplace.

Faculty/Staff

Lipid Clinic

Doernbecher - Westside at Bethany Village
15220 NW Laidlaw Rd., Suite 100
Portland, OR 97229

The Pediatric Lipid Clinic offers consultation, diagnostic evaluation and treatment for infants, children and adolescents with lipid disorders, such as hypercholesterolemia, hypertriglyceridemia, combined dyslipidemias and hypo-HDL cholesterolemia. The physician consultation also includes an evaluation by a certified specialist in pediatric nutrition, who will spend extensive time counseling a child’s family.

The Pediatric Lipid Clinic staff includes a board-certified general pediatrician, a pediatric cardiologist and a pediatric dietician, along with a dedicated support team. The clinical staff works in consultation with other specialists from pediatric endocrinology, pediatric metabolism and adult lipid clinic, as warranted. Primary care physicians refer children to this clinic for treatment.

Metabolism

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Metabolic Clinic is the only one of its kind in Oregon. It provides diagnostic and management services to children and adults with confirmed or suspected inborn metabolism errors. Special areas of expertise include disorders of amino acid and sugar metabolism, storage disorders and related degenerative neurological conditions and defects of mitochondrial function.

Team members include a pediatrician, registered dieticians, nurses, a social worker, an occupational therapist, a physical therapist, a speech and language pathologist, genetics counselor and a psychologist. Other specialists such as orthopedists and neurologists are available for consultation as needed. When appropriate, a nutritionist provides individualized consultation and special diet management.

The team conducts a metabolic clinic twice weekly at Doernbecher and holds outreach clinics in Bend, Eugene and Medford. Children are referred to this clinic by their primary care provider.

Neonatal Care Center

OHSU Doernbecher Children’s Hospital
12th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Doernbecher Neonatal Care Center (DNCC) is a 46-bed neonatal facility, designed to accommodate the needs of Level II and/or Level III newborn infants and their families. This includes infants who are not more than 48 weeks post-conception and who need Level II/III care. Infants may be readmitted within one to two weeks after discharge from DNCC or another hospital. We accept other readmissions as needed to support the Department of Pediatrics at Doernbecher.

Faculty members share responsibilities for patient care, continuing education, research and clinical leadership and community service. Physicians also consult with health care professionals about referral to the DNCC and best care practices for their tiny patients.

Nephrology

OHSU Doernbecher Children’s Hospital
7th Floor (outpatient); 9th Floor (inpatient)
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The faculty and staff of our Nephrology Division provide comprehensive evaluation, treatment and consultation services for pediatricians and family practitioners who care for children with a wide range of conditions — including hematuria, proteinuria, hypertension, recurrent urinary tract infections, nephrocalcinosis and chronic kidney disease. The interdisciplinary team is comprised of three Board-certified pediatric nephrologists, a pediatric renal nutritionist, a pediatric nephrology nurse, a pediatric dialysis nurse, a transplant nurse and a social worker.

This team approach allows us to work closely with families and the primary care provider to coordinate all aspects of these complex patients’ care. This includes advice on diets for children with kidney diseases, balancing growth issues, monitoring labs and medication changes and the psychosocial issues that can accompany chronic kidney disease and transplantation. Primary care providers generally refer children to this service.

Services
- Comprehensive evaluation, treatment and consultation for children with kidney disease or hypertension
- Complete hemodialysis and peritoneal dialysis services for children with acute and chronic renal failure
- Care for patients before and after a kidney transplant

Neuro-developmental Clinic – CDRC

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Eugene CDRC
Clinical Services Building
University of Oregon
901 E. 18th Ave.
Eugene, OR 97403

The Neurodevelopmental Clinic is a tertiary care referral resource for children with established or suspected problems with development. The program focus is on children whose development is affected by sensorimotor deficits stemming from nervous system damage or dysfunction. This clinic also provides developmental monitoring and assessment of NICU graduates who are at high risk for motor difficulties, developmental delays, learning disabilities or sensory impairments.

