

Recognizing Outstanding Service Excellence

**Carrie Borchers, R.N., O.C.N.
13K Medical and Surgical Oncology**

Jodie Hall, R.N., from 13K Medical and Surgical Oncology submitted the following nomination...

Carrie is a night shift registered nurse (RN) on 13K adult oncology. She is a phenomenal RN who goes above and beyond to help patients and their families. She always takes a proactive approach to helping her patients in any way possible. Recently, Carrie has been assisting the sister of a deceased patient to get her brother's story out. He had a dream to be on the Ellen show to share his fight against cancer and provide hope for others through his dancing. Carrie contacted OHSU media personnel who have Ellen contacts. She has coordinated with the sister outside of work to facilitate in making her brother's dream a reality. I am always in awe of her caring, compassionate ways with her patients and their families as they muddle through their cancer experience. If I were a patient on 13K I would definitely want Carrie!

Award Recipient - March 2010
