

Report: Student Learning Outcomes by Program

SoN

Adult Gerontology Acute CareNP (DNP-AGAC)

Academic Year: 2022-2023

Competency

Communication

Student Learning Outcome

Use effective communications skills and technologies to provide collaborative care.

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Provide individualized, culturally sensitive management using quality improvement strategies where applicable.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions

Competency

Information Literacy

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence-based research finding into practice.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Competency

Patient Centered Care

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice. Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Competency

Teamwork

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Competency

Communication

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Competency

Information Literacy

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Competency

Patient Centered Care

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Competency

Teamwork

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Competency

Communication

Student Learning Outcome

Integrate nursing and health systems knowledge in leading and advocating for the design, implementation, and improvement of sustainable person-center practice models.

Student Learning Outcome

Integrate nursing and health systems knowledge in leading and advocating for the design, implementation, and improvement of sustainable person-center practice models.

Competency

Information Literacy

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Use information, quality science, and knowledge management tools to make sound and ethical decisions that advance interprofessional and collaborative health services practice.

Student Learning Outcome

Use information, quality science, and knowledge management tools to make sound and ethical decisions that advance interprofessional and collaborative health services practice.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Maximize the use of human capital to impact clinical care, quality outcomes, and evidence-based policies within complex adaptive health systems.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Maximize the use of human capital to impact clinical care, quality outcomes, and evidence-based policies within complex adaptive health systems.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge of nursing and health systems theories to positively impact organizational, care delivery and policy outcomes at a population level.

Competency

Teamwork

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Competency

Communication

Student Learning Outcome

Facilitate collaborative relationships with patients, families, healthcare partners, and the community to promote effective communication of information and enhance patient safety.

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Provide patient-centered, culturally sensitive perianesthetic care based upon performance of a systematic assessment of the patient's condition, and formulation of a comprehensive anesthesia plan.

Competency

Information Literacy

Student Learning Outcome

Conduct a systematic evaluation of evidence from current scientific literature as a basis for informed nurse anesthesia practice.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Competency

Patient Centered Care

Student Learning Outcome

Exhibit and appraise safe, vigilant care to patients across the lifespan, with an emphasis on continual quality improvement throughout the perianesthetic period.

Student Learning Outcome

Exhibit and appraise safe, vigilant care to patients across the lifespan, with an emphasis on continual quality improvement throughout the perianesthetic period.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate critical thinking throughout the perianesthetic period, with an emphasis on the anticipation of and response to varying clinical conditions.

Student Learning Outcome

Demonstrate critical thinking throughout the perianesthetic period, with an emphasis on the anticipation of and response to varying clinical conditions.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Competency

Teamwork

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Competency

Communication

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

Students demonstrate the ability to communicate with their clients in a culturally sensitive manner.

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

Apply interpersonal and communication skills to care for diverse populations of women and their families.

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Competency

Information Literacy

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate, utilize, interpret, and collaborate in research.

Competency

Patient Centered Care

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Demonstrate development of leadership skills directed toward representation of the midwifery model of care in clinical practice, health policy, education, and scholarship.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate critical thinking and clinical judgment in the practice of clinical midwifery.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate an understanding of the concepts of health care principles and a familiarity with the American College of Nurse-Midwives (ACNM) Standards for the Practice of Midwifery and the ACNM Code of Ethics.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Competency

Teamwork

Student Learning Outcome

Demonstrate professional accountability through collaborative communication in the provision of midwifery care to women and their families.

Competency

Communication

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse communicates effectively.

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Competency

Information Literacy

Student Learning Outcome

A competent nurse engages in intentional learning.

Student Learning Outcome

A competent nurse engages in intentional learning.

Student Learning Outcome

A competent nurse engages in intentional learning.

Student Learning Outcome

A competent nurse engages in intentional learning.

Student Learning Outcome

A competent nurse uses reflection, self-analysis, and self-care to develop insight.

Student Learning Outcome

A competent nurse uses reflection, self-analysis, and self-care to develop insight.

Student Learning Outcome

A competent nurse uses reflection, self-analysis, and self-care to develop insight.

Student Learning Outcome

A competent nurse uses reflection, self-analysis, and self-care to develop insight.

Student Learning Outcome

A competent nurse uses reflection, self-analysis, and self-care to develop insight.

Student Learning Outcome

A competent nurse engages in intentional learning.

Student Learning Outcome

A competent nurse uses reflection, self-analysis, and self-care to develop insight.

Competency

Patient Centered Care

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Student Learning Outcome

A competent nurse practices relationship-centered care.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

A competent nurse bases personal and professional actions on a set of shared core nursing values.

Student Learning Outcome

A competent nurse bases personal and professional actions on a set of shared core nursing values.

Student Learning Outcome

A competent nurse bases personal and professional actions on a set of shared core nursing values.

Student Learning Outcome

A competent nurse bases personal and professional actions on a set of shared core nursing values.

Student Learning Outcome

A competent nurse bases personal and professional actions on a set of shared core nursing values.