The interdisciplinary staff includes developmental pediatricians, occupational therapists, physical therapists, speech-language pathologists, nurses, social workers and audiologists. Often other services are helpful and the team makes recommendations for referral to these as needed. Examples include psychology, special education, nutrition, assistive technology, dentistry, genetics, metabolics, neurology, neonatology, ophthalmology and orthopedics. Referrals are welcome from parents, educators, physicians and other health care providers. Case management and follow-up evaluations are coordinated with local providers and families.

Neurological Surgery

Center for Health & Healing, 16th floor
South Waterfront
3303 SW Bond Ave.
Portland, OR 97239
503 494-4314

The Division of Pediatric Neurosurgery, within the OHSU Department of Neurological Surgery, provides comprehensive neurosurgical evaluation and care at OHSU Doernbecher Children's Hospital and Clinics. Children are referred for care by their primary care physician or other specialists.

General pediatric neurosurgical care is available for children from infancy up to age 18. Prenatal counseling is also available for parents expecting a child with spina bifida, hydrocephalus or other problems. Special interdisciplinary programs are offered in the following areas: Craniofacial disorders and Cranial Synostosis (with Pediatric Plastic Surgery), Brain and Spinal Cord Tumors (with Pediatric Oncology and Radiation Oncology), Epilepsy Monitoring and Surgery (with Pediatric Neurology), Spina Bifida and Tethered Spinal Cord (with the CDRC), Spasticity and Movement Disorders (with Pediatric Neurology and Shriners Hospital for Children) and Pediatric Neurovascular Disorders (with Interventional Neuroradiology). The division also specializes in Chiari malformation, minimally invasive surgery using computer navigation, neuroendoscopy, intra-operative monitoring and intra-operative MRI.

Neurology

OHSU Doernbecher Children's Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Doernbecher Pediatrics - Westside at Bethany Village
15220 NW Laidlaw Rd., Suite 1000
Portland, OR 97229

Pediatric neurology provides comprehensive care for all children with neurologic problems and disabilities. Clinical activities focus on epilepsy, cerebral palsy, genetic/metabolic disorders, neuromuscular disorders and other developmental disabilities. Clinical care is closely coordinated with the referring physician. We also offer access to state-of-the-art technology for video-EEG telemetry and functional neuroimaging including MR spectroscopy. The division has close relationships with behavioral pediatrics, child psychiatry, neurological surgery and neuroradiology. Children are referred to this service by their primary care provider.

Faculty/Staff

Neuropsychology

OHSU Doernbecher Children’s Hospital
10th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Pediatric Neuropsychology Clinic provides diagnostic and limited treatment services for infants, children, adolescents and young adults who suffer from neurocognitive deficits. Individuals who have been treated for malignancies, received a traumatic brain injury, been diagnosed with epilepsy or have experienced other central nervous system insults are seen in this clinic. The clinic conducts comprehensive evaluations of cognitive, behavior and personality functions and is directed by a board-certified clinical neuropsychologist. Psychology interns, postdoctoral fellows and clinical assistants also participate in providing services. Individuals are referred by primary care physicians or through specialty clinics such as Pediatric Neurology and the Metabolic Clinic.

Services

- Screening evaluations and comprehensive assessments of cognitive functions such as memory, attention, language, intelligence and problem solving
- Treatment plans and some limited intervention services

Faculty/Staff

Robert Butler, Ph.D.

Northwest Clinic for Voice and Swallowing

Doernbecher Pediatrics - Westside at Bethany Village
15220 NW Laidlaw Rd., Suite 1000
Portland, OR 97229

The Northwest Clinic for Voice and Swallowing is a comprehensive clinic that provides evaluation and treatment for children presenting with voice or swallowing disorders, related airway issues, or voice rehabilitation following surgery. Clinic evaluations include visits with both a pediatric speech-language pathologist and otolaryngologist who work as a team to develop a treatment plan to address the child’s voice or swallowing needs. Comprehensive testing and imaging can be conducted through this clinic.

