What you need to know

MARIJUANA EDIBLES

Marijuana infused edibles come in different food items including drinks. The amount of THC, the main psychoactive ingredient in Marijuana, can vary from edible to edible. Let’s take a look at a few things:

1. TAKES LONGER FOR EFFECTS TO SHOW UP
   It may take 1-3 or more hours to take full effect. The effects from smoking marijuana appear in minutes.

2. LASTS LONGER THAN EXPECTED
   Effects can last for hours depending on things like dose, medications & more.

3. THE AMOUNT OF THC CAN BE HARD TO MEASURE
   Adult users should read labels and dosage information very carefully.

4. THC CAN AND DOES INTERFERE WITH SOME MEDICATIONS
   THC can be absorbed differently if user is on other medications. This can cause THC levels to be dangerously high.

IF YOU EXPERIENCE ADVERSE EFFECTS OR A CHILD EATS OR INHALES MARIJUANA, CALL THE POISON CENTER IMMEDIATELY!