Competency

Professional Knowledge and Skills

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Competency

Teamwork

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Competency

Information Literacy

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Competency

Patient Centered Care

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Identify and address gaps in professional knowledge through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge through ongoing reflection to support the principle of life-long learning.

Competency

Teamwork

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes.

Competency

Communication

Student Learning Outcome

Disseminate research findings to scientific, professional, and lay audiences to influence nursing practice, policy, and profession

Student Learning Outcome

Demonstrate skills to educate and mentor the next generation of nursing scholars

Student Learning Outcome

Demonstrate skills to educate and mentor the next generation of nursing scholars

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Demonstrate leadership skill to conduct culturally competent scholarship with interprofessional teams

Competency

Information Literacy

Student Learning Outcome

Design and conduct research to create new knowledge to advance the field of nursing and nursing science

Student Learning Outcome

Design and conduct research to create new knowledge to advance the field of nursing and nursing science

Student Learning Outcome

Design and conduct research to create new knowledge to advance the field of nursing and nursing science

Student Learning Outcome

Design and conduct research to create new knowledge to advance the field of nursing and nursing science

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Apply professional and research ethics in the conduct of research

Student Learning Outcome

Apply professional and research ethics in the conduct of research

Student Learning Outcome

Apply professional and research ethics in the conduct of research

Competency

Professional Knowledge and Skills

Student Learning Outcome

Appraise the philosophical underpinnings of science

Student Learning Outcome

Appraise the philosophical underpinnings of science

Student Learning Outcome

Examine and synthesize existing knowledge and different scientific perspectives to advance nursing science

Student Learning Outcome

Demonstrate skills to educate and mentor the next generation of nursing scholars

Student Learning Outcome

Interpret the components of scholarship to research, teaching, and services to advance nursing discipline

Student Learning Outcome

Appraise the philosophical underpinnings of science

Competency

Teamwork

Student Learning Outcome

Demonstrate leadership skill to conduct culturally competent scholarship with interprofessional teams

Student Learning Outcome

Demonstrate leadership skill to conduct culturally competent scholarship with interprofessional teams

Competency

Communication

Student Learning Outcome

Use written and observational methods to assess learning and provide feedback to assist learner attainment of competencies

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Facilitate learning related to central nursing competencies including: evidence-based practice, clinical judgment, cultural humility, ethical reasoning and quality improvement

Student Learning Outcome

Recognize individual variations in learning styles and cultural understandings and incorporate this assessment into instructional planning

Student Learning Outcome

Facilitate learning related to central nursing competencies including: evidence-based practice, clinical judgment, cultural humility, ethical reasoning and quality improvement

Student Learning Outcome

Determine competencies for selected learner groups, written at appropriate level of achievement and relevant for the specialty

Competency

Information Literacy

Student Learning Outcome

Incorporate emerging technologies into educational practice

Student Learning Outcome

Use emerging information technologies to access current research & health care data.

Student Learning Outcome

Use emerging information technologies to access current research & health care data.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Participate in curriculum development, program evaluation and quality improvement activities

Student Learning Outcome

Make sound and ethically grounded clinical judgments, drawing on best available evidence.

Student Learning Outcome

Make sound and ethically grounded clinical judgments, drawing on best available evidence.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

Student Learning Outcome

Design, implement and evaluate competency-based learning activities for classroom, lab and clinical settings using sound pedagogical and instructional design principles.

Student Learning Outcome

Demonstrate advanced knowledge in a specialty area of nursing practice.

Student Learning Outcome

Demonstrate advanced knowledge in a specialty area of nursing practice.

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

Competency

Teamwork

Student Learning Outcome

Demonstrate the leadership and communication skills which are essential for advancing scholarship and creating policy within organizations and for improving patient care outcomes.

Student Learning Outcome

Demonstrate the leadership and communication skills which are essential for advancing scholarship and creating policy within organizations and for improving patient care outcomes.

Competency

Communication

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Employ advocacy strategies to influence health care policy

Student Learning Outcome

Provide individualized, culturally sensitive management using quality improvement strategies where applicable.

Student Learning Outcome

Employ advocacy strategies to influence health care policy

Student Learning Outcome

Provide individualized, culturally sensitive management using quality improvement strategies where applicable.

Competency

Information Literacy

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Competency

Patient Centered Care

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Competency

Professional Identity and Ethical Behavior

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Competency

Professional Knowledge and Skills

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Competency

Teamwork

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Competency

Communication

Student Learning Outcome

Use effective communication skills technologies to provide collaborative care for diverse communities

Student Learning Outcome

Use effective communication skills technologies to provide collaborative care for diverse communities

Competency

Community Engagement, Social Justice and Equity

Student Learning Outcome

Advocate for quality outcomes in mental health systems through policy change and quality improvement

Student Learning Outcome

Advocate for quality outcomes in mental health systems through policy change and quality improvement

Competency

Information Literacy

Student Learning Outcome

Manage the treatment of psychiatric disorders and mental health problems for safe and effective care across the lifespan including evaluation for quality outcomes

Student Learning Outcome

Manage the treatment of psychiatric disorders and mental health problems for safe and effective care across the lifespan including evaluation for quality outcomes

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.