Faculty/Staff

Henry Milczuk, M.D.
Lisa Melady, M.S., C.C.C.-S.L.P.
Nutrition

Doernbecher’s pediatric dietitians offer consultation, evaluation and medical nutrition therapy for children with normal and specialized nutritional needs. Pediatric dietitians work as key members of specialized health care teams in both inpatient and outpatient clinics — including diabetes, cystic fibrosis, feeding clinic/failure to thrive, hematology/oncology, neonatology, obesity, renal and eating disorders. Children are referred for outpatient treatment by their primary care physicians.

Services

- Comprehensive nutrition assessment, including diet analysis, anthropometric measurements, monitoring growth parameters and evaluation of laboratory data
- Individualized nutrition care plans that include oral, gastrostomy and total parenteral nutrition feedings, depending on a child’s needs

Faculty/Staff

Alisa DeWeese, R.D., C.S.P., L.D.

Ophthalmology/Strabismus

Elks Children’s Eye Clinic

Casey Eye Institute
5th Floor
3375 SW Terwilliger Blvd.
Portland, OR 97239

The Elks Children’s Eye Clinic offers full optical, medical and surgical care of all pediatric eye problems. The clinic is one of only a few pediatric ophthalmology centers in the west dedicated to pediatric eye care, research and education, and has become one of the most respected university pediatric ophthalmology and strabismus groups in the country.

Staff physicians are internationally recognized for their work in birth defects of the eye, including cataracts, glaucoma, eye tumors, eye injuries and complications related to premature birth. They are actively involved in clinical and translational research, and are a statewide resource for vision screening in schools, preschools, the community and medical offices.

Services

- Diagnosis and management of strabismus (eye misalignment), amblyopia (lazy eye), pediatric ocular tumors, cataracts, glaucoma, blocked tear ducts, injuries, hereditary eye diseases and retinopathy of prematurity
- Infant vision assessment
- Routine eye care and other ophthalmological subspecialty consultation
- Contact lens fittings
- An optical shop, with an extensive selection of pediatric frames

Orthopaedics, Scoliosis and Bone Tumors

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Physicians Pavilion, 4th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Pediatric Orthopaedics and Rehabilitation Practice provides a full spectrum of treatment for children with musculoskeletal problems. The practice serves children with trauma-related injuries and congenital or developmental musculoskeletal disorders, including children with cerebral palsy and other sensorimotor impairments. Common problems seen in this practice are hip dysplasia, clubfoot and benign musculoskeletal lesions. A certified orthotist (a maker and fitter of orthopedic appliances) works with our orthopaedists to provide braces. Primary care physicians and orthopaedic surgeons refer children to the practice for evaluation and treatment.

Services
Diagnosis and treatment of the following conditions:
• Musculoskeletal conditions, including hip, knee, and foot deformities
• Bone dysplasia
• Cerebral palsy
• Upper extremity deformities
• Bone infections
• Malignant and nonmalignant tumors
• Fractures
• Trauma
• Sports-related injuries
• Scoliosis and spine disorders

Otolaryngology

Physician’s Pavillion, Suite 250
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Doernbecher - Westside at Bethany Village
15220 NW Laidlaw Rd., Suite 1000
Portland, OR 97229

Pediatric otolaryngology covers problems that affect the head and neck region of children. Patients are referred to the service by their primary care physicians.

Services
State-of-the art care for:
• Otitis media, hearing loss, tonsillitis and sinusitis
• Obstructive sleep apnea
• Cleft lip and palate, and associated speech problems
• Airway obstruction: stridor and voice disorders
• Head and neck masses including vascular birthmarks and cystic hygroma

Faculty/Staff
Cindy Farnstrom, C.P.N.P.

Palliative Care

OHSU Doernbecher Children’s Hospital
Kenneth Ford Cancer Center, 10th floor
3181 SW Sam Jackson Park Road
Portland, OR 97239

The Pediatric Palliative and Comfort Care program at OHSU Doernbecher Children's Hospital, is designed to benefit a wide range of children, including those with:

- Diseases for which a cure is possible but not certain, such as cancer
- Diseases for which no cure is known, but where treatment may increase quantity and quality of life, such as cystic fibrosis, muscular dystrophy or HIV
- Diseases for which treatment is palliative from the beginning, such as genetic or neurodegenerative disorders
- Conditions that are not progressive, but can cause life-limiting complications, such as severe cerebral palsy or brain trauma from birth or later injury.

