STAND DOWN FOR WHAT?
Falls are the leading cause of fatalities in the construction industry. Fall fatalities are preventable, but fall prevention standards are among the top ten most frequently cited OSHA standards. This complimentary event will feature the short course, OSHA 7405: Fall Hazard Awareness for the Construction Industry, and an industry expert panel discussion.

OSHA 7405: FALL HAZARD AWARENESS FOR THE CONSTRUCTION INDUSTRY
OSHA 7405 covers the identification, evaluation, prevention and control of fall hazards in the construction industry. This course focuses on falls to a lower level resulting from slips and trips. Course topics include identifying, analyzing, and preventing fall hazards utilizing OSHA Fall Protection Standards.

EVENT TOPIC HIGHLIGHTS INCLUDE:
- Competent Person: Duties and Responsibilities
- Industry Leaders Panel Discussion
- Safety and Health Empowerment for Women in Trades
- Fall Prevention Hierarchy, Systems, and Training
- Fall Hazard Awareness in Construction
- And More!