Our palliative care team includes physicians, nurses, social workers, child life specialists and other professional care providers and counselors.

Services

- Pain and symptom management
- Psychological, social and spiritual support that honors different personal, cultural and religious values, beliefs and practices
- Access to community resources for families
- Education in palliative care for care providers and health plan case managers

Faculty/Staff

Gregory Thomas, M.D.
Windy Stevenson, M.D.

PANDA Transport

The Pediatric and Neonatal Doernbecher Transport (PANDA) Team provides immediate ground or air transport to OHSU Doernbecher Children’s Hospital. PANDA serves Oregon, Washington, Idaho, Alaska, Montana, northern California and Utah and is the largest and busiest pediatric and neonatal transport program in Oregon. Most transports are for critically ill neonates and children from referring hospitals in Oregon and Southwest Washington to our Pediatric Intensive Care Unit (PICU) or Doernbecher Neonatal Care Center (DNCC).

Referring providers who call for a transport will speak with the attending physician. A DNCC or PICU attending physician is available 24 hours day by telephone to initiate, triage and provide medical direction for each transport.

Our goal is to mobilize the PANDA Transport Team and leave Doernbecher within 15 minutes of initiating the transport. The PANDA Team uses ground (ambulance), rotor wing (helicopter) and fixed-wing (airplane) modes of transport. Decisions about the mode of transport are based on safety, medical and cost-effectiveness factors.

PANDA TRANSPORT:
1-888-667-2632

DOERNBECHER PHYSICIAN CONSULT:
503 346-0644
or 1-888-667-2632

Pediatric Intensive Care (PICU)

OHSU Doernbecher Children’s Hospital
8th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The OHSU Doernbecher Children’s Hospital Pediatric Intensive Care Unit (PICU) provides state-of-the-art critical care to any infant, child or adolescent who arrives with a serious illness or injury, or requires intensive care after a surgical procedure. As a part of OHSU, the Doernbecher PICU has a key role in developing and implementing educational and research activities in pediatric critical care medicine and nursing on a national level.

We are a tertiary referral center, serving children in Oregon, Washington, Idaho, Montana and northern California. The Doernbecher PICU is a 20-bed unit equipped with the latest technology to care for critically ill and injured children. Care is provided by eight board-certified Pediatric Intensive Care physicians who are on the unit 24/7.

The Pediatric Plastic Surgery Clinic provides evaluation and ongoing care coordination for children with congenital and reconstructive plastic surgical problems from birth through adulthood. Children are referred to the clinic by their primary care physicians.

Services
- Plastic surgery for cleft lip and palate, craniofacial problems, pediatric trauma, facial neoplasms and facial vascular lesions
- Reconstructive plastic surgery
- Oral/maxillofacial surgery

Faculty/Staff
Anna Kuang, M.D.

---

The Oregon Poison Center (OPC) is a 24-hour health care information and treatment resource serving the state of Oregon. The Poison Center staff includes doctors and nurses trained in toxicology. They utilize their professional expertise as well as an extensive variety of computer databases, textbooks and journal articles to determine the appropriate treatment guidelines for patients. A careful assessment of a patient’s condition as well as the substance of exposure is necessary before determining treatment recommendations. The poison center staff also utilizes continuous follow up and evaluation to determine if treatment recommendations are effective in producing a positive patient outcome.

INFORMATION AND TREATMENTS:
1-800-222-1222
Psychiatry

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Child and Adolescent Psychiatry Outpatient Clinic offers primary and tertiary psychiatric services for youths with mental health needs. Board-certified child and adolescent psychiatrists provide direct patient care and supervision in the outpatient clinic and on the consultation-liaison service. Resident physicians in advanced training for child and adolescent psychiatry also provide services in the clinic and on the consultation-liaison service. Children are referred to the service by their primary care providers.

Services
- Psychiatric inpatient and outpatient consultation
- Urgent mental health consultation and stabilization
- Comprehensive psychiatric evaluation and treatment
- Individual psychotherapy for teens and children
- Medication evaluation and treatment
- Parent training
- Family therapy
- Coordination with primary care providers, non-psychiatric mental health providers and community agencies

Faculty/Staff
Ajit Jetmalani, M.D.
Kyle Johnson, M.D.
Robert McKelvey, M.D., Director

Psychological Services – CDRC

Psychological Services provides psychological evaluation, consultation and treatment to children, adolescents and their families. Inpatient and outpatient consultation focuses on a wide range of psychological issues, including assessment of behavioral or emotional problems related to a medical condition, development of coping strategies for invasive procedures, support for family members and friends and brief testing of developmental status. Children are referred to this service by their primary care physicians.

Services
- Interdisciplinary evaluations
- Inpatient and outpatient consultation
- Treatment/psychotherapy
- Comprehensive neuropsychological testing

Pulmonary Medicine and Cystic Fibrosis

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Pediatric pulmonary medicine specializes in the diagnosis and management of children with a variety of congenital and acquired lung disorders. Common pulmonary disorders seen in the clinic include cystic fibrosis, asthma, pneumonia, congenital lung malformations, recurrent aspiration, neuromuscular disease and sleep apnea. The division holds two cystic fibrosis clinics and a pulmonary clinic each week and manages an active inpatient attending and consultation service. Periodic cystic fibrosis outreach clinics are also held in Eugene and Medford. Children are seen by a pediatric pulmonologist, either by referral from their primary care provider or by calling us directly.

The Pediatric Pulmonary Function Laboratory is the only facility in Oregon dedicated to children’s lung function testing. Doernbecher and OHSU also have Oregon’s only care center approved by the Cystic Fibrosis Foundation. In addition, we are the only facility in Oregon with a comprehensive children’s sleep disorders program.

Radiology

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Division of Pediatric Radiology in the Department of Radiology at OHSU is known for its dedication and excellence in pediatric imaging and diagnosis. The digital technology is state-of-the-art and the most sophisticated in the Pacific Northwest. Radiology uses low-dose grid pulsed fluoroscopy, significantly reducing the radiation dose to patients.

This department also has a unique cooperative effort with the Department of Anesthesiology, whose members perform and monitor sedation safely and efficiently. Imaging includes conventional X-rays, ultrasonography, fluoroscopy, magnetic resonance imaging (MRI), computed tomography (CT), nuclear medicine and positron emission tomography/computerized tomography (PET/CT).

Doernbecher radiology accepts outside referrals for all radiologic services. See referral form at www.doernbecher.com/referral

Rehabilitation Services – CDRC

OHSU Doernbecher Children’s Hospital
Specialty Clinics, 7th Floor
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

Doernbecher Pediatrics - Sellwood
6327 SE Milwaukie Ave.
Portland, OR 97202

The CDRC provides comprehensive pediatric rehabilitation services, on an inpatient and outpatient basis, for children with a wide variety of conditions.

Our occupational therapy program focuses on helping children and youth participate in daily life activities, such as self-care, play and school-related activities. Interventions are designed to promote development, establish foundational skills and address sensorimotor processing. We provide individual, multi-disciplinary and interdisciplinary evaluations at OHSU Doernbecher Children's Hospital and our Sellwood-Moreland Clinic.

Our physical therapy program addresses the development and functional motor needs of children of all abilities who have difficulty moving because of injury, disease or other health conditions. We also provide services for adults who have developmental motor disorders. This program also provides inpatient and outpatient services at OHSU Doernbecher Children’s Hospital and our Sellwood-Moreland Clinic.

Sedation Service

The Pediatric Sedation Service provides safe, efficient sedation services in non-operating room locations as needed to facilitate diagnostic and therapeutic procedures. Pediatric anesthesiologists work with sedation nurses to provide medical supervision and determine the level of care needed for the procedure or examination. Some procedures require very light sedation; others require deep sedation or general anesthesia. Sedation nurses provide the pre-procedure screening and education to help families and their children prepare for the sedation experience. The nurses also provide monitoring and recovery services.

Sleep Disorder Program

**Hatfield Research Center, Suite 13D87**
3181 SW Sam Jackson Park Rd.
Portland, OR 97239

The Pediatric Sleep Disorder Program is a multidisciplinary program involving physicians from child psychiatry, pediatric pulmonary medicine and pediatric otolaryngology. The disorders treated include obstructive sleep apnea, restless leg syndrome, narcolepsy, insomnia, behavioral sleep disorders, parasomnias (sleep terrors and sleep walking) and delayed sleep phase syndrome. Sleep studies, such as polysomnograms and multiple sleep latency tests, are performed at the OHSU Sleep Lab. The lab is located at the Marriott Residence Inn at Riverplace, where we are able to simulate an at-home sleep environment. Treatments include education, behavioral interventions, pharmacotherapy and potentially surgery or continuous positive airway pressure (CPAP) for sleep-disordered breathing.

The CDRC Speech and Language Program provides comprehensive services for children and young adults. Speech-language pathologists (SLPs) evaluate and treat patients with typical and atypical function in the areas of language comprehension and expression, speech sound production, voice and resonance, fluency, cognition and feeding and swallowing. In addition to direct clinical service, our faculty and staff is involved in prevention and advocacy, research, education and administration. The program places a major focus on difficult-to-manage speech and language conditions that require coordination of services between a child’s primary care provider, school and family. Children are referred to the clinic by their primary care provider.
The Portland Spina Bifida Clinic and the Eugene Spina Bifida Clinic staff care for patients of all ages with neural tube defects. Clinic activities include prevention through case finding, diagnosis and evaluation. The team makes recommendations to primary care physicians regarding intervention, long term management and coordination of care.

The program primarily serves children and young adults from birth through age 21. However, people with neural tube defects may be referred to the program at any age. The program counsels families who have had a prenatal diagnosis of neural tube defect to help prepare the family for delivery, infant care, and ongoing management. Children are referred to the clinic by their primary care physicians.

Consultations and referrals:
503 494-4808

Pediatric urology provides comprehensive medical and surgical care for the infant and child with structural and functional abnormalities of the urinary tract. Our urologists regularly provide surgical reconstruction of the penis, bladder, ureters and kidneys. We also provide care for children with extrophy, hypospadias, epispadias, hydronephrosis, vesicoureteral reflux and many other abnormalities of the genitourinary tract.

In addition, our pediatric urology program is the only program in Oregon that provides a voiding and incontinence multi-specialty clinic for children. This is especially important for those children with day and nighttime wetting and associated urinary tract infections. Conscious sedation is available for children who are anxious or who have had a bad experience with urological testing. Children are referred to this program by their primary care provider.

Faculty/Staff
Erin Jessica Anderson, P.N.P.
Steven Skoog, M.D., F.A.A.P.
Cynthia Ross, R.N.
The Vascular Anomalies Clinic is a multispecialty clinic that specializes in treating infants, children and adults with complex vascular lesions. These lesions include large or complex hemangiomas, lymphatic malformations, venous malformations, AVM’s, port wine stains and others.

Services

- Laser ablation
- Steroid injections
- Injection of sclerosing agents
- Surgical excision and reconstructive surgery
- Angiography and angiographic embolization
- MRI, CT, MRA and CTA imaging
- Percutaneous embolization
- Alpha interferon therapy
- Surface and intralesional laser therapy
- Multidisciplinary surgical resection

At OHSU Doernbecher Children’s Hospital our 1,300 physicians and staff members are specially trained and dedicated to the care and well-being of children.

- Pediatric hospitalists are available for consultations, to discuss admissions or to address service concerns.
- Pediatric intensivists are available in-house 24/7.
- Easy admissions or transfers.
- Pediatric emergency physicians are always available for urgent or emergent consultation.
- Pediatric and Neonatal Doernbecher Transport Team (PANDA)  1-888-667-2632

A new pediatric emergency department opens Fall 2008.

For admissions, transfers, consultations or to refer a patient, call 1-888-346-0644 or 503 346-0644.
